Dear Mr. Chairman and Mr. Ranking Member:

I am requesting \$11,400,000 in the Fiscal Year 2010 Military Construction, Veterans Affairs, and Related Agencies appropriations measure in the Department of Defense's Air National Guard account for the Mansfield Lahm Air National Guard Base in Mansfield, Ohio.

It is my understanding that the funding will be used at the base (1947 Harrington Memorial Road, Mansfield, Ohio 44903) to construct beddown facilities for a detachment of the 200<sup>th</sup> RED HORSE Heavy Combat Engineer Squadron activated there last year.

To the best of my knowledge, this request is not directed to an entity or program that will be named for a sitting member of Congress, is not intended for use by an entity to secure funds for other entities (unless such use is consistent with the specified purpose of the request), and meets or exceeds all statutory requirements for matching funds where applicable.

I certify that neither I nor my spouse has a direct and foreseeable financial interest in this request. I further certify that this request will be made available on my official website as is required by the Chairman's policy on project disclosure.

Should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of taxpayer funds for this project.

Thank you for your consideration of this request.

Sincerely,

Jim Jordan

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for "MK-48 Torpedo Magazine" as part of the Fiscal Year 2010 appropriations process. The proposed recipient of funding for this project is:

**Submarine Base New London  
Route 12 Crystal Lake Road  
Groton, CT 06349**

Funding will be used to construction a new magazine capable of storing up to 36 MK 48 torpedoes. The FY09 Future Years Defense Plan (FYDP) scheduled this project for 2012; however, acceleration to 2010 is urgently needed to improve SUBASE New London's ability to support the needs of our submarine force. This project will increase the capability of the base to provide direct operation support to attack submarines homeported at the facility, as well as ensure that ordinance handling is done in a safe and efficient way.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of this request.

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for "TFI -cNAF BEDDOWN- UPGRADE FACILITIES" as part of the Fiscal Year 2010 appropriations process. The proposed recipient of funding for this project is:

**Connecticut Air National Guard  
100 Nicholson Road  
East Granby, CT 06093**

Requested funding would be used to build the facilities needed to support the 103rd Airlift Wing's Component Numbered Air Force (cNAF) Air Operations Command Center. This mission, assigned to the 103AW following the removal of their A-10s through the 2005 BRAC process, will engage the CT Air National Guard in high-tech, highly-skilled work that will support the planning operations, intelligence, logistics, combat service support, and communications-electronics needs of air combat operations around the globe. While this project is currently planned for 2011, acceleration to 2010 is needed to adequately support the training of personnel to meet the needs of their new mission - and without acceleration, there will be a gap in the 103AW's ability to adequately accomplish this important mission.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of this request.

It is my understanding that the funding would be used to construct a new fitness center.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me. I also certify that this request will be made publicly available on my Official Website.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY2010 Veterans Affairs and Military Construction Appropriations bill for Defense Access Roads. The entity to receive funding for this project is Fort Lee at 3901 A Avenue, Ft Lee, Virginia, 23801. It is my understanding that the funding would be used to relieve congestion around Ft Lee. The Defense Access Road (DAR) Program provides a means for the military to pay their fair share of the cost of public highway improvements necessary to mitigate an unusual impact of a defense activity. An unusual impact could be a significant increase in personnel at a military installation, relocation of an access gate, or the deployment of an oversized or overweight military vehicle or transporter unit..

I hereby certify that to the best of my knowledge, this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Messrs. Obey and Lewis:

I am requesting funding to complete Phase 2 of the Ballistic Evaluation Facility (66726) in the Fiscal Year 2009 Military Construction Appropriations bill. The entity to receive the funding for this project is the United States Army, specifically the Armament Research Development and Engineering Center (ARDEC) located at Picatinny Arsenal, Picatinny, New Jersey, 07806-5000.

As I understand it, the funding would be used to continue construction of a state-of-the-art Ballistic Evaluation Facility for Large Caliber Armaments at Picatinny Arsenal resulting in a "one-of-kind" research and testing facility which will reduce Army operational overhead and maintenance costs and improve safety. When completed, the BEF will provide near-term and long-range benefits to the joint warfighter - Army, Marines, Navy and Air Force. I certify that neither I nor my spouse has any direct financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the construction of a Joint Base Communications Building aboard Naval Air Station – Joint Reserve Base, Fort Worth, Texas in Fiscal Year 2010. The entity to receive funding for this project is the U.S. Navy Reserve in support of NAS JRB Fort Worth (MILCON) funding. Funding for this program will accelerate the construction of this facility, which is currently scheduled for 2013, under the Five Year Defense Plan. Funding this program ahead of schedule is critical to provide adequate facilities to house and support the communications hub for the entire base. The existing base communications building (Building 1730) was built in 1951. It is undersized and does not lend itself to the demands of current technologies. Existing space will not accommodate growth requirements for the terminal/switch room, threatening a loss in communication functionality base-wide. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

I am requesting \$2.62 million in funding for a Small Craft Boat Launch for fiscal year 2010. The entity to receive funding for this project is Naval Station Everett located at 2000 West Marine View Dr., Everett, WA 98207.

