

# China RoHS: Scope, Compliance & Factors for Success

*Understanding and complying with China's RoHS Regulations*

China's Administrative Measures on the Control of Pollution Caused by Electronic Information Products (China RoHS) went into effect on March 1, 2007. Marking and material disclosure are now required to be in place on products sold in China. This webinar will provide an overview of these requirements, as well as what steps US companies can take to comply.

## Highlights

- Marking and labeling requirements went into effect on March 1, 2007.
- Unlike the EU, China does not permit “self declaration” by the exporter.
- Material restrictions will go into effect at a later date. The date and extent of these restrictions will be defined in a “catalogue”.
