

2005 Annual Report

*Migratory Bird
Conservation Commission*

Revised March 2006

The Migratory Bird Conservation Commission

Section 2 of the Migratory Bird Conservation Act of February 18, 1929 (Act), as amended, established the Migratory Bird Conservation Commission.

Section 2. A Commission to be known as the Migratory Bird Conservation Commission, consisting of the Secretary of the Interior, as Chairman; the Administrator of the Environmental Protection Agency; the Secretary of Agriculture; two Members of the Senate, to be selected by the President of the Senate; and two Members of the House of Representatives, to be selected by the Speaker, is created and authorized to consider and pass upon any area of land, water, or land and water that may be recommended by the Secretary of the Interior for purchase or rental under this Act and to fix the price or prices at which such area may be purchased or rented; and no purchase or rental shall be made of any such area until it has been duly approved for purchase or rental by said Commission.

Any Member of the House of Representatives who is a member of the Commission, if reelected to the succeeding Congress, may serve on the Commission notwithstanding the expiration of a Congress. Any vacancy on the Commission shall be filled in the same manner as the original appointment. The ranking officer of the branch or department of a State to which is committed the administration of its game laws, or his authorized representative, shall be a member ex officio of said Commission for the purpose of considering and voting on all questions relating to the acquisition, under said sections, of areas in his State. For purposes of said sections, the purchase or rental of any area of land, water, or land and water includes the purchase or rental of any interest in any such area of land, water, or land and water.

Membership

Hon. Gale Norton
Secretary of the Interior; Chairman

Hon. Mike Johanns
Secretary of Agriculture

Hon. Stephen L. Johnson
Administrator, Environmental Protection Agency

Hon. Blanche L. Lincoln
Senator from Arkansas

Hon. Thad Cochran
Senator from Mississippi

Hon. John D. Dingell
Representative from Michigan

Hon. Curt Weldon
Representative from Pennsylvania

A. Eric Alvarez
Secretary to the Commission

Approvals During Fiscal Year 2005

In Fiscal Year 2005, the Migratory Bird Conservation Commission approved the acquisition boundary at one national wildlife refuge. The refuge, totaling 5,854 acres, is the Black Bayou Lake NWR in Ouachita Parish, Louisiana. The refuge was established June 16, 1997, under authority of the Emergency Wetlands Resources act of 1986. The Commission approved boundary additions, totaling 45,564 acres, to eight refuges that were previously approved by the Commission. The Commission also approved the purchase price of 7,616 acres at twelve refuges and reapproved the price at one refuge consisting of 502 acres.

Area Approvals—New Areas

<i>State</i>	<i>Area</i>	<i>New Area Acres</i>

Mississippi	St. Catherine Creek	502
Total		502

The Migratory Bird Conservation Fund

The Migratory Bird Conservation Fund provides the Department of the Interior with monies to acquire migratory bird habitat. There are three major sources of money for the Fund. The most well-known source is the revenue received from the sale of Migratory Bird Hunting and Conservation Stamps, commonly known as Duck Stamps, as provided for under the Migratory Bird Hunting and Conservation Stamp Act of March 18, 1934, as amended. The other two major sources include appropriations authorized by the Wetlands Loan Act of October 4, 1961, as amended and import duties collected on arms and ammunition. The Fund is further supplemented by receipts from the sale of products from refuge lands and rights-of-ways across national wildlife refuges, the disposal of refuge lands, and reverted Federal Aid funds.

Two land acquisition programs are financed from the Migratory Bird Conservation Fund. The first purchases major areas for migratory birds under the authority of the Migratory Bird Conservation Act. Lands acquired through this program are considered and approved by the Migratory Bird

Conservation Commission. The second program acquires small natural wetlands and associated uplands located mainly in the Prairie Pothole Region of the upper Midwest. These lands, known as Waterfowl Production Areas, are acquired under the authority of the Migratory Bird Hunting and Conservation Stamp Act and do not require approval from the Commission.

During Fiscal Year 2005, the Department of the Interior obligated a total of \$10,592,989 for the acquisition of land and interests in land totaling 15,097 acres in major migratory bird conservation areas. An additional \$20,881,404 was obligated for projects in Waterfowl Production Areas totaling 62,148 acres.

