

Following the discussion of applications, each member of the panel will independently rate each application on each criterion, using the seven-point scale. In addition, each reviewer will indicate for each application whether the reviewer highly recommends funding, recommends funding, or does not recommend funding of the application. Lead reviewers will be able to change their preliminary ratings and modify their documented technical review forms at this time.

Following the review panel meeting, the OERI program official and OERI staff will apply the published weights to the ratings provided by reviewers in order to calculate reviewer scores for each of the applications. Then the average score will be calculated for each application, and a rank order will be prepared of all applications that were scored by the full panel. The rank order will also indicate, for each application, the number of reviewers who highly recommended the application be funded, the number who recommended that it be funded, and the number who recommended that the application not be funded.

Waiver of Proposed Rulemaking

In accordance with the Administrative Procedure Act (5 U.S.C. 553), it is the practice of the Secretary to offer interested parties the opportunity to comment on proposed regulations. However, because this notice merely establishes procedural requirements for review of applications and does not create substantive policy, the Secretary has determined that proposed rulemaking is not required under 5 U.S.C. 553(b)(A).
