Authorizing Authority of the Federal Hydroelectric Dams in the Columbia River Basin	206

Introduction

This publication contains the Bonneville Power Administration's (BPA) authorizing statutes—the Bonneville Project Act, the Federal Columbia River Transmission System Act and the Pacific Northwest Electric Power Planning and Conservation Act—and other federal laws that contain provisions that define BPA's mission and/or affect the way it is carried out.

With the exception of a few uncodified enactments, the laws contained by this publication are organized and presented in their United States Code format, rather than the Public Law format as passed. Thus, the Bonneville Project Act's section 2(f) is found at 16 U.S.C § 832a(f). (The Public Law citations are included, however, and appear at the end of each paragraph.) In addition, later amendments to earlier laws are reflected in their United States Code format. For example, the Pacific Northwest Consumer Power Preference Act's definition of "Pacific Northwest" (16 U.S.C. § 837(b)) reflects the Pacific Northwest Power Planning and Conservation Act's later amendment of the definition of that term.

The laws are presented in the numerical order in which they appear in the United States Code, rather than in the order in which they became law. Therefore, the provision that exempts BPA from the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. Sec. 905(g)(1)(A)) is presented first. Uncodified enactments are presented after codified enactments by year of enactment, earliest first. These are followed by sections of all appropriation acts affecting BPA, and last is a list of the acts authorizing federal hydroelectric dams in the Columbia River Basin.

This publication is intended to be a convenient but unofficial guide to BPA-related laws. It is not an official reporter of these laws. All citations to these laws should be made to the United States Code or some other officially recognized reporter.

**BONNEVILLE'S EXEMPTION
FROM THE BALANCED BUDGET
AND EMERGENCY DEFICIT CONTROL ACT
OF 1985**

*2 United States Code Chapter 20 (1994).
Act of Dec. 12, 1985, Title II, §255, 99 Stat. 1082.
Public Law No. 99-177.*

905(g)(1)(A). The following budget accounts and activities shall be exempt from reduction under any order issued under this subchapter:

Bonneville Power Administration fund and borrowing authority established pursuant to section 13 of Public Law 93-454 (1974), as amended [16 U.S.C. 838k] (89-4045-0-3-271);

Intragovernmental funds, including those from which the outlays are derived primarily from resources paid in from other government accounts, except to the extent such funds are augmented by direct appropriations for the fiscal year during which an order is in effect;

[None set out]

NATIONAL FOREST SYSTEM LANDS, OREGON

16 United States Code Chapter 2, note (1994).

Act of Nov. 23, 1977, 91 Stat. 1425.

Public Law No. 95-200.

482b. Mount Hood National Forest; mining rights

Historical Note

Bull Run Watershed Management Unit. Pub. L. 95-200, Nov. 23, 1977, 91 Stat. 1425 [as amended Pub.L. 104-333, Div. I, Title X, § 1026(a), Nov. 112, 1996, 110 Stat. 4228.], provided that:

“PREAMBLE

“The Congress finds that an area of land in the State of Oregon known variously as the Bull Run National Forest and the Bull Run Forest Reserve is presently the source of the sole domestic water supply for the city of Portland, Oregon (hereinafter called the ‘city’) and other local governmental units and persons in the Portland metropolitan area, reserved for the city by a Presidential proclamation issued in 1892 and furnishing an extremely valuable resource of pure clear raw potable water, the continued production of which should be the principal management objective in the area hereinafter referred to as ‘the unit’; that the said area is now managed under terms of a Federal court decree issued pursuant to turn of the century law which does not appropriately address present and future needs and opportunities for the protection, management, and utilization of the resources contained therein.

*Bull Run watershed
management*

“ESTABLISHMENT OF SPECIAL RESOURCES MANAGEMENT UNIT; DEFINITION OF SECRETARY.

“Section 1.(a) Definition of Secretary.—In this Act, the term ‘Secretary’ means—

“(1) with respect to land administered by the Secretary of Agriculture, the Secretary of Agriculture; and

“(2) with respect to land administered by the Secretary of the Interior, the Secretary of the Interior.

“(b) Establishment.—

“(1) In general.—There is established, subject to valid existing rights, a special resources management unit in the State of Oregon, comprising approximately 98,272 acres, as depicted on a map dated May 2000 and entitled ‘Bull Run Watershed Management Unit’.

“(2) Map.—The map described in paragraph (1) shall be on file and available for public inspection in the offices of—

“(A) the Regional Forester-Pacific Northwest Region of the Forest Service; and

“(B) the Oregon State Director of the Bureau of Land Management.

“(3) Boundary adjustments.—The Secretary may periodically make such minor adjustments in the boundaries of the unit as are necessary, after consulting with the city and providing for appropriate public notice and hearings.”

“MANAGEMENT

“Section 2. (a) The unit and the renewable resources therein, shall be administered as a watershed by the Secretary of Agriculture in accordance with the laws, rules, and regulations applicable to National Forest System lands except to the extent that any management plan or practice is found by the Secretary to have a significant adverse effect on compliance with the water quality standards referred to in section 2(c) hereof or on the quantity of the water produced thereon for the use of the city, and other local government units and persons using such water under agreements with the city (and the Secretary shall take into consideration the cumulative effect of individually insignificant degradations), in which case, and notwithstanding any other provision of law, the management plan and all relevant leases, permits, contracts, rights-of-way, or other rights or authorizations issued pursuant thereto shall forthwith be altered by the Secretary to eliminate such adverse effect by application of different techniques or prohibitions of one or more such practices or uses: Provided, however, That use of such water for the production of energy and the transmission of such energy through and over the unit are deemed consistent with the purposes of this Act and the rights-of-way heretofore granted to Bonneville Power Administration by the Forest Service through and over the unit are validated and confirmed and deemed consistent with the purposes of this Act.

“(b)“Timber Cutting. –

“(1) In general. - Subject to paragraph (2), the Secretary of Agriculture shall prohibit the cutting of trees in that part of the unit consisting of the hydrographic boundary of the Bull Run River Drainage, including certain lands within the unit and located below the headworks of the city of Portland, Oregon’s water storage and delivery project, and

as depicted in a map dated July 22, 1996, and entitled 'Bull Run River Drainage'.

“(2) Permitted cutting. –

“(A) In general. - Subject to subparagraph (B), the Secretary of Agriculture shall prohibit the cutting of trees in the area described in subparagraph (1).

“(B) Permitted cutting. - Subject to subparagraph (C), the Secretary may only allow the cutting of trees in the area described in subparagraph (1) –

“(i) for the protection or enhancement of water quality in the area described in subparagraph (1); or

“(ii) for the protection, enhancement, or maintenance of water quantity available from the area described in subparagraph (1); or

“(iii) for the construction, expansion, protection or maintenance of municipal water supply facilities; or

“(iv) for the construction, expansion, protection or maintenance of facilities for the transmission of energy through and over the unit or previously authorized hydroelectric facilities or hydroelectric projects associated with municipal water supply facilities.

“(C) Salvage sales. - The Secretary of Agriculture may not authorize a salvage sale in the area described in subparagraph (1).”

“(c) The policy set forth in subsection (a) shall be attained through the development, maintenance, and periodic revision of land management plans in accordance with procedures set forth in section 5 (6) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 477, as amended; 16 U.S.C. 1604), through the maintenance of systems for monitoring and evaluating water quality, and through supporting scientific research as the Secretary may deem necessary after consultation and in coordination with the city. In the development and revision of land management plans for the unit, the Secretary, except as otherwise provided in section 2(a) hereof, shall provide for public participation and shall consult and coordinate with appropriate officials and advisors of the city, and shall consider such data and research as the city may collect through its own monitoring systems and scientific efforts, if any. Such plans shall be prepared by an interdisciplinary team; be embodied in appropriate written material, including maps and other descriptive documents; shall contain water quality standards developed by the

Secretary after consultation and in cooperation with the city, which standards shall be substantially based on and shall reflect a quality of water not significantly less than the quality reflected by percentile curves developed from data collected from 1967 through 1975 and, if none, from data collected in the first three years of record thereafter; and be available to the public at convenient locations. The initial plan or plans shall be completed as soon as practicable after the enactment of this Act (Nov. 23, 1977), but not later than September 30, 1979. Current data shall be compared to historical data at least annually for the purpose of determining compliance with the standards and the significance of any deviation therefrom. Deviations occurring from operation, maintenance, alteration, or construction of water storage, or electrical generation and transmission facilities, seasonal fluctuations, variations in climate, and other natural phenomena, fire, or acts of God, shall not be considered in determining the historical or current percentile curves.

“(d) The Secretary or his representative shall, upon request, and at least annually, meet with appropriate officials of the city for the purpose of reviewing planned management programs and the impact thereof on the quality and quantity of the water produced on the unit and assuring that their respective management and operational activities within the unit are appropriately coordinated. The Secretary shall negotiate in good faith cooperative agreements with appropriate officials of the city to effectuate activity coordination.

“(e) In the event there is disagreement between the city and the Secretary with respect to the development or revision of the water quality standards provided for herein, or with respect to the effect or the significance of such effect of one or more proposed or existing programs, practices, uses, regulations, or boundary adjustments (except as otherwise specifically provided for herein), on the quantity of the water produced on said unit, or on compliance with the water quality standards referred to in section 2(a) and (b) hereof and, therefore, with respect to the necessity for an alteration or prohibition of any such program, practice, use, regulation, or boundary adjustment as required in section 2(a) hereof, an arbitration board for resolving such disagreements shall be established. The Secretary and the city shall, each, forthwith appoint one member to such board and those two members shall select a third. In the event agreement cannot be reached on the third member within seven days after the appointment of the first two, the third member shall be appointed by the presiding judge of the United States District Court for the District of Oregon within seven days after being notified of such disagreement by either of the first two members. All of said members shall be qualified to make a scientific determination of the facts. The contentions of the city and the Secretary shall be submitted to the board in the form of written contentions of fact

together with the evidence and analysis that tends to support the position being presented. The board shall forthwith consider and decide, on a scientific basis, the issues in disagreement by majority vote, taking into consideration the evidence and data presented by the parties and such other tests and data which the board by majority vote may require. The decision of such board shall be in the form of written findings of fact and conclusions based thereon and shall be final and binding on the parties. The Secretary and the city shall compensate their designees and share equally the compensation of the third member, and shall provide such technical and administrative support as required.

“(f) The Secretary is authorized, after consultation with the city, to promulgate regulations for controlling entry into the unit by all persons including but not limited to -

“(1) employees or contractors of the city engaged in the inspection, maintenance, construction, or improvement of the city’s facilities;

“(2)(i) Federal, State, and local government officers and (ii) employees thereof acting in an official capacity;

“(3) Federal, State, and local government permittees and contractors conducting authorized activities;

“(4) members of advisory groups formed pursuant to this Act or ordinances of the city in the performance of their official duties:

Provided, That no regulation promulgated pursuant to this subsection shall prohibit ingress or egress to non-Federal lands or to authorized occupancies on, or uses of, Federal lands: *Provided further*, That the Secretary may independently and directly prohibit or restrict all entry into the unit during fire or other emergencies as he may determine.

796(23). Transmitting utility. The term ‘transmitting utility’ means any electric utility, qualifying cogeneration facility, qualifying small power production facility, or Federal power marketing agency which owns or operates electric power transmission facilities which are used for the sale of electric energy at wholesale.

[Act of June 20, 1920, ch. 285, Part I, §3(23), (Federal Power Act), as added by, Act of Oct. 24, 1992, Title VII, Sub Title B, (Energy Policy Act), §726(a)(23), 106 Stat. 2921.]

796(24). Wholesale transmission services. The term wholesale transmission services means the transmission of electric energy sold, or to be sold, at wholesale in interstate commerce.

[Federal Power Act, §3(24), as added by, Energy Policy Act, §726(a)(24), 106 Stat. 2921.]

824i. Interconnection authority

824i(a)(1). Upon application of any electric utility, Federal power marketing agency, geothermal power producer (including a producer which is not an electric utility), qualifying cogenerator, or qualifying small power producer, the Commission may issue an order requiring—

824i(a)(1)(A). the physical connection of any cogeneration facility, any small power production facility, or the transmission facilities of any electric utility, with the facilities of such applicant,
[Federal Power Act, §210(a)(1)(A), as added by, Act of Nov. 9, 1978, P L. 95-617, Title II, §202(a)(1)(A), (Amendment), 92 Stat. 3135, as amended by the Act of June 30, 1980, P. L. 96-294, §643(a)(2), 94 Stat. 770.]

824i(a)(1)(B). such action as may be necessary to make effective any physical connection described in subparagraph (A), which physical connection is ineffective for any reason, such as inadequate size, poor maintenance, or physical unreliability,
[Federal Power Act, §210(a)(1)(B), as added by Amendment, §202(a)(1)(B), 92 Stat. 3135.]

824i(a)(1)(C). such sale or exchange of electric energy or other coordination as may be necessary to carry out the purposes of any order under subparagraph (A) or (B), or
[Federal Power Act, §210(a)(1)(C), as added by Amendment, §202(a)(1)(C), 92 Stat. 3136.]

Definitions

FERC interconnection orders

1. §2406 of the Energy Policy Act is codified at 16 U.S.C. § 839d-1, located on page 125 of this booklet.

Procedures

824i(a)(1)(D). such increase in transmission capacity as may be necessary to carry out the purposes of any order under subparagraph (A) or (B).

[Federal Power Act, §210(a)(1)(D), as added by Amendment, §202(a)(1)(D), 92 Stat. 3136.]

824i(a)(2). Any State regulatory authority may apply to the Commission [F.E.R.C.] for an order for any action referred to in subparagraph (A), (B), (C), or (D) of paragraph (1). No such order may be issued by the Commission with respect to a Federal power marketing agency upon application of a State regulatory authority.

[Federal Power Act, §210(a)(2), as added by Amendment, §202(a)(2), 92 Stat. 3136.]

824i(b). Upon receipt of an application under subsection (a), the Commission shall—

824i(b)(1). issue notice to each affected State regulatory authority, each affected electric utility, each affected Federal power marketing agency, each affected owner or operator of a cogeneration facility or of a small power production facility, and to the public.

[Federal Power Act, §210(b)(1), as added by Amendment, §202(b)(1), 92 Stat. 3136.]

824i(b)(2). afford an opportunity for an evidentiary hearing, and

[Federal Power Act, §210(b)(2), as added by Amendment, §202(b)(2), 92 Stat. 3136.]

824i(b)(3). make a determination with respect to the matters referred to in subsection (c) of this section.

[Federal Power Act, §210(b)(3), as added by Amendment, §202(b)(3), 92 Stat. 3136.]

Standards

824i(c). No order may be issued by the Commission under subsection (a) unless the Commission determines that such order—

824i(c)(1). is in the public interest,

[Federal Power Act, §210(c)(1), as added by Amendment, §202(c)(1), 92 Stat. 3136.]

824i(c)(2). would—

824i(c)(2)(A). encourage overall conservation of energy or capital,

[Federal Power Act, §210(c)(2)(A), as added by Amendment, §202(c)(2)(A), 92 Stat. 3136.]

824i(c)(2)(B). optimize the efficiency of use of facilities and resources, or,

[Federal Power Act, §210(c)(2)(B), as added by Amendment, §202(c)(2)(B), 92 Stat. 3136.]

824i(c)(2)(C). improve the reliability of any electric utility system or Federal power marketing agency to which the order applies, and

[Federal Power Act, §210(c)(2)(C), as added by Amendment, §202(c)(2)(C), 92 Stat. 3136.]

824i(c)(3). meets the requirements of [16 U.S.C. 824k].

[Federal Power Act, §210(c)(3), as added by Amendment, §202(c)(3), 92 Stat. 3136.]

824i(d). The Commission may, on its own motion, after compliance with the requirements of paragraphs (1) and (2) of subsection (b), issue an order requiring any action described in subsection (a)(1) of this section if the Commission determines that such order meets the requirements of subsection (c) of this section. No such order may be issued upon the Commission's own motion with respect to a Federal power marketing agency.

[Federal Power Act, §210(d), as added by Amendment, §202(d), 92 Stat. 3136.]

824i(e)(1). As used in this section, the term "facilities" means only facilities used for the generation or transmission of electric energy.

[Federal Power Act, §210(e)(1), as added by Amendment, §202(e)(1), 92 Stat. 3136.]

824i(e)(2). With respect to an order issued pursuant to an application of a qualifying cogenerator or qualifying small power producer under subsection (a)(1) of this section, the term "facilities of such applicant" means the qualifying cogeneration facilities or qualifying small power production facilities of the applicant, as specified in the application. With respect to an order issued pursuant to an application under subsection (a)(2) of this section, the term "facilities of such applicant" means the qualifying cogeneration facilities, qualifying small power production facilities, or the transmission facilities of an electric utility, as specified in the application. With respect to an order issued by the Commission on its own motion under subsection (d) of this section, such term means the qualifying cogeneration facilities, qualifying small power production facilities, or the transmission facilities of an electric utility, as specified in the proposed order.

[Federal Power Act, §210(e)(2), as added by Amendment, §202(e)(2), 92 Stat. 3136.]

824j. Wheeling authority

824j(a). Any electric utility, Federal power marketing agency, or any other person generating electric energy for sale for resale, may apply to the Commission for an order under this subsection requiring a transmitting utility to provide transmission services (including the enlargement of transmission capacity necessary to provide such services) to the applicant. Upon receipt of such application, after public notice and notice to each affected State regulatory authority, each affected electric utility, and each affected Federal power marketing agency, and after affording an opportunity for an evidentiary hearing, the Commission may issue such order if it finds that such order meets the requirements of section 824k of this title, and would otherwise be in the public interest. No order may be issued under this subsection unless the

"Facilities" defined

FERC transmission service orders

Standards

applicant has made a request for transmission services to the transmitting utility that would be the subject of such order at least 60 days prior to filing of an application for such order.

[Federal Power Act, §211(a), as added by Amendment, §203(a), 92 Stat. 3136-7, as amended by Energy Policy Act, §§721(1) and (2), 106 Stat. 2915.]

824j(b). No order may be issued under this section or section 824I of this title if, after giving consideration to consistently applied regional or national reliability standards, guidelines, or criteria, the Commission finds that such order would unreasonably impair the continued reliability of electric systems affected by the order.

[Federal Power Act, §211(b), as added by Amendment, §203(b), 92 Stat. 3137, as amended by Energy Policy Act, §§721(3), 106 Stat. 2915.]

824j(c)(1). [Repealed]

[Energy Policy Act, §721(4)(A), 106 Stat. 2915.]

824j(c)(2). No order may be issued under subsection (a) or (b) of this section which requires the transmitting utility subject to the order to transmit, during any period, an amount of electric energy which replaces any amount of electric energy—

824j(c)(2)(A). required to be provided to such applicant pursuant to a contract during such period, or

[Federal Power Act, §211(c)(2)(A), as added by Amendment, §203(c)(2)(A), 92 Stat. 3137, as amended by Energy Policy Act, §721(4)(B), 106 Stat. 2915.]

824j(c)(2)(B). currently provided to the applicant by the utility subject to the order pursuant to a rate schedule on file during such period with the Commission: *Provided*, That nothing in this subparagraph shall prevent an application for an order hereunder to be filed prior to termination [or] modification of an existing rate schedule: *Provided*, That such order shall not become effective until termination of such rate schedule or the modification becomes effective.

[Federal Power Act, §211(c)(2)(B), as added by Amendment, §203(c)(2)(B), 92 Stat. 3137, as amended by Act of Oct. 16, 1986, P. L. 99-495, §15, 100 Stat. 1257-8.]

824j(c)(3). [Repealed]

[Energy Policy Act, §721(4)(C), 106 Stat. 2915.]

824j(c)(4). [Repealed]

[Energy Policy Act, §721(4)(C), 106 Stat. 2915.]

Termination

824j(d)(1). Any transmitting utility ordered under subsection (a) or (b) of this section to provide transmission services may apply to the Commission for an order permitting such transmitting utility to cease providing all, or any portion of, such services. After public notice, notice to each affected State regulatory authority, each affected Federal power marketing agency, each affected transmitting utility,

and each affected electric utility, and after an opportunity for an evidentiary hearing, the Commission shall issue an order terminating or modifying the order issued under subsection (a) or (b) of this section, if the electric utility providing such transmission services has demonstrated, and the Commission has found that—

824j(d)(1)(A). due to changed circumstances, the requirements applicable, under this section and section 824k of this title, to the issuance of an order under subsection (a) or (b) are no longer met, or
[Federal Power Act, §211(d)(1)(A), as added by Amendment, §203(d)(1)(A), 92 Stat. 3138.]

824j(d)(1)(B). any transmission capacity of the utility providing transmission services under such order which...is no longer in excess of the capacity necessary for such purposes, or
[Federal Power Act, §211(d)(1)(B), as added by Amendment, §203(d)(1)(B), 92 Stat. 3138.]

824j(d)(1)(C). the ordered transmission services require enlargement of transmission capacity and the transmitting utility subject to the order has failed, after making a good faith effort, to obtain the necessary approvals or property rights under applicable Federal, State, and local laws.
[Federal Power Act, §211(d)(1)(C), as added by Energy Policy Act, §721(5)(D), 106 Stat. 2916.]

824j(d)(1)[cont.]. No order shall be issued under this subsection pursuant to a finding under subparagraph (A) unless the Commission finds that such order is in the public interest.
[Federal Power Act, §211(d)(1)(A), as added by Amendment, §203(d)(1)(A), 92 Stat. 3137-8, as amended by Energy Policy Act, §§721(5)(A) and (B), 106 Stat. 2915.]

824j(d)(2). Any order issued under this subsection terminating or modifying an order issued under subsection (a) or (b) of this section shall—

824j(d)(2)(A). provide for any appropriate compensation, and
[Federal Power Act, §211(d)(2)(A), as added by Amendment, §203(d)(2)(A), 92 Stat. 3138.]

824j(d)(2)(B). provide the affected electric utilities adequate opportunity and time to—

824j(d)(2)(B)(i). make suitable alternative arrangements for any transmission services terminated or modified, and
[Federal Power Act, §211(d)(2)(B)(i), as added by Amendment, §203(d)(2)(B)(i), 92 Stat. 3138.]

824j(d)(2)(B)(ii). insure that interests of ratepayers of such utilities are adequately protected.
[Federal Power Act, §211(d)(2)(B)(ii), as added by Amendment, §203(d)(2)(B)(ii), 92 Stat. 3138.]

824j(d)(3). No order may be issued under this subsection terminating or modifying any order issued under subsection (a) or (b) of this section if the order under subsection (a) or (b) of this section includes terms and conditions agreed upon by the parties which—

824j(d)(3)(A). fix a period during which transmission services are to be provided under the order under subsection (a) or (b) of this section, or

[Federal Power Act, §211(d)(3)(A), as added by Amendment, §203(d)(3)(A), 92 Stat. 3138.]

824j(d)(3)(B). otherwise provide procedures or methods for terminating or modifying such order (including, if appropriate, the return of the transmission capacity when necessary to take into account an increase, after the issuance of such order, in the needs of the transmitting utility subject to such order for transmission capacity).

[Federal Power Act, §211(d)(3)(B), as added by Amendment, §203(d)(3)(B), 92 Stat. 3138, as amended by Energy Policy Act, §721(5)(C), 106 Stat. 2916.]

“Facilities” defined

824j(e). As used in this section, the term “facilities” means only facilities used for the generation or transmission of electric energy.

[Federal Power Act, §211(e), as added by Amendment, §203(e), 92 Stat. 3138.]

824k. Orders requiring interconnection or wheeling

824k(a). An order under section 824j of this Title shall require the transmitting utility subject to the order to provide wholesale transmission services at rates, charges, terms, and conditions which permit the recovery by such utility of all the costs incurred in connection with the transmission services and necessary associated services, including, but not limited to, an appropriate share, if any of legitimate, verifiable and economic costs, including taking into account any benefits to the transmission system of providing the transmission service, and the costs of any enlargement of transmission facilities. Such rates, charges, terms, and conditions shall promote the economically efficient transmission and generation of electricity and shall be just and reasonable, and no unduly discriminatory or preferential. Rates, charges, terms, and conditions for transmission services provided pursuant to an order under section 824j of this Title shall ensure that, to the extent practicable, costs incurred in providing the wholesale transmission services, and properly allocable to the provision of such services, are recovered from the applicant for such order and not from a transmitting utility’s existing wholesale, retail, and transmission customers.

[Federal Power Act, §212(a), as added by Energy Policy Act, §722(1), 106 Stat. 2916.]

824k(b). [Repealed]

[Energy Policy Act, §722(1), 106 Stat. 2916.]

Rates

824k(c)(1). Before issuing an order under section 824i of this Title or subsection (a) or (b) of section 824j of this Title the Commission shall issue a proposed order and set a reasonable time for parties to the proposed interconnection or transmission order to agree to terms and conditions under which such order is to be carried out, including the apportionment of costs between them and the compensation or reimbursement reasonably due to any of them. Such proposed order shall not be reviewable or enforceable in any court. The time set for such parties to agree to such terms and conditions may be shortened if the Commission determines that delay would jeopardize the attainment of the purposes of any proposed order. Any terms and conditions agreed to by the parties shall be subject to the approval of the Commission.

[Federal Power Act, §212(c)(1), as added by Amendment, §204(c)(1), 92 Stat. 3139.]

824k(c)(2)(A). If the parties agree as provided in paragraph (1) within the time set by the Commission and the Commission approves such agreement, the terms and conditions shall be included in the final order. In the case of an order under section 824l of this Title, if the parties fail to agree within the time set by the Commission or if the Commission does not approve of such agreement, the Commission shall prescribe such terms and conditions and include such terms and conditions in the final order.

[Federal Power Act, §212(c)(2)(A), as added by Amendment, §204(c)(2)(A), 92 Stat. 3139.]

824k(c)(2)(B). In the case of any order applied for under section 824j of this Title, if the parties fail to agree within the time set by the Commission, the Commission shall prescribe such terms and conditions in the final order.

[Federal Power Act, §212(c)(2)(B), as added by Amendment, §204(c)(2)(B), 92 Stat. 3139.]

824k(d). If the Commission does not issue any order applied for under section 824i or 824j of this Title, the Commission shall, by order, deny such application and state the reasons for such denial.

[Federal Power Act, §212(d), as added by Amendment, §204(d), 92 Stat. 3139.]

824k(e)(1). No provision of section 824i, 824j, 824m of this Title, or this section shall be treated as requiring any person to utilize the authority of any such section in lieu of any other authority of law. Except as provided in section 824i, 824j, 824m of this Title or this section, such sections shall not be construed as limiting or impairing any authority of the Commission under any other provision of law.

[Federal Power Act, §212(e)(1), as added by Energy Policy Act, §722(2)(e)(1), 106 Stat. 2916.]

824k(e)(2). [Is a savings clause for antitrust laws and is not reproduced here.]

Proposed orders

Denial

Retail wheeling

824k(f). [Deals with procedures required when the Tennessee Valley Authority is ordered to take action and is not reproduced here.]

824k(g). [Is a savings clause for state laws and is not reproduced here.]

824k(h). No order issued under this chapter shall be conditioned upon or require the transmission of electric energy:

824k(h)(1). directly to an ultimate consumer, or
[Federal Power Act, §212(h)(1), as added by Energy Policy Act, §722(3)(h)(1), 106 Stat. 2917.]

824k(h)(2). to, or for the benefit of, an entity if such electric energy would be sold by such entity directly to an ultimate consumer, unless:

824k(h)(2)(A). such entity is a Federal power marketing agency; the Tennessee Valley Authority; a State or any political subdivision of a State (or and agency, authority, or instrumentality of a State or a political subdivision); a corporation or association that has ever received a loan for the purposes of providing electric service from the Administrator of the Rural Electrification Administration under the Rural Electrification Act of 1936 [7 U.S.C. §§901 *et seq.*]; a person having an obligation arising under State or local law (exclusive of an obligation arising solely from a contract entered into by such person) to provide electric service to the public; or any corporation or association which is wholly owned, directly or indirectly, by any one or more of the foregoing; and
[Federal Power Act, §212(h)(2)(A), as added by Energy Policy Act, §722(3)(h)(2)(A), 106 Stat. 2917.]

824k(h)(2)(B). such entity was providing electric service to such ultimate consumer on October 24, 1992, or would utilize transmission or distribution facilities that it owns or controls to deliver all such electric energy to such electric consumer.
[Federal Power Act, §212(h)(2)(B), as added by Energy Policy Act, §722(3)(h)(2)(B), 106 Stat. 2917.]

[The continuation of 824k(h) is a savings clause for state laws and is not reproduced here.]

Order BPA to provide transmission

824k(i)(1). The Commission shall have authority pursuant to section 210, section 824i of this Title, 824j of this Title, this section, and section 824l of this Title to (A) order the Administrator of the Bonneville Power Administration to provide transmission service and (B) establish the terms and conditions of such service. In applying such sections to the Federal Columbia River Transmission System, the Commission shall assure that—

824k(i)(1)(B)(i). the provisions of otherwise applicable Federal laws shall continue in full force and effect and shall continue to be applicable to the system; and

[Federal Power Act, §212(i)(1)(B)(i), as added by Energy Policy Act, §722(3)(i)(1)(B)(i), 106 Stat. 2917.]

824k(i)(1)(B)(ii). the rates for the transmission of electric power on the system shall be governed only by such otherwise applicable provisions of law and not by any provision of section 824i of this Title, section 824j of this Title, this section, and section 824l of this Title, except that no rate for the transmission of power on the system shall be unjust, unreasonable, or unduly discriminatory or preferential, as determined by the Commission.

[Federal Power Act, §212(i)(1)(B)(ii), as added by Energy Policy Act, §722(3)(i)(1)(B)(ii), 106 Stat. 2917.]

BPA rates

824k(i)(2). Notwithstanding any other provision of this chapter with respect to the procedures for the determination of terms and conditions for transmission service—

824k(i)(2)(A). when the Administrator of the Bonneville Power Administration either (i) in response to a written request for specific transmission service terms and conditions, or (ii) proposes to establish terms and conditions of general applicability for transmission service on the Federal Columbia River Transmission System, then the Administrator may provide opportunity for a hearing and, in so doing, shall—

*BPA terms
and conditions*

824k(i)(2)(A)(ii)(I). give notice in the Federal Register and state in such notice the written explanation of the reasons why the specific terms and conditions for transmission services are not being offered or are being proposed;

[Federal Power Act, §212(i)(2)(A)(ii)(I), as added by Energy Policy Act, §722(3)(i)(2)(A)(ii)(I), 106 Stat. 2917-8.]

Hearing notice

824k(i)(2)(A)(ii)(II). adhere to the procedural requirements of paragraphs (1) through (3) of section 839e(i) of this Title, except that the hearing officer shall, unless the hearing officer becomes unavailable to the agency, make a recommended decision to the Administrator that states the hearing officer's findings and conclusions, and the reasons or bases thereof, on all material issues of fact, law, or discretion presented on the record; and

[Federal Power Act, §212(i)(2)(A)(ii)(II), as added by Energy Policy Act, §722(3)(i)(2)(A)(ii)(II), 106 Stat. 2918.]

824k(i)(2)(A)(ii)(III). make a determination, setting forth the reasons for reaching any findings and conclusions which may differ from those of the hearing officer, based on the hearing record, consideration of the hearing officer, based on the hearing officer's

FERC procedures

recommended decision, section 824j of this Title and this section, as amended by the Energy Policy Act of 1992, and the provision of law as preserved in this section; and

[Federal Power Act, §212(i)(2)(A)(ii)(III), as added by Energy Policy Act, §722(3)(i)(2)(A)(ii)(III), 106 Stat. 2918.]

824k(i)(2)(B). if application is made to the Commission under section 824j of this Title for transmission service under terms and conditions different than those offered by the Administrator, and such application is filed within 60 days of the Administrator’s final determination and in accordance with Commission procedures, the Commission shall—

824k(i)(2)(B)(i). in the event that the Administrator has conducted a hearing as herein provide for (I) accord parties to the Administrator’s hearing the opportunity to offer for the Commission record materials excluded by the Administrator from the hearing record, (II) accord such parties the opportunity to submit for the Commission record comments on appropriate terms and conditions, (III) afford those parties the opportunity for a hearing if and to the extent that the Commission finds the Administrator’s hearing record to be inadequate to support a decision by the Commission, and (IV) establish terms and conditions for or deny transmission service based on the Administrator’s hearing record, the Commission record, section 824j of this Title and this section, as amended by the Energy Policy Act of 1992, and the provision of law as preserved in this section, or

[Federal Power Act, §212(i)(2)(B)(i), as added by Energy Policy Act, §722(3)(i)(2)(B)(i), 106 Stat. 2918.]

824k(i)(2)(B)(ii). in the event the Administrator has not conducted a hearing as herein provided for, determine whether to issue an order for transmission service in accordance with section 824j of this Title and this section, including providing the opportunity for a hearing.

[Federal Power Act, §212(i)(2)(B)(ii), as added by Energy Policy Act, §722(3)(i)(2)(B)(ii), 106 Stat. 2918.]

Judicial review

824k(i)(3). Notwithstanding those provisions of section 825l(b) of this Title which designate the court in which review may be obtained, any party to a proceeding concerning transmission service sought to be furnished by the Administrator of the Bonneville Power Administration seeking review of an order issued by the Commission in such proceeding shall obtain a review of such order in the United States Court of Appeals for the Pacific Northwest, as that region is defined by section 839a(14) of this Title.

[Federal Power Act, §212(i)(3), as added by Energy Policy Act, §722(3)(i)(3), 106 Stat. 2918.]

824k(i)(4). To the extent the Administrator of the Bonneville Power Administration cannot be required under section 824j of this

Title, as a result of the Administrator’s other statutory mandates, either to (A) provide transmission service to an applicant which the Commission would otherwise order, or (B) provide such service under rates, terms, and conditions which the Commission would otherwise require, the applicant shall not be required to provide similar transmission services to the Administrator or to provide such services under similar rates, terms, and conditions.

[Federal Power Act, §212(i)(4), as added by Energy Policy Act, §722(3)(i)(4), 106 Stat. 2919.]

Reciprocity

824k(i)(5). The Commission shall not issue any order under section 824i of this title, section 824j of this Title, this section, or section 824l of this Title requiring the Administrator of the Bonneville Power Administration to provide transmission service if such an order would impair the Administrator’s ability to provide such transmission service to the Administrator’s power and transmission customers in the Pacific Northwest, as that region is defined in section 839a(14) of this Title, as is needed to assure adequate and reliable service to loads in that region.

[Federal Power Act, §212(i)(5), as added by Energy Policy Act, §722(3)(i)(5), 106 Stat. 2919.]

Shall not impair service to PNW customers

824k(j). [Deals with the Tennessee Valley Authority and is not reproduced here.]

824k(k). [Deals with rates applicable to ERCOT utilities ordered to take action and is not reproduced here.]

824l. Information requirements

824l(a). Whenever any electric utility, Federal power marketing agency, or any other person generating electric energy for sale for resale makes a good faith request to a transmitting utility to provide wholesale transmission services and requests specific rates and charges, and other terms and conditions, unless the transmitting utility agrees to provide such service at rates, charges, terms and conditions acceptable to such person, the transmitting utility shall, within 60 days of its receipt of the request, or other mutually agreed upon period, provide such person with a detailed written explanation, with specific reference to the facts and circumstances of the request, stating (1) the transmitting utility’s basis for the proposed rates, charges, terms, and conditions for such services, and (2) its analysis of any physical or other constraints affecting the provision of such services.

[Federal Power Act, §213(a), as added by Energy Policy Act, §723(a), 106 Stat. 2919-20.]

Response to good faith request

824I(b). Not later than 1 year after the enactment of this section, the Commission shall promulgate a rule requiring that information be submitted annually to the Commission by transmitting utilities which is adequate to inform potential transmission customers, State regulatory authorities, and the public of potentially available transmission capacity and known constraints.

[Federal Power Act, §213(b), as added by Energy Policy Act, §723(b), 106 Stat. 2920.]²

2. §2406 of the Energy Policy Act is codified at 16 U.S.C. § 839d-1, located on page 125 of this booklet.

CONGRESSIONAL RECORD Vol. 138 (1992)

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

Vol. 28 (1992):

Oct. 24, Presidential remarks and statement

FLOOD CONTROL ACT OF 1944

16 United States Code Chapter 12, Subchapter III (1994).

Act of Dec. 22, 1944, ch. 665 §5, 58 Stat. 890.