A total of \$43,484,621 was available for obligation from the Migratory Bird Conservation Fund during Fiscal Year 2005. Obligations for all Migratory Bird Conservation Fund land acquisition functions during the fiscal year totaled \$43,387,007 (of which \$201,815 was from prior year recoveries). Obligations equal 100 percent of the available funds.

Summary of FY 2005 MBCF Land Acquisitions

Land Contracted for Purchase or Lease

National Wildlife Refuges: Purchase

<i>State</i>	<i>Area</i>	<i>Acres</i>
Arkansas	Cache River	1,800
California	Grasslands WMA (easements)	1,394

New National Wildlife Refuge Boundary Approvals

In Fiscal Year 2005, the Migratory Bird Conservation Commission approved the acquisition boundary of one new refuge, Black Bayou Lake National Wildlife Refuge in Ouachita Parish, Louisiana. The Commission also approved the acquisition boundary of eight national wildlife refuges that were previously established: Bayou Cocodrie National Wildlife Refuge in Concordia Parish, Louisiana; Cache River National Wildlife Refuge in Jackson, Prairie, Woodruff, and Monroe Counties, Arkansas; Panther

Swamp National Wildlife Refuge in Yazoo County, Mississippi; Rappahannock River Valley National Wildlife Refuge in Essex and Richmond Counties, Virginia; Red River National Wildlife Refuge in Caddo, Bossier, Desoto, Red River, and Natchitoches Parishes, Louisiana; San Bernard National Wildlife Refuge in Brazoria County, Texas; Silvio O. Conte National Fish and Wildlife Refuge, in Coos County, New Hampshire and, Trinity River National Wildlife Refuge in Liberty County, Texas.

