LRH

**Is this a new start?**

**Project Name**

OHIO ENVIRONMENTAL INFRASTRUCTURE, OH

**Project Description**

General Construction, Section 594: Ohio Infrastructure

Williams County - Sanitary Sewer Improvements project, Williams Center Area

Failed, missing and inadequate septic systems are allowing untreated and partially treated sanitary sewer and septage effluents in teh Williams Center area of Center Township, to drain into public ditches, drains and tiles which are tributary to Lick Creek, which is tributary to the Tiffin River and subsequently the Maumee River and Lake Erie. This project will provide sanitary sewerage collection facilities for un-sewered areas including the unincorporated Village of Williams Center and for potential users along the two miles of route along State Route 576 from the project area to an existing County owned and operated sanitary sewer pumping station on County Road C. Ninety Seven (97) residential units with at least half being low to moderate income will be served by the project.

**Legal Citation for Project Authorization**

**FY2009**

\$0

**President's Budget Request**

**Amount Requested**

\$500,000

**Intended Recipient**

Williams County Commissioners - Sanitary Sewer Improvements - Williams Center Area

**Intended Recipient of Funds**

Williams County Commissioners - Sanitary Sewer Improvements - Williams Center Area

One Court House Square

Bryan, OH 43506

**Is the recipient a for-profit entity?**

No

**Explanation of the request (must include purpose and why it is a valuable use of taxpayer funds)**

Failed, missing and inadequate septic systems are allowing untreated and partially treated sanitary sewer and septage effluents in teh Williams Center area of Center Township, to drain into public ditches, drains and tiles which are tributary to Lick Creek, which is tributary to the Tiffin River and subsequently the Maumee River and Lake Erie. This project will provide sanitary sewerage collection facilities for un-sewered areas including the unincorporated Village of Williams Center and for potential users along the two miles of route along State Route 576 from the project area to an existing County owned and operated sanitary sewer pumping station on County Road C. Ninety Seven (97) residential units with at least half being low to moderate income will be served by the project.
