**NTS Security Contract Awarded;  
*Wackenhut Services, Incorporated***

The U.S. Department of Energy's National Nuclear Security Administration has selected Wackenhut Services, Inc., for award of a contract for protective force security services at the Nevada Test Site and the NNSA Nevada Site Office. The contract has an estimated value of \$386 million, including an initial three-year period and two one-year option periods.

Wackenhut Services, Inc., will be responsible for providing all security related work at the Nevada Test Site and for Nevada Site Office operated facilities in North Las Vegas and Nellis Air Force Base. This includes facility protection, patrol services, and protection of nuclear materials associated with the national stockpile experiments conducted at the Nevada Test Site.

Anticipated award date of this contract will be June 1, 2006. Wackenhut Services, Inc., has teamed with Professional Project Services Inc., a small business. Under this arrangement, Professional Project Services Inc., will provide security engineering and electronic technology support.