Public Law No. 78-534, H.R. 4485

825s. Sale of electric power from reservoir projects; rate schedules; preference in sale; construction of transmission lines; disposition of moneys

Electric power and energy generated at reservoir projects under the control of the Department of the Army and in the opinion of the Secretary of the Army not required in the operation of such projects shall be delivered to the Secretary of Energy who shall transmit and dispose of such power and energy in such manner as to encourage the most widespread use thereof at the lowest possible rates to consumers consistent with sound business principles, the rate schedules to become effective upon confirmation and approval by the Secretary of Energy. Rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of the projects) of the cost of producing and transmitting such electric energy, including the amortization of the capital investment allocated to power over a reasonable period of years. Preference in the sale of such power and energy shall be given to public bodies and cooperatives. The Secretary of Energy is authorized, from funds to be appropriated by the Congress, to construct or acquire, by purchase or other agreement, only such transmission lines and related facilities as may be necessary in order to make the power and energy generated at said projects available in wholesale quantities for sale on fair and reasonable terms and conditions to facilities owned by the Federal Government, public bodies, cooperatives, and privately owned companies. All moneys received from such sales shall be deposited in the Treasury of the United States as miscellaneous receipts.

[Act of Dec. 22, 1944, Flood Control Act of 1944, ch. 665, §5, 58 Stat. 890, as amended by Department of Energy Organization Act (DOE Act), §§301(b), 302(a)(1), 91 Stat. 578, Aug. 4, 1977.]

LEGISLATIVE HISTORY FOR
FLOOD CONTROL ACT OF 1944

[None set out]

BONNEVILLE PROJECT ACT OF 1937

16 United States Code Chapter 12B (1994).
Act of Aug. 20, 1937, ch. 720, 50 Stat. 731.
Public Law No. 75-329, H.R. 7642.

Purposes

832. Completion and maintenance of project; generation of electricity

For the purpose of improving navigation on the Columbia River, and for other purposes incidental thereto, the dam, locks, power plant, and appurtenant works under construction on August 20, 1937, at Bonneville, Oregon and North Bonneville, Washington (called Bonneville project), shall be completed, maintained, and operated under the direction of the Secretary of the Army and the supervision of the Chief of Engineers, subject to the provisions of this chapter relating to the powers and duties of the Bonneville power administrator provided for in §832a(a) of this Title (called administrator in this chapter) respecting the transmission and sale of electric energy generated at said project. The Secretary of the Army shall provide, construct, operate, maintain, and improve at Bonneville project such machinery, equipment, and facilities for the generation of electric energy as the administrator may deem necessary to develop such electric energy as rapidly as markets may be found therefor. The electric energy thus generated and not required for the operation of the dam and locks at such project and the navigation facilities employed in connection therewith shall be delivered to the administrator, for disposition as provided in this chapter.

[Act of Aug. 20, 1937, ch. 720, §1, (Bonneville Project Act), 50 Stat. 731-2.]

832a. General administrative provisions

Administrator

832a(a). The electric energy generated in the operation of the said Bonneville project shall be disposed of by the said administrator as provided in this chapter. The administrator shall be appointed by the Secretary of Energy; shall be responsible to said Secretary of Energy; and shall maintain his principal office at a place selected by him in the vicinity of the Bonneville project. The Administrator shall, as in this chapter provided, make all arrangements for the sale and disposition of electric energy generated at Bonneville project not required for the operation of the dam and locks at such project and the navigation facilities employed in connection therewith. He shall act in consultation with the Secretary of Energy. The form of administration established in the chapter for the Bonneville project is intended to be

provisional pending the establishment of a permanent administration for Bonneville and other projects in the Columbia River Basin. The Secretary of the Army shall install and maintain additional machinery, equipment, and facilities for the generation of electric energy at the Bonneville project when in the judgment of the administrator such additional generating facilities are desirable to meet actual or potential market requirements for such electric energy. The Secretary of the Army shall schedule the operations of the several electrical generating units and appurtenant equipment of the Bonneville project in accordance with the requirements of the administrator. The Secretary of the Army shall provide and maintain for the use of the administrator at said Bonneville project adequate station space and equipment, including such switches, switchboards, instruments, and dispatching facilities as may be required by the administrator for proper reception, handling, and dispatching of the electric energy produced at the said project, together with transformers and other equipment required by the administrator for the transmission of such energy from that place at suitable voltage to the markets which the administrator desires to serve.

The office of the Administrator of the Bonneville project is constituted an office in the Department of Energy and shall be under the jurisdiction and control of the Secretary of Energy. All functions vested in the Administrator of the Bonneville project under this chapter may be exercised by the Secretary of Energy and, subject to his supervision and direction, by the Administrator and other personnel of the project.

[Bonneville Project Act, §2(a), 50 Stat. 732, as amended by Act of March 6, 1940, ch. 47, §§1 and 2, 54 Stat. 47; Act of Oct. 23, 1945, ch. 433, §5, 59 Stat. 547; Reorganization Plan No. 3 of 1950, §§1 and 2, 64 Stat. 1262, and DOE Act, §§302(a)(1)(D), (2), 91 Stat. 578, Aug. 4, 1977.]

832a(b). In order to encourage the widest possible use of all electric energy that can be generated and marketed and to provide reasonable outlets therefor, and to prevent the monopolization thereof by limited groups, the administrator is authorized and directed to provide, construct, operate, maintain, and improve such electric transmission lines and substations, and facilities and structures appurtenant thereto, as he finds necessary, desirable, or appropriate for the purpose of transmitting electric energy, available for sale, from the Bonneville project to existing and potential markets, and, for the purpose of interchange of electric energy, to interconnect the Bonneville project with other Federal project and publicly owned power systems constructed on or after August 20, 1937.

[Bonneville Project Act, §2(b), 50 Stat. 732.]

832a(c). The administrator is authorized, in the name of the United States, to acquire, by purchase, lease, condemnation, or donation, such real and personal property, or any interest therein,

Office

*Construct, operate
transmission lines*

*Acquire real and
personal property*

including lands, easements, rights-of-way, franchises, electric transmission lines, substations, and facilities and structures appurtenant thereto, as the administrator finds necessary or appropriate to carry out the purposes of this chapter. Title to all property and property rights acquired by the administrator shall be taken in the name of the United States.

[Bonneville Project Act, §2(c), 50 Stat. 732-3.]

832a(d). The administrator shall have power to acquire any property or property rights, including patent rights, which in his opinion are necessary to carry out the purposes of this chapter, by the exercise of the right of eminent domain and to institute condemnation proceedings therefor in the same manner as is provided by law for the condemnation of real estate.

[Bonneville Project Act, §2(d), 50 Stat. 733.]

Disposal of personal property

832a(e). The administrator is authorized, in the name of the United States, to sell, lease, or otherwise dispose of such personal property as in his judgment is not required for the purposes of this chapter and such real property and interests in land acquired in connection with construction or operation of electric transmission lines or substations as in his judgment are not required for the purposes of this chapter: Provided, however, That before the sale, lease, or disposition of real property or transmission lines, as herein provided, the administrator shall secure the approval of the President of the United States.

[Bonneville Project Act, §2(e), 50 Stat. 733.]

General authority to contract

832a(f). Subject only to the provisions of this chapter, the Administrator is authorized to enter into such contracts, agreements, and arrangements, including the amendment, modification, adjustment, or [cancellation] thereof and the compromise or final settlement of any claim arising thereunder, and to make such expenditures, upon such terms and conditions and in such manner as he may deem necessary.

[Bonneville Project Act, §2(f), 50 Stat. 733, as amended by Act of Oct. 23, 1945, ch 433, §1, 59 Stat. 546.]

Definitions

832b. Definitions

As employed in this chapter, the term “public body”, or “public bodies”, means States, public power districts, counties, and municipalities, including agencies or subdivisions of any thereof.

As employed in this chapter, the term “cooperative”, or “cooperatives”, means any form of nonprofit-making organization or organizations of citizens supplying, or which may be created to supply, members with any kind of goods, commodities, or services, as nearly as possible at cost.

[Bonneville Project Act, §3, 50 Stat. 733.]

832c. Distribution of electricity; preference to public bodies and cooperatives

Preference to public bodies and cooperatives

832c(a). In order to insure that the facilities for the generation of electric energy at the Bonneville project shall be operated for the benefit of the general public, and particularly of domestic and rural consumers, the administrator shall at all times, in disposing of electric energy generated at said project, give preference and priority to public bodies and cooperatives.

[Bonneville Project Act, §4(a), 50 Stat. 733.]

832c(b). To preserve and protect the preferential rights and priorities of public bodies and cooperatives as provided in subsection (a) of this section and to effectuate the intent and purpose of this chapter that at all times up to January 1, 1942, there shall be available for sale to public bodies and cooperatives not less than 50 per centum of the electric energy produced at the Bonneville project, it shall be the duty of the administrator in making contracts for the sale of such energy to so arrange such contracts as to make such 50 per centum of such energy available to said public bodies and cooperatives until January 1, 1942: *Provided*, That the electric energy so reserved for but not actually purchased by and delivered to such public bodies and cooperatives prior to January 1, 1942, may be disposed of temporarily so long as such temporary disposition will not interfere with the purchase by and delivery to such public bodies and cooperatives at any time prior to January 1, 1942: *Provided further*, That nothing herein contained shall be construed to limit or impair the preferential and priority rights of such public bodies or cooperatives after January 1, 1942; and in the event that after such date there shall be conflicting or competing applications for an allocation of electric energy between any public body or cooperative on the one hand and a private agency of any character on the other, the application of such public body or cooperative shall be granted.

[Bonneville Project Act, §4(b), 50 Stat. 733, as amended by Act of Mar. 6, 1940, ch. 47, §3, 54 Stat. 47.]

Temporary disposition

832c(c). An application by any public body or cooperative for an allocation of electric energy shall not be denied, or another application competing or in conflict therewith be granted, to any private corporation, company, agency, or person, on the ground that any proposed bond or other security issue of any such public body or cooperative, the sale of which is necessary to enable such prospective purchaser to enter into the public business of selling and distributing the electric energy proposed to be purchased, has not been authorized or marketed, until after a reasonable time, to be determined by the administrator, has been afforded such public body or cooperative to have such bond or other security issue authorized or marketed.

[Bonneville Project Act, §4(c), 50 Stat. 734.]

Give public bodies reasonable time to arrange financing

832c(d). It is declared to be the policy of the Congress, as expressed in this chapter, to preserve the said preferential status of the public bodies and cooperatives herein referred to, and to give to the people of the States within economic transmission distance of the Bonneville project reasonable opportunity and time to hold any election or elections or take any action necessary to create such public bodies and cooperatives as the laws of such States authorize and permit, and to afford such public bodies or cooperatives reasonable time and opportunity to take any action necessary to authorized the issuance of bonds or to arrange other financing necessary to construct or acquire necessary and desirable electric distribution facilities, and in all other respects legally to become qualified purchasers and distributors of electric energy available under this chapter.

[Bonneville Project Act, §4(d), 50 Stat. 734.]

832d. Contracts for sale of electricity

*Contracts for sale of electric energy
Provisions forbidding resale*

832d(a). Subject to the provisions of this chapter and to such rate schedules as the Secretary of Energy may approve, as provided in this chapter, the administrator shall negotiate and enter into contracts for the sale at wholesale of electric energy, either for resale or direct consumption, to public bodies and cooperatives and to private agencies and persons and for the disposition of electric energy to Federal agencies. Contracts for the sale of electric energy to any private person or agency other than a privately owned public utility engaged in selling electric energy to the general public, shall contain a provision forbidding such private purchaser to resell any of such electric energy so purchased to any private utility or agency engaged in the sale of electric energy to the general public, and requiring the immediate canceling of such contract of sale in the event of violation of such provision. Contracts entered into under this subsection shall be binding in accordance with the terms thereof and shall be effective for such period or periods, including renewals or extensions, as may be provided therein, not exceeding in the aggregate twenty years from the respective dates of the making of such contracts. Contracts entered into under this subsection shall contain (1) such provisions as the administrator and purchaser agree upon for the equitable adjustment of rates at appropriate intervals, not less frequently than once in every five years, and (2) in the case of a contract with any purchaser engaged in the business of selling electric energy to the general public, the contract shall provide that the administrator may cancel such contract upon five years' notice in writing if in the judgment of the administrator any part of the electric energy purchased under such contract is likely to be needed to satisfy the requirements of the said public bodies or cooperatives referred to in this chapter, and that such cancellation may be with respect to all or any part of the electric energy so purchased under said contract to the end that the preferential rights

Rate adjustment at least every 5 years

and priorities accorded public bodies and cooperatives under this chapter shall at all times be preserved. Contracts entered into with any utility engaged in the sale of electric energy to the general public shall contain such terms and conditions, including among other things stipulations concerning resale and resale rates by any such utility, as the administrator may deem necessary, desirable or appropriate to effectuate the purposes of this chapter and to insure that resale by such utility to the ultimate consumer shall be at rates which are reasonable and nondiscriminatory. Such contracts shall also require such utility to keep on file in the office of the administrator a schedule of all its rates and charges to the public for electric energy and such alterations and changes therein as may be put into effect by such utility.

[Bonneville Project Act, §5(a), 50 Stat. 734-5, as amended by Act of Oct. 23, 1945, ch. 433, §2, 59 Stat. 546, and DOE Act, §301(b), 91 Stat. 578, Aug. 4, 1977.]

832d(b). The administrator is authorized to enter into contracts with public or private power systems for the mutual exchange of unused excess power upon suitable exchange terms for the purpose of economical operation or of providing emergency or break-down relief.

[Bonneville Project Act, §5(b), 50 Stat. 735.]

832e. Rate schedules

Schedules of rates and charges for electric energy produced at the Bonneville project and sold to purchasers as in this chapter provided shall be prepared by the administrator and become effective upon confirmation and approval thereof by the Secretary of Energy; and such rates and charges shall also be applicable to dispositions of electric energy to Federal agencies. Subject to confirmation and approval by the Secretary of Energy, such rate schedules may be modified from time to time by the administrator, and shall be fixed and established with a view to encouraging the widest possible diversified use of electric energy. The said rate schedules may provide for uniform rates or rates uniform throughout prescribed transmission areas in order to extend the benefits of an integrated transmission system and encourage the equitable distribution of the electric energy developed at the Bonneville project.

[Bonneville Project Act, §6, 50 Stat. 735, as amended by Act of Oct. 23, 1945, ch. 433, §3, 59 Stat. 546, and DOE Act, §301(b), 91 Stat. 578, Aug. 4, 1977.]

832f. Elements in determining rates

It is the intent of Congress that rate schedules for the sale of electric energy which is or may be generated at the Bonneville project in excess of the amount required for operating the dam, locks, and appurtenant works at said project shall be determined with due regard to and predicated upon the fact that such electric energy is developed from water power created as an incident to the construction

Insure resale at reasonable and non-discriminate rates

Exchange of power

Rates

of the dam in the Columbia River at the Bonneville project for the purposes set forth in section 832 of this Title. Rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of Bonneville project) of the cost of producing and transmitting such electric energy, including the amortization of the capital investment over a reasonable period of years. Rate schedules shall be based upon an allocation of costs made by the Secretary of Energy. In computing the cost of electric energy developed from water power created as an incident to and a byproduct of the construction of the Bonneville project, the Secretary of Energy may allocate to the costs of electric facilities such a share of the cost of facilities having joint value for the production of electric energy and other purposes as the power development may fairly bear as compared with such other purposes.

[Bonneville Project Act, §7, 50 Stat. 735, as amended by DOE Act, §301(b), 91 Stat. 578, Aug. 4, 1977.]

Purchases

832g. Purchase of supplies and services

Notwithstanding any other provision of law, all purchases and contracts made by the administrator or the Secretary of the Army for supplies or for services except for personal services, shall be made after advertising, in such manner and at such times, sufficiently in advance of opening bids, as the administrator or Secretary of the Army, as the case may be, shall determine to be adequate to insure notice and opportunity for competition. Such advertisement shall not be required, however, when (1) an emergency requires immediate delivery of the supplies or performance of the services; or (2) repair parts, accessories, supplemental equipment, or services are required for supplies or services previously furnished or contracted for; or (3) the aggregate amount involved in any purchase of supplies or procurement of services does not exceed \$500; in which cases such purchases of supplies or procurement of services may be made in the open market in the manner common among businessmen. In comparing bids and in making awards, the administrator or the Secretary of the Army, as the case may be, may consider such factors as relative quality and adaptability of supplies or services, the bidder's financial responsibility, skill, experience, record of integrity in dealing, and ability to furnish repairs and maintenance services, the time of delivery or performance offered, and whether the bidder has complied with the specifications.

[Bonneville Project Act, §8, 50 Stat. 735-6.]

832h. Miscellaneous administrative provisions

Accounts of operations

832h(a). The administrator, subject to the requirements of the Federal Power Act, [16 U.S.C. §791a *et seq.*], shall keep complete and accurate accounts of operations, including all funds expended and received in connection with transmission and sale of electric energy

generated at the Bonneville project, and in the maintenance of such accounts, appropriate obligations shall be established for annual and sick leave of absence as earned. The Administrator shall, after the close of each fiscal year, obtain an independent commercial type audit of such accounts. The forms, systems, and procedures prescribed by the Comptroller General for the Administrator's appropriation and fund accounting shall be in accordance with the requirements of the Federal Power Act with respect to accounts of electric operations of public utilities and the regulations of the Federal Energy Regulation Commission pursuant thereto.

[Bonneville Project Act, §9(a), 50 Stat. 736, as amended by Act of Oct. 23, 1945, ch. 433, §4, 59 Stat. 547 and DOE Act, §402(a)(1)(B), 91 Stat. 583, Aug. 4, 1977.]

832h(b). The administrator may make such expenditures for offices, vehicles, furnishings, equipment, supplies, and books; for attendance at meetings; and for such other facilities and services as he may find necessary for the proper administration of this chapter.

[Bonneville Project Act, §9(b), 50 Stat. 736.]

832h(c). Repealed.

[Bonneville Project Act, §9(c), 50 Stat. 736 repealed by Pub. L. 89-448, §2(a), 80 Stat. 200, renumbered by Pub. L. 89-561 §6(1), Sept. 7, 1966, 80 Stat. 714.]

832i. Employment of personnel

832i(a). The Secretary of Energy shall appoint, without regard to the civil-service laws, an Assistant Administrator, chief engineer, and general counsel and shall fix the compensation of each in accordance with chapter 51 and subchapter III of chapter 53 of Title 5. The Assistant Administrator shall perform the duties and exercise the powers of the Administrator, in the event of the absence or sickness of the Administrator until such absence or sickness shall cease and in the event of a vacancy in the office of Administrator until a successor is appointed.

[Act of Oct. 23, 1945, ch. 433, §5, 59 Stat. 547 as amended by DOE Act, §§302(a)(1), (2), 91 Stat. 578, Aug. 4, 1977.]

832i(b). The Administrator, the Secretary of the Army, and the Secretary of Energy, respectively, are authorized to appoint, subject to the civil-service laws, such officers and employees as may be necessary to carry out the purposes of this chapter, the appointment of whom is not otherwise provided for, and to fix their compensation in accordance with chapter 51 and subchapter III of chapter 53 of Title 5. The Administrator may employ laborers, mechanics, and workmen in connection with construction work or the operation and maintenance of electrical facilities (hereinafter called "laborers, mechanics, and workmen"), subject to the civil-service laws. The Administrator is further authorized to employ physicians, under agreement and without regard to civil-service laws or regulations, to make physical

Expenditures

Secretarial appointments

Appointments

examinations of employees or prospective employees who are or may become laborers, mechanics, and workmen. The Administrator, the Secretary of the Army, and the Secretary of Energy, respectively, are also authorized to appoint, without regard to the civil-service laws, such experts as may be necessary for carrying out the functions entrusted to them under this chapter.³

[Bonneville Project Act, §10, 50 Stat. 736, as amended by Act of Oct. 23, 1945, ch. 433, §5, 59 Stat. 547, and DOE Act, §301(b), 91 Stat. 578, Aug. 4, 1977.]

Voluntary services

832i(c). The Administrator may accept and utilize such voluntary and uncompensated services and with the consent of the agency concerned may utilize such officers, employees, or equipment of any agency of the Federal, State, or local governments which he finds helpful in carrying out the purposes of this chapter; in connection with the utilization of such services, reasonable payments may be allowed for necessary travel and other expenses.

[Act of Oct. 23, 1945, ch. 433, §5, 59 Stat. 547.]

Receipts

832j. Deposit of receipts; authorization of appropriations

All receipts from transmission and sale of electric energy generated at the Bonneville project shall be covered into the Treasury of the United States to the credit of miscellaneous receipts, save and except that the Treasury shall set up and maintain from such receipts a continuing fund of \$500,000, to the credit of the administrator and subject to check by him, to defray emergency expenses and to insure continuous operation. There is authorized to be appropriated from time to time, out of moneys in the Treasury not otherwise appropriated, such sums as may be necessary to carry out the provisions of this chapter, including installation of equipment and machinery for the generation of electric energy and facilities for its transmission and sale.

[Bonneville Project Act, §11, 50 Stat. 736.]

832k. Authority of Administrator

Claims not in excess of \$1,000

832k(a). The Administrator is authorized to determine, settle, compromise, and pay claims and demands against the United States which are not in excess of \$1,000 and are presented to the Administrator in writing within one year from the date of accrual thereof, for any losses, injuries, or damages to persons or property, or for the death of persons, resulting from acts or omissions of employees acting within the scope of their employment pursuant to this chapter. The Administrator is also authorized to determine, compromise, and settle any claims and demands of the United States for any losses, injuries, or damages to property under the Administrator's control, against other persons or public or private corporations. The Administrator's determination, compromise, settlement, or payment of any of the claims referred to in this subsection shall be final and conclusive upon all officers of the Government, notwithstanding the provisions of any

3. See the Energy and Water Development Appropriation Act of 1991, limiting the power of the Executive Branch to change the employment levels of the Federal Power Marketing Administrations, *infra*, page 115.

other Act to the contrary. When claims presented to the Administrator under this subsection arise, in whole or in part, out of any damage done to private property, the Administrator may repair all or any part of such damage in lieu of making such payments.

[Act of Oct. 23, 1945, ch. 433, §6, 59 Stat. 547-8.]

832k(b). The Administrator may, in the name of the United States, under the supervision of the Attorney General, bring such suits at law or in equity as in his judgment may be necessary to carry out the purposes of this chapter; and he shall be represented in the prosecution and defense of all litigation, affecting the status or operation of Bonneville project by the United States attorneys for the districts, respectively, in which such litigation may arise, or by such attorney or attorneys as the Attorney General may designate as authorized by law, in conjunction with the regularly employed attorneys of the Administrator.

[Bonneville Project Act, §12(b), 50 Stat. 736, as amended by Act of Oct. 23, 1945, ch. 433, §6, 59 Stat. 548 and Act of July 26, 1946, ch. 673, 60 Stat. 701.]

832l. Severability of provisions

If any provision of this chapter or the application of such provision to any person or circumstance shall be held invalid, the remainder of the chapter and the application of such provision to persons or circumstances other than those as to which it is held invalid shall not be affected thereby.

[Bonneville Project Act, §13, 50 Stat. 736.]

832m. [Sale of excess federal power]

832m(a). Definitions

In this section:

832m(a)(1). Administrator

The term "Administrator" means the Administrator of the Bonneville Power Administration.

832m(a)(2). Council

The term "Council" means the Northwest Power and Conservation Planning Council.

832m(a)(3). Excess Federal power

The term "excess Federal power" means such electric power that has become surplus to the firm contractual obligations of the Administrator under [16 U.S.C 839c(f)] due to either -

832m(a)(3)(A). any reduction in the quantity of electric power that the Administrator is contractually required to supply under [16 U.S.C 839c(b) and (d)], due to the election by customers of the Bonneville Power Administration to purchase electric power from other suppliers, as compared to the quantity of electric power that the Administrator was contractually required to supply as of January 1, 1995; or

832m(a)(3)(B). those operations of the Federal Columbia River Power System that are primarily for the benefit of fish and wildlife affected by the development, operation, or management of the System.
[Pub.L. 104-46, § 508(a), November 13, 1995, 109 Stat. 419.]

832m(b). Sale of excess Federal power

Notwithstanding [16 U.S.C 837a, 16 U.S.C 837b(a), (b), (c), 16 U.S.C 837f, 16 U.S.C 839f(c)], the Administrator may, as permitted by otherwise applicable law, sell or otherwise dispose of excess Federal power —

Definitions

Authority to sell excess power

832m(b)(1). outside the Pacific Northwest on a firm basis for a contract term of not to exceed 7 years, if the excess Federal power is first offered for a reasonable period of time and under the same essential rate, terms and conditions to those Pacific Northwest public body, cooperative and investor-owned utilities and those direct service industrial customers identified in [16 U.S.C. 839c(b) or (d)(1)(A)]; and

832m(b)(2). in any region without the prohibition on resale established by the second sentence of [16 U.S.C. 832d(a)].

[Pub.L. 104-46, § 508(b), November 13, 1995, 109 Stat. 420.]

832m(c). Study by Council

832m(c)(1). [Footnote 1] Within 180 days of November 13, 1995, the Council shall review and report to Congress regarding the most appropriate governance structure to allow more effective regional control over efforts to conserve and enhance anadromous and resident fish and wildlife within the Federal Columbia River Power System.

[Footnote 1: So in original. No par. (2) has been enacted.]

[Pub.L. 104-46, § 508(c), November 13, 1995, 109 Stat. 420.]

832m(d). Corps of Engineers procurement

The Assistant Secretary of the Army for Civil Works, acting through the North Pacific Division of the Corps of Engineers, is authorized to place orders for goods and services related to facilities for electric power generation and fish and wildlife mitigation associated with the Federal Columbia River Power System with and through the Administrator using the authorities available to the Administrator.

[Pub.L. 104-46, § 508(d), November 13, 1995, 109 Stat. 420.]

832m(e). Residential exchange

Notwithstanding the establishment, confirmation and approval of rates pursuant to [16 U.S.C. 839e], and notwithstanding the provisions of [16 U.S.C. 839c(c)], the cost benefits of eligible utilities' total purchase and exchange sales under [16 U.S.C. 839c(c)(1)] shall be \$145,000,000 for fiscal year 1997, and the net benefits paid to each eligible electric utility shall be \$145,000,000 multiplied by the percentage of the total of such net benefits paid by the Administrator to such utility for fiscal year 1995.

[Pub.L. 104-46, § 508(e), November 13, 1995, 109 Stat. 420.]

832m(f). Personnel flexibility

The Administrator may offer employees voluntary separation incentives as deemed necessary which shall not exceed \$25,000. Recipients who accept employment with the United States within five

VSI authority

years after separation shall repay the entire amount to the Bonneville Power Administration. This authority shall expire January 1, 2003.

[Pub.L. 104-46, § 508(f), November 13, 1995, 109 Stat. 421 as amended by Pub.L. 104-206, § 511, September 30, 1996, 110 Stat. 3004.]

832m(g). Savings

Unless superseded by an Act of Congress, the authority provided by this section is expressly intended to extend beyond the fiscal year.

[Pub.L. 104-46, § 508(g), November 13, 1995, 109 Stat. 421; as amended Pub. L. 106-377, § 1(a)(2) [Title III], Oct. 27, 2000, 114 Stat. 1441, 1441A.]

CONGRESSIONAL RECORD Vol. 142 (1996)

GRAND COULEE DAM — THIRD POWERPLANT ACT

16 United States Code Chapter 12D (1994)

Act of June 14, 1966, 80 Stat. 200

Public Law No. 89-448, S. 1761.

835j. Projects marketing commercial power and energy... adjustment of rates to assure return of reimbursable construction costs within prescribed period

The Secretary of the Interior shall prepare, maintain, and present annually to the President and the Congress a consolidated financial statement for all projects heretofore or hereafter authorized, including the third powerplant at Grand Coulee Dam, from or by means of which commercial power and energy is marketed through the facilities of the Federal Columbia River power system and for all other projects associated therewith to the extent that the costs of these projects are required by law to be charged to and returned from net revenues derived from the power and energy, or any power and energy, so marketed, and he shall, if said consolidated statement indicates that the reimbursable construction costs of the projects, or any of the projects, covered thereby which are chargeable to and returnable from the commercial power and energy so marketed are likely not to be returned within the period prescribed by law, take prompt action to adjust the rates charged for such power and energy to the extent necessary to assure such return.

[Grand Coulee Dam — Third Powerplant Act (Third Powerplant Act), §2(a) formerly §2, June 14, 1966, 80 Stat. 200, renumbered by Pub. L. 89-561, §6(1), Sept. 7, 1966, 80 Stat. 714.]

835k. Return of construction costs from marketing revenues in event of inability of irrigation users to repay within repayment period and lack of other sources of revenue

Subject to the provisions of [16 U.S.C. 835l], that portion of the construction cost of any project hereafter authorized to be constructed, operated, and maintained by the Secretary of the Interior under the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto) within the Pacific Northwest which, though allocated to irrigation, is beyond the ability of the irrigation water users to repay within the repayment period prescribed by law for that project and cannot be returned within the same period from other project sources of revenue shall be charged to and returned within that period from net revenues derived from the marketing of commercial power and energy through the Federal

Columbia River power system, unless otherwise provided by law. As used in this section, the term “Pacific Northwest” has the meaning ascribed to it in [16 U.S.C. 837].

[Third Powerplant Act, §2(a) formerly §2, June 14, 1966, 80 Stat. 200, renumbered by Pub. L. 89-561, §6(1), (2), Sept. 7, 1966, 80 Stat. 714.]

835l. Congressional declaration of financial policy; limitations on assistance; analyses and studies; “net revenues” defined

It is declared to be the policy of the Congress that reclamation projects hereafter authorized in the Pacific Northwest to receive financial assistance from the Federal Columbia River power system shall receive such assistance only from the net revenues of that system as provided in this section, and that their construction shall be so scheduled that such assistance, together with similar assistance for previously authorized reclamation projects (including projects not now receiving such assistance for which the Congress may hereafter authorize financial assistance) will not cause increases in the rates and charges of the Bonneville Power Administration. It is further declared to be the policy of the Congress that the total assistance to all irrigation projects, both existing and future, in the Pacific Northwest shall not average more than \$30,000,000 annually in any period of twenty consecutive years. Any analyses and studies authorized by the Congress for reclamation projects in the Pacific Northwest shall be prepared in accordance with the provisions of [16 U.S.C. 835j-835m]. As used in [16 U.S.C. 835j-835m], the term “net revenues” means revenues as determined from time to time which are not required for the repayment of (1) all costs allocated to power at projects in the Pacific Northwest then existing or authorized, including the cost of acquiring power by purchase or exchange, and (2) presently authorized assistance from power to irrigation at projects in the Pacific Northwest existing and authorized prior to the September 7, 1966.

[Third Powerplant Act, §2(b), as added by Pub. L. 89-561, §6(3), Sept. 7, 1966, 80 Stat. 714.]

835m. Recommendations for changes in limitations of financial assistance; time and frequency of submission

On December 20, 1974, and thereafter at intervals coinciding with anniversary dates of Federal Energy Regulatory Commission general review of the rates and charges of the Bonneville Power Administration, the Secretary of the Interior shall recommend to the Congress any changes in the dollar limitations herein placed upon financial assistance to Pacific Northwest reclamation projects that he believes justified by changes in the cost-price levels existing on July 1, 1966, or by other relevant changes of circumstances.

[Third Powerplant Act, §2(c), as added by Pub. L. 89-561, §6(3), Sept. 7, 1966, 80 Stat. 715, and amended by Department of Energy Organization Act, Pub. L. 95-91, title IV, §402(a)(1)(B), Aug. 4, 1977, 91 Stat. 583.]

Historical Note

The functions of the Secretary of the Interior with respect to the Bonneville Power Administration were transferred to the Secretary of Energy by section 7152(a)(1)(D)(2) of Title 42, with the Bonneville Power Administration to be preserved as a distinct organization within the Department of Energy and headed by an Administrator.

Act of Aug. 31, 1964, 78 Stat. 756.
Public Law No. 88-552, S. 1007.*

Definitions

837. Definitions

As used in this chapter—

837(a). “Secretary” means the Secretary of Energy.

[Pub. L. 88-552, §1(a), Aug. 31, 1964, (Preference Act), 78 Stat. 756, as amended by DOE Act, §302(a), 91 Stat. 578, Aug. 4, 1977.]

837(b). “Pacific Northwest” means (1) the region consisting of the States of Oregon and Washington, the State of Montana west of the Continental Divide, and such portions of the States of Nevada, Utah, and Wyoming within the Columbia drainage basin and of the State of Idaho as the Secretary may determine to be within the marketing area of the Federal Columbia River power system, and (2) any contiguous areas, not in excess of seventy-five airline miles from said region, which are a part of the service area of a rural electric cooperative served by the Administrator on Dec. 5, 1980 which has a distribution system from which it serves both within and without said region.

[Preference Act, §1(b), 78 Stat. 756, as amended by Pacific Northwest Electric Power Planning and Conservation Act, §8(e), 94 Stat. 2729.]

837(c). “Surplus energy” means electric energy generated at Federal hydroelectric plants in the Pacific Northwest which would otherwise be wasted because of the lack of a market therefor in the Pacific Northwest at any established rate.

[Preference Act, §1(c), 78 Stat. 756.]

837(d). “Surplus peaking capacity” means electric peaking capacity at Federal hydroelectric plants in the Pacific Northwest for which there is no demand in the Pacific Northwest at any established rate.

[Preference Act, §1(d), 78 Stat. 756.]

837(e). “Non-Federal utility” means any utility not owned or controlled by the United States, including any entity (1) which such a utility owns or controls, in whole or in part, or is controlled by, (2) which is controlled by those controlling such utility, or (3) of which such utility is a member.

[Preference Act, §1(e), 78 Stat. 756.]

837(f). “Energy requirements of any Pacific Northwest customer” means the full requirements for electric energy of (1) any purchaser from the United States for direct consumption in the Pacific Northwest, and (2) any non-Federal utility in that region in excess of (i) the hydroelectric energy available for its own use from its generating plants in the Pacific Northwest, and (ii) any additional energy available for use in the Pacific Northwest which, under a then existing contract, the utility (A) can obtain at no higher incremental cost than the rate charged by the United States, or (B) is required to accept.

[Preference Act, §1(f), 78 Stat. 756.]

837(g). Terms not defined herein shall, unless the context requires otherwise, have the meaning given them in the March 1949 Glossary of Important Power and Rate Terms prepared under the supervision of the Federal Power Commission.

[Preference Act, §1(g), 78 Stat. 756.]

837a. Limitation of sale, delivery, and exchange of electric energy and electric peaking capacity for use outside Pacific Northwest to surplus energy and surplus peaking capacity; notice to customers; inspection of contract drafts

Sale of energy limited

Subject to the provisions of this chapter, the sale, delivery, and exchange of electric energy generated at, and peaking capacity of, Federal hydroelectric plants in the Pacific Northwest for use outside the Pacific Northwest shall be limited to surplus energy and surplus peaking capacity. At least 30 days prior to the execution of any contract for the sale, delivery, or exchange of surplus energy or surplus peaking capacity for use outside the Pacific Northwest, the Secretary shall give the then customers of the Bonneville Power Administration written notice that negotiations for such a contract are pending, and thereafter, at any customer’s request, make available for its inspection current drafts of the proposed contract.

[Preference Act, §2, 78 Stat. 756.]

837b. Contract terms and conditions for use of electric energy outside Pacific Northwest

837b(a). Any contract for the sale or exchange of surplus energy for use outside the Pacific Northwest, or as replacement, directly or indirectly, within the Pacific Northwest for hydroelectric energy delivered for use outside that region by a non-Federal utility, shall provide that the Secretary, after giving the purchaser notice not in excess of sixty days, will not deliver electric energy under such contract whenever it can reasonably be foreseen that such delivery would impair his ability to meet, either at or after the time of such delivery, the energy requirement of any Pacific Northwest customer. The purchaser shall obligate himself not to take delivery of or use any such energy to

Deliveries

supply any load under such conditions that discontinuance of deliveries from the Pacific Northwest in sixty days would cause undue hardship to the purchaser or in his territory, and, further, the purchaser shall acknowledge full responsibility if any such hardship occurs. Deliveries by a non-Federal utility from its generating plants in the Pacific Northwest for use on its own distribution system in an area outside but contiguous to the Pacific Northwest (not including any extension of its outside service area by merger or acquisition after August 31, 1964) shall not be deemed deliveries by such utility for use outside the Pacific Northwest.

[Preference Act, §3(a), 78 Stat. 756-7.]

Future demand

837b(b). Electric energy generated at Federal hydroelectric plants in the Pacific Northwest which can be conserved, for which there is no immediate demand in the Pacific Northwest at any established rate, but for which the Secretary determines there may be a demand in meeting the future requirements of the Pacific Northwest, may be delivered for use outside that region only on a provisional basis under contracts providing that if the Secretary determines at a subsequent time that, by virtue of prior deliveries under such contract, the Secretary is or will be unable to meet the energy requirements of any Pacific Northwest customer, the purchaser will return the full amount of energy delivered to him, or such portion or portions thereof as may be required, at such time or times as may be specified by the Secretary, except that the Secretary shall not require return during the purchaser's daily peak periods. The Secretary shall require the return of the energy provisionally delivered hereunder, to such extent and at such times, as may be necessary to meet demands at any established rate for use within the Pacific Northwest.

