The following is a summary of statements made by Mr. Johnson:

He attended the Los Angeles ENG meeting, and was formerly a pilot for the Los Angeles Police Department. He has participated in the development of a safety management system. He noted that several law enforcement agencies meet with their local ENG pilots. A Los Angeles ENG pilot's group publishes a booklet describing safety guidelines for public service and ENG pilots. ALEA would participate on an industry work group to develop standardized procedures and guidelines for the ENG industry and public safety operations.
