Subject: RE: representative

Dear Howard,

Thanks for keeping me in the loop. RTNDA would be pleased to participate in an ENG working group to develop best practices guidelines for news helicopters. I have also been in touch with Dave York at HAI, so he is aware of our interest. Bob Long has agreed to be our representative for this effort, but you can continue to be in touch with me until the group begins meeting.

We are planning to hold a session on news helicopters during our upcoming convention in Las Vegas. The session is scheduled for Wednesday, April 16, 9:30-10:45 a.m. We're inviting representatives of HAI, the broadcast pilots association and RTNDA to participate and we would be pleased to invite you as well. The session will be open to all attendees, who are mostly news people, so if you feel this is not the appropriate time for that, I understand. Dave York may contact you about this session as well.

Please let me know if you need any other information from RTNDA at this time and thanks again for getting in touch with us.

Best regards,
Barbara Cochran