[Preference Act, §3(b), 78 Stat. 757.]

Contract for surplus capacity

837b(c). Any contract for the disposition of surplus peaking capacity shall provide that (1) the Secretary may terminate the contract upon notice not in excess of sixty months, and (2) the purchaser shall advance or return the energy necessary to supply the peaking capacity, except that the Secretary shall not require such advance or return during the purchaser's daily peak periods. The Secretary may contract for the sale of such energy to the purchaser, in lieu of its return, under the conditions prescribed in subsection (a) of this section.

[Preference Act, §3(c), 78 Stat. 757.]

837b(d). The Secretary, in making any determination of the energy requirements of any Pacific Northwest customer which is a non-Federal utility having hydroelectric generating facilities, shall exclude any amounts of hydroelectric energy generated in the Pacific Northwest and disposed of outside the Pacific Northwest by the utility

which, through reasonable measures, could have been conserved or otherwise kept available for the utility's own needs in the Pacific Northwest. The Secretary may sell the utility as a replacement therefor only what would otherwise be surplus energy.

[Preference Act, §3(d), 78 Stat. 757.]

837c. Contract limitations and conditions for use of electric energy and peaking capacity of plants in other marketing areas for use within Pacific Northwest

Any contract of the Secretary for the sale or exchange of electric energy generated at, or peaking capacity of, Federal hydroelectric plants in marketing areas outside the Pacific Northwest for use within the Pacific Northwest shall be subject to limitations and conditions corresponding to those provided in [16 U.S.C. 837a and 837b] for any contract for the sale or exchange of hydroelectric energy or peaking capacity generated within the Pacific Northwest for use outside the Pacific Northwest.

[Preference Act, §4, 78 Stat. 757-8.]

837d. Exchange contracts

Without regard to the limitations specified in [16 U.S.C. 837a and 837b], the Secretary may enter into contracts for the exchange with areas other than the Pacific Northwest of (1) surplus energy during the Pacific Northwest storage refill period, (2) any hydroelectric energy during the Pacific Northwest storage refill period which will be returned to the Pacific Northwest in equal amounts during the same Pacific Northwest refill period or the succeeding storage drawdown period, (3) any hydroelectric energy which will be returned to the Pacific Northwest in equal amounts during the same Pacific Northwest storage drawdown period, (4) hydroelectric peaking capacity, or (5) surplus peaking capacity for energy. All benefits from such exchanges, including resulting increases of firm power, shall be shared equitably by the areas involved, having regard to the secondary energy and other contributions made by each.

[Preference Act, §5, 78 Stat. 758.]

837e. Transmission lines for other electric energy; rates

Any capacity in Federal transmission lines connecting, either by themselves or with non-Federal lines, a generating plant in the Pacific Northwest or Canada with the other area or with any other area outside the Pacific Northwest, which is not required for the transmission of Federal energy or the energy described in [16 U.S.C. 837h], shall be made available as a carrier for transmission of other electric energy between such areas. The transmission of other electric energy shall be at equitable rates determined by the Secretary, but such rates shall be subject to equitable adjustment at appropriate intervals not less frequently than once in every five years as agreed to by the parties. No

Limitations

Transmission lines

Preference Act

Rates

contract for the transmission of non- Federal energy on a firm basis shall be affected by any increase, subsequent to the execution of such contract, in the requirements for transmission of Federal energy, the energy described in [16 U.S.C. 837h], or other electric energy.

[Preference Act, §6, 78 Stat. 758.]

Amendment of
existing contracts

837f. Purchaser priority on Pacific Northwest power; amendment of existing contracts and new contracts to include priority provisions

The Secretary shall offer to amend, without imposing any other requirement as a condition to such amendment, all existing contracts for the sale or exchange of electric power generated at Federal hydroelectric plants in the Pacific Northwest to include, and shall include in all new contracts, provisions giving the purchaser priority on electric power generated at such plants in conformity with the provisions of this chapter.

[Preference Act, §7, 78 Stat. 758.]

837g. Transmission lines between Pacific Northwest and the Pacific Southwest; prohibition against construction of lines and facilities recommended by Secretary or authorized by Congress; authority of Secretary to construct other transmission lines unaffected

No electric transmission lines or related facilities shall be constructed by any Federal agency outside the Pacific Northwest for the purpose of transmitting electric energy between the Pacific Northwest and Pacific Southwest, nor shall any arrangement for transmission capacity be executed by any Federal agency for the purpose of financing such lines and related facilities to be constructed by non-Federal entities, except those lines and facilities recommended for Federal construction in the Report of the Secretary of the Interior submitted to Congress on June 24, 1964, as supplemented on July 27, 1964, or as hereafter specifically authorized by Congress: *Provided*, That, except with respect to electric transmission lines and related facilities for the purpose of transmitting electric energy between the two regions above mentioned, nothing herein shall be construed as expanding or diminishing in any way the present authority of the Secretary of Energy to construct transmission lines to market power and energy.

[Preference Act, §8, 78 Stat. 758, as amended by DOE Act, §302(a), 91 Stat. 578, Aug. 4, 1977.]

Applicability

837g-1. Construction of additional facilities by Secretary of Energy for mutually beneficial power sales between Pacific Northwest and California; contribution of funds by non-Federal entities

Notwithstanding the provisions of [16 U.S.C. 837g], the Secretary of Energy is authorized to construct or participate in the construction of such additional facilities as he deems necessary to allow mutually

beneficial power sales between the Pacific Northwest and California and to accept funds contributed by non-Federal entities for that purpose.

[Energy and Water Development Appropriation Act of 1984, Pub. L. 98-360, title III, §300, July, 16, 1984, 98 Stat. 360.]

837h. Provisions not applicable to Canyon Ferry project or benefits and exchanges under Treaty between Canada and United States; preference of power users in Montana not modified

The provisions of this chapter shall not be applicable to (1) the Canyon Ferry project and (2), except as provided in [16 U.S.C. 837e], downstream power benefits to which Canada is entitled under the treaty between Canada and the United States relating to the cooperative development of the water resources of the Columbia River Basin, signed at Washington, July 17, 1961, nor to energy or capacity disposed of to Canada in any exchange pursuant to paragraph 1 or 2 of article VIII thereof. Nothing in this chapter shall be construed to modify the geographical preference of power users in the State of Montana which is established by the Hungry Horse Dam Act (Act of June 4, 1944, 58 Stat. 270), as amended.

[Preference Act, §9, 78 Stat. 758-9.]

CONGRESSIONAL RECORD Vol. 109 (1963)

CONGRESSIONAL RECORD Vol. 110 (1964)

FEDERAL COLUMBIA RIVER TRANSMISSION SYSTEM ACT

16 United States Code Chapter 12G (1994).

Act of Oct. 18, 1974, 88 Stat. 1376.

Public Law No. 93-454, S. 3362.

838. Congressional findings; authority and duties of Secretary of Energy relating to Federal Columbia River Power System unaffected

838(a). Congress finds that in order to enable the Secretary of Energy to carry out the policies of Public Law 88-552 [16 U.S.C. 837 *et seq.*] relating to the marketing of electric power from hydroelectric projects in the Pacific Northwest, Public Laws 89-448 and 89-561 [16 U.S.C. 835j-m] relating to use of revenues of the Federal Columbia River Power System to provide financial assistance to reclamation projects in the Pacific Northwest, the treaty between the United States and Canada relating to the cooperative development of the resources of the Columbia River Basin, and other applicable law, it is desirable and appropriate that the revenues of the Federal Columbia River Power System and the proceeds of revenue bonds be used to further the operation, maintenance, and further construction of the Federal transmission system in the Pacific Northwest.

[Federal Columbia River Transmission System Act, §2(a), (Transmission System Act), Oct. 18, 1974, 88 Stat. 1376, as amended by DOE Act, §302(a)(1)(D), 91 Stat. 578, Aug. 4, 1977.]

838(b). Other than as specifically provided herein, the present authority and duties of the Secretary of Energy relating to the Federal Columbia River Power System shall not be affected by this chapter. The authority and duties of the Administrator referred to herein are subject to the supervision and direction of the Secretary.

[Transmission System Act, §2(b), 88 Stat. 1376.]

838a. Definitions

As used in this chapter—

838a(a). The term “Administrator” means the Administrator, Bonneville Power Administration.

[Transmission System Act, §3(a), 88 Stat. 1376.]

838a(b). The term “electric power” means electric peaking capacity or electric energy, or both.

[Transmission System Act, §3(b), 88 Stat. 1376.]

Findings

Definitions

*Additions to
transmission system*

838a(c). The term “major transmission facilities” means transmission facilities intended to be used to provide services not previously provided by the Bonneville Power Administration with its own facilities.

[Transmission System Act, §3(c), 88 Stat. 1376.]

838b. Operation and maintenance of Federal transmission system; construction of improvements, betterments, additions and replacements; criteria

The Secretary of Energy, acting by and through the Administrator, shall operate and maintain the Federal transmission system within the Pacific Northwest and shall construct improvements, betterments, and additions to and replacements of such system within the Pacific Northwest as he determines are appropriate and required to:

838b(a). integrate and transmit the electric power from existing or additional Federal or non-Federal generating units;

[Transmission System Act, §4(a), 88 Stat. 1376.]

838b(b). provide service to the Administrator’s customers;

[Transmission System Act, §4(b), 88 Stat. 1376.]

838b(c). provide interregional transmission facilities; or

[Transmission System Act, §4(c), 88 Stat. 1376.]

838b(d). maintain the electrical stability and electrical reliability of the Federal system: Provided, however, That the Administrator shall not construct any transmission facilities outside the Pacific Northwest, excepting customer service facilities within any contiguous areas, not in excess of seventy-five airline miles from said region, which are a part of the service area of a distribution cooperative which has (i) no generating facilities, and (ii) a distribution system from which it serves both within and without said region, nor shall he commence construction of any major transmission facility within the Pacific Northwest, unless the expenditure of the funds for the initiation of such construction is specifically approved by Act of Congress.

[Transmission System Act, §4(d), 88 Stat. 1377.]

[Transmission System Act, §4, 88 Stat. 1377, as amended by DOE Act, §, 302(a)(1)(D), 91 Stat. 578, Aug. 4, 1977.]

*Limitations on
acquiring transmission
facilities by
condemnation*

838c. Acquisition by condemnation of transmission facilities

838c(a). Unless specifically authorized by Act of Congress, the Administrator shall not expend funds made available under this chapter, other than funds specifically appropriated by the Congress for such purpose, to acquire any operating transmission facility by condemnation: Provided, That this provision shall not restrict the acquisition of the right to cross such a facility by condemnation.

[Transmission System Act, §5(a), 88 Stat. 1377.]

838c(b). At least sixty days prior to the time a request for approval or authority under this section or section 838b of this Title is sent to Congress, the Administrator shall give notice of such request to entities in the Pacific Northwest with which the Administrator has power sales or exchange contracts or transmission contracts or which have a transmission interconnection with the Federal transmission system.

[*Transmission System Act, §5(b), 88 Stat. 1377.*]

838d. Transmission of non-Federal power

The Administrator shall make available to all utilities on a fair and nondiscriminatory basis, any capacity in the Federal transmission system which he determines to be in excess of the capacity required to transmit electric power generated or acquired by the United States.

[*Transmission System Act, §6, 88 Stat. 1377.*]

838e. Acquisition of property

Subject to the provisions of section 838c of this Title the Administrator may purchase or lease or otherwise acquire and hold such real and personal property in the name of the United States as he deems necessary or appropriate to carry out his duties pursuant to law.

[*Transmission System Act, §7, 88 Stat. 1377.*]

838f. Marketing of Federal power; sales agent

The Administrator is hereby designated as the marketing agent for all electric power generated by Federal generating plants in the Pacific Northwest, constructed by, under construction by, or presently authorized for construction by the Bureau of Reclamation or the United States Corps of Engineers except electric power required for the operation of each Federal project and except electric power from the Green Springs project of the Bureau of Reclamation.⁴

[*Transmission System Act, §8, 88 Stat. 1377.*]

838g. Schedules of rates and charges for sale of Federal power and transmission of non-Federal power; confirmation and approval; criteria for modification and establishment

Schedules of rates and charges for the sale, including dispositions to Federal agencies, of all electric power made available to the Administrator pursuant to section 838f of this Title or otherwise acquired, and for the transmission of non-Federal electric power over the Federal transmission system, shall become effective upon confirmation and approval thereof by the Secretary of Energy. Such rate schedules may be modified from time to time by the Secretary of Energy, acting by and through the Administrator, subject to confirmation and approval by the Secretary of Energy, and shall be fixed and established (1) with a view to encouraging the widest possible diversified use of electric power at the lowest possible rates to

Rates

4. See 33 U.S.C §2213, that requires the Administrator to comment on the marketability of the power to be produced by any new hydroelectric power project proposed by the Secretary of Energy, *infra*, page 154.

Cost allocation

consumers consistent with sound business principles, (2) having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of the projects) of the cost of producing and transmitting such electric power, including the amortization of the capital investment allocated to power over a reasonable period of years and payments provided for in section 838i(b)(9) of this Title, and (3) at levels to produce such additional revenues as may be required, in the aggregate with all other revenues of the Administrator, to pay when due the principal of, premiums, discounts, and expenses in connection with the issuance of and interest on all bonds issued and outstanding pursuant to this chapter, and amounts required to establish and maintain reserve and other funds and accounts established in connection therewith.⁵

[Transmission System Act, §9, 88 Stat. 1377-8, as amended by DOE Act, §§301(b), 302(a)(1)(D), 91 Stat. 578, Aug. 4, 1977.]

838h. Uniform schedules of rates and charges for sale of Federal power and transmission of non-Federal power; allocation of cost recovery

The said schedules of rates and charges for transmission, the said schedules of rates and charges for the sale of electric power, or both such schedules, may provide, among other things, for uniform rates or rates uniform throughout prescribed transmission areas. The recovery of the cost of the Federal transmission system shall be equitably allocated between Federal and non-Federal power utilizing such system.

[Transmission System Act, §10, 88 Stat. 1378.]

838i. Bonneville Power Administration fund

Establishment of BPA fund

838i(a). There is hereby established in the Treasury of the United States a Bonneville Power Administration fund (hereinafter referred to as the "fund"). The fund shall consist of (1) all receipts, collections, and recoveries of the Administrator in cash from all sources, including trust funds, (2) all proceeds derived from the sale of bonds by the Administrator, (3) any appropriations made by the Congress for the fund, and (4) the following funds which are hereby transferred to the Administrator: (i) all moneys in the special account in the Treasury established pursuant to Executive Order Numbered 8526 dated August 26, 1940, (ii) the unexpended balances in the continuing fund established by the provisions of section 832j of this Title, and (iii) the unexpended balances of funds appropriated or otherwise made available for the Bonneville Power Administration. All funds transferred hereunder shall be available for expenditure by the Secretary of Energy, acting by and through the Administrator, as authorized in this chapter and any other Act relating to the Federal Columbia River transmission system, subject to such limitations as may be prescribed by any applicable appropriation act effective

5. See Energy and Water Development Appropriation Act of 1993 that reaffirms Congress' commitment to cost-based rates, *infra*, page 146.

during such period as may elapse between their transfer and the approval by the Congress of the first subsequent annual budget program of the Administrator.⁶

[Transmission System Act, §11(a), 88 Stat. 1378, as amended by DOE Act, §302(a)(1)(D), 91 Stat. 578, Aug. 4, 1977.]

838i(b). The Administrator may make expenditures from the fund, which shall have been included in his annual budget submitted to Congress, without further appropriation and without fiscal year limitation, but within such specific directives or limitations as may be included in appropriation acts, for any purpose necessary or appropriate to carry out the duties imposed upon the Administrator pursuant to law, including but not limited to —

Purposes

838i(b)(1). construction, acquisition, and replacement of (i) the transmission system, including facilities and structures appurtenant thereto, and (ii) additions, improvements, and betterments thereto (hereinafter in this chapter referred to as “transmission system”);

[Transmission System Act, §11(b)(1), 88 Stat. 1378-9.]

838i(b)(2). operation, maintenance, repair, and relocation, to the extent such relocation is not provided for under subsection (1) above, of the transmission system;

[Transmission System Act, §11(b)(2), 88 Stat. 1379.]

838i(b)(3). electrical research, development, experimentation, tests, and investigation related to construction, operation, and maintenance of transmission systems and facilities;

[Transmission System Act, §11(b)(3), 88 Stat. 1379.]

838i(b)(4). marketing of electric power;

[Transmission System Act, §11(b)(4), 88 Stat. 1379.]

838i(b)(5). transmission over facilities of others and rental, lease, or lease-purchase of facilities;

[Transmission System Act, §11(b)(5), 88 Stat. 1379.]

838i(b)(6). purchase of electric power (including the entitlement of electric plant capability) (i) on a short-term basis to meet temporary deficiencies in electric power which the Administrator is obligated by contract to supply, or (ii) if such purchase has been heretofore authorized or is made with funds expressly appropriated for such purchase by the Congress, (iii) if to be paid for with funds provided by other entities for such purpose under a trust or agency arrangement, or (iv) on a short term basis to meet the Administrator’s obligations under section 839b(h) of this Title;

[Transmission System Act, §11(b)(6), 88 Stat. 1379 as amended by Pacific Northwest Electric Power Planning and Conservation Act, Pub. L. 96-501, §8(a), Dec. 5, 1980, 94 Stat. 2728.]

6. The Fund is exempt from the Balanced Budget and Emergency Deficit Control Act of 1985, *infra*, page 1.

838i(b)(7). defraying emergency expenses or insuring continuous operation;

[Transmission System Act, §11(b)(7), 88 Stat. 1379.]

838i(b)(8). paying the interest on, premiums, discounts, and expenses, if any, in connection with the issuance of, and principal of all bonds issued under section 838k(a) of this Title, including provision for and maintenance of reserve and other funds established in connection therewith;

[Transmission System Act, §11(b)(8), 88 Stat. 1379.]

838i(b)(9). making such payments to the credit of the reclamation fund or other funds as are required by or pursuant to law to be made into such funds in connection with reclamation projects in the Pacific Northwest: *Provided*, That this clause shall not be construed as permitting the use of revenues for repayment of costs allocated to irrigation at any project except as otherwise expressly authorized by law;

[Transmission System Act, §11(b)(9), 88 Stat. 1379.]

838i(b)(10). making payments to the credit of miscellaneous receipts of the Treasury for all unpaid costs required by or pursuant to law to be charged to and returned to the general fund of the Treasury for the repayment of the Federal investment in the Federal Columbia River Power System from electric power marketed by the Administrator;

[Transmission System Act, §11(b)(10), 88 Stat. 1379.]

838i(b)(11). acquiring such goods and services, and paying dues and membership fees in such professional, utility, industry, and other societies, associations, and institutes, together with expenses related to such memberships, including but not limited to the acquisitions and payments set forth in the general provisions of the annual appropriations Act for the Department of Energy, as the Administrator determines to be necessary or appropriate in carrying out the purposes of this chapter; and

[Transmission System Act, §11(b)(11), 88 Stat. 1379, as amended by DOE Act, §302(a)(1)(D), 91 Stat. 578, Aug. 4, 1977.]

838i(b)(12). making such payments, as shall be required to carry out the purposes and provisions of the Pacific Northwest Regional Power Planning and Conservation Act [16 U.S.C. 839 *et seq.*].

[Pacific Northwest Electric Power Planning and Conservation Act, §8(b), 94 Stat. 2728.]

838i(c). Moneys heretofore or hereafter appropriated shall be used only for the purposes for which appropriated, and moneys received by the Administrator in trust shall be used only for carrying out such trust. The provisions of chapter 91 of Title 31 shall be

Moneys received in trust

applicable to the Administrator in the same manner as they are applied to the wholly owned Government corporations named in section 101 such Act (31 U.S.C. 846), but nothing in the proviso of section 850 of title 31, United States Code, shall be construed as affecting the powers granted in subsection (b)(11) of this section and in [16 U.S.C 832a(f), 832i(b), and 832i(a)].

[Transmission System Act, §11(c), 88 Stat. 1379-80.]

838i(d). Notwithstanding the provisions of sections 105 and 106 of the Government Corporation Control Act, the financial transactions of the Administrator shall be audited by the Comptroller General at such times and to such extent as the Comptroller General deems necessary, and reports of the results of each such audit shall be made to the Congress within 6-1/2 months following the end of the fiscal year covered by the audit.⁷

[Transmission System Act, §11(d), 88 Stat. 1380.]

Federal Columbia River Transmission Act continues on page 68 after 16 United States Code 838i note.

Audit report to Congress

7. Codified as a note to this section is the Energy and Water Development Act of 1989 that authorizes Bonneville to incur obligations for authorized purposes in excess of borrowing authority and cash in the Bonneville Power Administration Fund, *infra*, page 66.

CONGRESSIONAL RECORD Vol. 134 (1988)

FEDERAL COLUMBIA RIVER TRANSMISSION SYSTEM ACT OF 1974

(Continued)

838j. Investment of excess moneys; deposit of moneys

838j(a). If the Administrator determines that moneys in the fund are in excess of current needs he may request the investment of such amounts as he deems advisable by the Secretary of the Treasury in direct, general obligations of, or obligations guaranteed as to both principal and interest by, the United States of America.

[Transmission System Act, §12(a), 88 Stat. 1380.]

838j(b). With the approval of the Secretary of the Treasury, the Administrator may deposit moneys of the fund in any Federal Reserve bank or other depository for funds of the United States of America, or in such other banks and financial institutions and under such terms and conditions as the Administrator and the Secretary of the Treasury may mutually agree.

[Transmission System Act, §12(b), 88 Stat. 1380.]

838k. Bonneville Power Administration bonds

838k(a). The Administrator is authorized to issue and sell to the Secretary of the Treasury from time to time in the name and for and on behalf of the Bonneville Power Administration bonds, notes, and other evidences of indebtedness (in this chapter collectively referred to as "bonds") to assist in financing the construction, acquisition, and replacement of the transmission system, to implement the Administrator's authority pursuant to the Pacific Northwest Electric Power Planning and Conservation Act [16 U.S.C. 839 *et seq.*] (including his authority to provide financial assistance for conservation measures, renewable resources, and fish and wildlife, but not including the authority to acquire under section 6 of that Act [16 U.S.C. 839d] electric power from a generating facility having a planned capability greater than 50 average megawatts), and to issue and sell bonds to refund such bonds. Such bonds shall be in such forms and denominations, bear such maturities, and be subject to such terms and conditions as may be prescribed by the Secretary of the Treasury taking into account terms and conditions prevailing in the market for similar bonds, the useful life of the facilities for which the bonds are issued, and financing practices of the utility industry. Refunding provisions may be prescribed by the Administrator. Such bonds shall bear interest at a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable

Issuance and sale

Interest rate

maturities, plus an amount in the judgment of the Secretary of the Treasury to provide for a rate comparable to the rates prevailing in the market for similar bonds issued by Government corporations. Beginning in fiscal year 1982, if the Administrator fails to repay by the end of any fiscal year all of the amounts projected immediately prior to such year to be repaid to the Treasury by the end of such year under the repayment criteria of the Secretary of Energy and if such failure is due to reasons other than (A) a decrease in power sale revenues due to fluctuating stream-flows or (B) other reasons beyond the control of the Administrator, the Secretary of the Treasury may increase the interest rate applicable to the outstanding bonds issued by the Administrator during such fiscal year. Such increase shall be effective commencing with the fiscal year immediately following the fiscal year during which such failure occurred and shall not exceed 1 per centum for each such fiscal year during which such repayments are not in accord with such criteria. The Secretary of the Treasury shall take into account amounts that the Administrator has repaid in advance of any repayment criteria in determining whether to increase such rate. Before such rate is increased, the Secretary of the Treasury, in consultation with the Administrator and the Federal Energy Regulatory Commission, must be satisfied that the Administrator will have the ability to pay such interest rate, taking into account the Administrator's obligations. Such increase shall terminate with the fiscal year in which repayments (including repayments of the increased rate) are in accordance with the repayment criteria of the Secretary of Energy. The aggregate principal amount of any such bonds outstanding at any one time shall not exceed \$1,250,000,000 prior to October 1, 1981. Such aggregate principal limitation shall be increased by and additional \$1,250,000,000 after October 1, 1981, as provided in advance in annual appropriation Acts, and such increased amount shall be reserved for the purpose of providing funds for conservation and renewable resource loans and grants in a special revolving account created therefor in the Fund. The funds from such revolving account shall not be deemed State or local funds.⁸

[Transmission System Act, §13(a), 88 Stat. 1380, as amended by the Pacific Northwest Electric Power Planning and Conservation Act §8(d), 97 Stat. 2729.]

838k(b). The principal of, premiums, if any, and interest on such bonds shall be payable solely from the Administrator's net proceeds as hereinafter defined. "Net proceeds" shall mean for the purposes of this section the remainder of the Administrator's gross receipts from all sources after first deducting trust funds and the costs listed in [16 U.S.C 838i(b)(2) through (b)(7), (b)(11) and (b)(12)], and shall include reserve or other funds created from such receipts.

[Transmission System Act, §13(b), 88 Stat. 1380, as amended by the Pacific Northwest Electric Power Planning and Conservation Act §8(c), 97 Stat. 2728.]

Failure to repay

Limitation on aggregate principal

Source of payment proceeds

8. See Continuing Appropriations for 1983, providing \$1.25 million in borrowing authority for conservation and renewable resources, *infra*, page 146. See Energy and Water Development Appropriation Act of 1984, Title III, that increases borrowing authority an additional \$1,250,000,000 *infra*, page 134.

838k(c). The Secretary of the Treasury shall purchase forthwith any bonds issued by the Administrator under this chapter and for that purpose is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of Title 31, as now or hereafter in force, and the purposes for which securities may be issued under chapter 31 of Title 31, as now or hereafter in force, are extended to include any purchases of the bonds issued by the Administrator under this chapter. The Secretary of the Treasury may, at any time, sell any of the bonds acquired by him under this chapter. All redemptions, purchases, and sales by the Secretary of the Treasury of such bonds shall be treated as public debt transactions of the United States.

838I. Bonneville Power Administration refinancing

Definitions

838I(a). Definitions

For the purposes of this section—

838I(a)(1). “Administrator” means the Administrator of the Bonneville Power Administration;

838I(a)(2). “capital investment” means a capitalized cost funded by Federal appropriations that—

838I(a)(2)(A). is for a project, facility, or separable unit or feature of a project or facility;

838I(a)(2)(B). is a cost for which the Administrator is required by law to establish rates to repay to the United States Treasury through the sale of electric power, transmission, or other services;

838I(a)(2)(C). excludes a Federal irrigation investment; and

838I(a)(2)(D). excludes an investment financed by the current revenues of the Administrator or by bonds issued and sold, or authorized to be issued and sold, by the Administrator under [16 U.S.C. 838k];

838I(a)(3). “new capital investment” means a capital investment for a project, facility, or separable unit or feature of a project or facility, placed in service after September 30, 1996;

838I(a)(4). “old capital investment” means a capital investment the capitalized cost of which—

838I(a)(4)(A). was incurred, but not repaid, before October 1, 1996, and

838I(a)(4)(B). was for a project, facility, or separable unit or feature of a project or facility, placed in service before October 1, 1996;

838I(a)(5). “repayment date” means the end of the period within which the Administrator’s rates are to assure the repayment of the principal amount of a capital investment; and

838I(a)(6). “Treasury rate” means—

838I(a)(6)(A). for an old capital investment, a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding October 1, 1996, on outstanding interest-bearing obligations of the United States with periods to maturity comparable to the period between October 1, 1996, and the repayment date for the old capital investment; and

838I(a)(6)(B). for a new capital investment, a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding the beginning of the fiscal year in which the related project, facility, or separable unit or feature is placed in service, on outstanding interest-bearing obligations of the United States with periods to maturity comparable to the period between the beginning of the fiscal year and the repayment date for the new capital investment.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

838I(b). New principal amounts

838I(b)(1). Principle amount

Effective October 1, 1996, an old capital investment has a new principal amount that is the sum of—

838I(b)(1)(A). the present value of the old payment amounts for the old capital investment, calculated using a discount rate equal to the Treasury rate for the old capital investment; and

838I(b)(1)(B). an amount equal to \$ 100,000,000 multiplied by a fraction whose numerator is the principal amount of the old payment amounts for the old capital investment and whose denominator is the sum of the principal amounts of the old payment amounts for all old capital investments.

838I(b)(2). Determination

With the approval of the Secretary of the Treasury based solely

New principal amounts

on consistency with this section, the Administrator shall determine the new principal amounts under subsection (b) and the assignment of interest rates to the new principal amounts under subsection (c) of this section.

*Old payment amounts***838I(b)(3). Old payment amounts**

For the purposes of this subsection, “old payment amounts” means, for an old capital investment, the annual interest and principal that the Administrator would have paid to the United States Treasury from October 1, 1996, if this section had not been enacted, assuming that—

838I(b)(3)(A). the principal were repaid—

838I(b)(3)(A)(i). on the repayment date the Administrator assigned before October 1, 1994, to the old capital investment, or

838I(b)(3)(A)(ii). with respect to an old capital investment for which the Administrator has not assigned a repayment date before October 1, 1994, on a repayment date the Administrator shall assign to the old capital investment in accordance with paragraph 10(d)(1) of the version of Department of Energy Order RA 6120.2 in effect on October 1, 1994; and

838I(b)(3)(B). interest were paid—

838I(b)(3)(B)(i). at the interest rate the Administrator assigned before October 1, 1994, to the old capital investment, or

838I(b)(3)(B)(ii). with respect to an old capital investment for which the Administrator has not assigned an interest rate before October 1, 1994, at a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding the beginning of the fiscal year in which the related project, facility, or separable unit or feature is placed in service, on outstanding interest-bearing obligations of the United States with periods to maturity comparable to the period between the beginning of the fiscal year and the repayment date for the old capital investment.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

*Interest rate***838I(c). Interest rate for new principle amounts**

As of October 1, 1996, the unpaid balance on the new principal amount established for an old capital investment under subsection (b) of this section bears interest annually at the Treasury rate for the old capital investment until the earlier of the date that the new principal amount is repaid or the repayment date for the new principal amount.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

838I(d). Repayment dates

As of October 1, 1996, the repayment date for the new principal amount established for an old capital investment under subsection (b) of this section is no earlier than the repayment date for the old capital investment assumed in subsection (b)(3)(A) of this section.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

838I(e). Prepayment limitations

During the period October 1, 1996, through September 30, 2001, the total new principal amounts of old capital investments, as established under subsection (b), that the Administrator may pay before their respective repayment dates shall not exceed \$ 100,000,000.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

838I(f). Interest rates for new capital investments during construction**838I(f)(1). New capital investment**

The principal amount of a new capital investment includes interest in each fiscal year of construction of the related project, facility, or separable unit or feature at a rate equal to the one-year rate for the fiscal year on the sum of—

New capital investment

838I(f)(1)(A). construction expenditures that were made from the date construction commenced through the end of the fiscal year, and

838I(f)(1)(B). accrued interest during construction.

838I(f)(2). Payment

The Administrator is not required to pay, during construction of the project, facility, or separable unit or feature, the interest calculated, accrued, and capitalized under subsection (f)(1) of this section.

838I(f)(3). One-year rate

For the purposes of this section, “one-year rate” for a fiscal year means a rate determined by the Secretary of the Treasury, taking into consideration prevailing market yields, during the month preceding the beginning of the fiscal year, on outstanding interest-bearing obligations of the United States with periods to maturity of approximately one year.

838I(g). Interest rates for new capital investments

The unpaid balance on the principal amount of a new capital investment bears interest at the Treasury rate for the new capital investment from the date the related project, facility, or separable unit or feature is placed in service until the earlier of the date the new capital investment is repaid or the repayment date for the new capital investment.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

Contract provisions

838I(h). Omitted

838I(i). Contract provisions

In each contract of the Administrator that provides for the Administrator to sell electric power, transmission, or related services, and that is in effect after September 30, 1996, the Administrator shall offer to include, or as the case may be, shall offer to amend to include, provisions specifying that after September 30, 1996—

838I(i)(1). the Administrator shall establish rates and charges on the basis that—

838I(i)(1)(A). the principal amount of an old capital investment shall be no greater than the new principal amount established under subsection (b) of this section;

838I(i)(1)(B). the interest rate applicable to the unpaid balance of the new principal amount of an old capital investment shall be no greater than the interest rate established under subsection (c) of this section;

838I(i)(1)(C). any payment of principal of an old capital investment shall reduce the outstanding principal balance of the old capital investment in the amount of the payment at the time the payment is tendered; and

838I(i)(1)(D). any payment of interest on the unpaid balance of the new principal amount of an old capital investment shall be a credit against the appropriate interest account in the amount of the payment at the time the payment is tendered;

838I(i)(2). apart from charges necessary to repay the new principal amount of an old capital investment as established under subsection (b) of this section and to pay the interest on the principal amount under subsection (c) of this section, no amount may be charged for return to the United States Treasury as repayment for or return on an old capital investment, whether by way of rate, rent, lease payment, assessment, user charge, or any other fee;

838I(i)(3). amounts provided under section 1304 of title 31 shall be available to pay, and shall be the sole source for payment of, a judgment against or settlement by the Administrator or the United States on a claim for a breach of the contract provisions required by this [section]; and

838I(i)(4). the contract provisions specified in this [section] do not—

838I(i)(4)(A). preclude the Administrator from recovering, through rates or other means, any tax that is generally imposed on electric utilities in the United States, or

838I(i)(4)(B). affect the Administrator’s authority under applicable law, including [section 7(g) of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839e(g))], to—

838I(i)(4)(B)(i). allocate costs and benefits, including but not limited to fish and wildlife costs, to rates or resources, or

838I(i)(4)(B)(ii). design rates.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

838I(j). Savings provisions

838I(j)(1). Repayment

This subchapter does not affect the obligation of the Administrator to repay the principal associated with each capital investment, and to pay interest on the principal, only from the “Administrator’s net proceeds,” as defined in section 838k(b) of this title.

*Repayment from
Administrator’s net
proceeds*

838I(j)(2). Payment of capital investment

Except as provided in subsection (e) of this section, this section does not affect the authority of the Administrator to pay all or a portion of the principal amount associated with a capital investment before the repayment date for the principal amount.

[Pub.L. 104-134, Title III, § 3201, 110 Stat. 1321-350.]

839. Congressional declaration of purpose

The purposes of this chapter, together with the provisions of other laws applicable to the Federal Columbia River Power System, are all intended to be construed in a consistent manner. Such purposes are also intended to be construed in a manner consistent with applicable environmental laws. Such purposes are:

Purposes

839(1). to encourage, through the unique opportunity provided by the Federal Columbia River Power System—

839(1)(A). conservation and efficiency in the use of electric power, and

[Pacific Northwest Electric Power Planning and Conservation Act (Northwest Power Act), §2(1)(A), Dec. 5, 1980, 94 Stat. 2697.]

839(1)(B). the development of renewable resources within the Pacific Northwest;

[Northwest Power Act, §2(1)(B), 94 Stat. 2697.]

839(2). to assure the Pacific Northwest of an adequate, efficient, economical, and reliable power supply;

[Northwest Power Act, §2(2), 94 Stat. 2697.]

839(3). to provide for the participation and consultation of the Pacific Northwest States, local governments, consumers, customers, users of the Columbia River System (including Federal and State fish and wildlife agencies and appropriate Indian tribes), and the public at large within the region in—

839(3)(A). the development of regional plans and programs related to energy conservation, renewable resources, other resources, and protecting, mitigating, and enhancing fish and wildlife resources.

[Northwest Power Act, §2(3)(A), 94 Stat. 2697.]

839(3)(B). facilitating the orderly planning of the region's power system, and

[Northwest Power Act, §2(3)(B), 94 Stat. 2698.]

839(3)(C). providing environmental quality;

[Northwest Power Act, §2(3)(C), 94 Stat. 2698.]

839(4). to provide that the customers of the Bonneville Power Administration and their consumers continue to pay all costs necessary to produce, transmit, and conserve resources to meet the region's electric power requirements, including the amortization on a current basis of the Federal investment in the Federal Columbia River Power System;

[Northwest Power Act, §2(4), 94 Stat. 2698.]

839(5). to insure, subject to the provisions of this chapter—

839(5)(A). that the authorities and responsibilities of State and local governments, electric utility systems, water management agencies, and other non-Federal entities for the regulation, planning, conservation, supply, distribution, and use of electric power shall be construed to be maintained, and

[Northwest Power Act, §2(5)(A), 94 Stat. 2698.]

