SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the

information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Abstract: Support for the idea of developing stronger mathematics curricula comes from all stakeholders in education today. Despite the importance of mathematics education there have been a limited number of interventions that meet the need. Odyssey(r) Math may be an exception and is designed to

offer opportunities to engage in more challenging mathematics in (presumably) interesting contexts. Despite the promise the intervention holds, existing studies on Odyssey(r) Math have not adequately controlled for threats to the internal validity. The Regional Education Lab Mid-Atlantic plans to remedy that and has designed a multi-site CRT to evaluate the effectiveness of Odyssey(r) Math in improving math scores. This document presents the Supporting Statement for a multi-site cluster randomized control trial (or multi-site CRT) designed to test the impacts of Odyssey Math Software in 4th grade classrooms in the Mid-Atlantic region of the United States (PA, MD, NJ, DE, DC).
