

A Series of Courses to Enhance Your Export Readiness to Maximize Sales

This exclusive training program has been carefully designed to give businesses the skills, strategies, insights, and network of contacts that are necessary to expand sales globally. Exporting is a form of entrepreneurship; selling American products and services overseas is both profitable and culturally rewarding for all companies that want to prosper in today's global marketplace. Whether you are just thinking about exporting or have just exported reactively, this course will give you the tools and confidence necessary to succeed.

Each of the six courses will be facilitated by Mr. Robert L. Elsas, Regional Manager, Export Solutions Group, U.S. Small Business Administration. Drawing upon his insights and the expertise of various international trade experts who will be invited to instruct, these classes have been designed for business leaders who want to take the initiative and enter the global market. Course activities and discussions will focus on developing a strong foundation for beginning to intermediate exporters. Course materials are included in the price. In addition, attendees completing all sessions will receive a "Certificate of Export".