839(5)(B). that Congress intends that this chapter not be construed to limit or restrict the ability of customers to take actions in accordance with other applicable provisions of Federal or State law, including, but not limited to, actions to plan, develop, and operate resources and to achieve conservation, without regard to this chapter; and

[Northwest Power Act, §2(5)(B), 94 Stat. 2698.]

839(6). to protect, mitigate and enhance the fish and wildlife, including related spawning grounds and habitat, of the Columbia River and its tributaries, particularly anadromous fish which are of significant importance to the social and economic well-being of the Pacific Northwest and the Nation and which are dependent on suitable environmental conditions substantially obtainable from the management and operation of Federal Columbia River Power System and other power generating facilities on the Columbia River and its tributaries.

[Northwest Power Act, §2(6), 94 Stat. 2698.]

839a. Definitions

As used in this chapter, the term—

839a(1). "Acquire" and "acquisition" shall not be construed as authorizing the Administrator to construct, or have ownership of, under this chapter or any other law, any electric generating facility.

[Northwest Power Act, §3(1), 94 Stat. 2698.]

839a(2). “Administrator” means the Administrator of the Bonneville Power Administration.

[Northwest Power Act, §3(2), 94 Stat. 2698.]

839a(3). “Conservation” means any reduction in electric power consumption as a result of increases in the efficiency of energy use, production, or distribution.

[Northwest Power Act, §3(3), 94 Stat. 2698.]

839a(4)(A). “Cost-effective”, when applied to any measure or resource referred to in this chapter, means that such measure or resource must be forecast—

Cost-effective

839a(4)(A)(i). to be reliable and available within the time it is needed, and

[Northwest Power Act, §3(4)(A)(i), 94 Stat. 2698.]

Reliable

839a(4)(A)(ii). to meet or reduce the electric power demand, as determined by the Council or the Administrator, as appropriate, of the consumers of the customers at an estimated incremental system cost no greater than that of the least-cost similarly reliable and available alternative measure or resource, or any combination thereof.

[Northwest Power Act, §3(4)(A)(ii), 94 Stat. 2698.]

Meet or reduce electric power demand

839a(4)(B). For purposes of this paragraph, the term “system cost” means an estimate of all direct costs of a measure or resource over its effective life, including, if applicable, the cost of distribution and transmission to the consumer and, among other factors, waste disposal costs, end-of-cycle costs, and fuel costs (including projected increases), and such quantifiable environmental costs and benefits as the Administrator determines, on the basis of a methodology developed by the Council as part of the plan, or in the absence of the plan by the Administrator, are directly attributable to such measure or resource.

[Northwest Power Act, §3(4)(B), 94 Stat. 2698-9.]

System cost

839a(4)(C). In determining the amount of power that a conservation measure or other resource may be expected to save or to produce, the Council or the Administrator, as the case may be, shall take into account projected realization factors and plant factors, including appropriate historical experience with similar measures or resources.

[Northwest Power Act, §3(4)(C), 94 Stat. 2699.]

839a(4)(D). For purposes of this paragraph, the “estimated incremental system cost” of any conservation measure or resource shall not be treated as greater than that of any non-conservation measure or

Conservation favored

resource unless the incremental system cost of such conservation measure or resource is in excess of 110 per centum of the incremental system cost of the nonconservation measure or resource.

[Northwest Power Act, §3(4)(D), 94 Stat. 2699.]

839a(5). “Consumer” means any end user of electric power.

[Northwest Power Act, §3(5), 94 Stat. 2699.]

839a(6). “Council” means, unless otherwise specifically provided, the members appointed to the Pacific Northwest Electric Power and Conservation Planning Council established pursuant to section 839b of this title.

[Northwest Power Act, §3(6), 94 Stat. 2699.]

839a(7). “Customer” means anyone who contracts for the purchase of power from the Administrator pursuant to this chapter.

[Northwest Power Act, §3(7), 94 Stat. 2699.]

839a(8). “Direct service industrial customer” means an industrial customer that contracts for the purchase of power from the Administrator for direct consumption.

[Northwest Power Act, §3(8), 94 Stat. 2699.]

839a(9). “Electric power” means electric peaking capacity, or electric energy, or both.

[Northwest Power Act, §3(9), 94 Stat. 2699.]

839a(10). “Federal base system resources” means—

839a(10)(A). the Federal Columbia River Power System hydroelectric projects;

[Northwest Power Act, §3(10)(A), 94 Stat. 2699.]

839a(10)(B). resources acquired by the Administrator under long-term contracts in force on December 5, 1980; and

[Northwest Power Act, §3(10)(B), 94 Stat. 2699.]

839a(10)(C). resources acquired by the Administrator in an amount necessary to replace reductions in capability of the resources referred to in subparagraphs (A) and (B) of this paragraph.

[Northwest Power Act, §3(10)(C), 94 Stat. 2699.]

839a(11). “Indian tribe” means any Indian tribe or band which is located in whole or in part in the region and which has a governing body which is recognized by the Secretary of the Interior.

[Northwest Power Act, §3(11), 94 Stat. 2699.]

839a(12). “Major resource” means any resource that—

Major resource

839a(12)(A). has a planned capability greater than fifty average megawatts, and

[Northwest Power Act, §3(12)(A), 94 Stat. 2699.]

839a(12)(B). if acquired by the Administrator, is acquired for a period of more than five years.

[Northwest Power Act, §3(12)(B), 94 Stat. 2699.]

839A(12) [cont.]. Such term does not include any resource acquired pursuant to section 838i(b)(6) of this title.

[Northwest Power Act, §3(12), 94 Stat. 2699.]

839a(13). “New large single load” means any load associated with a new facility, an existing facility, or an expansion of an existing facility—

839a(13)(A). which is not contracted for, or committed to, as determined by the Administrator, by a public body, cooperative, investor-owned utility, or Federal agency customer prior to September 1, 1979, and

[Northwest Power Act, §3(13)(A), 94 Stat. 2699-2700.]

839a(13)(B). which will result in an increase in power requirements of such customer of ten average megawatts or more in any consecutive twelve-month period.

[Northwest Power Act, §3(13)(B), 94 Stat. 2700.]

839a(14). “Pacific Northwest”, “region”, or “regional” means—

“Region”

839a(14)(A). the area consisting of the States of Oregon, Washington, and Idaho, the portion of the State of Montana west of the Continental Divide, and such portions of the States of Nevada, Utah, and Wyoming as are within the Columbia River drainage basin; and

[Northwest Power Act, §3(14)(A), 94 Stat. 2700.]

839a(14)(B). any contiguous areas, not in excess of seventy-five air miles from the area referred to in subparagraph (A), which are a part of the service area of a rural electric cooperative customer served by the Administrator on December 5, 1980, which has a distribution system from which it serves both within and without such region.

[Northwest Power Act, §3(14)(B), 94 Stat. 2700.]

839a(15). “Plan” means the Regional Electric Power and Conservation plan (including any amendments thereto) adopted pursuant to this chapter and such plan shall apply to actions of the Administrator as specified in this chapter.

[Northwest Power Act, §3(15), 94 Stat. 2700.]

839a(16). “Renewable resource” means a resource which utilizes solar, wind, hydro, geothermal, biomass, or similar sources of energy and which either is used for electric power generation or will reduce the electric power requirements of a consumer, including by direct application.

[Northwest Power Act, §3(16), 94 Stat. 2700.]

839a(17). “Reserves” means the electric power needed to avert particular planning or operating shortages for the benefit of firm power customers of the Administrator and available to the Administrator (A) from resources or (B) from rights to interrupt, curtail, or otherwise withdraw, as provided by specific contract provisions, portions of the electric power supplied to customers.

[Northwest Power Act, §3(17), 94 Stat. 2700.]

839a(18). “Residential use” or “residential load” means all usual residential, apartment, seasonal dwelling and farm electrical loads or uses, but only the first four hundred horsepower during any monthly billing period of farm irrigation and pumping for any farm.

[Northwest Power Act, §3(18), 94 Stat. 2700.]

839a(19). “Resource” means—

839a(19)(A). electric power, including the actual or planned electric power capability of generating facilities, or

[Northwest Power Act, §3(19)(A), 94 Stat. 2700.]

839a(19)(B). actual or planned load reduction resulting from direct application of a renewable energy resource by a consumer, or from a conservation measure.

[Northwest Power Act, §3(19)(B), 94 Stat. 2700.]

839a(20). “Secretary” means the Secretary of Energy.

[Northwest Power Act, §3(20), 94 Stat. 2700.]

839b. Regional planning and participation

839b(a). Pacific Northwest Electric Power and Conservation Planning Council; establishment and operation as regional agency

839b(a)(1). The purposes of this section are to provide for the prompt establishment and effective operation of the Pacific Northwest Electric Power and Conservation Planning Council, to further the purposes of this chapter by the Council promptly preparing and adopting (A) a regional conservation and electric power plan and (B) a program to protect, mitigate, and enhance fish and wildlife, and to otherwise expeditiously and effectively carry out the Council’s responsibilities and functions under this chapter.

[Northwest Power Act, §4(a)(1), 94 Stat. 2700.]

Establishment of the Pacific Northwest Electric Power and Conservation Planning Council

Prepare plan and program

839b(a)(2). To achieve such purposes and facilitate cooperation among the States of Idaho, Montana, Oregon, and Washington, and with the Bonneville Power Administration, the consent of Congress is given for an agreement described in this paragraph and not in conflict with this chapter, pursuant to which—

839b(a)(2)(A). there shall be established a regional agency known as the “Pacific Northwest Electric Power and Conservation Planning Council” which (i) shall have its offices in the Pacific Northwest, (ii) shall carry out its functions and responsibilities in accordance with the provisions of this chapter, (iii) shall continue in force and effect in accordance with the provisions of this chapter, and (iv) except as otherwise provided in this chapter, shall not be considered an agency or instrumentality of the United States for the purpose of any Federal law; and

[Northwest Power Act, §4(a)(2)(A), 94 Stat. 2701.]

839b(a)(2)(B). two persons from each State may be appointed, subject to the applicable laws of each such State, to undertake the functions and duties of members of the Council.

[Northwest Power Act, §4(a)(2)(B), 94 Stat. 2701.]

839b(a)(2). The State may fill any vacancy occurring prior to the expiration of the term of any member. The appointment of six initial members, subject to applicable State law, by June 30, 1981, by at least three of such States shall constitute an agreement by the States establishing the Council and such agreement is hereby consented to by the Congress. Upon request of the Governors of two of the States, the Secretary shall extend the June 30, 1981, date for six additional months to provide more time for the States to make such appointments.

[Northwest Power Act, §4(a)(2), 94 Stat. 2701.]

839b(a)(3). Except as otherwise provided by State law, each member appointed to the Council shall serve for a term of three years, except that, with respect to members initially appointed, each Governor shall designate one member to serve a term of two years and one member to serve a term of three years. The members of the Council shall select from among themselves a chairman. The members and officers and employees of the Council shall not be deemed to be officers or employees of the United States for any purpose. The Council shall appoint, fix compensation, and assign and delegate duties to such executive and additional personnel as the Council deems necessary to fulfill its functions under this chapter, taking into account such information and analyses as are, or are likely to be, available from other sources pursuant to provisions of this chapter. The compensation of the members shall be fixed by State law. The compensation of the members

Member appointment

Term

Compensation

and officers shall not exceed the rate prescribed for Federal officers and positions at step 1 of level GS-18 of the General Schedule.

[Northwest Power Act, §4(a)(3), 94 Stat. 2701.]

839b(a)(4). For the purpose of providing a uniform system of laws, in addition to this chapter, applicable to the Council relating to the making of contracts, conflicts-of-interest, financial disclosure, open meetings of the Council, advisory committees, disclosure of information, judicial review of Council functions and actions under this chapter, and related matters, the Federal laws applicable to such matters in the case of the Bonneville Power Administration shall apply to the Council to the extent appropriate, except that with respect to open meetings, the Federal laws applicable to open meetings in the case of the Federal Energy Regulatory Commission shall apply to the Council to the extent appropriate. In applying the Federal laws applicable to financial disclosure under the preceding sentence, such laws shall be applied to members of the Council without regard to the duration of their service on the Council or the amount of compensation received for such service. No contract, obligation, or other action of the Council shall be construed as an obligation of the United States or an obligation secured by the full faith and credit of the United States. For the purpose of judicial review of any action of the Council or challenging any provision of this chapter relating to functions and responsibilities of the Council, notwithstanding any other provision of law, the courts of the United States shall have exclusive jurisdiction of any such review.

[Northwest Power Act, §4(a)(4), 94 Stat. 2701-2.]

839b(b). Alternative establishment of Council as Federal agency

839b(b)(1). If the Council is not established and its members are not timely appointed in accordance with subsection (a) of this section, or if, at any time after such Council is established and its members are appointed in accordance with subsection (a)—

839b(b)(1)(A). any provision of this chapter relating to the establishment of the Council or to any substantial function or responsibility of the Council (including any function or responsibility under subsection (d) or (h) of this section or under section 839d(c) of this title) is held to be unlawful by a final determination of any Federal court, or

[Northwest Power Act, §4(b)(1)(A), 94 Stat. 2702.]

839b(b)(1)(B). the plan or any program adopted by such Council under this section is held by a final determination of such a court to be ineffective by reason of subsection (a)(2)(B) of this section,

[Northwest Power Act, §4(b)(1)(B), 94 Stat. 2702.]

839b(b)(1) [cont.]. the Secretary shall establish the Council pursuant to this subsection as a Federal agency. The Secretary shall promptly publish a notice thereof in the Federal Register and notify the Governors of each of the States referred to in subsection (a) of this section.

[Northwest Power Act, §4(b)(1), 94 Stat. 2702.]

839b(b)(2). As soon as practicable, but not more than thirty days after the publication of the notice referred to in paragraph (1) of this subsection, and thereafter within forty-five days after a vacancy occurs, the Governors of the States of Washington, Oregon, Idaho, and Montana may each (under applicable State laws, if any) provide to the Secretary a list of nominations from such State for each of the State's positions to be selected for such Council. The Secretary may extend this time an additional thirty days. The list shall include at least two persons for each such position. The list shall include such information about such nominees as the Secretary may request. The Secretary shall appoint the Council members from each Governor's list of nominations for each State's positions, except that the Secretary may decline to appoint for any reason any of a Governor's nominees for a position and shall so notify the Governor. The Governor may thereafter make successive nominations within forty-five days of receipt of such notice until nominees acceptable to the Secretary are appointed for each position. In the event the Governor of any such State fails to make the required nominations for any State position on such Council within the time specified for such nominations, the Secretary shall select from such State and appoint the Council member or members for such position. The members of the Council shall select from among themselves one member of the Council as Chairman.

[Northwest Power Act, §4(b)(2), 94 Stat. 2702.]

839b(b)(3). The members of the Council established by this subsection who are not employed by the United States or a State shall receive compensation at a rate equal to the rate prescribed for offices and positions at level GS-18 of the General Schedule for each day such members are engaged in the actual performance of duties as members of such Council, except that no such member may be paid more in any calendar year than an officer or employee at step 1 of level GS-18 is paid during such year. Members of such Council shall be considered officers or employees of the United States for purposes of title II of the Ethics in Government Act of 1978 (5 U.S.C. app.) and shall also be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in Government service are allowed expenses under section 5703 of title 5. Such Council may appoint, and assign duties to, an executive director who shall serve at the pleasure of such Council and who shall be compensated

at the rate established for GS-18 of the General Schedule. The executive director shall exercise the powers and duties delegated to such director by such Council, including the power to appoint and fix compensation of additional personnel in accordance with applicable Federal law to carry out the functions and responsibilities of such Council.

[Northwest Power Act, §4(b)(3), 94 Stat. 2702-3.]

839b(b)(4). When a Council is established under this subsection after a Council was established pursuant to subsection (a) of this section, the Secretary shall provide, to the greatest extent feasible, for the transfer to the Council established by this subsection of all funds, books, papers, documents, equipment, and other matters in order to facilitate the Council's capability to achieve the requirements of subsections (d) and (h) of this section. In order to carry out its functions and responsibilities under this chapter expeditiously, the Council shall take into consideration any actions of the Council under subsection (a) and may review, modify, or confirm such actions without further proceedings.

[Northwest Power Act, §4(b)(4), 94 Stat. 2703.]

839b(b)(5)(A). At any time beginning one year after the plan referred to in such subsection (d) of this section and the program referred to in such subsection (h) of this section are both finally adopted in accordance with this chapter, the Council established pursuant to this subsection shall be terminated by the Secretary 90 days after the Governors of three of the States referred to in this subsection jointly provide for any reason to the Secretary a written request for such termination. Except as provided in subparagraph (B), upon such termination all functions and responsibilities of the Council under this chapter shall also terminate.

[Northwest Power Act, §4(b)(5)(A), 94 Stat. 2703.]

839b(b)(5)(B). Upon such termination of the Council, the functions and responsibilities of the Council set forth in subsection (h) of this section shall be transferred to, and continue to be funded and carried out, jointly, by the Administrator, the Secretary of the Interior, and the Administrator of the National Marine Fisheries Service, in the same manner and to the same extent as required by such subsection and in cooperation with the Federal and the region's State fish and wildlife agencies and Indian tribes referred to in subsection (h) of this section and the Secretary shall provide for the transfer to them of all records, books, documents, funds, and personnel of such Council that relate to subsection (h) matters. In order to carry out such functions and responsibilities expeditiously, the Administrator, the Secretary of the Interior, and the Administrator of the National Marine Fisheries

Service shall take into consideration any actions of the Council under this subsection, and may review, modify, or confirm such actions without further proceedings. In the event the Council is terminated pursuant to this paragraph, whenever any action of the Administrator requires any approval or other action by the Council, the Administrator may take such action without such approval or action, except that the Administrator may not implement any proposal to acquire a major generating resource or to grant billing credits involving a major generating resource until the expenditure of funds for that purpose is specifically authorized by Act of Congress enacted after such termination.

[Northwest Power Act, §4(b)(5)(B), 94 Stat. 2703.]

839b(c). Organization and operation of Council

839b(c)(1). The provisions of this subsection shall, except as specifically provided in this subsection, apply to the Council established pursuant to either subsection (a) or (b) of this section.

[Northwest Power Act, §4(c)(1), 94 Stat. 2703.]

839b(c)(2). A majority of the members of the Council shall constitute a quorum. Except as otherwise provided specifically in this chapter, all actions and decisions of the Council shall be by majority vote of the members present and voting. The plan or any part thereof and any amendment thereto shall not be approved unless such plan or amendment receives the votes of—

Quorum

839b(c)(2)(A). a majority of the members appointed to the Council, including the vote of at least one member from each State with members on the Council; or

[Northwest Power Act, §4(c)(2)(A), 94 Stat. 2704.]

839b(c)(2)(B). at least six members of the Council.

[Northwest Power Act, §4(c)(2)(B), 94 Stat. 2704.]

839b(c)(3). The Council shall meet at the call of the Chairman or upon the request of any three members of the Council. If any member of the Council disagrees with respect to any matter transmitted to any Federal or State official or any other person or wishes to express additional views concerning such matter, such member may submit a statement to accompany such matter setting forth the reasons for such disagreement or views.

[Northwest Power Act, §4(c)(3), 94 Stat. 2704.]

Meetings

839b(c)(4). The Council shall determine its organization and prescribe its practices and procedures for carrying out its functions and responsibilities under this chapter. The Council shall make available to the public a statement of its organization, practices, and procedures,

and make available to the public its annual work program budget at the time the President submits his annual budget to Congress.

[Northwest Power Act, §4(c)(4), 94 Stat. 2704.]

839b(c)(5). Upon request of the Council established pursuant to subsection (b) of this section, the head of any Federal agency is authorized to detail or assign to the Council, on a reimbursable basis, any of the personnel of such agency to assist the Council in the performance of its functions under this chapter.

[Northwest Power Act, §4(c)(5), 94 Stat. 2704.]

839b(c)(6). At the Council's request, the Administrator of the General Services Administration shall furnish the Council established pursuant to subsection (b) of this section with such offices, equipment, supplies, and services in the same manner and to the same extent as such Administrator is authorized to furnish to any other Federal agency or instrumentality such offices, supplies, equipment, and services.

[Northwest Power Act, §4(c)(6), 94 Stat. 2704.]

Information to Congress

839b(c)(7). Upon the request of the Congress or any committee thereof, the Council shall promptly provide to the Congress, or to such committee, any record, report, document, material, and other information which is in the possession of the Council.

[Northwest Power Act, §4(c)(7), 94 Stat. 2704.]

Solicit studies from customers and from other bodies or organizations in the region with particular expertise

839b(c)(8). To obtain such information and advice as the Council determines to be necessary or appropriate to carry out its functions and responsibilities pursuant to this chapter, the Council shall, to the greatest extent practicable, solicit engineering, economic, social, environmental, and other technical studies from customers of the Administrator and from other bodies or organizations in the region with particular expertise.

[Northwest Power Act, §4(c)(8), 94 Stat. 2704.]

839b(c)(9). The Administrator and other Federal agencies, to the extent authorized by other provisions of law, shall furnish the Council all information requested by the Council as necessary for performance of its functions, subject to such requirements of law concerning trade secrets and proprietary data as may be applicable.

[Northwest Power Act, §4(c)(9), 94 Stat. 2704.]

Compensation and expenses payment

839b(c)(10)(A). At the request of the Council, the Administrator shall pay from funds available to the Administrator the compensation and other expenses of the Council as are authorized by this chapter, including the reimbursement of those States with members on the Council for services and personnel to assist in preparing a plan

pursuant to subsection (d) of this section and a program pursuant to subsection (h) of this section, as the Council determines are necessary or appropriate for the performance of its functions and responsibilities. Such payments shall be included by the Administrator in his annual budgets submitted to Congress pursuant to the Federal Columbia River Transmission System Act [16 U.S.C. 838 *et seq.*] and shall be subject to the requirements of that Act, including the audit requirements of section 11(d) of such Act [16 U.S.C. 838i(d)]. The records, reports, and other documents of the Council shall be available to the Comptroller General for review in connection with such audit or other review and examination by the Comptroller General pursuant to other provisions of law applicable to the Comptroller General. Funds provided by the Administrator for such payments shall not exceed annually an amount equal to 0.02 mill multiplied by the kilowatthours of firm power forecast to be sold by the Administrator during the year to be funded. In order to assist the Council's initial organization, the Administrator after Dec. 5 1980, shall promptly prepare and propose an amended annual budget to expedite payment for Council activities.

[Northwest Power Act, §4(c)(10)(A), 94 Stat. 2704-5.]

Payment limit

839b(c)(10)(B). Notwithstanding the limitation contained in the fourth sentence of subparagraph (A) of this paragraph, upon an annual showing by the Council that such limitation will not permit the Council to carry out its functions and responsibilities under this chapter the Administrator may raise such limit up to any amount not in excess of 0.10 mill multiplied by the kilowatt hours of firm power forecast to be sold by the Administrator during the year to be funded.

[Northwest Power Act, §4(c)(10)(B), 94 Stat. 2705.]

May raise limit

839b(c)(11). The Council shall establish a voluntary scientific and statistical advisory committee to assist in the development, collection, and evaluation of such statistical, biological, economic, social, environmental, and other scientific information as is relevant to the Council's development and amendment of a regional conservation and electric power plan.

[Northwest Power Act, §4(c)(11), 94 Stat. 2705.]

839b(c)(12). The Council may establish such other voluntary advisory committees as it determines are necessary or appropriate to assist it in carrying out its functions and responsibilities under this chapter.

[Northwest Power Act, §4(c)(12), 94 Stat. 2705.]

839b(c)(13). The Council shall ensure that the membership for any advisory committee established or formed pursuant to this section shall, to the extent feasible, include representatives of, and seek the

advice of, the Federal, and the various regional, State, local, and Indian Tribal Governments, consumer groups, and customers.
[Northwest Power Act, §4(c)(13), 94 Stat. 2705.]

839b(d). Regional conservation and electric power plan

*Electric power plan
to administrator*

Hearings on the plan

839b(d)(1). Within two years after the Council is established and the members are appointed pursuant to subsection (a) or (b) of this section, the Council shall prepare, adopt, and promptly transmit to the Administrator a regional conservation and electric power plan. The adopted plan, or any portion thereof, may be amended from time to time, and shall be reviewed by the Council not less frequently than once every five years. Prior to such adoption, public hearings shall be held in each Council member’s State on the plan or substantial, nontechnical amendments to the plan proposed by the Council for adoption. A public hearing shall also be held in any other State of the region on the plan or amendments thereto, if the Council determines that the plan or amendments would likely have a substantial impact on that State in terms of major resources which may be developed in that State and which the Administrator may seek to acquire. Action of the Council under this subsection concerning such hearings shall be subject to section 553 of title 5, and such procedure as the Council shall adopt.

[Northwest Power Act, §4(d)(1), 94 Stat. 2705.]

839b(d)(2). Following adoption of the plan and any amendment thereto, all actions of the Administrator pursuant to section 839d of this title shall be consistent with the plan and any amendment thereto, except as otherwise specifically provided in this chapter.

[Northwest Power Act, §4(d)(2), 94 Stat. 2705.]

839b(e). Plan priorities and requisite features; studies

Plan priority

839b(e)(1). The plan shall, as provided in this paragraph, give priority to resources which the Council determines to be cost-effective. Priority shall be given: first, to conservation; second, to renewable resources; third, to generating resources utilizing waste heat or generating resources of high fuel conversion efficiency; and fourth, to all other resources.

[Northwest Power Act, §4(e)(1), 94 Stat. 2705.]

*Conservation
measures*

839b(e)(2). The plan shall set forth a general scheme for implementing conservation measures and developing resources pursuant to section 839d of this title to reduce or meet the Administrator’s obligations with due consideration by the Council for (A) environmental quality, (B) compatibility with the existing regional power system, (C) protection, mitigation, and enhancement of fish

and wildlife and related spawning grounds and habitat, including sufficient quantities and qualities of flows for successful migration, survival, and propagation of anadromous fish, and (D) other criteria which may be set forth in the plan.

[Northwest Power Act, §4(e)(2), 94 Stat. 2706.]

839b(e)(3). To accomplish the priorities established by this subsection, the plan shall include the following elements which shall be set forth in such detail as the Council determines to be appropriate:

839b(e)(3)(A). an energy conservation program to be implemented under this chapter, including, but not limited to, model conservation standards;

[Northwest Power Act, §4(e)(3)(A), 94 Stat. 2706.]

839b(e)(3)(B). recommendation for research and development;

[Northwest Power Act, §4(e)(3)(B), 94 Stat. 2706.]

839b(e)(3)(C). a methodology for determining quantifiable environmental costs and benefits under section 839a(4) of this title;

[Northwest Power Act, §4(e)(3)(C), 94 Stat. 2706.]

839b(e)(3)(D). a demand forecast of at least twenty years (developed in consultation with the Administrator, the customers, the States, including State agencies with ratemaking authority over electric utilities, and the public, in such manner as the Council deems appropriate) and a forecast of power resources estimated by the Council to be required to meet the Administrator's obligations and the portion of such obligations the Council determines can be met by resources in each of the priority categories referred to in paragraph (1) of this subsection which forecast (i) shall include regional reliability and reserve requirements, (ii) shall take into account the effect, if any, of the requirements of subsection (h) of this section on the availability of resources to the Administrator, and (iii) shall include the approximate amounts of power the Council recommends should be acquired by the Administrator on a long-term basis and may include, to the extent practicable, an estimate of the types of resources from which such power should be acquired;

[Northwest Power Act, §4(e)(3)(D), 94 Stat. 2706.]

839b(e)(3)(E). an analysis of reserve and reliability requirements and cost-effective methods of providing reserves designed to insure adequate electric power at the lowest probable cost;

[Northwest Power Act, §4(e)(3)(E), 94 Stat. 2706.]

839b(e)(3)(F). the program adopted pursuant to subsection (h); of this section and

[Northwest Power Act, §4(e)(3)(F), 94 Stat. 2706.]

*Twenty-year
demand forecast*

839b(e)(3)(G). if the Council recommends surcharges pursuant to subsection (f) of this section, a methodology for calculating such surcharges.

[Northwest Power Act, §4(e)(3)(G), 94 Stat. 2706.]

839b(e)(4). The Council, taking into consideration the requirement that it devote its principal efforts to carrying out its responsibilities under subsections (d) and (h) of this section, shall undertake studies of conservation measures reasonably available to direct service industrial customers and other major consumers of electric power within the region and make an analysis of the estimated reduction in energy use which would result from the implementation of such measures as rapidly as possible, consistent with sound business practices. The Council shall consult with such customers and consumers in the conduct of such studies.

[Northwest Power Act, §4(e)(4), 94 Stat. 2706.]

839b(f). Model conservation standards; surcharges

Model conservation standards

839b(f)(1). Model conservation standards to be included in the plan shall include, but not be limited to, standards applicable to (A) new and existing structures, (B) utility, customer, and governmental conservation programs, and (C) other consumer actions for achieving conservation. Model conservation standards shall reflect geographic and climatic differences within the region and other appropriate considerations, and shall be designed to produce all power savings that are cost-effective for the region and economically feasible for consumers, taking into account financial assistance made available to consumers under section 839d(a) of this title. These model conservation standards shall be adopted by the Council and included in the plan after consultation, in such manner as the Council deems appropriate, with the Administrator, States, and political subdivisions, customers of the Administrator, and the public.

[Northwest Power Act, §4(f)(1), 94 Stat. 2706-7.]

839b(f)(2). The Council by a majority vote of the members of the Council is authorized to recommend the Administrator a surcharge and the Administrator may thereafter impose such a surcharge, in accordance with the methodology provided in the plan, on customers for those portions of their loads within the region that are within States or political subdivisions which have not, or on the Administrator's customers which have not, implemented conservation measures that achieve energy savings which the Administrator determines are comparable to those which would be obtained under such standards. Such surcharges shall be established to recover such additional costs as the Administrator determines will be incurred because such projected

energy savings attributable to such conservation measures have not been achieved, but in no case may such surcharges be less than 10 per centum or more than 50 per centum of the Administrator's applicable rates for such load or portion thereof.

[Northwest Power Act, §4(f)(2), 94 Stat. 2707.]

839b(g). Public information; consultation; contracts and technical assistance

839b(g)(1). To insure widespread public involvement in the formulation of regional power policies, the Council and Administrator shall maintain comprehensive programs to—

839b(g)(1)(A). inform the Pacific Northwest public of major regional power issues,

[Northwest Power Act, §4(g)(1)(A), 94 Stat. 2707.]

839b(g)(1)(B). obtain public views concerning major regional power issues, and

[Northwest Power Act, §4(g)(1)(B), 94 Stat. 2707.]

839b(g)(1)(C). secure advice and consultation from the Administrator's customers and others.

[Northwest Power Act, §4(g)(1)(C), 94 Stat. 2707.]

839b(g)(2). In carrying out the provisions of this section, the Council and the Administrator shall—

839b(g)(2)(A). consult with the Administrator's customers;

[Northwest Power Act, §4(g)(2)(A), 94 Stat. 2707.]

839b(g)(2)(B). include the comments of such customers in the record of the Council's proceedings; and

[Northwest Power Act, §4(g)(2)(B), 94 Stat. 2707.]

839b(g)(2)(C). recognize and not abridge the authorities of State and local governments, electric utility systems, and other non-Federal entities responsible to the people of the Pacific Northwest for the planning, conservation, supply, distribution, and use of electric power and the operation of electric generating facilities.

[Northwest Power Act, §4(g)(2)(C), 94 Stat. 2707.]

839b(g)(3). In the preparation, adoption, and implementation of the plan, the Council and the Administrator shall encourage the cooperation, participation, and assistance of appropriate Federal agencies, State entities, State political subdivisions, and Indian tribes. The Council and the Administrator are authorized to contract, in

Plan preparation

Technical assistance

accordance with applicable law, with such agencies, entities, tribes, and subdivisions individually, in groups, or through associations thereof to (A) investigate possible measures to be included in the plan, (B) provide public involvement and information regarding a proposed plan or amendment thereto, and (C) provide services which will assist in the implementation of the plan. In order to assist in the implementation of the plan, particularly conservation, renewable resource, and fish and wildlife activities, the Administrator, when requested and subject to available funds, may provide technical assistance in establishing conservation, renewable resource, and fish and wildlife objectives by individual States or subdivisions thereof or Indian tribes. Such objectives, if adopted by a State or subdivision thereof or Indian tribes, may be submitted to the Council and the Administrator for review, and upon approval by the Council, may be incorporated as part of the plan.

[Northwest Power Act, §4(g)(3), 94 Stat. 2707-8.]

839b(h). Fish and wildlife

Program

839b(h)(1)(A). The Council shall promptly develop and adopt, pursuant to this subsection, a program to protect, mitigate, and enhance fish and wildlife, including related spawning grounds and habitat, on the Columbia River and its tributaries. Because of the unique history, problems, and opportunities presented by the development and operation of hydroelectric facilities on the Columbia River and its tributaries, the program, to the greatest extent possible, shall be designed to deal with that river and its tributaries as a system.

[Northwest Power Act, §4(h)(1)(A), 94 Stat. 2708.]

839b(h)(1)(B). This subsection shall be applicable solely to fish and wildlife, including related spawning grounds and habitat, located on the Columbia River and its tributaries. Nothing in this subsection shall alter, modify, or affect in any way the laws applicable to rivers or river systems, including electric power facilities related thereto, other than the Columbia River and its tributaries, or affect the rights and obligations of any agency, entity, or person under such laws.

[Northwest Power Act, §4(h)(1)(B), 94 Stat. 2708.]

839b(h)(2). The Council shall request, in writing, promptly after the Council is established under either subsection (a) or (b) of this section and prior to the development or review of the plan, or any major revision thereto, from the Federal and the region’s State fish and wildlife agencies and from the region’s appropriate Indian tribes, recommendations for—

839b(h)(2)(A). measures which can be expected to be implemented by the Administrator, using authorities under this chapter

and other laws, and other Federal agencies to protect, mitigate, and enhance fish and wildlife, including related spawning grounds and habitat, affected by the development and operation of any hydroelectric project on the Columbia River and its tributaries;

[Northwest Power Act, §4(h)(2)(A), 94 Stat. 2708.]

839b(h)(2)(B). establishing objectives for the development and operation of such projects on the Columbia River and its tributaries in a manner designed to protect, mitigate, and enhance fish and wildlife; and

[Northwest Power Act, §4(h)(2)(B), 94 Stat. 2708.]

839b(h)(2)(C). fish and wildlife management coordination and research and development (including funding) which, among other things, will assist protection, mitigation, and enhancement of anadromous fish at, and between, the region’s hydroelectric dams.

[Northwest Power Act, §4(h)(2)(C), 94 Stat. 2708.]

839b(h)(3). Such agencies and tribes shall have 90 days to respond to such request, unless the Council extends the time for making such recommendations. The Federal and the region’s water management agencies, and the region’s electric power producing agencies, customers, and public may submit recommendations of the type referred to in paragraph (2) of this subsection. All recommendations shall be accompanied by detailed information and data in support of the recommendations.

[Northwest Power Act, §4(h)(3), 94 Stat. 2708.]

839b(h)(4)(A). The Council shall give notice of all recommendations and shall make the recommendations and supporting documents available to the Administrator, to the Federal and the region’s, State fish and wildlife agencies, to the appropriate Indian tribes, to Federal agencies responsible for managing, operating, or regulating hydroelectric facilities located on the Columbia River or its tributaries, and to any customer or other electric utility which owns or operates any such facility. Notice shall also be given to the public. Copies of such recommendations and supporting documents shall be made available for review at the offices of the Council and shall be available for reproduction at reasonable cost.

[Northwest Power Act, §4(h)(4)(A), 94 Stat. 2708.]

839b(h)(4)(B). The Council shall provide for public participation and comment regarding the recommendations and supporting documents, including an opportunity for written and oral comments, within such reasonable time as the Council deems appropriate.

[Northwest Power Act, §4(h)(4)(B), 94 Stat. 2709.]

*Request
recommendations*

Notice

Comments

*Protect and enhance
fish and wildlife*

839b(h)(5). The Council shall develop a program on the basis of such recommendations, supporting documents, and views and information obtained through public comment and participation, and consultation with the agencies, tribes, and customers referred to in subparagraph (A) of paragraph (4). The program shall consist of measures to protect, mitigate, and enhance fish and wildlife affected by the development, operation, and management of such facilities while assuring the Pacific Northwest an adequate, efficient, economical, and reliable power supply. Enhancement measures shall be included in the program to the extent such measures are designed to achieve improved protection and mitigation.

[Northwest Power Act, §4(h)(5), 94 Stat. 2709.]

