

Environmental Management's Project Definition Rating Index (EM•PDRI)

The Environmental Management (EM) PDRI Team concurs that Revision 1, January, 2001, reflects the requirements in DOE Order 413.3 and the Draft Manual for Program and Project Management, October, 2000. As such, the EM•PDRI provides a sound basis for evaluating the “readiness to proceed” at Critical Decisions for various project phases.

The team recognizes that changes may be needed as more experience is gained from the use of this project planning tool, and that EM is committed to reviewing and revising the EM•PDRI, as appropriate.

PARTICIPANT	ORGANIZATION	SIGNATURE	DATE
Dave Pepson EM•PDRI Team Leader	DOE-HQ, Office of Project Management (EM-6)		11/30/00
Mark Allen	Bechtel Jacobs Company, LLC, Oak Ridge		11/30/00