This funding will be used to construct a small boat launch at Naval Station Everett. Currently, Navy and Coast Guard personnel must tow the boats to a public marina when they need to launch them for security reasons or to respond to an environmental spill. This wastes time and fuel and hurts fleet readiness.

I certify that neither I nor my spouse has any financial interest in this project.

I am requesting funding for the Mountain Warfare Training Center (MWTC) commissary in Fiscal Year 2010. The entity to receive funding for this project is the U.S. Marine Corps Mountain Warfare Training Center located at HC 83, Bridgeport, CA, 93517.

The funding would be used primarily to construct a permanent commissary complete with sales area, electronic checkout registers, receiving area, loading dock, meat and produce preparation areas, cold and freeze storage, and other supporting infrastructure. Construction would preempt the need of base residents from driving extended distances over often impassable mountain roads for basic necessities. *I certify that neither I nor my spouse has any direct financial interest in this project. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Total Force Integration (TFI) Refueling Vehicle Maintenance Facility project in the FY10 Military Construction-VA Appropriations bill. The amount requested for this project is \$4,150,000. The entity to receive funding for this project is Fairchild Air Force Base, 92nd Air Refueling Wing, located at 1 East Bong Street, Fairchild Air Force Base, WA.

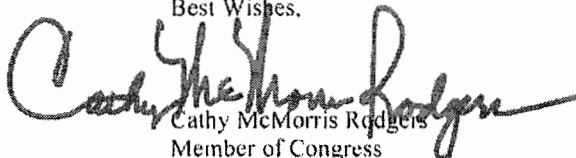

The TFI Refueling Vehicle Maintenance Facility would be a multi-bay, 5,005 square foot refueling vehicle maintenance facility to accommodate the Associate 92nd and 141st Air Refueling Wings into a one stop shop for servicing, maintaining, and repairing refueling vehicles and related equipment. This facility must be separate from the shop for other vehicles assigned to the base and needs to be located near the refueling vehicle parking area for operational efficiency.

Right now, the Fuels Management Flight of 100 personnel rely heavily on 15 maintenance people who service and repair the refueling vehicle fleet in support of the flying mission. Not only does the current old facility have no heat, but it is also approximately 1.8 miles from the refueling vehicle parking lot. These people work in undersized, substandard, and environmentally deficient facilities separated from each other.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I also attest that this project does not have a direct or foreseeable effect on the financial interests of me or my spouse.

Re: Air Traffic Control Complex, Minot Air Force Base, Minot, North Dakota

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Air Traffic Control Complex at Minot Air Force Base, Minot, North Dakota in fiscal year 2010. The entity to receive funding for this project is the United States Air Force located at the Minot Air Force Base. This project will involve constructing an 11-story control tower in addition to a consolidated facility to house base operations and radar approach control operations. This facility is required to provide consolidated operations for air traffic control and base operations. This facility will replace an existing tower that is in need of major repair, and will also provide more efficient control operations by collocating these important functions. The existing control tower has many associated problems. It leaks badly during rainstorms and is inadequately heated and cooled. Communication and radar equipment in the existing tower may suffer catastrophic damage due to the frequent leaks. I certify that I do not have any financial interest in this project.

I am requesting funding in the FY10 MILCON/VA bill, from the Department of Defense Agency, Navy & Marine Corps Account. The entity to receive funding for this program is the Naval Activity South Potomac Dahlgren Division, Dahlgren, VA 22448. It is my understanding that the funding would be used to provide laboratories and analysis spaces for wideband RF, High Powered Microwave, Pulsed Power and high energy laser systems engineering and development. Also it represents the lost scope of MILCON project P-295 that was approved in FY06, but due to high bids, only 75% of the original facility could be built. This project provides the remaining 25% (6,500 SF).

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer dollars.

Sincerely,

Robert J. Wittman