Measures

839b(h)(6). The Council shall include in the program measures which it determines, on the basis set forth in paragraph (5), will—

839b(h)(6)(A). complement the existing and future activities of the Federal and the region’s State fish and wildlife agencies and appropriate Indian tribes;

[Northwest Power Act, §4(h)(6)(A), 94 Stat. 2709.]

839b(h)(6)(B). be based on, and supported by, the best available scientific knowledge;

[Northwest Power Act, §4(h)(6)(B), 94 Stat. 2709.]

839b(h)(6)(C). utilize, where equally effective alternative means of achieving the same sound biological objective exist, the alternative with the minimum economic cost;

[Northwest Power Act, §4(h)(6)(C), 94 Stat. 2709.]

839b(h)(6)(D). be consistent with the legal rights of appropriate Indian tribes in the region; and

[Northwest Power Act, §4(h)(6)(D), 94 Stat. 2709.]

839b(h)(6)(E). in the case of anadromous fish—

839b(h)(6)(E)(i). provide for improved survival of such fish at hydroelectric facilities located on the Columbia River system; and

[Northwest Power Act, §4(h)(6)(E)(i), 94 Stat. 2709.]

839b(h)(6)(E)(ii). provide flows of sufficient quality and quantity between such facilities to improve production, migration, and survival of such fish as necessary to meet sound biological objectives.

[Northwest Power Act, §4(h)(6)(E)(ii), 94 Stat. 2709.]

Recommendations

839b(h)(7). The Council shall determine whether each recommendation received is consistent with the purposes of this chapter. In the event such recommendations are inconsistent with

each other, the Council, in consultation with appropriate entities, shall resolve such inconsistency in the program giving due weight to the recommendations, expertise, and legal rights and responsibilities of the Federal and the region’s State fish and wildlife agencies and appropriate Indian tribes. If the Council does not adopt any recommendation of the fish and wildlife agencies and Indian tribes as part of the program or any other recommendation, it shall explain in writing, as part of the program, the basis for its finding that the adoption of such recommendation would be—

Recommendations not adopted

839b(h)(7)(A). inconsistent with paragraph (5) of this subsection;
[Northwest Power Act, §4(h)(7)(A), 94 Stat. 2709.]

839b(h)(7)(B). inconsistent with paragraph (6) of this subsection; or
[Northwest Power Act, §4(h)(7)(B), 94 Stat. 2709.]

839b(h)(7)(C). less effective than the adopted recommendations for the protection, mitigation, and enhancement of fish and wildlife.
[Northwest Power Act, §4(h)(7)(C), 94 Stat. 2709.]

839b(h)(8). The Council shall consider, in developing and adopting a program pursuant to this subsection, the following principles:

Principles

839b(h)(8)(A). Enhancement measures may be used, in appropriate circumstances, as a means of achieving offsite protection and mitigation with respect to compensation for losses arising from the development and operation of the hydroelectric facilities of the Columbia River and its tributaries as a system.
[Northwest Power Act, §4(h)(8)(A), 94 Stat. 2709.]

839b(h)(8)(B). Consumers of electric power shall bear the cost of measures designed to deal with adverse impacts caused by the development and operation of electric power facilities and programs only.
[Northwest Power Act, §4(h)(8)(B), 94 Stat. 2710.]

839b(h)(8)(C). To the extent the program provides for coordination of its measures with additional measures (including additional enhancement measures to deal with impacts caused by factors other than the development and operation of electric power facilities and programs), such additional measures are to be implemented in accordance with agreements among the appropriate parties providing for the administration and funding of such additional measures.
[Northwest Power Act, §4(h)(8)(C), 94 Stat. 2710.]

839b(h)(8)(D). Monetary costs and electric power losses resulting from the implementation of the program shall be allocated by the

Administrator consistent with individual project impacts and system wide objectives of this subsection.

[Northwest Power Act, §4(h)(8)(D), 94 Stat. 2710.]

839b(h)(9). The Council shall adopt such program or amendments thereto within one year after the time provided for receipt of the recommendations. Such program shall also be included in the plan adopted by the Council under subsection (d) of this section.

[Northwest Power Act, §4(h)(9), 94 Stat. 2710.]

839b(h)(10)(A). The Administrator shall use the Bonneville Power Administration fund and the authorities available to the Administrator under this chapter and other laws administered by the Administrator to protect, mitigate, and enhance fish and wildlife to the extent affected by the development and operation of any hydroelectric project of the Columbia River and its tributaries in a manner consistent with the plan, if in existence, the program adopted by the Council under this subsection, and the purposes of this chapter. Expenditures of the Administrator pursuant to this paragraph shall be in addition to, not in lieu of, other expenditures authorized or required from other entities under other agreements or provisions of law.

[Northwest Power Act, §4(h)(10)(A), 94 Stat. 2710.]

839b(h)(10)(B). The Administrator may make expenditures from such fund which shall be included in the annual or supplementary budgets submitted to the Congress pursuant to the Federal Columbia River Transmission System Act [16 U.S.C. 838 *et seq.*]. Any amounts included in such budget for the construction of capital facilities with an estimated life of greater than 15 years and an estimated cost of at least \$1,000,000 shall be funded in the same manner and in accordance with the same procedures as major transmission facilities under the Federal Columbia River Transmission System Act.

[Northwest Power Act, §4(h)(10)(B), 94 Stat. 2710.]

839b(h)(10)(C). The amounts expended by the Administrator for each activity pursuant to this subsection shall be allocated as appropriate by the Administrator, in consultation with the Corps of Engineers and the Water and Power Resources Service, among the various hydroelectric projects of the Federal Columbia River Power System. Amounts so allocated shall be allocated to the various project purposes in accordance with existing accounting procedures for the Federal Columbia River Power System.

[Northwest Power Act, §4(h)(10)(C), 94 Stat. 2710.]

839b(h)(10)(D)(i). The Northwest Power Planning Council (Council) shall appoint an Independent Scientific Review Panel (Panel), which shall be comprised of eleven members, to review projects

Expenditures

*Scientific
Review Panel*

proposed to be funded through that portion of Bonneville Power Administration's (BPA) annual fish and wildlife budget that implements the Council's fish and wildlife program. Members shall be appointed from a list of no fewer than 20 scientists submitted by the National Academy of Sciences (Academy), provided that Pacific Northwest scientists with expertise in Columbia River anadromous and non-anadromous fish and wildlife and ocean experts shall be among those represented on the Panel. The Academy shall provide such nominations within 90 days of the date of this enactment, and in any case not later than December 31, 1996. If appointments are required in subsequent years, the Council shall request nominations from the Academy and the Academy shall provide nominations not later than 90 days after the date of this request. If the Academy does not provide nominations within these time requirements, the Council may appoint such members as the Council deems appropriate.

[Northwest Power Act, 94 Stat. 2710, as amended by Pub.L. 104-206, § 512(4)(h)(10)(D)(i), September 30, 1996, 110 Stat. 3005.]

839b(h)(10)(D)(ii). The Council shall establish Scientific Peer Review Groups (Peer Review Groups), which shall be comprised of the appropriate number of scientists, from a list submitted by the Academy to assist the Panel in making its recommendations to the Council for projects to be funded through BPA's annual fish and wildlife budget, provided that the Pacific Northwest scientists with expertise in Columbia River anadromous and non-anadromous fish and wildlife and ocean experts shall be among those represented on the Peer Review Groups. The Academy shall provide such nominations within 90 days of the date of this enactment, and in any case not later than December 31, 1996. If appointments are required in subsequent years, the Council shall request nominations from the Academy and the Academy shall provide nominations not later than 90 days after the date of this request. If the Academy does not provide nominations within these time requirements, the Council may appoint such members as the Council deems appropriate.

[Northwest Power Act, 94 Stat. 2710, as amended by Pub.L. 104-206, § 512(4)(h)(10)(D)(ii), September 30, 1996, 110 Stat. 3005.]

839b(h)(10)(D)(iii). Panel and Peer Review Group members may be compensated and shall be considered subject to the conflict of interest standards that apply to scientists performing comparable work for the National Academy of Sciences; provided that a Panel or Peer Review Group member with a direct or indirect financial interest in a project, or projects, shall recuse himself or herself from review of, or recommendations associated with, such project or projects. All expenses of the Panel and the Peer Review Groups shall be paid by BPA as provided for under paragraph (vii). Neither the Panel nor the

*Peer Review
Groups*

Peer Review Groups shall be deemed advisory committees within the meaning of the Federal Advisory Committee Act.

[Northwest Power Act, 94 Stat. 2710, as amended by Pub.L. 104-206, § 512(4)(h)(10)(D)(iii), September 30, 1996, 110 Stat. 3005.]

839b(h)(10)(D)(iv). The Peer Review Groups, in conjunction with the Panel, shall review projects proposed to be funded through BPA's annual fish and wildlife budget and make recommendations on matters related to such projects to the Council no later than June 15 of each year. If the recommendations are not received by the Council by this date, the Council may proceed to make final recommendations on funding to BPA, relying on the best information available. The Panel and Peer Review Groups shall review a sufficient number of projects to adequately ensure that the list of prioritized projects recommended is consistent with the Council's program. Project recommendations shall be based on a determination that projects: are based on sound scientific principles; benefit fish and wildlife; and have a clearly defined objective and outcome with provisions for monitoring and evaluation of results. The Panel, with assistance from the Peer Review Groups, shall review, on an annual basis, the results of prior year expenditures based upon these criteria and submit its findings to the Council for review.

[Northwest Power Act, 94 Stat. 2710, as amended by Pub.L. 104-206, § 512(4)(h)(10)(D)(iv), September 30, 1996, 110 Stat. 3005.]

839b(h)(10)(D)(v). Upon completion of the review of projects to be funded through BPA's annual fish and wildlife budget, the Peer Review Groups shall submit its findings to the Panel. The Panel shall analyze the information submitted by the Peer Review Groups and submit recommendations on project priorities to the Council. The Council shall make the Panel's findings available to the public and subject to public comment.

[Northwest Power Act, 94 Stat. 2710, as amended by Pub.L. 104-206, § 512(4)(h)(10)(D)(v), September 30, 1996, 110 Stat. 3005.]

839b(h)(10)(D)(vi). The Council shall fully consider the recommendations of the Panel when making its final recommendations of projects to be funded through BPA's annual fish and wildlife budget, and if the Council does not incorporate a recommendation of the Panel, the Council shall explain in writing its reasons for not accepting Panel recommendations. In making its recommendations to BPA, the Council shall consider the impact of ocean conditions on fish and wildlife populations and shall determine whether the projects employ cost-effective measures to achieve program objectives. The Council, after consideration of the recommendations of the Panel and other appropriate entities, shall be responsible for making the final recommendations of projects to be funded through BPA's annual fish and wildlife budget.

[Northwest Power Act, 94 Stat. 2710, as amended by Pub.L. 104-206, § 512(4)(h)(10)(D)(vi), September 30, 1996, 110 Stat. 3005.]

*Council consideration of
Panel recommendations*

839b(h)(10)(D)(vii). Cost limitation. The annual cost of this provision shall not exceed \$500,000 in 1997 dollars.

[Northwest Power Act, 94 Stat. 2710, as amended by Pub.L. 104-206, § 512(4)(h)(10)(D)(vii), September 30, 1996, 110 Stat. 3005; Pub.L. 106-60, § 610, Sept. 29, 1999, 113 Stat. 502.]

839b(h)(11)(A). The Administrator and other Federal agencies responsible for managing, operating, or regulating Federal or non-Federal hydroelectric facilities located on the Columbia River or its tributaries shall—

Managing, operating and regulating facilities

839b(h)(11)(A)(i). exercise such responsibilities consistent with the purposes of this chapter and other applicable laws, to adequately protect, mitigate, and enhance fish and wildlife, including related spawning grounds and habitat, affected by such projects or facilities in a manner that provides equitable treatment for such fish and wildlife with the other purposes for which such system and facilities are managed and operated;

[Northwest Power Act, §4(h)(11)(A)(i), 94 Stat. 2710.]

839b(h)(11)(A)(ii). exercise such responsibilities, taking into account at each relevant stage of decisionmaking processes to the fullest extent practicable, the program adopted by the Council under this subsection. If, and to the extent that, such other Federal agencies as a result of such consideration impose upon any non-Federal electric power project measures to protect, mitigate, and enhance fish and wildlife which are not attributable to the development and operation of such project, then the resulting monetary costs and power losses (if any) shall be borne by the Administrator in accordance with this subsection.

[Northwest Power Act, §4(h)(11)(A)(ii), 94 Stat. 2711.]

839b(h)(11)(B). The Administrator and such Federal agencies shall consult with the Secretary of the Interior, the Administrator of the National Marine Fisheries Service, and the State fish and wildlife agencies of the region, appropriate Indian tribes, and affected project operators in carrying out the provisions of this paragraph and shall, to the greatest extent practicable, coordinate their actions.

[Northwest Power Act, §4(h)(11)(A), 94 Stat. 2711.]

Consultation between agencies

839b(h)(12)(A). Beginning on October 1 of the first fiscal year after all members to the Council are appointed initially, the Council shall submit annually a detailed report to the Committee on Energy and Natural Resources of the Senate and to the Committees on Energy and Commerce and on Interior and Insular Affairs of the House of Representatives. The report shall describe the actions taken and to be taken by the Council under this chapter, including this subsection, the effectiveness of the fish and wildlife program, and potential revisions or modifications to the program to be included in the plan when

Report to congressional committee

adopted. At least ninety days prior to its submission of such report, the Council shall make available to such fish and wildlife agencies, and tribes, the Administrator and the customers a draft of such report. The Council shall establish procedures for timely comments thereon. The Council shall include as an appendix to such report such comments or a summary thereof.

[Northwest Power Act, §4(h)(12)(A), 94 Stat. 2711, H. Res. 549, March 25, 1980.]

*Communication
by Administrator*

839b(h)(12)(B). The Administrator shall keep such committees fully and currently informed of the actions taken and to be taken by the Administrator under this chapter, including this subsection.

[Northwest Power Act, §4(h)(12)(B), 94 Stat. 2711.]

Council review

839b(i). Review

The Council may from time to time review the actions of the Administrator pursuant to this section and section 839d of this title to determine whether such actions are consistent with the plan and programs, the extent to which the plan and programs is being implemented, and to assist the Council in preparing amendments to the plan and programs.

[Northwest Power Act, §4(i), 94 Stat. 2711.]

Council requests

839b(j). Requests by Council for action

839b(j)(1). The Council may request the Administrator to take an action under section 839d of this title to carry out the Administrator’s responsibilities under the plan.

[Northwest Power Act, §4(j)(1), 94 Stat. 2711.]

839b(j)(2). To the greatest extent practicable within ninety days after the Council’s request, the Administrator shall respond to the Council in writing specifying—

839b(j)(2)(A). the means by which the Administrator will undertake the action or any modification thereof requested by the Council, or

[Northwest Power Act, §4(j)(2)(A), 94 Stat. 2711.]

839b(j)(2)(B). the reasons why such action would not be consistent with the plan, or with the Administrator’s legal obligations under this chapter, or other provisions of law, which the Administrator shall specifically identify.

[Northwest Power Act, §4(j)(2)(B), 94 Stat. 2711.]

839b(j)(3). If the Administrator determines not to undertake the requested action, the Council, within sixty days after notice of the

Administrator’s determination, may request the Administrator to hold an informal hearing and make a final decision.

[Northwest Power Act, §4(j)(3), 94 Stat. 2711.]

839b(k). Review and analysis of 5-year period of Council activities

839b(k)(1). Not later than October 1, 1987, or six years after the Council is established under this chapter, whichever is later, the Council shall complete a thorough analysis of conservation measures and conservation resources implemented pursuant to this chapter during the five-year period beginning on the date the Council is established under this chapter to determine if such measures or resources:

839b(k)(1)(A). have resulted or are likely to result in costs to consumers in the region greater than the costs of additional generating resources or additional fuel which the Council determines would be necessary in the absence of such measures or resources;

[Northwest Power Act, §4(k)(1)(A), 94 Stat. 2711-2.]

839b(k)(1)(B). have not been or are likely not to be generally equitable to all consumers in the region; or

[Northwest Power Act, §4(k)(1)(B), 94 Stat. 2712.]

839b(k)(1)(C). have impaired or are likely to impair the ability of the Administrator to carry out his obligations under this chapter and other laws, consistent with sound business practices.

[Northwest Power Act, §4(k)(1)(C), 94 Stat. 2712.]

839b(k)(2). The Administrator may determine that section 839a(4)(D) of this title shall not apply to any proposed conservation measure or resource if the Administrator finds after receipt of such analysis from the Council that such measure or resource would have any result or effect described in subparagraph (A), (B) or (C) of paragraph (1).

[Northwest Power Act, §4(k)(2), 94 Stat. 2712. as amended Pub.L. 106-60, § 610, Sept. 29, 1999, 113 Stat. 502.]

839c. Sale of power

839c(a). Preferences and priorities

All power sales under this chapter shall be subject at all times to the preference and priority provisions of the Bonneville Project Act of 1937 (16 U.S.C. 832 and following) and, in particular, sections 4 and 5 thereof [16 U.S.C. 832c and 832d]. Such sales shall be at rates established pursuant to section 839e of this title.

[Northwest Power Act, §5(a), 94 Stat. 2712.]

Conservation measures and resources analysis

Sale of power

Preference and priorities

839c(b). Sales to public bodies, cooperatives, and Federal agency customers

Sales to preference customers and investor-owned utilities

839c(b)(1). Whenever requested, the Administrator shall offer to sell to each requesting public body and cooperative entitled to preference and priority under the Bonneville Project Act of 1937 [16 U.S.C. 832 *et seq.*] and to each requesting investor-owned utility electric power to meet the firm power load of such public body, cooperative or investor-owned utility in the Region to the extent that such firm power load exceeds—

839c(b)(1)(A). the capability of such entity’s firm peaking and energy resources used in the year prior to December 5, 1980, to serve its firm load in the region, and

[Northwest Power Act, §5(b)(1)(A), 94 Stat. 2712.]

839c(b)(1)(B). such other resources as such entity determines, pursuant to contracts under this chapter, will be used to serve its firm load in the region.

[Northwest Power Act, §5(b)(1)(B), 94 Stat. 2712.]

User of firm load resources

839c(b)(1)[cont.]. In determining the resources which are used to serve a firm load, for purposes of subparagraphs (A) and (B), any resources used to serve a firm load under such subparagraphs shall be treated as continuing to be so used, unless such use is discontinued with the consent of the Administrator, or unless such use is discontinued because of obsolescence, retirement, loss of resource, or loss of contract rights.

[Northwest Power Act, §5(b)(1), 94 Stat. 2712.]

839c(b)(2). Contracts with investor-owned utilities shall provide that the Administrator may reduce his obligations under such contracts in accordance with section 5(a) of the Bonneville Project Act of 1937 [16 U.S.C. 832d(a)].

[Northwest Power Act, §5(b)(2), 94 Stat. 2712.]

Sales to Federal agencies

839c(b)(3). In addition to his authorities to sell electric power under paragraph (1), the Administrator is also authorized to sell electric power to Federal agencies in the region.

[Northwest Power Act, §5(b)(3), 94 Stat. 2712.]

839c(b)(4). Sales under this subsection shall be made only if the public body, cooperative, Federal agency or investor-owned utility complies with the Administrator’s standards for service in effect on December 5, 1980, or as subsequently revised.

[Northwest Power Act, §5(b)(4), 94 Stat. 2712.]

839c(b)(5). The Administrator shall include in contracts executed in accordance with this subsection provisions that enable the Administrator to restrict his contractual obligations to meet the loads referred to in this subsection in the future if the Administrator determines, after a reasonable period of experience under this chapter, that the Administrator cannot be assured on a planning basis of acquiring sufficient resources to meet such loads during a specified period of insufficiency. Any such contract with a public body, cooperative, or Federal agency shall specify a reasonable minimum period between a notice of restriction and the earliest date such restriction may be imposed.

[Northwest Power Act, §5(b)(5), 94 Stat. 2712-3.]

839c(b)(6). Contracts executed in accordance with this subsection with public body, cooperative, and Federal agency customers shall—

839c(b)(6)(A). provide that the restriction referred to in paragraph (5) shall not be applicable to any such customers until the operating year in which the total of such customers' firm loads to be served by the Administrator equals or exceeds the firm capability of the Federal base system resources;

[Northwest Power Act, §5(b)(6)(A), 94 Stat. 2713.]

839c(b)(6)(B). not permit restrictions which would reduce the total contractual entitlement of such customers to an amount less than the firm capability of the Federal base system resources; and

[Northwest Power Act, §5(b)(6)(B), 94 Stat. 2713.]

839c(b)(6)(C). contain a formula for determining annually, on a uniform basis, each such customer's contractual entitlement to firm power during such a period of restriction, which formula shall not consider customer resources other than those the customer has determined, as of December 5, 1980, to be used to serve its own firm loads.

[Northwest Power Act, §5(b)(6)(C), 94 Stat. 2713.]

839c(b)(6)[cont.]. The formula referred to in subparagraph (C) shall obligate the Administrator to provide on an annual basis only firm power needed to serve the portion of such customer's firm load in excess of the capability of such customer's own firm resources determined by such customer under paragraph (1) of this subsection to be used to serve its firm load.

[Northwest Power Act, §5(b)(6), 94 Stat. 2713.]

839c(b)(7). Required sale-

839c(b)(7) (A). DEFINITION OF A JOINT OPERATING ENTITY-
In this section, the term 'joint operating entity' means an entity that is

*Restriction provisions
in contracts*

Notice of restrictions

Contract requirements

lawfully organized under State law as a public body or cooperative prior to the date of enactment of this paragraph, and is formed by and whose members or participants are two or more public bodies or cooperatives, each of which was a customer of the Bonneville Power Administration on or before January 1, 1999.

839c(b)(7) (B). SALE- Pursuant to paragraph (1), the Administrator shall sell, at wholesale to a joint operating entity, electric power solely for the purpose of meeting the regional firm power consumer loads of regional public bodies and cooperatives that are members of or participants in the joint operating entity.

839c(b)(7)(C). NO RESALE- A public body or cooperative to which a joint operating entity sells electric power under subparagraph (B) shall not resell that power except to retail customers of the public body or cooperative or to another regional member or participant of the same joint operating entity, or except as otherwise permitted by law.

[As amended Pub. L. 106-273 (2000), § 1, Sept. 22, 2000, 114 Stat. 802.]

839c(c). Purchase and exchange sales

Purchases and exchange sale

839c(c)(1). Whenever a Pacific Northwest electric utility offers to sell electric power to the Administrator at the average system cost of that utility's resources in each year, the Administrator shall acquire by purchase such power and shall offer, in exchange, to sell an equivalent amount of electric power to such utility for resale to that utility's residential users within the region.

[Northwest Power Act, §5(c)(1), 94 Stat. 2713.]

Limitation

839c(c)(2). The purchase and exchange sale referred to in paragraph (1) of this subsection with any electric utility shall be limited to an amount not in excess of 50 per centum of such utility's Regional residential load in the year beginning July 1, 1980, such 50 per centum limit increasing in equal annual increments to 100 per centum of such load in the year beginning July 1, 1985, and each year thereafter.

[Northwest Power Act, §5(c)(2), 94 Stat. 2713.]

Cost benefits

839c(c)(3). The cost benefits, as specified in contracts with the Administrator, of any purchase and exchange sale referred to in paragraph (1) of this subsection which are attributable to any electric utility's residential load within a State shall be passed through directly to such utility's residential loads within such State, except that a State which lies partially within and partially without the region may require that such cost benefits be distributed among all of the utility's residential loads in that State.

[Northwest Power Act, §5(c)(3), 94 Stat. 2713.]

839c(c)(4). An electric utility may terminate, upon reasonable terms and conditions agreed to by the Administrator and such utility prior to such termination, its purchase and sale under this subsection if the supplemental rate charge provided for in section 839e(b)(3) of this title is applied and the cost of electric power sold to such utility under this subsection exceeds, after application of such rate charge, the average system cost of power sold by such utility to the Administrator under this subsection.

[Northwest Power Act, §5(c)(4), 94 Stat. 2713.]

839c(c)(5). Subject to the provisions of sections 839b and 839d of this title, in lieu of purchasing any amount of electric power offered by a utility under paragraph (1) of this subsection, the Administrator may acquire an equivalent amount of electric power from other sources to replace power sold to such utility as part of an exchange sale if the cost of such acquisition is less than the cost of purchasing the electric power offered by such utility.

[Northwest Power Act, §5(c)(5), 94 Stat. 2714.]

839c(c)(6). Exchange sales to a utility pursuant to this subsection shall not be restricted below the amounts of electric power acquired by the Administrator from, or on behalf of, such utility pursuant to this subsection.

[Northwest Power Act, §5(c)(6), 94 Stat. 2714.]

839c(c)(7). The “average system cost” for electric power sold to the Administrator under this subsection shall be determined by the Administrator on the basis of a methodology developed for this purpose in consultation with the Council, the Administrator’s customers, and appropriate State regulatory bodies in the region. Such methodology shall be subject to review and approval by the Federal Energy Regulatory Commission. Such average system cost shall not include—

839c(c)(7)(A). the cost of additional resources in an amount sufficient to serve any new large single load of the utility;

[Northwest Power Act, §5(c)(7)(A), 94 Stat. 2714.]

839c(c)(7)(B). the cost of additional resources in an amount sufficient to meet any additional load outside the region occurring after December 5, 1980; and

[Northwest Power Act, §5(c)(7)(B), 94 Stat. 2714.]

839c(c)(7)(C). any costs of any generating facility which is terminated prior to initial commercial operation.

[Northwest Power Act, §5(c)(7)(C), 94 Stat. 2714.]

Termination

In lieu acquisition

Average system cost

Direct service industrial customers; reserves

839c(d). Sales to existing direct service industrial customers

839c(d)(1)(A). The Administrator is authorized to sell in accordance with this subsection electric power to existing direct service industrial customers. Such sales shall provide a portion of the Administrator’s reserves for firm power loads within the region.

[Northwest Power Act, §5(d)(1)(A), 94 Stat. 2714.]

839c(d)(1)(B). After December 5, 1980, the Administrator shall offer in accordance with subsection (g) of this section to each existing direct service industrial customer an initial long term contract that provides such customer an amount of power equivalent to that to which such customer is entitled under its contract dated January or April 1975 providing for the sale of “industrial firm power.”

[Northwest Power Act, §5(d)(1)(B), 94 Stat. 2714.]

839c(d)(2). The Administrator shall not sell electric power, including reserves, directly to new direct service industrial customers.

[Northwest Power Act, §5(d)(2), 94 Stat. 2714.]

839c(d)(3). The Administrator shall not sell amounts of electric power, including reserves, to existing direct service industrial customers in excess of the amount permitted under paragraph (1) unless the Administrator determines, after a plan has been adopted pursuant to section 839b of this title, that such proposed sale is consistent with the plan and that—

839c(d)(3)(A). additional power system reserves are required for the region’s firm loads,

[Northwest Power Act, §5(d)(3)(A), 94 Stat. 2714.]

839c(d)(3)(B). the proposed sale would provide a cost-effective method of supplying such reserves,

[Northwest Power Act, §5(d)(3)(B), 94 Stat. 2714.]

839c(d)(3)(C). such loads or loads of similar character cannot provide equivalent operating or planning benefits to the region if served by an electric utility under contractual arrangements providing reserves, and

[Northwest Power Act, §5(d)(3)(C), 94 Stat. 2714.]

839c(d)(3)(D). the Administrator has or can acquire sufficient electric power to serve such loads, and

[Northwest Power Act, §5(d)(3)(D), 94 Stat. 2714.]

839c(d)(3) [cont.]. unless the Council has determined such sale is consistent with the plan. After such determination by the Administrator and by the Council, the Administrator is authorized to

offer to existing direct service industrial customers power in such amounts in excess of the amount permitted under paragraph (1) of this subsection as the Administrator determines to be necessary to provide additional power system reserves to meet the region’s firm loads.

[Northwest Power Act, §5(d)(3), 94 Stat. 2714-5.]

839c(d)(4)(A). As used in this section, the term “existing direct service industrial customer” means any direct service industrial customer of the Administrator which has a contract for the purchase of electric power from the Administrator on December 5, 1980.

[Northwest Power Act, §5(d)(4)(A), 94 Stat. 2715.]

839c(d)(4)(B). The term “new direct service industrial customer” means any industrial entity other than an existing direct service industrial customer.

[Northwest Power Act, §5(d)(4)(B), 94 Stat. 2715.]

839c(d)(4)(C)(i). Where a new contract is offered in accordance with subsection (g) of this section to any existing direct service industrial customer which has not received electric power prior to December 5, 1980, from the Administrator pursuant to a contract with the Administrator existing on December 5, 1980, electric power delivered under such new contract shall be conditioned on the Administrator reasonably acquiring, in accordance with this chapter and within such estimated period of time (as specified in the contract) as he deems reasonable, sufficient resources to meet, on a planning basis, the load requirement of such customer. Such contract shall also provide that the obligation of the Administrator to acquire such resources to meet such load requirement shall, except as provided in clause (ii) of this subparagraph, apply only to such customer and shall not be sold or exchanged by such customer to any other person.

[Northwest Power Act, §5(d)(4)(C)(i), 94 Stat. 2715.]

839c(d)(4)(C)(ii). Rights under a contract described in clause (i) of this subparagraph may be transferred by an existing direct service industrial customer referred to in clause (i) to a successor in interest in connection with a reorganization or other transfer of all major assets of such customer. Following such a transfer, such successor in interest (or any other subsequent successor in interest) may also transfer rights under such a contract only in connection with a reorganization or other transfer of all assets of such successor in interest.

[Northwest Power Act, §5(d)(4)(C)(ii), 94 Stat. 2715.]

839c(d)(4)(C)(iii). The limitations of clause (i) of this subparagraph shall not apply to any customer referred to in clause (i) whenever the Administrator determines that such customer is receiving electric power pursuant to a contract referred to in such clause (ii).

[Northwest Power Act, §5(d)(4)(C)(iii), 94 Stat. 2715.]

Definitions; direct service industrial customer

New contracts

Contract rights

Transfer

Firm power entitlement

839c(e). Contractual entitlements to firm power

839c(e)(1). The contractual entitlement to firm power of any customer from whom, or on whose behalf, the Administrator has acquired electric power pursuant to section 839d of this Title may not be restricted below the amount of electric power so acquired from, or on behalf of, such customer. If in any year such customer’s requirements are less than such entitlement, any excess of such entitlement shall be first made available to increase the entitlement of other customers of the same class before being available for the entitlement of other customers. For purposes of this paragraph, the following entities shall each constitute a class:

839c(e)(1)(A). public bodies and cooperatives;

[Northwest Power Act, §5(e)(1)(A), 94 Stat. 2715.]

839c(e)(1)(B). Federal agencies;

[Northwest Power Act, §5(e)(1)(B), 94 Stat. 2715.]

839c(e)(1)(C). direct service industrial; and

[Northwest Power Act, §5(e)(1)(C), 94 Stat. 2715.]

839c(e)(1)(D). investor owned utilities.

[Northwest Power Act, §5(e)(1)(D), 94 Stat. 2715.]

839c(e)(2). Any contractual entitlement to firm power which is based on electric power acquired from, or on behalf of, a customer pursuant to section 839d of this Title shall be in addition to any other contractual entitlement to firm power not subject to restriction that such customer may have under this section. For the purposes of this subsection, references to amounts of power acquired by the Administrator pursuant to section 839d of this Title shall be deemed to mean the amounts specified in the resource acquisition contracts exclusive of any amounts recognized in such contracts as replacement for Federal base system resources.

[Northwest Power Act, §5(e)(2), 94 Stat. 2715-6.]

839c(e)(3). The Administrator shall, consistent with the provisions of this chapter, insure that any restrictions upon any particular customer class made pursuant to this subsection and subsection (b) of this section are distributed equitably throughout the region.

[Northwest Power Act, §5(e)(3), 94 Stat. 2716.]

Surplus power

839c(f). Surplus power

The Administrator is authorized to sell, or otherwise dispose of, electric power, including power acquired pursuant to this and other Acts, that is surplus to his obligations incurred pursuant to subsections (b), (c), and (d) of this section in accordance with this and other Acts

applicable to the Administrator, including the Bonneville Project Act of 1937 (16 U.S.C. 832 and following), the Federal Columbia River Transmission System Act (16 U.S.C. 838 and following), and the Act of August 31, 1964 (16 U.S.C. 837-837h).

[Northwest Power Act, §5(f), 94 Stat. 2716.]

839c(g). Long-term contracts

839c(g)(1). As soon as practicable within 9 months after December 5, 1980, the Administrator shall commence necessary negotiations for, and offer, initial long-term contracts (within the limitations of the third sentence of section 5(a) of the Bonneville Project Act [16 U.S.C. 832(a)]) simultaneously to—

Administrator shall offer contracts

839c(g)(1)(A). existing public body and cooperative customers and investor-owned utility customers under subsection (b) of this section;

[Northwest Power Act, §5(g)(1)(A), 94 Stat. 2716.]

839c(g)(1)(B). Federal agency customers under subsection (b) of this section;

[Northwest Power Act, §5(g)(1)(B), 94 Stat. 2716.]

839c(g)(1)(C). electric utility customers under subsection (c) of this section; and

[Northwest Power Act, §5(g)(1)(C), 94 Stat. 2716.]

839c(g)(1)(D). direct service industrial customers under subsection (d)(1) of this section.

[Northwest Power Act, §5(g)(1)(D), 94 Stat. 2716.]

839c(g)(2). Each customer offered a contract pursuant to this subsection shall have one year from the date of such offer to accept such contract. Such contract shall be effective as provided in this subsection.

[Northwest Power Act, §5(g)(2), 94 Stat. 2716.]

One year to accept

839c(g)(3). An initial contract with a public body, cooperative or investor-owned electric utility customer or a Federal agency customer pursuant to subsection (b) of this section shall be effective on the date executed by such customer, unless another effective date is otherwise agreed to by the Administrator and the customer.

[Northwest Power Act, §5(g)(3), 94 Stat. 2716.]

Effective date of contracts

839c(g)(4). An initial contract with an electric utility customer pursuant to subsection (c) of this section shall be effective on the date executed by such customer, but no earlier than the first day of the tenth month after December 5, 1980.

[Northwest Power Act, §5(g)(4), 94 Stat. 2716.]

839c(g)(5). An initial contract with a direct service industrial customer pursuant to subsection (d)(1) of this section, shall be effective on the date agreed upon by the Administrator and such customer, but no later than the first day of the tenth month after December 5, 1980. When such contract is executed, it may for rate purposes be given retroactive effect to such first day.

[Northwest Power Act, §5(g)(5), 94 Stat. 2716.]

Periods of insufficiency

839c(g)(6). Initial contracts offered public body, cooperative and Federal agency customers in accordance with this subsection shall provide that during a period of insufficiency declared in accordance with subsection (b) of this section each customer's contractual entitlement shall, to the extent of its requirements on the Administrator, be no less than the amount of firm power received from the Administrator in the year immediately preceding the period of insufficiency.

[Northwest Power Act, §5(g)(6), 94 Stat. 2716.]

Sufficient resources

839c(g)(7). The Administrator shall be deemed to have sufficient resources for the purpose of entering into the initial contracts specified in paragraph (1)(A) through (D).

[Northwest Power Act, §5(g)(7), 94 Stat. 2716.]

839d. Conservation and resource acquisition

839d(a). Conservation measures; resources

Acquisition of conservation and resources

839d(a)(1). The Administrator shall acquire such resources through conservation, implement all such conservation measures, and acquire such renewable resources which are installed by a residential or small commercial consumer to reduce load, as the Administrator determines are consistent with the plan, or if no plan is in effect with the criteria of section 839b(e)(1) of this Title and the considerations of section 839b(e)(2) of this Title and, in the case of major resources, in accordance with subsection (c) of this section. Such conservation measures and such resources may include, but are not limited to—

839d(a)(1)(A). loans and grants to consumers for insulation or weatherization, increased system efficiency, and waste energy recovery by direct application,

[Northwest Power Act, §6(a)(1)(A), 94 Stat. 2717.]

839d(a)(1)(B). technical and financial assistance to, and other cooperation with, the Administrator's customer and governmental authorities to encourage maximum cost-effective voluntary

conservation and the attainment of any cost-effective conservation objectives adopted by individual States or subdivisions thereof,
[Northwest Power Act, §6(a)(1)(B), 94 Stat. 2717.]

839d(a)(1)(C). aiding the Administrator’s customers and governmental authorities in implementing model conservation standards adopted pursuant to section 839b(f) of this Title, and
[Northwest Power Act, §6(a)(1)(C), 94 Stat. 2717.]

839d(a)(1)(D). conducting demonstration projects to determine the cost effectiveness of conservation measures and direct application of renewable energy resources.
[Northwest Power Act, §6(a)(1)(D), 94 Stat. 2717.]

839d(a)(2). In addition to acquiring electric power pursuant to section 839c(c) of this title, or on a short-term basis pursuant to section 11(b)(6)(i) of the Federal Columbia River Transmission System Act [16 U.S.C. 838i(b)(6)(i)], the Administrator shall acquire, in accordance with this section, sufficient resources—

839d(a)(2)(A). to meet his contractual obligations that remain after taking into account planned savings from measures provided for in paragraph (1) of this subsection, and
[Northwest Power Act, §6(a)(2)(A), 94 Stat. 2717.]

839d(a)(2)(B). to assist in meeting the requirements of section 839b(h) of this title.
[Northwest Power Act, §6(a)(2)(B), 94 Stat. 2717.]

839d(a)(2) [cont.]. The Administrator shall acquire such resources without considering restrictions which may apply pursuant to section 839c(b) of this Title.
[Northwest Power Act, §6(a)(2), 94 Stat. 2717.]

839d(b). Acquisition of resources

839d(b)(1). Except as specifically provided in this section, acquisition of resources under this chapter shall be consistent with the plan, as determined by the Administrator.
[Northwest Power Act, §6(b)(1), 94 Stat. 2717.]

839d(b)(2). The Administrator may acquire resources (other than major resources) under this chapter which are not consistent with the plan, but which are determined by the Administrator to be consistent with the criteria of section 839b(e)(1) of this title and the considerations of section 839b(e)(2) of this title.
[Northwest Power Act, §6(b)(2), 94 Stat. 2717.]

Acquisition of resources

839d(b)(3). If no plan is in effect, the Administrator may acquire resources under this chapter which are determined by the Administrator to be consistent with the criteria of section 839b(e)(1) of this Title and the considerations of section 839b(e)(2) of this title.

[Northwest Power Act, §6(b)(3), 94 Stat. 2717.]

839d(b)(4). The Administrator shall acquire any non-Federal resources to replace Federal base system resources only in accordance with the provisions of this section. The Administrator shall include in the contracts for the acquisition of any such non-Federal replacement resources provisions which will enable him to ensure that such non-Federal replacement resources are developed and operated in a manner consistent with the considerations specified in section 839b(e)(2) of this title.

[Northwest Power Act, §6(b)(4), 94 Stat. 2717.]

839d(b)(5). Notwithstanding any acquisition of resources pursuant to this section, the Administrator shall not reduce his efforts to achieve conservation and to acquire renewable resources installed by a residential or small commercial consumer to reduce load, pursuant to subsection (a)(1) of this section.

[Northwest Power Act, §6(b)(5), 94 Stat. 2717-8.]

Procedure for acquiring major resources

839d(c). Procedure for acquiring major resources, implementing conservation measures, paying or reimbursing investigation and preconstruction expenses, or granting billing credits

Proposals

839d(c)(1). For each proposal under subsection (a), (b), (f), (h) or (l) of this section to acquire a major resource, to implement a conservation measure which will conserve an amount of electric power equivalent to that of a major resource, to pay or reimburse investigation and preconstruction expenses of the sponsors of a major resource, or to grant billing credits or services involving a major resource, the Administrator shall—

Notice

839d(c)(1)(A). publish notice of the proposed action in the Federal Register and provide a copy of such notice to the Council, the Governor of each State in which facilities would be constructed or a conservation measure implemented, and the Administrator's customers;

[Northwest Power Act, §6(c)(1)(A), 94 Stat. 2718.]

Hearing

839d(c)(1)(B). not less than sixty days following publication of such notice, conduct one or more public hearings, presided over by a hearing officer, at which testimony and evidence shall be received, with opportunity for such rebuttal and cross-examination as the hearing officer deems appropriate in the development of an adequate hearing record;

[Northwest Power Act, §6(c)(1)(B), 94 Stat. 2718.]

839d(c)(1)(C). develop a record to assist in evaluating the proposal which shall include the transcript of the public hearings, together with exhibits, and such other materials and information as may have been submitted to, or developed by, the Administrator; and

[Northwest Power Act, §6(c)(1)(C), 94 Stat. 2718.]

Record

839d(c)(1)(D). following completion of such hearings, promptly provide to the Council and make public a written decision that includes, in addition to a determination respecting the requirements of subsection (a), (b), (f), (h), (l), or (m) of this section, as appropriate—

Written decision

839d(c)(1)(D)(i). if a plan is in effect, a finding that the proposal is either consistent or inconsistent with the plan or, notwithstanding its inconsistency with the plan, a finding that it is needed to meet the Administrator’s obligations under this chapter, or

[Northwest Power Act, §6(c)(1)(D)(i), 94 Stat. 2718.]

839d(c)(1)(D)(ii). if no plan is in effect, a finding that the proposal is either consistent or inconsistent with the criteria of section 839b(e)(1) of this Title and the considerations of section 839b(e)(2) of this Title or notwithstanding its inconsistency, a finding that it is needed to meet the Administrator’s obligations under this chapter.

[Northwest Power Act, §6(c)(1)(D)(ii), 94 Stat. 2718.]

839d(c)(1)(D)[cont.]. In the case of subsection (f) of this section, such decision shall be treated as satisfying the applicable requirements of this subsection and of subsection (f) of this section, if it includes a finding of probable consistency, based upon the Administrator’s evaluation of information available at the time of completion of the hearing under this paragraph. Such decision shall include the reasons for such finding.

[Northwest Power Act, §6(c)(1)(D), 94 Stat. 2718.]

839d(c)(2). Within sixty days of the receipt of the Administrator’s decision pursuant to paragraph (1)(D) of this subsection, the Council may determine by a majority vote of all members of the Council, and notify the Administrator—

839d(c)(2)(A). that the proposal is either consistent or inconsistent with the plan, or

[Northwest Power Act, §6(c)(2)(B), 94 Stat. 2718.]

839d(c)(2)(B). if no plan is in effect, that the proposal is either consistent or inconsistent with the criteria of section 839b(e)(1) of this Title and the considerations of section 839b(e)(2) of this Title.

[Northwest Power Act, §6(c)(2)(B), 94 Stat. 2718.]

*Implementation
of inconsistent
proposals*

839d(c)(3). The Administrator may not implement any proposal referred to in paragraph (1) that is determined pursuant to paragraph (1) or (2) by either the Administrator or the Council to be inconsistent with the plan or, if no plan is in effect, with the criteria of section 839b(e)(1) of this title and the considerations of section 839b(e)(2) of this title—

839d(c)(3)(A). unless the Administrator finds that, notwithstanding such inconsistency, such resource is needed to meet the Administrator’s obligations under this chapter, and

[Northwest Power Act, §6(c)(3)(A), 94 Stat. 2718-9.]

839d(c)(3)(B). until the expenditure of funds for that purpose has been specifically authorized by Act of Congress enacted after December 5, 1980.

[Northwest Power Act, §6(c)(3)(B), 94 Stat. 2719.]

*Implementation
of proposals*

839d(c)(4). Before the Administrator implements any proposal referred to in paragraph (1) of this subsection, the Administrator shall—

*Submit record
to Congress*

839d(c)(4)(A). submit to the appropriate committees of the Congress the administrative record of the decision (including any determination by the Council under paragraph (2)) and a statement of the procedures followed or to be followed for compliance with the National Environmental Policy Act of 1969 [42 U.S.C. 4321 *et seq.*],

[Northwest Power Act, §6(c)(4)(A), 94 Stat. 2719.]

Notice

839d(c)(4)(B). publish notice of the decision in the Federal Register, and

[Northwest Power Act, §6(c)(4)(B), 94 Stat. 2719.]

Note in budget

839d(c)(4)(C). note the proposal in the Administrator’s annual or supplementary budget submittal made pursuant to the Federal Columbia River Transmission System Act (16 U.S.C. 838 and following).

[Northwest Power Act, §6(c)(4)(C), 94 Stat. 2719.]

839d(c)(4) [cont.]. The Administrator may not implement any such proposal until ninety days after the date on which such proposal has been noted in such budget or after the date on which such decision has been published in the Federal Register, whichever is later.

[Northwest Power Act, §6(c)(4), 94 Stat. 2719.]

839d(c)(5). The authority of the Council to make a determination under paragraph (2)(B) if no plan is in effect shall expire on the date two years after the establishment of the Council.

[Northwest Power Act, §6(c)(5), 94 Stat. 2719.]

839d(d). Acquisition of resources other than major resources

The Administrator is authorized to acquire a resource, other than a major resource, whether or not such resource meets the criteria of section 839b(e)(1) of this title and the considerations of section 839b(e)(2) of this title but which he determines is an experimental, developmental, demonstration, or pilot project of a type with a potential for providing cost-effective service to the region. The Administrator shall make no obligation for the acquisition of such resource until it is included in the annual budgets submitted to the Congress pursuant to the Federal Columbia River Transmission System Act [16 U.S.C. 838 *et seq.*].

[Northwest Power Act, §6(d), 94 Stat. 2719.]

Acquisition of other than major resources

839d(e). Effectuation of priorities; use of customers and local entities

839d(e)(1). In order to effectuate the priority given to conservation measures and renewable resources under this chapter, the Administrator shall, to the maximum extent practicable, make use of his authorities under this chapter to acquire conservation measures and renewable resources, to implement conservation measures, and to provide credits and technical and financial assistance for the development and implementation of such resources and measures (including the funding of, and the securing of debt for, expenses incurred during the investigation and preconstruction of resources, as authorized in subsection (f) of this section).

[Northwest Power Act, §6(e)(1), 94 Stat. 2719.]

839d(e)(2). To the extent conservation measures or acquisition of resources require direct arrangements with consumers, the Administrator shall make maximum practicable use of customers and local entities capable of administering and carrying out such arrangements.

[Northwest Power Act, §6(e)(2), 94 Stat. 2719.]

839d(f). Agreements; investigation and initial development of renewable resources other than major resources; reimbursement of investigation and preconstruction expenses

839d(f)(1). For resources which the Administrator determines may be eligible for acquisition under this section and satisfy the criteria of section 839b(e)(1) of this title and the considerations of section 839b(e)(2) of this title or, if a plan is in effect, to be consistent with the plan, the Administrator is authorized to enter into agreements with sponsors of—

839d(f)(1)(A). a renewable resource, other than a major resource, to fund or secure debt incurred in the investigation and initial development of such resource, or

[Northwest Power Act, §6(f)(1)(A), 94 Stat. 2719.]

Acquisition agreements

Renewable resources

*Reimbursement
of expenses*

839d(f)(1)(B). any other resource to provide for the reimbursement of the sponsor's investigation and preconstruction expenses concerning such resource (which expenses shall not include procurement of capital equipment or construction material for such resource).

[Northwest Power Act, §6(f)(1)(B), 94 Stat. 2720.]

839d(f)(1) [cont]. In the case of any resource referred to in subparagraph (B) of this paragraph, such reimbursement is authorized only if—

839d(f)(1)(B)(i). such resource is subsequently denied State citing approval or other necessary Federal or State permits, or approvals,
[Northwest Power Act, §6(f)(1)(B)(i), 94 Stat. 2720.]

839d(f)(1)(B)(ii). such investigation subsequently demonstrates, as determined by the Administrator, that such resource does not meet the criteria of section 839b(e)(1) of this title and the considerations of section 839b(e)(2) of this title or is not acceptable because of environmental impacts, or
[Northwest Power Act, §6(f)(1)(B)(ii), 94 Stat. 2720.]

839d(f)(1)(B)(iii). after such investigation the Administrator determines not to acquire the resource and the sponsor determines not to construct the resource.
[Northwest Power Act, §6(f)(1)(B)(iii), 94 Stat. 2720.]

839d(f)(2). The Administrator may exercise the authority of this subsection only after he determines that the failure to do so would result in inequitable hardship to the consumers of such sponsors. The Administrator may provide reimbursement under this subsection only for expenses incurred after December 5, 1980.
[Northwest Power Act, §6(f)(2), 94 Stat. 2720.]

839d(f)(3). Any agreement under paragraph (1) of this subsection shall provide the Administrator an option to acquire any such resource, including a renewable resource, and shall include such other provisions, as the Administrator deems appropriate, for the Administrator's recovery from such sponsors or any assignee of the sponsors, if such sponsor or assignee continues development of the resource, of any advances made by the Administrator pursuant to such agreement.
[Northwest Power Act, §6(f)(3), 94 Stat. 2720.]

839d(f)(4). The Administrator shall not reimburse any expense incurred by the sponsors (except necessary expenses involved in the liquidation of the resource) after the date of a final denial of application for State citing approval or after the date the Administrator determines

that the resource to be inconsistent with the plan or the criteria of [16 U.S.C. 839b(e)(1)] and the considerations of [16 U.S.C. 839b(e)(2)].
[Northwest Power Act, §6(f)(4), 94 Stat. 2720.]

839d(g). Environmental impact statements

At the request of the appropriate State, any environmental impact statement which may be required with respect to a resource, to the extent determined possible by the Administrator in accordance with applicable law and regulations, may be prepared jointly and in coordination with any required environmental impact statement of the State or any other statement which serves the purpose of an environmental impact statement which is required by State law.
[Northwest Power Act, §6(g), 94 Stat. 2720.]

839d(h). Billing credits

839d(h)(1). If a customer so requests, the Administrator shall grant billing credits to such customer, and provide services to such customer at rates established for such services, for—

Billing credits

839d(h)(1)(A). conservation activities independently undertaken or continued after December 5, 1980, by such customer or political subdivision served by such customer which reduce the obligation of the Administrator that would otherwise have existed to acquire other resources under this chapter, or
[Northwest Power Act, §6(h)(1)(A), 94 Stat. 2720.]

839d(h)(1)(B). resources constructed, completed, or acquired after December 5, 1980, by a customer, an entity acting on behalf of such customer, or political subdivision served by the customer which reduce the obligation of the Administrator to acquire resources under this chapter. Such resources shall be renewable resources or multipurpose projects or other resources which are not inconsistent with the plan or, in the absence of a plan, not inconsistent with the criteria of [16 U.S.C. 839b(e)(1)] and the considerations of [16 U.S.C. 839b(e)(2)].
[Northwest Power Act, §6(h)(1)(B), 94 Stat. 2720-1.]

839d(h)(2). The energy and capacity on which a credit under this subsection to a customer is based shall be the amount by which a conservation activity or resource actually changes the customer's net requirement for supply of electric power or reserves from the Administrator.
[Northwest Power Act, §6(h)(2), 94 Stat. 2721.]

Basis for credit

839d(h)(3). The amount of credits for conservation under this subsection shall be set to credit the customer implementing or continuing the conservation activity for which the credit is granted for the savings

resulting from such activity. The rate impact on the Administrator’s other customers of granting the credit shall be equal to the rate impact such customers would have experienced had the Administrator been obligated to acquire resources in an amount equal to that actually saved by the activity for which the credit is granted.

[Northwest Power Act, §6(h)(3), 94 Stat. 2721.]

839d(h)(4). For resources other than conservation, the customer shall be credited for net costs actually incurred by such customer, an entity acting on behalf of such customer, or political subdivision served by such customer, in acquiring, constructing, or operating the resource for which the credit is granted. The rate impact to the Administrator’s other customers of granting the credit shall be no greater than the rate impact such customers would have experienced had the Administrator been obligated to acquire resources in an amount equal to that actually produced by the resource for which the credit is granted.

[Northwest Power Act, §6(h)(4), 94 Stat. 2721.]

839d(h)(5). Retail rate structures which are voluntarily implemented by the Administrator’s customers and which induce conservation or installation of consumer-owned renewable resources shall be considered, for purposes of this subsection, to be (A) conservation activities independently undertaken or carried on by such customers, or (B) customer-owned renewable resources, and shall qualify for billing credits upon the same showing as that required for other conservation or renewable resource activities.

[Northwest Power Act, §6(h)(5), 94 Stat. 2721.]

839d(h)(6). Prior to granting any credit or providing services pursuant to this subsection, the Administrator shall—

Notice

839d(h)(6)(A). comply with the notice provisions of subsection (c) of this section, and include in such notice the methodology the Administrator proposes to use in determining the amount of any such credit;

[Northwest Power Act, §6(h)(6)(A), 94 Stat. 2721.]

Include in budget

839d(h)(6)(B). include the cost of such credit in the Administrator’s annual or amended budget submittal to the Congress made pursuant to the Federal Columbia River Transmission System Act (16 U.S.C. 838(j))[16 U.S.C. 838 *et seq.*];

[Northwest Power Act, §6(h)(6)(B), 94 Stat. 2721.]

Excess resources offered to others

839d(h)(6)(C). require that resources in excess of customer’s reasonable load growth shall have been offered to others for ownership participation or other sponsorship pursuant to subsection (m) of this

section, except in the case of conservation, multi-purpose projects uniquely suitable for development by the customer, or renewable resources; and

[Northwest Power Act, §6(h)(6)(C), 94 Stat. 2721.]

839d(h)(6)(D). require that the operators of any generating resource for which a billing credit is to be granted agree to operate such resource in a manner compatible with the planning and operation of the region’s power system.

[Northwest Power Act, §6(h)(6)(D), 94 Stat. 2721.]

839d(i). Contracts

Contracts for the acquisition of resources and for billing credits for major resources, including conservation activities, entered into pursuant to this section shall contain such terms and conditions, applicable after the contract is entered into, as will—

839d(i)(1). insure timely construction, scheduling, completion, and operation of resources,

[Northwest Power Act, §6(i)(1), 94 Stat. 2721.]

839d(i)(2). insure that the costs of any acquisition are as low as reasonably possible, consistent (A) with sound engineering, operating, and safety practices, and (B) the protection, mitigation, and enhancement of fish and wildlife, including related spawning grounds and habitat affected by the development of such resources, and

[Northwest Power Act, §6(i)(2), 94 Stat. 2722.]

839d(i)(3). insure that the Administrator exercises effective oversight, inspection, audit, and review of all aspects of such construction and operation.

[Northwest Power Act, §6(i)(3), 94 Stat. 2722.]

839d(i) [cont.]. Such contracts shall contain provisions assuring that the Administrator has the authority to approve all costs of, and proposals for, major modifications in construction, scheduling or operations and to assure that the Administrator is provided with such current information as he deems necessary to evaluate such construction and operation.

[Northwest Power Act, §6(i), 94 Stat. 2722.]

839d(j). Obligations not to be considered general obligations of United States or secured by full faith and credit of United States.

839d(j)(1). All contractual and other obligations required to be carried out by the Administrator pursuant to this chapter shall be secured solely by the Administrator’s revenues received from the sale of electric power and other services. Such obligations are not, nor shall

Operation

Contracts

Contract obligations secured by revenues

they be construed to be, general obligations of the United States, nor are such obligations intended to be or are they secured by the full faith and credit of the United States.

[Northwest Power Act, §6(j)(1), 94 Stat. 2722.]

839d(j)(2). All contracts entered into by the Administrator for the acquisition of resources pursuant to this chapter shall require that, in the sale of any obligations, all offerings and promotional material for the sale of such obligations shall include the language contained in the second sentence of paragraph (1) of this subsection. The Administrator shall monitor and enforce such requirement.

[Northwest Power Act, §6(j)(2), 94 Stat. 2722.]

839d(k). Equitable distribution of benefits

In the exercise of his authorities pursuant to this section, the Administrator shall, consistent with the provisions of this chapter and the Administrator’s obligations to particular customer classes, insure that benefits under this section, including financial and technical assistance, conduct of conservation demonstrations, and experimental projects, services, and billing credits, are distributed equitably throughout the region.

[Northwest Power Act, §6(k), 94 Stat. 2722.]

Benefits distributed equitably

839d(l). Investigations

839d(l)(1). The Administrator is authorized and directed to investigate opportunities for adding to the region’s resources or reducing the region’s power costs through the accelerated or cooperative development of resources located outside the States of Idaho, Montana, Oregon, and Washington if such resources are renewable resources, and are now or in the future planned or considered for eventual development by nonregional agencies or authorities that will or would own, sponsor, or otherwise develop them. The Administrator shall keep the Council fully and currently informed of such investigations, and seek the Council’s advice as to the desirability of pursuing such investigations.

[Northwest Power Act, §6(l)(1), 94 Stat. 2722.]

Extra-regional opportunities

839d(l)(2). The Administrator is authorized and directed to investigate periodically opportunities for mutually beneficial interregional exchanges of electric power that reduce the need for additional generation or generating capacity in the Pacific Northwest and the regions with which such exchanges may occur. The Council shall take into consideration in formulating a plan such investigations.

[Northwest Power Act, §6(l)(2), 94 Stat. 2722.]

Inter-regional exchanges

839d(l)(3). After the Administrator submits a report to Congress pursuant to paragraph (5) of this subsection, the Administrator is

authorized to acquire resources consistent with such investigations and consistent with the plan or, if no plan is in effect, with the priorities of [16 U.S.C. 839b(e)(1)] and the considerations of [16 U.S.C. 839b(e)(2)]. Such acquisitions shall be in accordance with the provisions of this subsection.

[Northwest Power Act, §6(l)(3), 94 Stat. 2722.]

839d(1)(4). The Administrator shall conduct the investigations and the acquisitions, if any, authorized under this subsection with the assistance of other Federal agencies as may be appropriate.

[Northwest Power Act, §6(l)(4), 94 Stat. 2723.]

839d(1)(5). No later than July 1, 1981, the Administrator shall submit to the Congress a report of the results of the investigation undertaken pursuant to this subsection, together with the prospects for obtaining additional resources under the authority granted by this subsection and for reductions in generation or generating capacity through exchanges.

[Northwest Power Act, §6(l)(5), 94 Stat. 2723.]

839d(m). Offering of reasonable shares to each Pacific Northwest electric utility

Except as to resources under construction on December 5, 1980, the Administrator shall determine in each case of a major resource acquisition that a reasonable share of the particular resource, or a reasonable equivalent, has been offered to each Pacific Northwest electric utility for ownership, participation, or other sponsorship, but not in excess of the amounts needed to meet such utility's Regional load.

[Northwest Power Act, §6(m), 94 Stat. 2723.]

Share offer to utilities

839d-1. Without further appropriation and without fiscal year limitation, the Secretaries of the Interior and Army are authorized to plan, design, construct, operate and maintain generation additions, improvements and replacements, at their respective Federal projects in the Pacific Northwest Region...and to operate and maintain the respective Secretary's power facilities in the Region, that the respective Secretary determines necessary or appropriate and that the Bonneville Power Administrator subsequently determines necessary or appropriate, with any funds that the Bonneville Power Administrator determines to make available to the respective Secretary for such purposes. Each Secretary is authorized, without further appropriation, to accept and use such funds for such purposes: *Provided*, That, such funds shall continue to be exempt from sequestration pursuant to [section 255(g)(1) of the Balanced Budget and Emergency Deficit Control Act of 1985 [2 U.S.C. 901-922] (2 U.S.C. 905(g)(1))]: *Provided further*, That this section not modify or affect the applicability of any provision of [this chapter.] This provision shall be effective on October 1, 1993.

[Energy Policy Act of 1992, P. L. No. 102-486, Title XXIV, §2406, Oct. 24, 1992, 106 Stat. 3099.]

Improvements funded by Administrator

Rates for sale and distribution of power

839e. Rates

839e(a). Establishment; periodic review and revision; confirmation and approval by Federal Energy Regulatory Commission

839e(a)(1). The Administrator shall establish, and periodically review and revise, rates for the sale and disposition of electric energy and capacity and for the transmission of non-Federal power. Such rates shall be established and, as appropriate, revised to recover, in accordance with sound business principles, the cost associated with the acquisition, conservation, and transmission of electric power, including the amortization of the Federal investment in the Federal Columbia River Power System (including irrigation costs required to be repaid out of power revenues) over a reasonable period of years and the other costs and expenses incurred by the Administrator pursuant to this chapter and other provisions of law. Such rates shall be established in accordance with sections 9 and 10 of the Federal Columbia River Transmission System Act (16 U.S.C. 838) [16 U.S.C. 838g and 838h], section 5 of the Flood Control Act of 1944 [16 U.S.C. 825s], and the provisions of this chapter.

[Northwest Power Act, §7(a)(1), 94 Stat. 2723.]

Approval by FERC

839e(a)(2). Rates established under this section shall become effective only, except in the case of interim rules as provided in subsection (i)(6) of this section, upon confirmation and approval by the Federal Energy Regulatory Commission upon a finding by the Commission, that such rates—

839e(a)(2)(A). are sufficient to assure repayment of the Federal investment in the Federal Columbia River Power System over a reasonable number of years after first meeting the Administrator’s other costs,

[Northwest Power Act, §7(a)(2)(A), 94 Stat. 2723.]

839e(a)(2)(B). are based upon the Administrator’s total system costs, and

[Northwest Power Act, §7(a)(2)(B), 94 Stat. 2723.]

839e(a)(2)(C). insofar as transmission rates are concerned, equitably allocate the costs of the Federal transmission system between Federal and non-Federal power utilizing such system.

[Northwest Power Act, §7(a)(2)(C), 94 Stat. 2723.]

Application of rates

839e(b). General application of rates to meet general requirements

839e(b)(1). The Administrator shall establish a rate or rates of general application for electric power sold to meet the general

requirements of public body, cooperative, and Federal agency customers within the Pacific Northwest, and loads of electric utilities under [16 U.S.C. 839c(c)]. Such rate or rates shall recover the costs of that portion of the Federal base system resources needed to supply such loads until such sales exceed the Federal base system resources. Thereafter, such rate or rates shall recover the cost of additional electric power as needed to supply such loads, first from the electric power acquired by the Administrator under [16 U.S.C. 839c(c)] and then from other resources.

[Northwest Power Act, §7(b)(1), 94 Stat. 2723.]

839e(b)(2). After July 1, 1985, the projected amounts to be charged for firm power for the combined general requirements of public body, cooperative and Federal agency customers, exclusive of amounts charged such customers under subsection (g) of this section for the costs of conservation, resource and conservation credits, experimental resources and uncontrollable events, may not exceed in total, as determined by the Administrator, during any year after July 1, 1985, plus the ensuing four years, an amount equal to the power costs for general requirements of such customers if, the Administrator assumes that—

*Section 7(b)(2)
analysis*

839e(b)(2)(A). the public body and cooperative customers' general requirements had included during such five-year period the direct service industrial customer loads which are—

839e(b)(2)(A)(i). served by the Administrator, and

[Northwest Power Act, §7(b)(2)(A)(i), 94 Stat. 2724.]

839e(b)(2)(A)(ii). located within or adjacent to the geographic service boundaries of such public bodies and cooperatives;

[Northwest Power Act, §7(b)(1)(A)(ii), 94 Stat. 2724.]

839e(b)(2)(B). public body, cooperative, and Federal agency customers were served, during such five-year period, with Federal base system resources not obligated to other entities under contracts existing as of December 5, 1980, (during the remaining term of such contracts) excluding obligations to direct service industrial customer loads included in subparagraph (A) of this paragraph;

[Northwest Power Act, §7(b)(2)(B), 94 Stat. 2724.]

839e(b)(2)(C). no purchases or sales by the Administrator as provided in [16 U.S.C. 839c(c)] were made during such five-year period;

[Northwest Power Act, §7(b)(2)(C), 94 Stat. 2724.]

839e(b)(2)(D). all resources that would have been required, during such five-year period, to meet remaining general requirements

of the public body, cooperative and Federal agency customers (other than requirements met by the available Federal base system resources determined under subparagraph (B) of this paragraph) were—

839e(b)(2)(D)(i). purchased from such customers by the Administrator pursuant to [16 U.S.C. 839d], or
[Northwest Power Act, §7(b)(2)(D)(i), 94 Stat. 2724.]

839e(b)(2)(D)(ii). not committed to load pursuant to section 839c(b), of this section
[Northwest Power Act, §7(b)(2)(D)(ii), 94 Stat. 2724.]

839e(b)(2)(D) [cont.]. and were the least expensive resources owned or purchased by public bodies or cooperatives; and any additional needed resources were obtained at the average cost of all other new resources acquired by the Administrator; and
[Northwest Power Act, §7(b)(2)(D), 94 Stat. 2724.]

839e(b)(2)(E). the quantifiable monetary savings, during such five-year period, to public body, cooperative and Federal agency customers resulting from—

839e(b)(2)(E)(i). reduced public body and cooperative financing costs as applied to the total amount of resources, other than Federal base system resources, identified under subparagraph (D) of this paragraph, and
[Northwest Power Act, §7(b)(2)(E)(i), 94 Stat. 2724.]

839e(b)(2)(E)(ii). reserve benefits as a result of the Administrator's actions under this chapter[,]
[Northwest Power Act, §7(b)(2)(E)(ii), 94 Stat. 2724.]

839e(b)(2)(E) [cont.]. were not achieved.
[Northwest Power Act, §7(b)(2)(E), 94 Stat. 2724.]

*Supplemental
rate charges*

839e(b)(3). Any amounts not charged to public body, cooperative, and Federal agency customers by reason of paragraph (2) of this subsection shall be recovered through supplemental rate charges for all other power sold by the Administrator to all customers. Rates charged public body, cooperative, or Federal agency customers pursuant to this subsection shall not include any costs or benefits of a net revenue surplus or deficiency occurring for the period ending June 30, 1985, to the extent such surplus or deficiency is caused by—

839e(b)(3)(A). a difference between actual power deliveries and power deliveries projected for the purpose of establishing rates to direct service industrial customers under subsection (c)(1) of this subsection, and
[Northwest Power Act, §7(b)(3)(A), 94 Stat. 2724.]

839e(b)(3)(B). an overrecovery or underrecovery of the net costs incurred by the Administrator under [16 U.S.C. 839c(c)] as a result of such difference.

[Northwest Power Act, §7(b)(3)(B), 94 Stat. 2724.]

839e(b)(3) [cont.] Any such revenue surplus or deficiency incurred shall be recovered from, or repaid to, customers over a reasonable period of time after July 1, 1985, through a supplemental rate charge or credit applied proportionately for all other power sold by the Administrator at rates established under other subsections of this section prior to July 1, 1985.

[Northwest Power Act, §7(b)(3), 94 Stat. 2724-5.]

839e(b)(4). The term “general requirements” as used in this section means the public body, cooperative or Federal agency customer’s electric power purchased from the Administrator under [16 U.S.C. 839c(b)], exclusive of any new large single load.

[Northwest Power Act, §7(b)(3), 94 Stat. 2725.]

839e(c). Rates applicable to direct service industrial customers

839e(c)(1). The rate or rates applicable to direct service industrial customers shall be established—

839e(c)(1)(A). for the period prior to July 1, 1985, at a level which the Administrator estimates will be sufficient to recover the cost of resources the Administrator determines are required to serve such customers’ load and the net costs incurred by the Administrator pursuant to [16 U.S.C. 839c(c)], based upon the Administrator’s projected ability to make power available to such customers pursuant to their contracts, to the extent that such costs are not recovered through rates applicable to other customers; and

[Northwest Power Act, §7(c)(1)(A), 94 Stat. 2725.]

839e(c)(1)(B). for the period beginning July 1, 1985, at a level which the Administrator determines to be equitable in relation to the retail rates charged by the public body and cooperative customers to their industrial consumers in the region.

[Northwest Power Act, §7(c)(1)(B), 94 Stat. 2725.]

839e(c)(2). The determination under paragraph (1)(B) of this subsection shall be based upon the Administrator’s applicable wholesale rates to such public body and cooperative customers and the typical margins included by such public body and cooperative customers in their retail industrial rates but shall take into account—

839e(c)(2)(A). the comparative size and character of the loads served,

[Northwest Power Act, §7(c)(2)(A), 94 Stat. 2725.]

*Direct services
industries rates*

839e(c)(2)(B). the relative costs of electric capacity, energy, transmission, and related delivery facilities provided and other service provisions, and

[Northwest Power Act, §7(c)(2)(B), 94 Stat. 2725.]

839e(c)(2)(C). direct and indirect overhead costs,

[Northwest Power Act, §7(c)(2)(C), 94 Stat. 2725.]

839e(c)(2) [cont.]. all as related to the delivery of power to industrial customers, except that the Administrator’s rates during such period shall in no event be less than the rates in effect for the contract year ending on June 30, 1985.

[Northwest Power Act, §7(c)(2), 94 Stat. 2725.]

839e(c)(3). The Administrator shall adjust such rates to take into account the value of power system reserves made available to the Administrator through his rights to interrupt or curtail service to such direct service industrial customers.

[Northwest Power Act, §7(c)(3), 94 Stat. 2725.]

839e(d). Discount rates; special rates

839e(d)(1). In order to avoid adverse impacts on retail rates of the Administrator’s customers with low system densities, the Administrator shall, to the extent appropriate, apply discounts to the rate or rates for such customers.

[Northwest Power Act, §7(d)(1), 94 Stat. 2725.]

Low-density discounts

839e(d)(2). In order to avoid adverse impacts of increased rates pursuant to this chapter on any direct service industrial customer using raw minerals indigenous to the region as its primary resource, the Administrator, upon request of such customer showing such impacts and after considering the effect of such request on his other obligations under this chapter, is authorized, if the Administrator determines that such impacts will be significant, to establish a special rate applicable to such customer if all power sold to such customer may be interrupted, curtailed, or withdrawn to meet firm loads in the region. Such rate shall be established in accordance with this section and shall include such terms and conditions as the Administrator deems appropriate.

[Northwest Power Act, §7(d)(2), 94 Stat. 2725.]

839e(e). Uniform rates; rates for sale of peaking capacity; time-of-day, seasonal, and other rates

Nothing in this chapter prohibits the Administrator from establishing, in rate schedules of general application, a uniform rate or rates for sale of peaking capacity or from establishing time-of-day, seasonal rates, or other rate forms.

[Northwest Power Act, §7(e), 94 Stat. 2726.]

Rate forms

839e(f). Basis for rates

Rates for all other firm power sold by the Administrator for use in the Pacific Northwest shall be based upon the cost of the portions of Federal base system resources, purchases of power under [16 U.S.C. 839c(c)] and additional resources which, in the determination of the Administrator, are applicable to such sales.

[Northwest Power Act, §7(f), 94 Stat. 2726.]

839e(g). Allocation of costs and benefits

Except to the extent that the allocation of costs and benefits is governed by provisions of law in effect on December 5, 1980, or by other provisions of this section, the Administrator shall equitably allocate to power rates, in accordance with generally accepted ratemaking principles and the provisions of this chapter, all costs and benefits not otherwise allocated under this section, including, but not limited to, conservation, fish and wildlife measures, uncontrollable events, reserves, the excess costs of experimental resources acquired under [16 U.S.C. 839d], the cost of credits granted pursuant to [16 U.S.C. 839d], operating services, and the sale of or inability to sell excess electric power.

[Northwest Power Act, §7(g), 94 Stat. 2726.]

839e(h). Surcharges

Notwithstanding any other provision of this section (except the provisions of subsection (a) of this section), the Administrator shall adjust power rates to include any surcharges arising under [16 U.S.C. 839b(f)], and shall allocate any revenues from such charges in such manner as the Administrator determines will help achieve the purposes of [16 U.S.C. 839b(f)].

[Northwest Power Act, §7(h), 94 Stat. 2726.]

839e(i). Procedures

In establishing rates under this section, the Administrator shall use the following procedures:

839e(i)(1). Notice of the proposed rates shall be published in the Federal Register with a statement of the justification and reasons supporting such rates. Such notice shall include a date for a hearing in accordance with paragraph (2) of this subsection.

[Northwest Power Act, §7(i)(1), 94 Stat. 2726.]

839e(i)(2). One or more hearings shall be conducted as expeditiously as practicable by a hearing officer to develop a full and complete record and to receive public comment in the form of written and oral presentation of views, data, questions, and argument related to such proposed rates. In any such hearing—

Allocation of costs

Rate-making procedures

Hearings

839e(i)(2)(A). any person shall be provided an adequate opportunity by the hearing officer to offer refutation or rebuttal of any material submitted by any other person or the Administrator, and
[Northwest Power Act, §7(i)(2)(A), 94 Stat. 2726.]

839e(i)(2)(B). the hearing officer, in his discretion, shall allow a reasonable opportunity for cross examination, which, as determined by the hearing officer, is not dilatory, in order to develop information and material relevant to any such proposed rate.
[Northwest Power Act, §7(i)(2)(B), 94 Stat. 2726.]

839e(i)(3). In addition to the opportunity to submit oral and written material at the hearings, any written views, data, questions, and arguments submitted by persons prior to, or before the close of, hearings shall be made a part of the administrative record.
[Northwest Power Act, §7(i)(3), 94 Stat. 2726.]

839e(i)(4). After such a hearing, the Administrator may propose revised rates, publish such proposed rates in the Federal Register, and conduct additional hearings in accordance with this subsection.
[Northwest Power Act, §7(i)(4), 94 Stat. 2726.]

839e(i)(5). The Administrator shall make a final decision establishing a rate or rates based on the record which shall include the hearing transcript, together with exhibits, and such other materials and information as may have been submitted to, or developed by, the Administrator. The decision shall include a full and complete justification of the final rates pursuant to this section.
[Northwest Power Act, §7(i)(5), 94 Stat. 2726-7.]

839e(i)(6). The final decision of the Administrator shall become effective on confirmation and approval of such rates by the Federal Energy Regulatory Commission pursuant to subsection (a)(2) of this section. The Commission shall have the authority, in accordance with such procedures, if any, as the Commission shall promptly establish and make effective within one year after December 5, 1980, to approve the final rate submitted by the Administrator on an interim basis, pending the Commission's final decision in accordance with such subsection. Pending the establishment of such procedures by the Commission, if such procedures are required, the Secretary is authorized to approve such interim rates during such one-year period in accordance with the applicable procedures followed by the Secretary prior to December 5, 1980. Such interim rates, at the discretion of the Secretary, shall continue in effect until July 1, 1982.
[Northwest Power Act, §7(i)(6), 94 Stat. 2727.]

Interim rates

839e(j). Cost figures to be indicated on rates schedules and power billings

All rate schedules adopted, and all power billings rendered, by the Administrator pursuant to this section shall indicate—

839e(j)(1). the approximate cost contribution of different resource categories to the Administrator’s rates for the sale of energy and capacity, and

[Northwest Power Act, §7(j)(1), 94 Stat. 2727.]

839e(j)(2). the cost of resources acquired to meet load growth within the region and the relation of such cost to the average cost of resources available to the Administrator.

[Northwest Power Act, §7(j)(2), 94 Stat. 2727.]

839e(k). Statutory basis for procedures used in establishing rates or rate schedules

Notwithstanding any other provision of this chapter, all rates or rate schedules for the sale of nonfirm electric power within the United States, but outside the region, shall be established after December 5, 1980, by the Administrator in accordance with the procedures of subsection (i) of this section (other than the first sentence of paragraph (6) thereof) and in accordance with the Bonneville Project Act [16 U.S.C. 832 *et seq.*], the Flood Control Act of 1944, and the Federal Columbia River Transmission System Act [16 U.S.C. 838 *et seq.*]. Notwithstanding section 201(f) of the Federal Power Act [16 U.S.C. 824(f)], such rates or rate schedules shall become effective after review by the Federal Energy Regulatory Commission for conformance with the requirements of such Acts and after approval thereof by the Commission. Such review shall be based on the record of proceedings established under subsection (i) of this section. The parties to such proceedings under subsection (i) of this section shall be afforded an opportunity by the Commission for an additional hearing in accordance with the procedures established for ratemaking by the Commission pursuant to the Federal Power Act [16 U.S.C. 791a *et seq.*].

[Northwest Power Act, §7(k), 94 Stat. 2727.]

839e(l). Rates for sales outside United States; negotiations

In order to further the purposes of this chapter and to protect the consumers of the region, the Administrator may negotiate, or establish, rates for electric power sold by the Administrator to any entity not located in the United States which shall be equitable in relation to rates for all electric power which is, or may be, purchased by the Administrator or the Administrator’s customers from entities outside the United States. In establishing rates other than by negotiation, the provisions of subsection (i) of this section shall apply. In the case of any negotiation

Rates for nonfirm

Review by FERC

Negotiated rates outside U.S.

Notice

with an entity not located in the United States, the Administrator shall provide public notice of any proposal to negotiate such rates. Such negotiated rates shall be not less than rates established under this chapter for nonfirm power sold within the United States but outside the region. The Administrator shall also afford notice of any rates negotiated pursuant to this subsection.

[Northwest Power Act, §7(l), 94 Stat. 2727.]

839e(m). Impact aid payments; formula

Payments

839e(m)(1). Beginning the first fiscal year after the plan and program required by section 838b(d) and (h) of this title are finally adopted, the Administrator may, subject to the provisions of this section, make annual impact aid payments to the appropriate local governments within the region with respect to major transmission facilities of the Administrator, as defined in section 3(c) of the Federal Columbia River Transmission Act [16 U.S.C. 838a(c)]—

839e(m)(1)(A). which are located within the jurisdictional boundaries of such governments,
[Northwest Power Act, §7(m)(1)(A), 94 Stat. 2727-8.]

839e(m)(1)(B). which are determined by the Administrator to have a substantial impact on such governments, and
[Northwest Power Act, §7(m)(1)(B), 94 Stat. 2728.]

839e(m)(1)(C). where the construction of such facilities, or any modification thereof, is completed after December 5, 1980, and, in the case of a modification of an existing facility, such modification substantially increases the capacity of such existing transmission facility.
[Northwest Power Act, §7(m)(1)(C), 94 Stat. 2728.]

Payment formula

839e(m)(2). Payments made under this subsection for any fiscal year shall be determined by the Administrator pursuant to a regionwide, uniform formula to be established by rule in accordance with the procedures set forth in subsection (i) of this section. Such rule shall become effective on its approval, after considering its effect on rates established pursuant to this section, by the Federal Energy Regulatory Commission. In developing such formula, the Administrator shall identify, and take into account, the local governmental services provided to the Administrator concerning such facilities and the associated costs to such governments as the result of such facilities.
[Northwest Power Act, §7(m)(2), 94 Stat. 2728.]

839e(m)(3). Payments made pursuant to this subsection shall be made solely from the fund established by section 11 of the Federal Columbia River Transmission System Act [16 U.S.C. 838i]. The

provisions of section 13 of such Act [16 U.S.C. 838k], and any appropriations provided to the Administrator under any law, shall not be available for such payments. The authorization of payments under this subsection shall not be construed as an obligation of the United States.

[Northwest Power Act, §7(m)(3), 94 Stat. 2728.]

839e(m)(4). No payment may be made under this subsection with respect to any land or interests in land owned by the United States within the region and administered by any Federal agency (other than the Administrator), without regard to how the United States obtained ownership thereof, including lands or interests therein acquired or withdrawn by a Federal agency for purposes of such agency and subsequently made available to the Administrator for such facilities.⁹

[Northwest Power Act, §7(m)(4), 94 Stat. 2728.]

839e (n). Limiting the inclusion of costs of protection of, mitigation of damage to, and enhancement of fish and wildlife, within rates charged by the Bonneville Power Administration, to the rate period in which the costs are incurred

839e [cont.]. Notwithstanding any other provision of this section, rates established by the Administrator, under this section shall recover costs for protection, mitigation and enhancement of fish and wildlife, whether under [this chapter] or any other Act, not to exceed such amounts the Administrator forecasts will be expended during the fiscal year 2002-2006 rate period, while preserving the Administrator's ability to establish appropriate reserves and maintain a high Treasury payment probability for the subsequent rate period.

[As amended Pub.L. 106-60, § 316, Sept. 29, 1999, 113 Stat. 497.]

839f. Administrative provisions

839f(a). Contract authority

Subject to the provisions of this chapter, The Administrator is authorized to contract in accordance with section 2(f) of the Bonneville Project Act of 1937 (16 U.S.C. 832a(f)). Other provisions of law applicable to such contracts on December 5, 1980, shall continue to be applicable.

[Northwest Power Act, §9(a), 94 Stat. 2729-30.]

839f(b). Executive and administrative functions of Administrator of Bonneville Power Administration; sound and businesslike implementation of chapter

The Administrator shall discharge the executive and administrative functions of his office in accordance with the policy established by the Bonneville Project Act of 1937 (16 U.S.C. 832 and following), section 7152(a)(2) and (3) of Title 42, and this chapter. The Secretary of Energy, the Council, and the Administrator shall take such steps as are necessary

Contracts

9. §8 of this Act consists of amendments to existing law and is codified as part of the statutes that it amends. See, e.g., Transmission System Act §11(b)(6) (16 U.S.C § 838i(b)(6) *supra*, page 63.

*Contracts outside
Pacific Northwest*

to assure the timely implementation of this chapter in a sound and businesslike manner. Nothing in this chapter shall be construed by the Secretary, the Administrator, or any other official of the Department of Energy to modify, alter, or otherwise affect the requirements and directives expressed by the Congress in section 7152(a)(2) and (3) of Title 42 or the operations of such officials as they existed prior to December 5, 1980.

[Northwest Power Act, §9(b), 94 Stat. 2730.]

839f(c). Limitations and conditions on contracts for sale or exchange of electric power for use outside Pacific Northwest

Any contract of the Administrator for the sale or exchange of electric power for use outside the Pacific Northwest shall be subject to limitations and conditions corresponding to those provided in sections 2 and 3 of the Act of August 31, 1964 (16 U.S.C. 837a and 837b) for any contract for the sale, delivery, or exchange of hydroelectric energy or peaking capacity generated within the Pacific Northwest for use outside the Pacific Northwest. In applying such sections for the purposes of this subsection, the term “surplus energy” shall mean electric energy for which there is no market in the Pacific Northwest at any rate established for the disposition of such energy, and the term “surplus peaking capacity” shall mean electric peaking capacity for which there is no demand in the Pacific Northwest at the rate established for the disposition of such capacity. The authority granted, and duties imposed upon, the Secretary by sections 5 and 7 of such Act (16 U.S.C. 837e and 837f) [16 U.S.C. 837d and 837f] shall also apply to the Administrator in connection with resources acquired by the Administrator pursuant to this chapter. The Administrator shall, in making any determination, under any contract executed pursuant to [16 U.S.C. 839c], of the electric power requirements of any Pacific Northwest customer, which is a non-Federal entity having its own generation, exclude, in addition to hydroelectric generated energy excluded from such requirements pursuant to section 3(d) of such Act (16 U.S.C. 837b(d)), any amount of energy included in the resources of such customer for service to firm loads in the region if (1) such amount was disposed of by such customer outside the region, and (2) as a result of such disposition, the firm energy requirements of such customer or other customers of the Administrator are increased. Such amount of energy shall not be excluded, if the Administrator determines that through reasonable measures such amount of energy could not be conserved or otherwise retained for service to regional loads. The Administrator may sell as replacement for any amount of energy so excluded only energy that would otherwise be surplus.

[Northwest Power Act, §9(c), 94 Stat. 2730.]

839f(d). Disposition of power which does not increase amount of firm power Administrator is obligated to provide to any customer

No restrictions contained in subsection (c) of this section shall limit or interfere with the sale, exchange or other disposition of any power by any utility or group thereof from any existing or new non-Federal resource if such sale, exchange or disposition does not increase the amount of firm power the Administrator would be obligated to provide to any customer. In addition to the directives contained in subsections (i)(1)(B) and (i)(3) and subject to:

839f(d)(1). any contractual obligations of the Administrator,
[Northwest Power Act, §9(d)(1), 94 Stat. 2730.]

839f(d)(2). any other obligations under existing law, and
[Northwest Power Act, §9(d)(2), 94 Stat. 2730.]

839f(d)(3). the availability of capacity in the Federal transmission system,
[Northwest Power Act, §9(d)(3), 94 Stat. 2731.]

839f(d) [cont.]. the Administrator shall provide transmission access, load factoring, storage and other services normally attendant thereto to such utilities and shall not discriminate against any utility or group thereof on the basis of independent development of such resource in providing such services.
[Northwest Power Act, §9(d), 94 Stat. 2730-1.]

839f(e). Judicial review; suits

839f(e)(1). For purposes of sections 701 through 706 of Title 5, the following actions shall be final actions subject to judicial review—

Judicial review

839f(e)(1)(A). adoption of the plan or amendments thereto by the Council under [16 U.S.C. 839b], adoption of the program by the Council, and any determination by the Council under [16 U.S.C. 839b(h)];
[Northwest Power Act, §9(e)(1)(A), 94 Stat. 2731.]

839f(e)(1)(B). sales, exchanges, and purchases of electric power under [16 U.S.C. 839c];
[Northwest Power Act, §9(e)(1)(B), 94 Stat. 2731.]

839f(e)(1)(C). the Administrator's acquisition of resources under [16 U.S.C. 839d];
[Northwest Power Act, §9(e)(1)(C), 94 Stat. 2731.]

839f(e)(1)(D). implementation of conservation measures under [16 U.S.C. 839d];
[Northwest Power Act, §9(e)(1)(D), 94 Stat. 2731.]

839f(e)(1)(E). execution of contracts for assistance to sponsors under [16 U.S.C. 839d(f)];
[Northwest Power Act, §9(e)(1)(E), 94 Stat. 2731.]

839f(e)(1)(F). granting of credits under [16 U.S.C. 839d(h)];
[Northwest Power Act, §9(e)(1)(F), 94 Stat. 2731.]

839f(e)(1)(G). final rate determinations under [16 U.S.C. 839e];
and
[Northwest Power Act, §9(e)(1)(G), 94 Stat. 2731.]

839f(e)(1)(H). any rule prescribed by the Administrator under [16 U.S.C. 839e(m)(2)].
[Northwest Power Act, §9(e)(1)(H), 94 Stat. 2731.]

Record of final action

839f(e)(2). The record upon review of such final actions shall be limited to the administrative record compiled in accordance with this chapter. The scope of review of such actions without a hearing or after a hearing shall be governed by section 706 of title 5, except that final determinations regarding rates under [16 U.S.C. 839e] shall be supported by substantial evidence in the rulemaking record required by [16 U.S.C. 839e(i)] considered as a whole. The scope of review of an action under [16 U.S.C. 839d(c)] shall be governed by section 706 of Title 5. Nothing in this section shall be construed to require a hearing pursuant to section 554, 556, or 557 of Title 5.
[Northwest Power Act, §9(e)(2), 94 Stat. 2731.]

839f(e)(3). Nothing in this section shall be construed to preclude judicial review of other final actions and decisions by the Council or Administrator.
[Northwest Power Act, §9(e)(3), 94 Stat. 2731.]

839f(e)(4). For purposes of this subsection—

839f(e)(4)(A). major resources shall be deemed to be acquired upon publication in the Federal Register pursuant to [16 U.S.C. 839d(c)(4)(B)];
[Northwest Power Act, §9(e)(4)(A), 94 Stat. 2731.]

839f(e)(4)(B). resources, other than major resources, shall be deemed to be acquired upon execution of the contract therefor;
[Northwest Power Act, §9(e)(4)(B), 94 Stat. 2731.]

839f(e)(4)(C). conservation measures shall be deemed to be implemented upon execution of the contract or grant therefor; and
[Northwest Power Act, §9(e)(4)(C), 94 Stat. 2731.]

839f(e)(4)(D). rate determinations pursuant to [16 U.S.C. 839e] shall be deemed final upon confirmation and approval by the Federal Energy Regulatory Commission.

[*Northwest Power Act, §9(e)(4)(D), 94 Stat. 2731.*]

839f(e)(5). Suits to challenge the constitutionality of this chapter, or any action thereunder, final actions and decisions taken pursuant to this chapter by the Administrator or the Council, or the implementation of such final actions, whether brought pursuant to this chapter, the Bonneville Project Act [16 U.S.C. 832 *et seq.*], the Act of August 31, 1964 (16 U.S.C. 837-837h), or the Federal Columbia River Transmission System Act (16 U.S.C. 838 and following), shall be filed in the United States court of appeals for the region. Such suits shall be filed within ninety days of the time such action or decision is deemed final, or, if notice of the action is required by this chapter to be published in the Federal Register, within ninety days from such notice, or be barred. In the case of a challenge of the plan or programs or amendments thereto, such suit shall be filed within sixty days after publication of a notice of such final action in the Federal Register. Such court shall have jurisdiction to hear and determine any suit brought as provided in this section. The plan and program, as finally adopted or portions thereof, or amendments thereto, shall not thereafter be reviewable as a part of any other action under this chapter or any other law. Suits challenging any other actions under this chapter shall be filed in the appropriate court.

[*Northwest Power Act, §9(e)(5), 94 Stat. 2731-2.*]

839f(f). Tax treatment of interest on governmental obligations

For purposes of enabling the Administrator to acquire resources necessary to meet the firm load of public bodies, cooperatives, and Federal agencies from a governmental unit at a cost no greater than the cost which would be applicable in the absence of such acquisition, the exemption from gross income of interest on certain governmental obligations provided in section 103(a)(1) of Title 26 shall not be affected by the Administrator’s acquisition of such resources if—

839f(f)(1). the Administrator, prior to contracting for such acquisition, certifies to his reasonable belief, that the persons for whom the Administrator is acquiring such resources for sale pursuant to section 839c of this title are public bodies, cooperatives, and Federal agencies, unless the Administrator also certifies that he is unable to acquire such resources without selling a portion thereof to persons who are not exempt persons (as defined in section 103(b) of Title 26), and

[*Northwest Power Act, §9(f)(1), 94 Stat. 2732.*]

Legal challenges

Time bar

Jurisdiction

Review by FERC of investor-owned rates

839f(f)(2). based upon such certification, the Secretary of the Treasury determines in accordance with applicable regulations that less than a major portion of the resource is to be furnished to persons who are not exempt persons (as defined in section 103(b) of Title 26).
[Northwest Power Act, §9(f)(2), 94 Stat. 2732.]

839f(f) [cont.]. The certification under paragraph (1) shall be made in accordance with this subsection and a procedure and methodology approved by the Secretary of the Treasury. For purposes of this subsection, the term “major portion” shall have the meaning provided by regulations issued by the Secretary of the Treasury.
[Northwest Power Act, §9(f), 94 Stat. 2732.]

839f(g). Review of rates for sale of power to Administrator by investor-owned utility customers

When reviewing rates for the sale of power to the Administrator by an investor-owned utility customer under [16 U.S.C. 839c(c) or 839d], the Federal Energy Regulatory Commission shall, in accordance with [16 U.S.C. 824h]—

839f(g)(1). convene a joint State board, and
[Northwest Power Act, §9(g)(1), 94 Stat. 2732.]

839f(g)(2). invest such board with such duties and authority as will assist the Commission in its review of such rates.
[Northwest Power Act, §9(g)(1), 94 Stat. 2732.]

839f(h). Companies which own or operate facilities for the generation of electricity primarily for sale to Administrator

839f(h)(1). No “Company” (as defined in section 79b(a)(2) of Title 15), which owns or operates facilities for the generation of electricity (together with associated transmission and other facilities) primarily for sale to the Administrator under [16 U.S.C. 839d] shall be deemed an “electric utility company” (as defined in section 79b(a)(3) of the Title 15), within the meaning of any provision or provisions of chapter 2C of Title 15, if at least 90 per centum of the electricity generated by such company is sold to the Administrator under [16 U.S.C. 839d], and if—

839f(h)(1)(A). the organization of such company is consistent with the policies of section 79a(b) and (c) of Title 15, as determined by the Securities and Exchange Commission, with the concurrence of the Administrator, at the time of such organization; and
[Northwest Power Act, §9(h)(1)(A), 94 Stat. 2732.]

839f(h)(1)(B). participation in any facilities of such “company” has been offered to public bodies and cooperatives in the region pursuant to section 839d(m) of this title.

[Northwest Power Act, §9(h)(1)(B), 94 Stat. 2733.]

839f(h)(2). The Administrator shall include in any contract for the acquisition of a major resource from such “company” provisions limiting the amount of equity investment, if any, in such “company” to that which the Administrator determines will be consistent with achieving the lowest attainable power costs attributable to such major resource.

[Northwest Power Act, §9(h)(2), 94 Stat. 2733.]

839f(h)(3). In the case of any “company” which meets the requirements of paragraph (1), the Administrator, with the concurrence of such Commission, shall approve all significant contracts entered into by, and between, such “company” and any sponsor company or any subsidiary of such sponsor company which are determined to be consistent with the policies of section 79a(b) and (c) of Title 15 at the time such contracts are entered into. The Administrator and the Securities and Exchange Commission shall exercise such approval authority within sixty days after receipt of such contracts. Such contracts shall not be effective without such approval.

[Northwest Power Act, §9(h)(3), 94 Stat. 2733.]

839f(h)(4). Paragraph (1) of this subsection shall continue to apply to any such “company” unless the Administrator or the Securities and Exchange Commission, or both, through periodic review, (A) determine at any time that the “company” no longer operates in a manner consistent with the policies of section 79a(b) and (c) of Title 15 and in accordance with this subsection, and (B) notify the “company” in writing of such preliminary determination. This subsection shall cease to apply to such “company” thirty days after receipt of notification of a final determination thereof. A final determination shall be made only after public notice of the preliminary determination and after a hearing completed not later than sixty days from the date of publication of such notice. Such final determination shall be made within thirty days after the date of completion of such hearing.

[Northwest Power Act, §9(h)(4), 94 Stat. 2733.]

839f(i). Electric power acquisition or disposition

839f(i)(1). At the request and expense of any customer or group of customers of the Administrator within the Pacific Northwest, the Administrator shall, to the extent practicable—

839f(i)(1)(A). acquire any electric power required by (i) any customer or group of customers to enable them to replace resources

*Acquisition and
disposition of
electric power*

determined to serve firm load under section 839c(b) of this title, or (ii) direct service industrial customers to replace electric power that is or may be curtailed or interrupted by the Administrator (other than power the Administrator is obligated to replace), with the cost of such replacement power to be distributed among the direct service industrial customers requesting such power; and

[Northwest Power Act, §9(i)(1)(A), 94 Stat. 2733.]

839f(i)(1)(B). dispose of, or assist in the disposal of, any electric power that a customer or group of customers proposes to sell within or without the region at rates and upon terms specified by such customer or group of customers, if such disposition is not in conflict with the Administrator’s other marketing obligations and the policies of this chapter and other applicable laws.

[Northwest Power Act, §9(i)(1)(B), 94 Stat. 2733.]

839f(i)(2). In implementing the provisions of subparagraphs (A) and (B) of paragraph (1), the Administrator may prescribe policies and conditions for the independent acquisition or disposition of electric power by any direct service industrial customer or group of such customers for the purpose of assuring each direct service industrial customer an opportunity to participate in such acquisition or disposition.

[Northwest Power Act, §9(i)(2), 94 Stat. 2733.]

839f(i)(3). The Administrator shall furnish services including transmission, storage, and load factoring unless he determines such services cannot be furnished without substantial interference with his power marketing program, applicable operating limitations or existing contractual obligations. The Administrator shall, to the extent practicable, give priority in making such services available for the marketing, within and without the Pacific Northwest, of capability from projects under construction on December 5, 1980, if such capability has been offered for sale at cost, including a reasonable rate of return, to the Administrator pursuant to this chapter and such offer is not accepted within one year.

[Northwest Power Act, §9(i)(3), 94 Stat. 2734.]

839f(j). Retail rate designs which encourage conservation and efficient use of electric energy, installation of consumer-owned renewable resources, and rate research and development

839f(j)(1). The Council, as soon as practicable after December 5, 1980, shall prepare, in consultation with the Administrator, the customers, appropriate State regulatory bodies, and the public, a report and shall make recommendations with respect to the various retail rate designs which will encourage conservation and efficient

Report

use of electric energy and the installation of consumer-owned renewable resources on a cost-effective basis, as well as areas for research and development for possible application to retail utility rates within the region. Studies undertaken pursuant to this subsection shall not affect the responsibilities of any customer or the Administrator which may exist under the Public Utility Regulatory Policies Act of 1978.

[Northwest Power Act, §9(j)(1), 94 Stat. 2734.]

839f(j)(2). Upon request, and solely on behalf of customers so requesting, the Administrator is authorized to (A) provide assistance in analyzing and developing retail rate structures that will encourage cost-effective conservation and the installation of cost-effective consumer-owned renewable resources; (B) provide estimates of the probable power savings and the probable amount of billing credits under section 839d(h) of this Title that might be realized by such customers as a result of adopting and implementing such retail rate structures; and (C) solicit additional information and analytical assistance from appropriate State regulatory bodies and the Administrator’s other customers.

[Northwest Power Act, §9(j)(2), 94 Stat. 2734.]

839f(k). Executive position for conservation and renewable resources

There is hereby established within the administration an executive position for conservation and renewable resources. Such executive shall be appointed by the Administrator and shall be assigned responsibility for conservation and direct-application renewable resource programs (including the administration of financial assistance for such programs). Such position is hereby established in the senior executive service in addition to the number of such positions heretofore established in accordance with other provisions of law applicable to such positions.

[Northwest Power Act, §9(k), 94 Stat. 2734.]

Conservation and renewable resources position established

839g. Savings provisions

Savings provisions

839g(a). Rights of States and political subdivisions of States

Nothing in this chapter shall be construed to affect or modify any right of any State or political subdivision thereof or electric utility to—

839g(a)(1). determine retail electric rates, except as provided by section 839c(c)(3) of this Title;

[Northwest Power Act, §10(a)(1), 94 Stat. 2734.]

839g(a)(2). develop and implement plans and programs for the conservation, development, and use of resources; or

[Northwest Power Act, §10(a)(2), 94 Stat. 2734.]

Citing

839g(a)(3). make energy facility citing decisions, including, but not limited to, determining the need for a particular facility, evaluating alternative sites, and considering alternative methods of meeting the determined need.

[Northwest Power Act, §10(a)(3), 94 Stat. 2734.]

839g(b). Rights and obligations under existing contracts

Nothing in this chapter shall alter, diminish, or abridge the rights and obligations of the Administrator or any customer under any contract existing as of December 5, 1980.

[Northwest Power Act, §10(b), 94 Stat. 2735.]

Preference

839g(c). Statutory preferences and priorities of public bodies and cooperatives in sale of federally generated power

Nothing in this chapter shall alter, diminish, abridge, or otherwise affect the provisions of other Federal laws by which public bodies and cooperatives are entitled to preference and priority in the sale of federally generated electric power.

[Northwest Power Act, §10(c), 94 Stat. 2735.]

Contracts not affected

839g(d). Contractual rights under provisions later found to be unconstitutional

If any provision of this chapter is found to be unconstitutional, then any contract entered into by the Administrator, prior to such finding and in accordance with such provisions, to sell power, acquire or credit resources, or to reimburse investigation and preconstruction expenses pursuant to section 839c of this Title, and section 839d(a), (f) or (h) of this title shall not be affected by such finding.

[Northwest Power Act, §10(d), 94 Stat. 2735.]

839g(e). Treaty and other rights of Indian tribes

Nothing in this chapter shall be construed to affect or modify any treaty or other right of an Indian tribe.

[Northwest Power Act, §10(e), 94 Stat. 2735.]

Reservation

839g(f). Reservation of electric power for Montana; Hungry Horse and Libby Dams and Reservoirs

The reservation under law of electric power primarily for use in the State of Montana by reason of the construction of Hungry Horse and Libby Dams and Reservoirs within that State is hereby affirmed. Such reservation shall also apply to 50 per centum of any electric power produced at Libby Reregulating Dam if built. Electric power so reserved shall be sold at the rate or rates set pursuant to section 839e of this Title.

[Northwest Power Act, §10(f), 94 Stat. 2735.]

839g(g). Rights of States to prohibit recovery of resource construction costs through retail rates

Nothing in this chapter shall be construed to affect or modify the right of any State to prohibit utilities regulated by the appropriate State regulatory body from recovering, through their retail rates, costs during any period of resource construction.

[Northwest Power Act, §10(g), 94 Stat. 2735.]

839g(h). Water appropriations

Nothing in this chapter shall be construed as authorizing the appropriation of water by any Federal, State, or local agency, Indian tribe, or any other entity or individual. Nor shall any provision of this chapter of any plan or program adopted pursuant to the chapter (1) affect the rights or jurisdictions of the United States, the States, Indian tribes, or other entities over waters of any river or stream or over any groundwater resource, (2) alter, amend, repeal, interpret, modify, or be in conflict with any interstate compact made by the States, or (3) otherwise be construed to alter or establish the respective rights of States, the United States, Indian tribes, or any person with respect to any water or water-related right.

[Northwest Power Act, §10(h), 94 Stat. 2735.]

839g(i). Existing Federal licenses, permits, and certificates

Nothing in this chapter shall be construed to affect the validity of any existing license, permit, or certificate issued by any Federal agency pursuant to any other Federal law.

[Northwest Power Act, §10(i), 94 Stat. 2735.]

839h. Separability of provisions

If any provision of section 839b(a) through (c) of this title or any other provision of this chapter or the application thereof to any person, State, Indian tribe, entity, or circumstance is held invalid, neither the remainder of section 839b of this Title or any other provisions of this chapter, nor the application of such provisions to other persons, States, Indian tribes, entities, or circumstances, shall be affected thereby.

[Northwest Power Act, §12, 94 Stat. 2735.]

TAX REFORM ACT OF 1986

*26 United States Code Chapter 1, Part IV (1994).
Act of Oct. 22, 1986, §1301(b), 100 Stat. 2085, 2638.
Public Law No. 99-514, H.R. 3838.*

147(d). Acquisition of existing property not permitted.—

147(d)(1). In general.—Except as provided in subsection (h), a private activity bond shall not be a qualified bond if issued as part of an issue and any portion of the net proceeds of such issue is to be used for the acquisition of any property (or an interest therein) unless the 1st use of such property is pursuant to such acquisition.

147(d)(2). Exception for certain rehabilitations.—Paragraph (1) shall not apply with respect to any building (and the equipment therefor) if –

147(d)(2)(A). the rehabilitation expenditures with respect to such building, equal or exceed

147(d)(2)(B). 15 percent of the portion of the cost of acquiring such building (and equipment) financed with the net proceeds of the issue.

147(d)(2) [cont.]. A rule similar to the rule of the preceding sentence shall apply in the case of structures other than a building except that subparagraph (B) shall be applied by substituting “100 percent” for “15 percent”.

147(d)(3). Rehabilitation expenditures.—For purposes of this subsection –

147(d)(3)(A). In general.—Except as provided in this paragraph, the term “rehabilitation expenditures” means any amount properly chargeable to capital account which is incurred by the person acquiring the building for property (or additions or improvements to property) in connection with the rehabilitation of a building. In the case of an integrated operation contained in a building before its acquisition, such term includes rehabilitating existing equipment in such building or replacing it with equipment having substantially the same function. For purposes of this subparagraph, any amount incurred by a successor to the person acquiring the building or by the seller under a sales contract with such person shall be treated as incurred by such person.

147(d)(3)(B). Certain expenditures not included.—The term “rehabilitation expenditures” does not include any expenditure described in section 47(c)(2)(B).

147(d)(3)(C). Period during which expenditures must be incurred.—The term “rehabilitation expenditures” shall not include any amount which is incurred after the date 2 years after the later of -

147(d)(3)(C)(i). the date on which the building was acquired, or

147(d)(3)(C)(ii). the date on which the bond was issued.

147(d)(4). Special rule for certain projects.—In the case of a project involving 2 or more buildings, this subsection shall be applied on a project basis.

[Pub.L. 99-514, § 1301(b), Oct. 22, 1986, 100 Stat. 2085, 2638.]

147(e). No portion of bonds may be issued for skyboxes, airplanes, gambling establishments, etc.—A private activity bond shall not be a qualified bond if issued as part of an issue and any portion of the proceeds of such issue is to be used to provide any airplane, skybox or other private luxury box, health club facility, facility primarily used for gambling, or store the principal business of which is the sale of alcoholic beverages for consumption off premises.

[Pub.L. 99-514, § 1301(b), Oct. 22, 1986, 100 Stat. 2085, 2638.]

147(f). Public approval required for private activity bonds.—

147(f)(1). In general.—A private activity bond shall not be a qualified bond unless such bond satisfies the requirements of paragraph (2).

147(f)(2). Public approval requirement.—

147(f)(2)(A). In general.—A bond shall satisfy the requirements of this paragraph if such bond is issued as a part of an issue which has been approved by –

147(f)(2)(A)(i). the governmental unit –

147(f)(2)(A)(i)(I). which issued such bond, or

147(f)(2)(A)(i)(II). on behalf of which such bond was issued, and

147(f)(2)(A)(ii). each governmental unit having jurisdiction over the area in which any facility, with respect to which financing is to be provided from the net proceeds of such issue, is located (except that if

more than 1 governmental unit within a State has jurisdiction over the entire area within such State in which such facility is located, only 1 such unit need approve such issue).

147(f)(2)(B). Approval by a governmental unit.—For purposes of subparagraph (A), an issue shall be treated as having been approved by any governmental unit if such issue is approved –

147(f)(2)(B)(i). by the applicable elected representative of such governmental unit after a public hearing following reasonable public notice, or

147(f)(2)(B)(ii). by voter referendum of such governmental unit.

147(f)(2)(C). Special rules for approval of facility.—If there has been public approval under subparagraph (A) of the plan for financing a facility, such approval shall constitute approval under subparagraph (A) for any issue -

147(f)(2)(C)(i). which is issued pursuant to such plan within 3 years after the date of the 1st issue pursuant to the approval, and

147(f)(2)(C)(ii). all or substantially all of the proceeds of which are to be used to finance such facility or to refund previous financing under such plan.

147(f)(2)(D). Refunding bonds.—No approval under subparagraph (A) shall be necessary with respect to any bond which is issued to refund (other than to advance refund) a bond approved under subparagraph (A) (or treated as approved under subparagraph (C)) unless the average maturity date of the issue of which the refunding bond is a part is later than the average maturity date of the bonds to be refunded by such issue. For purposes of the preceding sentence, average maturity shall be determined in accordance with subsection (b)(2)(A).

147(f)(2)(E). Applicable elected representative.—For purposes of this paragraph -

147(f)(2)(E)(i). In general.—The term “applicable elected representative” means with respect to any governmental unit –

147(f)(2)(E)(i)(I). an elected legislative body of such unit, or

147(f)(2)(E)(i)(II). the chief elected executive officer, the chief elected State legal officer of the executive branch, or any other elected

official of such unit designated for purposes of this paragraph by such chief elected executive officer or by State law.

147(f)(2)(E)(i) [cont.]. If the office of any elected official described in subclause (II) is vacated and an individual is appointed by the chief elected executive officer of the governmental unit and confirmed by the elected legislative body of such unit (if any) to serve the remaining term of the elected official, the individual so appointed shall be treated as the elected official for such remaining term.

147(f)(2)(E)(ii). No applicable elected representative.—If (but for this clause) a governmental unit has no applicable elected representative, the applicable elected representative for purposes of clause (i) shall be the applicable elected representative of the governmental unit -

147(f)(2)(E)(ii)(I). which is the next higher governmental unit with such a representative, and

147(f)(2)(E)(ii)(II). from which the authority of the governmental unit with no such representative is derived.

147(f)(3). Special rule for approval of airports or high-speed intercity rail facilities.—If -

147(f)(3)(A). the proceeds of an issue are to be used to finance a facility or facilities located at an airport or high-speed intercity rail facilities, and

147(f)(3)(B). the governmental unit issuing such bonds is the owner or operator of such airport or high-speed intercity rail facilities,

147(f)(3) [cont.]. such governmental unit shall be deemed to be the only governmental unit having jurisdiction over such airport or high-speed intercity rail facilities for purposes of this subsection.

147(f)(4). Special rules for scholarship funding bond issues and volunteer fire department bond issues.—

147(f)(4)(A). Scholarship funding bonds.—In the case of a qualified scholarship funding bond, any governmental unit which made a request described in section 150(d)(2)(B) with respect to the issuer of such bond shall be treated for purposes of paragraph (2) of this subsection as the governmental unit on behalf of which such bond was issued. Where more than one governmental unit within a State has

made a request described in section 150(d)(2)(B), the State may also be treated for purposes of paragraph (2) of this subsection as the governmental unit on behalf of which such bond was issued.

147(f)(4)(B). Volunteer fire department bonds.—In the case of a bond of a volunteer fire department which meets the requirements of section 150(e), the political subdivision described in section 150(e)(2)(B) with respect to such department shall be treated for purposes of paragraph (2) of this subsection as the governmental unit on behalf of which such bond was issued.

[Pub.L. 99-514, § 1301(b), Oct. 22, 1986, 100 Stat. 2085, 2638.]

147(g). Restriction on issuance costs financed by issue.—

147(g)(1). In general.—A private activity bond shall not be a qualified bond if the issuance costs financed by the issue (of which such bond is a part) exceed 2 percent of the proceeds of the issue.

147(g)(2). Special rule for small mortgage revenue bond issues.—In the case of an issue of qualified mortgage bonds or qualified veterans' mortgage bonds, paragraph (1) shall be applied by substituting "3.5 percent" for "2 percent" if the proceeds of the issue do not exceed \$20,000,000.

[Pub.L. 99-514, § 1301(b), Oct. 22, 1986, 100 Stat. 2085, 2638.]

147(h). Certain rules not to apply to certain bonds.—

147(h)(1). Mortgage revenue bonds and qualified student loan bonds.—Subsections (a), (b), (c), and (d) shall not apply to any qualified mortgage bond, qualified veterans' mortgage bond, or qualified student loan bond.

147(h)(2). Qualified 501(c)(3) bonds.—Subsections (a), (c), and (d) shall not apply to any qualified 501(c)(3) bond and subsection (e) shall be applied as if it did not contain "health club facility" with respect to such a bond.

147(h)(3). Exempt facility bonds for qualified public-private schools.—Subsection (c) shall not apply to any exempt facility bond issued as part of an issue described in section 142(a)(13) (relating to qualified public educational facilities).

[Pub.L. 99-514, § 1301(b), Oct. 22, 1986, 100 Stat. 2085, 2638. As amended by Pub.L. 107-16, § 422(d), (e), June 7, 2001, 115 Stat. 66. Effective date of amendments is December 31, 2001.]

7152(a)(1). There are transferred to, and vested in, the Secretary all functions of the Secretary of the Interior under section 825s of Title 16, and all other functions of the Secretary of the Interior, and officers and components of the Department of the Interior, with respect to -

7152(a)(1)(C). the Bonneville Power Administration including but not limited to the authority contained in the Bonneville Project Act of 1937 [16 U.S.C. 832 et seq.] and the Federal Columbia River Transmission System Act [16 U.S.C. 838 et seq.];

7152(a)(1)(D). the power marketing functions of the Bureau of Reclamation, including the construction, operation, and maintenance of transmission lines and attendant facilities; and...

7152(a)(2). The Southeastern Power Administration, the Southwestern Power Administration, and the Bonneville Power Administration, shall be preserved as separate and distinct organizational entities within the Department. Each such entity shall be headed by an Administrator appointed by the Secretary. The functions transferred to the Secretary in paragraphs (1)(A), (1)(B), (1)(C), and (1)(D) shall be exercised by the Secretary, acting by and through such Administrators. Each such Administrator shall maintain his principal office at a place located in the region served by his respective Federal power marketing entity.

7152(a)(3). The functions transferred in paragraphs (1)(E) and (1)(F) of this subsection shall be exercised by the Secretary, acting by and through a separate and distinct Administration within the Department which shall be headed by an Administrator appointed by the Secretary. The Administrator shall establish and shall maintain such regional offices as necessary to facilitate the performance of such functions. Neither the transfer of functions effected by paragraph (1)(E)

of this subsection nor any changes in cost allocation or project evaluation standards shall be deemed to authorize the reallocation of joint costs of multipurpose facilities theretofore allocated unless and to the extent that such change is hereafter approved by Congress.

RECLAMATION PROJECT ACT OF 1939

*43 United States Code Chapter 12 (1994).
Act of Aug. 4, 1939, ch. 418, §9, 53 Stat. 1193.*

485h(c). Furnishing water to municipalities; sale of electric power; lease of power privileges

The Secretary is authorized to enter into contracts to furnish water for municipal water supply or miscellaneous purposes: *Provided*, That any such contract either (1) shall require repayment to the United States, over a period of not to exceed forty years from the year in which water is first delivered for the use of the contracting party, with interest not exceeding the rate of 3 1/2 per centum per annum if the Secretary determines an interest charge to be proper, of an appropriate share as determined by the Secretary of that part of the construction costs allocated by him to municipal water supply or other miscellaneous purposes; or (2) shall be for such periods, not to exceed forty years, and at such rates as in the Secretary's judgment will produce revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost and an appropriate share of such fixed charges as the Secretary deems proper, and shall require the payment of said rates each year in advance of delivery of water for said year. Any sale of electric power or lease of power privileges, made by the Secretary in connection with the operation of any project or division of a project, shall be for such periods, not to exceed forty years, and at such rates as in his judgment will produce power revenues at least sufficient to cover an appropriate share of the annual operation and maintenance cost, interest on an appropriate share of the construction investment at not less than 3 per centum per annum, and such other fixed charges as the Secretary deems proper: *Provided further*, That in said sales or leases preference shall be given to municipalities and other public corporations or agencies; and also to cooperatives and other nonprofit organizations financed in whole or in part by loans made pursuant to the Rural Electrification Act of 1936 [7 U.S.C. § 901 et seq.]. Nothing in this subsection shall be applicable to provisions in existing contracts, made pursuant to law, for the use of power and miscellaneous revenues of a project for the benefit of users of water from such project. The provisions of this subsection respecting the terms of sales of electric power and leases of power privileges shall be in addition and alternative to any authority in existing laws relating to particular projects. No contract relating to municipal water supply or miscellaneous purposes or to electric power or power privileges shall be made unless, in the judgment of the Secretary, it will not impair the efficiency of the project for irrigation purposes.

LEGISLATIVE HISTORY FOR
RECLAMATION PROJECT ACT OF 1939

[None set out.]

HUNGRY HORSE DAM ACT

43 United States Code Chapter 12 (1994).
Act of June 5, 1944, ch. 234, 58 Stat. 270.
Public Law No. 78-329, H.R. 3570.

593a. Construction, operation, and maintenance of Hungry Horse Dam

For the purpose of irrigation and reclamation of arid lands, for controlling floods, improving navigation, regulating the flow of the South Fork of the Flathead River, for the generation of electric energy, and for other beneficial uses primarily in the State of Montana but also in downstream areas, the Secretary of the Interior is authorized and directed to proceed as soon as practicable with the construction, operation, and maintenance of the proposed Hungry Horse Dam (including facilities for generating electric energy) on the South Fork of the Flathead River, Flathead County, Montana, to such a height as may be necessary to impound not less than one million acre-feet of water. The Hungry Horse project shall be subject to the Federal reclamation laws (Act of June 17, 1902 (32 Stat. 388) and Acts amendatory thereof or supplementary thereto).

The Secretary of the Interior is authorized to complete, as soon as the necessary additional material is available, the construction of the Hungry Horse Dam so as to provide a storage reservoir of the maximum usable and feasible capacity.

[Pub.L. 78-329, ch. 234, §§ (1), (2), June 5, 1944, 58 Stat. 270, as amended by Pub.L. 85-428, May 29, 1958, 72 Stat. 147.]

593b. Construction of additional works for irrigation purposes

The Secretary of the Interior is authorized to construct, operate, and maintain under the provisions of the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388 and Acts amendatory thereof or supplementary thereto), such additional works as he may deem necessary for irrigation purposes. Such irrigation works may be undertaken only after a report and findings thereon have been made by the Secretary of the Interior as provided in such Federal reclamation laws; and, within the limits of the water user's repayment ability, such report may be predicated on allocation to irrigation of an appropriate portion of the cost of constructing said dam and reservoir. Said dam and reservoir and said irrigation works may be utilized for irrigation purposes only pursuant to the provisions of said Federal reclamation laws.

RECLAMATION STATES EMERGENCY DROUGHT RELIEF ACT OF 1991

43 United States Code Chapter 40 (1994).
Act of Mar. 5, 1992, 106 Stat. 53, 56, 57.
Public Law No. 102-250, H.R. 355.

2214. Applicable period of drought program

2214(a). In general

The programs and authorities established under this subchapter shall become operative in any Reclamation State and in the State of Hawaii only after the Governor or Governors of the affected State or States, or on a reservation, when the governing body of the affected tribe has made a request for temporary drought assistance and the Secretary has determined that such temporary assistance is merited, or upon the approval of a drought contingency plan as provided in subchapter II of this chapter.

2214(b). Coordination with BPA

If a Governor referred to in subsection (a) of this section is the Governor of the State of Washington, Oregon, Idaho, or Montana, the Governor shall coordinate with the Administrator of the Bonneville Power Administration before making a request under subsection (a) of this section.

Coordination with BPA

2214(c). Termination of authority

The authorities established under this subchapter shall terminate on September 30, 2005.

[Pub.L. 102-250, Title I, § 104, Mar. 5, 1992, 106 Stat. 56.; as amended Pub. L. 106-566, § 201(a), Dec. 23, 2000, 114 Stat. 2818.]

2224. Recommendations

2224(a). Approval

The Secretary shall submit each plan prepared pursuant to section 2222 of this Title to the Congress, together with the Secretary's recommendations, including recommendations for authorizing legislation, if needed.

2224(b). Pacific Northwest region

A contingency plan under subsection (a) of this section for the State of Washington, Oregon, Idaho, or Montana, may be approved by the Secretary only at the request of the Governor of the affected State in coordination with the other States in the region and the Administrator of the Bonneville Power Administration.

923. Identification of reallocable frequencies

923(a). Identification required

The Secretary shall, within 18 months after August 10, 1993 and within 6 months after August 5, 1997, prepare and submit to the President and the Congress a report identifying and recommending for reallocation bands of frequencies-

923(a)(1). that are allocated on a primary basis for Federal Government use;

923(a)(2). that are not required for the present or identifiable future needs of the Federal Government;

923(a)(3). that can feasibly be made available, as of the date of submission of the report or at any time during the next 15 years, for use under the 1934 Act [47 U.S.C. 151 et seq.] (other than for Federal Government stations under section 305 of the 1934 Act [47 U.S.C. 305]);

923(a)(4). the transfer of which (from Federal Government use) will not result in costs to the Federal Government, or losses of services or benefits to the public, that are excessive in relation to the benefits to the public that may be provided by non-Federal licensees; and

923(a)(5). that are most likely to have the greatest potential for productive uses and public benefits under the 1934 Act [47 U.S.C. 151 et seq.] if allocated for non-Federal use.

923(b). Minimum amount of spectrum recommended

923(b)(1). Initial reallocation report

In accordance with the provisions of this section, the Secretary shall recommend for reallocation in the initial report required by subsection (a) of this section, for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), bands of frequencies that in the aggregate span not less than 200 megahertz, that

are located below 5 gigahertz, and that meet the criteria specified in paragraphs (1) through (5) of subsection (a) of this section. Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that span in the aggregate not less than 100 megahertz.

923(b)(2). Mixed uses permitted to be counted

Bands of frequencies which a report of the Secretary under subsection (a) or (d)(1) of this section recommends be partially retained for use by Federal Government stations, but which are also recommended to be reallocated to be made available under the 1934 Act [47 U.S.C. 151 et seq.] for use by non-Federal stations, may be counted toward the minimum spectrum required by paragraph (1) or (3) of this subsection, except that -

923(b)(2)(A). the bands of frequencies counted under this paragraph may not count toward more than one-half of the minimums required by paragraph (1) or (3) of this subsection;

923(b)(2)(B). a band of frequencies may not be counted under this paragraph unless the assignments of the band to Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305) are limited by geographic area, by time, or by other means so as to guarantee that the potential use to be made by such Federal Government stations is substantially less (as measured by geographic area, time, or otherwise) than the potential use to be made by non-Federal stations; and

923(b)(2)(C). the operational sharing permitted under this paragraph shall be subject to the interference regulations prescribed by the Commission pursuant to section 305(a) of the 1934 Act [47 U.S.C. 305(a)] and to coordination procedures that the Commission and the Secretary shall jointly establish and implement to ensure against harmful interference.

923(b)(3). Second reallocation report

In accordance with the provisions of this section, the Secretary shall recommend for reallocation in the second report required by subsection (a) of this section, for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), a band or bands of frequencies that - (A) in the aggregate span not less than 12 megahertz; (B) are located below 3 gigahertz; and (C) meet the criteria specified in paragraphs (1) through (5) of subsection (a) of this section.

923(c). Criteria for identification**923(c)(1). Needs of the Federal Government**

In determining whether a band of frequencies meets the criteria specified in subsection (a)(2) of this section, the Secretary shall -

923(c)(1)(A). consider whether the band of frequencies is used to provide a communications service that is or could be available from a commercial provider or other vendor;

923(c)(1)(B). seek to promote -

923(c)(1)(B)(i). the maximum practicable reliance on commercially available substitutes;

923(c)(1)(B)(ii). the sharing of frequencies (as permitted under subsection (b)(2) of this section);

923(c)(1)(B)(iii). the development and use of new communications technologies; and

923(c)(1)(B)(iv). the use of nonradiating communications systems where practicable; and

923(c)(1)(C). seek to avoid -

923(c)(1)(C)(i). serious degradation of Federal Government services and operations;

923(c)(1)(C)(ii). excessive costs to the Federal Government and users of Federal Government services; and

923(c)(1)(C)(iii). excessive disruption of existing use of Federal Government frequencies by amateur radio licensees.

923(c)(2). Feasibility of use

In determining whether a frequency band meets the criteria specified in subsection (a)(3) of this section, the Secretary shall -

923(c)(2)(A). assume that the frequency will be assigned by the Commission under section 303 of the 1934 Act (47 U.S.C. 303) within 15 years;

923(c)(2)(B). assume reasonable rates of scientific progress and growth of demand for telecommunications services;

923(c)(2)(C). seek to include frequencies which can be used to stimulate the development of new technologies; and

923(c)(2)(D). consider the immediate and recurring costs to reestablish services displaced by the reallocation of spectrum.

923(c)(3). Analysis of benefits

In determining whether a band of frequencies meets the criteria specified in subsection (a)(5) of this section, the Secretary shall consider -

923(c)(3)(A). the extent to which equipment is or will be available that is capable of utilizing the band;

923(c)(3)(B). the proximity of frequencies that are already assigned for commercial or other non-Federal use;

923(c)(3)(C). the extent to which, in general, commercial users could share the frequency with amateur radio licensees; and

923(c)(3)(D). the activities of foreign governments in making frequencies available for experimentation or commercial assignments in order to support their domestic manufacturers of equipment.

923(c)(4). Power agency frequencies

923(c)(4)(A). Applicability of criteria

The criteria specified by subsection (a) of this section shall be deemed not to be met for any purpose under this subchapter with regard to any frequency assignment to, or any frequency assignment used by, a Federal power agency for the purpose of withdrawing that assignment.

923(c)(4)(B). Mixed use eligibility

The frequencies assigned to any Federal power agency may only be eligible for mixed use under subsection (b)(2) of this section in geographically separate areas, but in those cases where a frequency is to be shared by an affected Federal power agency and a non-Federal user, such use by the non-Federal user shall not cause harmful interference to the affected Federal power agency or adversely affect the reliability of its power system.

923(c)(4)(C). "Federal power agency" defined

As used in this paragraph, the term "Federal power agency" means the Tennessee Valley Authority, the Bonneville Power Administration, the Western Area Power Administration, the Southwestern Power Administration, the Southeastern Power Administration, or the Alaska Power Administration.

923(c)(5). Limitation on reallocation

None of the frequencies recommended for reallocation in the

*Frequency assigned to
Federal power agency*

reports required by this subsection shall have been recommended, prior to August 10, 1993, for reallocation to non-Federal use by international agreement.

923(d). Procedure for identification of reallocable bands of frequencies

923(d)(1). Submission of preliminary identification to Congress

Within 6 months after August 10, 1993, the Secretary shall prepare, make publicly available, and submit to the President, the Congress, and the Commission a report which makes a preliminary identification of reallocable bands of frequencies which meet the criteria established by this section.

923(d)(2). Public comment

The Secretary shall provide interested persons with the opportunity to submit, within 90 days after the date of its publication, written comment on the preliminary report required by paragraph (1). The Secretary shall immediately transmit a copy of any such comment to the Commission.

923(d)(3). Comment and recommendations from Commission

The Commission shall, within 90 days after the conclusion of the period for comment provided pursuant to paragraph (2), submit to the Secretary the Commission's analysis of such comments and the Commission's recommendations for responses to such comments, together with such other comments and recommendations as the Commission deems appropriate.

923(d)(4). Direct discussions

The Secretary shall encourage and provide opportunity for direct discussions among commercial representatives and Federal Government users of the spectrum to aid the Secretary in determining which frequencies to recommend for reallocation. The Secretary shall provide notice to the public and the Commission of any such discussions, including the name or names of any businesses or other persons represented in such discussions. A representative of the Commission (and of the Secretary at the election of the Secretary) shall be permitted to attend any such discussions. The Secretary shall provide the public and the Commission with an opportunity to comment on the results of any such discussions prior to the submission of the initial report required by subsection (a) of this section.

923(e). Timetable for reallocation and limitation**923(e)(1). Timetable required**

The Secretary shall, as part of the reports required by subsections (a) and (d)(1) of this section, include a timetable that recommends effective dates by which the President shall withdraw or limit assignments of the frequencies specified in such reports.

923(e)(2). Expedited reallocation**923(e)(2)(A). Required reallocation**

The Secretary shall, as part of the report required by subsection (d)(1) of this section, specifically identify and recommend for immediate reallocation bands of frequencies that in the aggregate span not less than 50 megahertz, that meet the criteria described in subsection (a) of this section, and that can be made available for reallocation immediately upon issuance of the report required by subsection (d)(1) of this section. Such bands of frequencies shall include bands of frequencies, located below 3 gigahertz, that in the aggregate span not less than 25 megahertz.

923(e)(2)(B). Permitted reallocation

The Secretary may, as part of such report, identify and recommend bands of frequencies for immediate reallocation for a mixed use pursuant to subsection (b)(2) of this section, but such bands of frequencies may not count toward the minimums required by subparagraph (A).

923(e)(3). Delayed effective dates

In setting the recommended delayed effective dates, the Secretary shall-

923(e)(3)(A). consider the need to reallocate bands of frequencies as early as possible, taking into account the requirements of paragraphs (1) and (2) of section 925(b) of this Title;

923(e)(3)(B). be based on the useful remaining life of equipment that has been purchased or contracted for to operate on identified frequencies;

923(e)(3)(C). consider the need to coordinate frequency use with other nations; and

923(e)(3)(D). take into account the relationship between the costs to the Federal Government of changing to different frequencies and the benefits that may be obtained from commercial and other non-Federal uses of the reassigned frequencies.

“923(f). Additional reallocation report

If the Secretary receives a notice from the Commission pursuant to section 3002(c)(5) of the Balanced Budget Act of 1997[47 U.S.C. 925 note], the Secretary shall prepare and submit to the President, the Commission, and the Congress a report recommending for reallocation for use other than by Federal Government stations under section 305 of the 1934 Act (47 U.S.C. 305), bands of frequencies that are suitable for the licensees identified in the Commission’s notice. The Commission shall, not later than one year after receipt of such report, prepare, submit to the President and the Congress, and implement, a plan for the immediate allocation and assignment of such frequencies under the 1934 Act [47 U.S.C. 151 et seq.] to incumbent licensees described in the Commission’s notice.

“923(g). Relocation of Federal Government stations**923(g)(1). In general****923(g)(1)(A). Authority of Federal entities to accept compensation**

In order to expedite the commercial use of the electromagnetic spectrum and notwithstanding section 3302(b) of title 31, any Federal entity which operates a Federal Government station may accept from any person payment of the expenses of relocating the Federal entity’s operations from one or more frequencies to another frequency or frequencies, including the costs of any modification, replacement, or reissuance of equipment, facilities, operating manuals, or regulations incurred by that entity. Any such Federal entity which proposes to so relocate shall notify the NTIA, which in turn shall notify the Commission, before the auction concerned of the marginal costs anticipated to be associated with such relocation or with modifications necessary to accommodate prospective licensees. The Commission in turn shall notify potential bidders of the estimated relocation or modification costs based on the geographic area covered by the proposed licenses before the auction.

923(g)(1)(B). Requirement to compensate Federal entities

Any person on whose behalf a Federal entity incurs costs under subparagraph (A) shall compensate the Federal entity in advance for such costs. Such compensation may take the form of a cash payment or in-kind compensation.

923(g)(1)(C). Disposition of payments**923(g)(1)(C)(i). Payment by electronic funds transfer**

A person making a cash payment under this paragraph shall make the cash payment by depositing the amount of the payment by electronic funds

transfer in the account of the Federal entity concerned in the Treasury of the United States or in another account as authorized by law.

923(g)(1)(C)(ii). Availability

Subject to the provisions of authorization Acts and appropriations Acts, amounts deposited under this subparagraph shall be available to the Federal entity concerned to pay directly the costs of relocation under this paragraph, to repay or make advances to appropriations or funds which do or will initially bear all or part of such costs, or to refund excess sums when necessary.

923(g)(1)(D). Application to certain other relocations

The provisions of this paragraph also apply to any Federal entity that operates a Federal Government station assigned to used electromagnetic spectrum identified for reallocation under subsection (a) of this section if before August 5, 1997, the Commission has not identified that spectrum for service or assigned licenses or otherwise authorized service for that spectrum.

923(g)(1)(E). Implementation procedures

The NTIA and the Commission shall develop procedures for the implementation of this paragraph, which procedures shall include a process for resolving any differences that arise between the Federal Government and commercial licensees regarding estimates of relocation or modification costs under this paragraph.

923(g)(1)(F). Inapplicability to certain relocations

With the exception of the band of frequencies located at 1710-1755 megahertz, the provisions of this paragraph shall not apply to Federal spectrum identified for reallocation in the first reallocation report submitted to the President and Congress under subsection (a) of this section.

923(g)(2). Process for relocation

Any person seeking to relocate a Federal Government station that has been assigned a frequency within a band that has been allocated for mixed Federal and non-Federal use, or that has been scheduled for reallocation to non-Federal use, may submit a petition for such relocation to NTIA. The NTIA shall limit or terminate the Federal Government station's operating license within 6 months after receiving the petition if the following requirements are met:

923(g)(2)(A). the person seeking relocation of the Federal Government station has guaranteed to pay all relocation costs incurred by the Federal entity, including all engineering, equipment, site acquisition and construction, and regulatory fee costs;

923(g)(2)(B). all activities necessary for implementing the relocation have been completed, including construction of replacement facilities (if necessary and appropriate) and identifying and obtaining new frequencies for use by the relocated Federal Government station (where such station is not relocating to spectrum reserved exclusively for Federal use);

923(g)(2)(C). any necessary replacement facilities, equipment modifications, or other changes have been implemented and tested to ensure that the Federal Government station is able to successfully accomplish its purposes; and

923(g)(2)(D). NTIA has determined that the proposed use of the spectrum frequency band to which the Federal entity will relocate its operations is -

923(g)(2)(D)(i). consistent with obligations undertaken by the United States in international agreements and with United States national security and public safety interests; and

923(g)(2)(D)(ii). suitable for the technical characteristics of the band and consistent with other uses of the band.

923(g)(2)(D)[cont.]. In exercising its authority under clause (i) of this subparagraph, NTIA shall consult with the Secretary of Defense, the Secretary of State, or other appropriate officers of the Federal Government.

923(g)(3). Right to reclaim

If within one year after the relocation the Federal entity demonstrates to the Commission that the new facilities or spectrum are not comparable to the facilities or spectrum from which the Federal Government station was relocated, the person who filed the petition under paragraph (2) for such relocation shall take reasonable steps to remedy any defects or pay the Federal entity for the expenses incurred in returning the Federal Government station to the spectrum from which such station was relocated.

923(h). Federal action to expedite spectrum transfer

Any Federal Government station which operates on electromagnetic spectrum that has been identified in any reallocation report under this section shall, to the maximum extent practicable through the use of the authority granted under subsection (g) of this section and any other applicable provision of law, take action to relocate its spectrum use to other frequencies that are reserved for

Federal use or to consolidate its spectrum use with other Federal Government stations in a manner that maximizes the spectrum available for non-Federal use.

923(i). “Federal entity” defined

For purposes of this section, the term “Federal entity” means any department, agency, or other instrumentality of the Federal Government that utilizes a Government station license obtained under section 305 of the 1934 Act (47 U.S.C. 305).

[Pub.L. 102-538, Title I, § 113, as added Pub.L. 103-66, Title VI, § 6001(a)(3), Aug. 10, 1993, 107 Stat. 380; as amended Pub. L. 105-33, Title III, §3002(d)(1), Aug. 5, 1997, 111 Stat. 262; Pub.L. 105-261, Div. A, Title X, § 1064(a), (b), (c), Oct. 17, 1998, 112 Stat. 2132, 2133; Pub.L. 106-65, Div. A, Title X, § 1062(c)(2), Oct. 5, 1999, 113 Stat. 768.]

924. Withdrawal or limitation of assignment to Federal Government stations

924(a). In general

The President shall -

924(a)(1). within 6 months after receipt of a report by the Secretary under subsection (a), (d)(1), or (f) of section 923 of this Title, withdraw the assignment to a Federal Government station of any frequency which the report recommends for immediate reallocation;

924(a)(2). within any such 6-month period, limit the assignment to a Federal Government station of any frequency which the report recommends be made immediately available for mixed use under section 923(b)(2) of this Title;

924(a)(3). by the delayed effective date recommended by the Secretary under section 923(e) of this Title (except as provided in subsection (b)(4) of this section), withdraw or limit the assignment to a Federal Government station of any frequency which the report recommends be reallocated or made available for mixed use on such delayed effective date;

924(a)(4). assign or reassign other frequencies to Federal Government stations as necessary to adjust to such withdrawal or limitation of assignments; and

924(a)(5). transmit a notice and description to the Commission and each House of Congress of the actions taken under this subsection.

924(b). Exceptions

924(b)(1). Authority to substitute

If the President determines that a circumstance described in paragraph (2) exists, the President -

924(b)(1)(A). may substitute an alternative frequency or frequencies for the frequency that is subject to such determination and withdraw (or limit) the assignment of that alternative frequency in the manner required by subsection (a) of this section; and

924(b)(1)(B). shall submit a statement of the reasons for taking the action described in subparagraph (A) to the Commission, Committee on Energy and Commerce of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate.

924(b)(2). Grounds for substitution

For purposes of paragraph (1), the following circumstances are described in this paragraph:

924(b)(2)(A). the reassignment would seriously jeopardize the national defense interests of the United States;

924(b)(2)(B). the frequency proposed for reassignment is uniquely suited to meeting important governmental needs;

924(b)(2)(C). the reassignment would seriously jeopardize public health or safety;

924(b)(2)(D). the reassignment will result in costs to the Federal Government that are excessive in relation to the benefits that may be obtained from commercial or other non-Federal uses of the reassigned frequency; or

924(b)(2)(E). the reassignment will disrupt the existing use of a Federal Government band of frequencies by amateur radio licensees.

924(b)(3). Criteria for substituted frequencies

For purposes of paragraph (1), a frequency may not be substituted for a frequency identified and recommended by the report of the Secretary under section 923(a) of this Title unless the substituted frequency also meets each of the criteria specified by section 923(a) of this Title.

924(b)(4). Delays in implementation

If the President determines that any action cannot be completed by the delayed effective date recommended by the Secretary pursuant to section 923(e) of this Title, or that such an action by such date would result in a frequency being unused as a consequence of the Commission's plan under section 925 of this title, the President may—

924(b)(4)(A). withdraw or limit the assignment to Federal Government stations on a later date that is consistent with such plan, except that the President shall notify each committee specified in paragraph (1)(B) and the Commission of the reason that withdrawal or limitation at a later date is required; or

924(b)(4)(B). substitute alternative frequencies pursuant to the provisions of this subsection.

ELWHA RIVER ECOSYSTEM AND FISHERIES RESTORATION ACT

*Act of Oct. 24, 1992, 106 Stat. 3173
Public Law No. 102-495*

Definitions

Sec. 2. Definitions

For the purposes of this Act:

Sec. 2(a). The term “Administrator” means the Administrator of the Bonneville Power Administration.

[Pub. L. 102-495, §2(a), Oct. 24, 1992, 106 Stat. 3173.]

Sec. 2(f). The term “local industrial consumer” means the owner of the pulp and paper mill located on Ediz Hook in Port Angeles, Washington, that, on the date of enactment of this Act, receives and consumes the electric power produced by the Projects, or its successors or assignees.

[Pub. L. 102-495, §2(f), Oct. 24, 1992, 106 Stat. 3173.]

Sec. 2(g). The term “local preference customer” means Port Angeles City Light.

[Pub. L. 102-495, §2(g), Oct. 24, 1992, 106 Stat. 3173.]

Sec. 2(k). The term “project replacement power” means electric power delivered to the local industrial consumer to replace losses of electric power generation from the Projects following their acquisition by the Secretary pursuant to this Act, in an amount not to exceed 172.088 gigawatthours of energy in any year.

[Pub. L. 102-495, §2(k), Oct. 24, 1992, 106 Stat. 3173-4.]

Project replacement power

Sec. 5. Project operation and replacement power

Sec. 5(b). To ensure the availability of adequate electric power supplies to the operating facilities of the local industrial consumer, the Administrator shall, following acquisition of the Projects pursuant to this Act, deliver all project replacement power required by the operating facilities of the local industrial consumer through the local preference customer at a rate equal to the priority firm rate, or the rate which is then the equivalent of the priority firm rate if that designation is no longer used by the Administrator, as such rate is fixed by the Administrator from time to time, without regard to any new large single load determinations or similar factors. The local industrial consumer shall pay the local preference customer for such project replacement power at the same rate as all other industrial consumers of the local preference customer.

[Pub. L. 102-495, §5(b), Oct. 24, 1992, 106 Stat. 3177.]

CONFEDERATED TRIBES OF THE COLVILLE RESERVATION GRAND COULEE DAM SETTLEMENT ACT

*Act of Nov. 2, 1994, 108 Stat. 4577.
Public Law No. 103-436, H.R. 4757
(as amended (Sec. 6) by Public Law 104-134, H.R. 3019).*

Definitions

Sec. 1. Short title

This Act may be cited as the “Confederated Tribes of the Colville Reservation Grand Coulee Dam Settlement Act”.

[Pub.L. 103-436, § 1, Nov. 2, 1994, 108 Stat. 4577.]

Sec. 2. Definitions

For purposes of this Act:

Sec. 2(1). The term ‘Administrator’ means the Administrator of the Bonneville Power Administration.

[Pub.L. 103-436, § 2(1), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 2(2). The term ‘Bonneville Power Administration’ means the Bonneville Power Administration of the Department of Energy or any successor Agency, Corporation, or entity that markets power produced at the Dam.

[Pub.L. 103-436, § 2(2), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 2(3). The term ‘Dam’ means the Grand Coulee Dam operated by the Bureau of Reclamation of the Department of the Interior, the power from which is marketed by the Bonneville Power Administration of the Department of Energy.

[Pub.L. 103-436, § 2(3), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 2(4). The term ‘Settlement Agreement’ means the Settlement Agreement entered into between the United States and the Tribe, signed by the United States on April 21, 1994, and by the Tribe on April 16, 1994, to settle the claims of the Tribe in Docket 181-D of the Indian Claims Commission, which docket has been transferred to the United States Court of Federal Claims.

[Pub.L. 103-436, § 2(4), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 2(5). The term ‘Tribe’ means the Confederated Tribes of the Colville Reservation, a federally recognized Indian tribe.

[Pub.L. 103-436, § 2(5), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 3. Findings and purposes

Sec. 3(a). FINDINGS- The Congress finds that—

Sec. 3(a)(1). there is pending before the United States Court of Federal Claims, a suit by the Confederated Tribes of the Colville Reservation against the United States, in which the Tribe seeks to recover damages under the 'Fair and Honorable Dealings' clause of the Indian Claims Commission Act (Act of August 13, 1946, 60 Stat. 1049), and in which, although the matter is in dispute, the potential liability of the United States is substantial;

[Pub.L. 103-436, § 3(a)(1), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 3(a)(2). the claim alleges that the United States has since the construction of Grand Coulee Dam used Colville Reservation land in the generation of electric power, and will continue to use such reservation land for as long as Grand Coulee Dam produces power; and that the United States has promised and undertaken to pay the Tribe for such use and has not done so;

[Pub.L. 103-436, § 3(a)(2), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 3(a)(3). the United States, after years of litigation, has negotiated a Settlement Agreement with the Tribe, signed by the Department of Justice, the Bonneville Power Administration and the Department of the Interior. The Settlement Agreement is contingent on the enactment of the enabling legislation; and

[Pub.L. 103-436, § 3(a)(3), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 3(a)(4). the Settlement Agreement, approved in this Act, will provide mutually agreeable compensation for the past use of reservation land in connection with the generation of electric power at Grand Coulee Dam, and will establish a method to ensure that the Tribe will be compensated for the future use of reservation land in the generation of electric power at Grand Coulee Dam, and will settle the claims of the Tribe against the United States brought under the Indian Claims Commission Act.

[Pub.L. 103-436, § 3(a)(4), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 3(b). PURPOSES- It is the purpose of this Act—

Sec. 3(b)(1). to approve and ratify the Settlement Agreement entered into by the United States and the Tribe; and

[Pub.L. 103-436, § 3(b)(1), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 3(b)(2). to direct the Bonneville Power Administration to carry out its obligations under the Settlement Agreement.

[Pub.L. 103-436, § 3(b)(2), Nov. 2, 1994, 108 Stat. 4577.]

Settlement Agreement

Compensation for past use of reservation land

Sec. 4. Approval, ratification, and implementation of settlement agreement

Sec. 4(a). APPROVAL AND RATIFICATION- The Settlement Agreement is approved and ratified.

[Pub.L. 103-436, § 4(a), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 4(b). ANNUAL PAYMENTS- The Bonneville Power Administration shall make annual payments to the Tribe as set forth in the Settlement Agreement and shall carry out its other obligations under the Settlement Agreement.

[Pub.L. 103-436, § 4(b), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 4(c). SETTLEMENT- Consistent with the negotiated terms of the Settlement Agreement, the United States shall join in the motion that the Tribe has agreed to file in *Confederated Tribes v. United States*, Indian Claims Commission Docket 181-D, for the entry of a compromise final judgment in the amount of \$53,000,000. The judgment shall be paid from funds appropriated pursuant to section 1304 of Title 31, United States Code, and is not reimbursable by the Bonneville Power Administration.

[Pub.L. 103-436, § 4(c), Nov. 2, 1994, 108 Stat. 4577.]

Settlement funds

Sec. 5. Distribution of the settlement funds

Sec. 5(a). LUMP-SUM PAYMENT- The judgment of \$53,000,000, when paid, shall be deposited in the Treasury of the United States and the principal amount and interest on the judgment, shall be credited to the account of the Tribe. These funds may be advanced or expended for any purpose by the tribal governing body of the Confederated Tribes of the Colville Reservation, pursuant to a distribution plan developed by the Tribe and approved by the Secretary of the Interior pursuant to section 3 of Public Law 93-134 (25 U.S.C. 1403): *Provided*, That any payment to a minor under the distribution plan shall be held in trust by the United States for the minor until the minor reaches the age of 18, or until the minor's class is scheduled to graduate from high school, whichever is later: *Provided further*, That emergency use of trust funds may be authorized for the benefit of the minor pursuant to regulations of the Bureau of Indian Affairs.

[Pub.L. 103-436, § 5(a), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 5(b). ANNUAL PAYMENTS- In addition to the lump-sum payment, annual payments shall be made directly to the Tribe in accordance with the Settlement Agreement, and may be used in the same manner as any other income received by the tribe from the lease or sale of natural resources.

[Pub.L. 103-436, § 5(b), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 6. Credits to Administrator's repayment to the United States Treasury

So long as the Administrator makes annual payments to the tribes under the settlement agreement, the Administrator shall apply against amounts otherwise payable by the Administrator to the United States Treasury a credit that reduces the Administrator's payment, in the amount and for each fiscal year as follows: \$15,860,000 in fiscal year 1997; \$16,490,000 in fiscal year 1998; \$17,150,000 in fiscal year 1999; \$17,840,000 in fiscal year 2000; \$18,550,000 in fiscal year 2001; and \$4,600,000 in each succeeding fiscal year.

[Pub.L. 103-436, § 6, Nov. 2, 1994, 108 Stat. 4577, as amended by Pub.L. 104-134, § 3201, Apr. 26, 1996, 110 Stat. 1321]

Sec. 7. Miscellaneous provisions

Sec. 7(a). LIENS AND FORFEITURES, ETC- Funds paid or deposited to the credit of the Tribe pursuant to the Settlement Agreement or this Act, the interest or investment income earned or received on those funds, and any payment authorized by the Tribe or the Secretary of the Interior to be made from those funds to tribal members, and the interest or investment income on those payments earned or received while the payments are held in trust for the member, are not subject to levy, execution, forfeiture, garnishment, lien, encumbrance, seizure, or State or local taxation.

[Pub.L. 103-436, § 7(a), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 7(b). ELIGIBILITY FOR FEDERAL AND FEDERALLY FUNDED PROGRAMS- Funds paid or deposited to the credit of the Tribe pursuant to the Settlement Agreement or this Act, the interest or investment income earned or received on such funds, and any payment authorized by the Tribe or the Secretary of the Interior to be made from those funds to tribal members, and the interest or investment income on those payments earned or received while the payments are held in trust for the member, may not be treated as income or resources nor otherwise utilized as the basis for denying or reducing the financial assistance or other benefit to which the Tribe, a tribal member, or household would otherwise be entitled under the Social Security Act or any Federal or federally assisted program.

[Pub.L. 103-436, § 7(b), Nov. 2, 1994, 108 Stat. 4577.]

Sec. 7(c). TRUST RESPONSIBILITY- This Act and the Settlement Agreement do not affect the trust responsibility of the United States and its agencies to the Tribe and the members of the Tribe.

[Pub.L. 103-436, § 7(c), Nov. 2, 1994, 108 Stat. 4577.]