**New National Wildlife
Refuge Boundary Approvals (Cont.)**

**Black Bayou Lake
National Wildlife Refuge**
Ouachita Parish, Louisiana

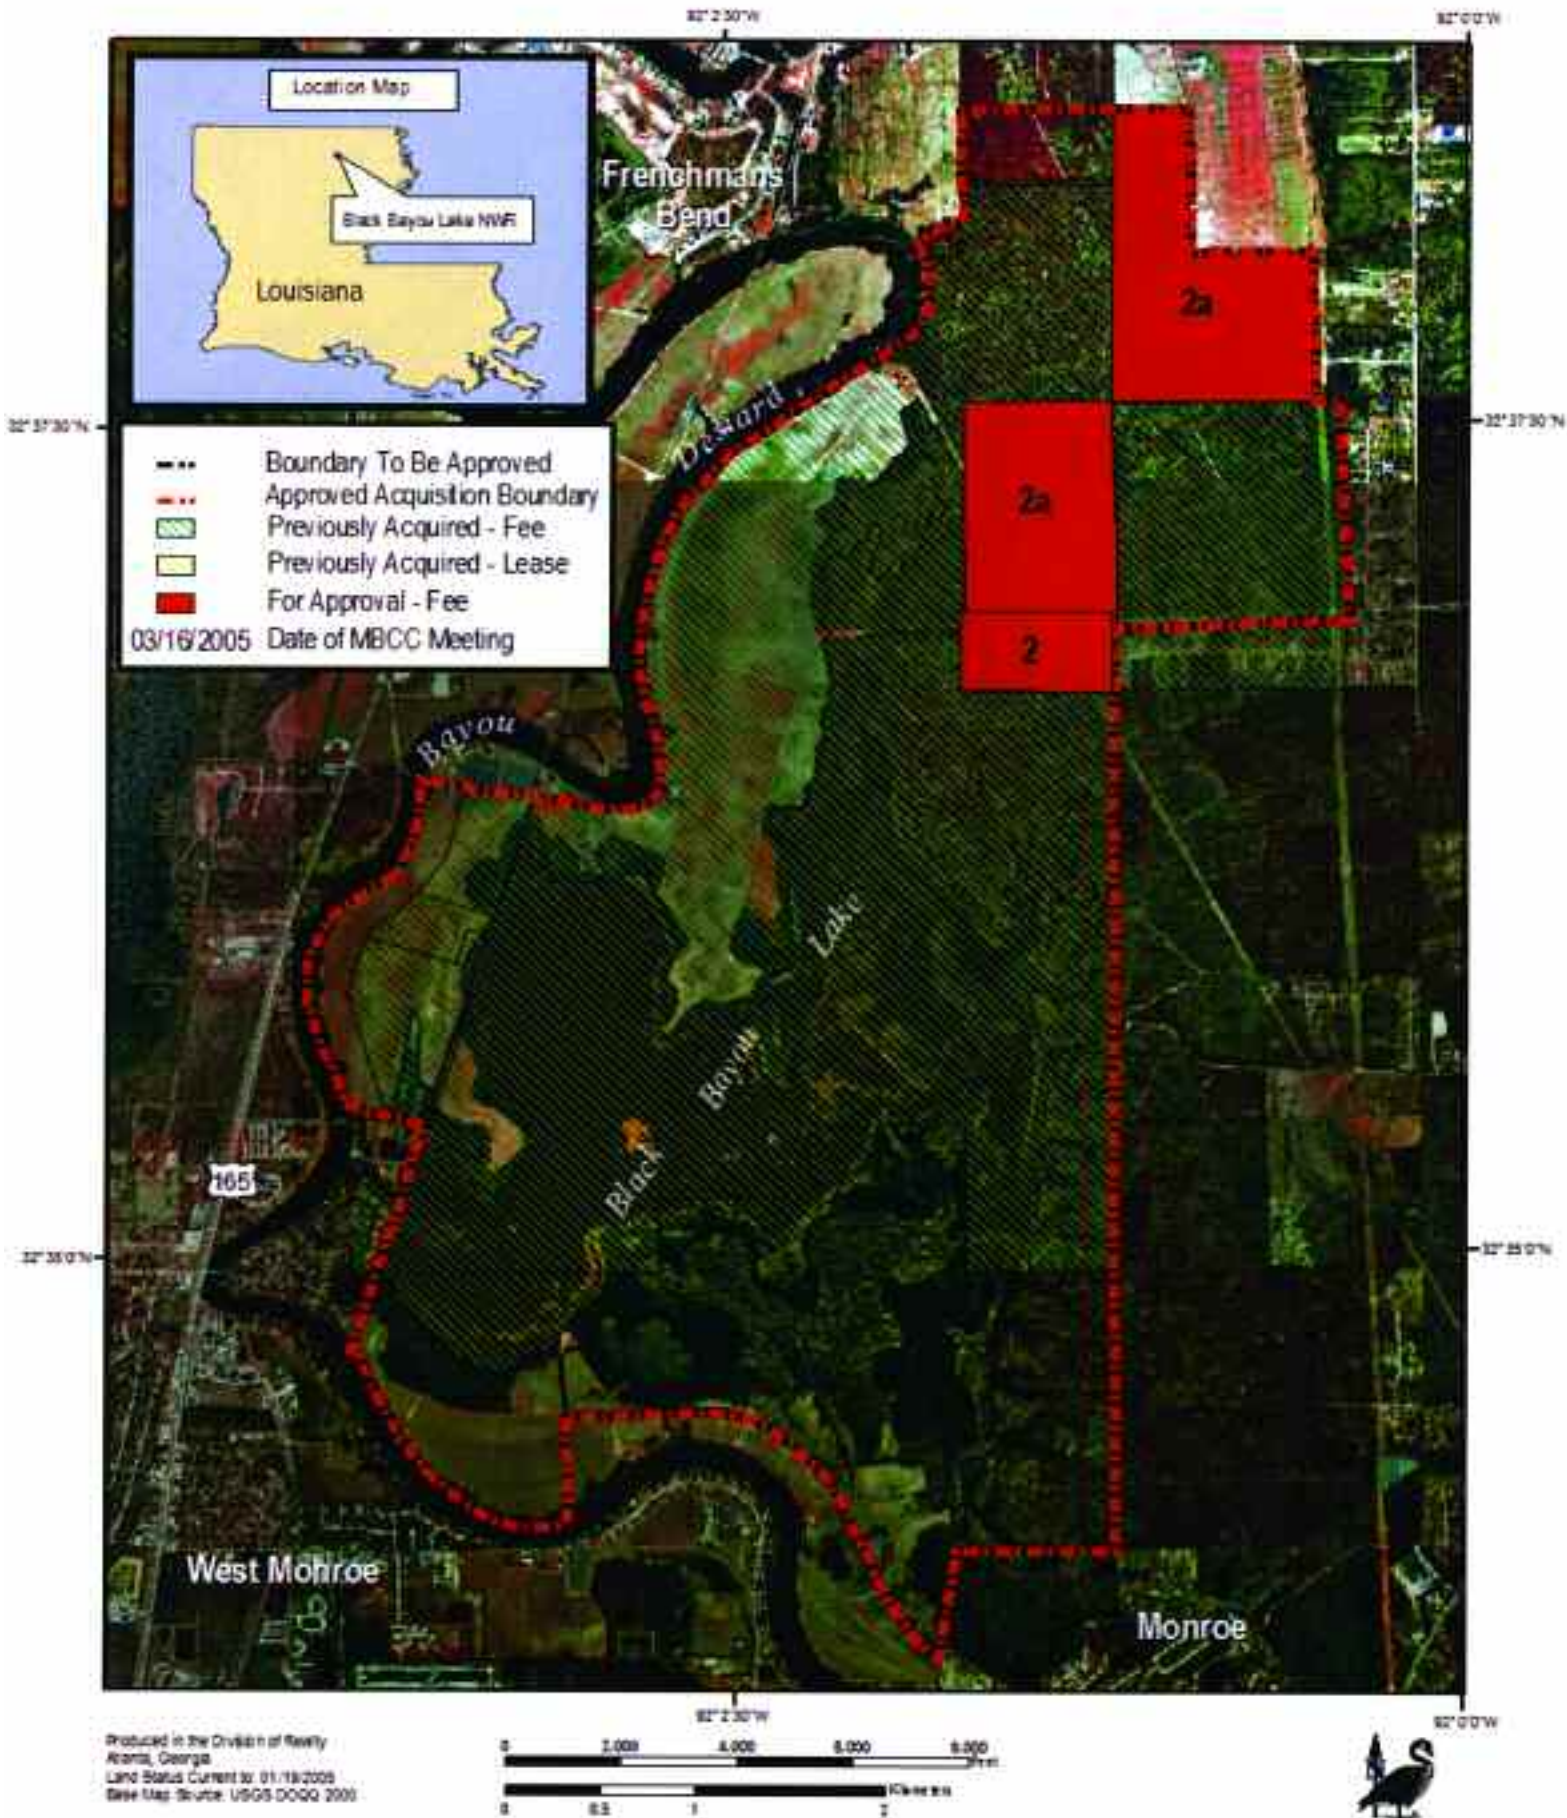

Black Bayou Lake National Wildlife Refuge was established on June 16, 1997, under authority of the Emergency Wetlands Resources act of 1986. To date, 3,906 acres have been acquired at this refuge. Approximately 1,333 acres remain to be acquired within the refuge boundary.

The refuge consists of pristine wetlands associated with a 2,000-acre, shallow, cypress-studded lake, riparian areas, and reforested cropland. The refuge has been traditionally used by migratory and resident waterfowl. The lake and adjacent wetlands are vital as wintering

habitat for migratory waterfowl, primarily mallard, pintail, redhead, canvasback and scaup. The extensive stands of buttonbush, cypress and tupelo trees provide ideal breeding and brood-rearing habitat for resident wood duck. Black ducks and mottled ducks, which are less common, also utilize the refuge. This project is important to ensure protection of this habitat as well as restore additional habitat. The lands will be managed for these priority species as well as for other species as part of the National Wildlife Refuge System.

The Commission approved the 5,854 acre refuge boundary and also gave price approval for a 615 acre tract on March 16, 2005.

**New National Wildlife
Refuge Boundary Approvals (Cont.)**

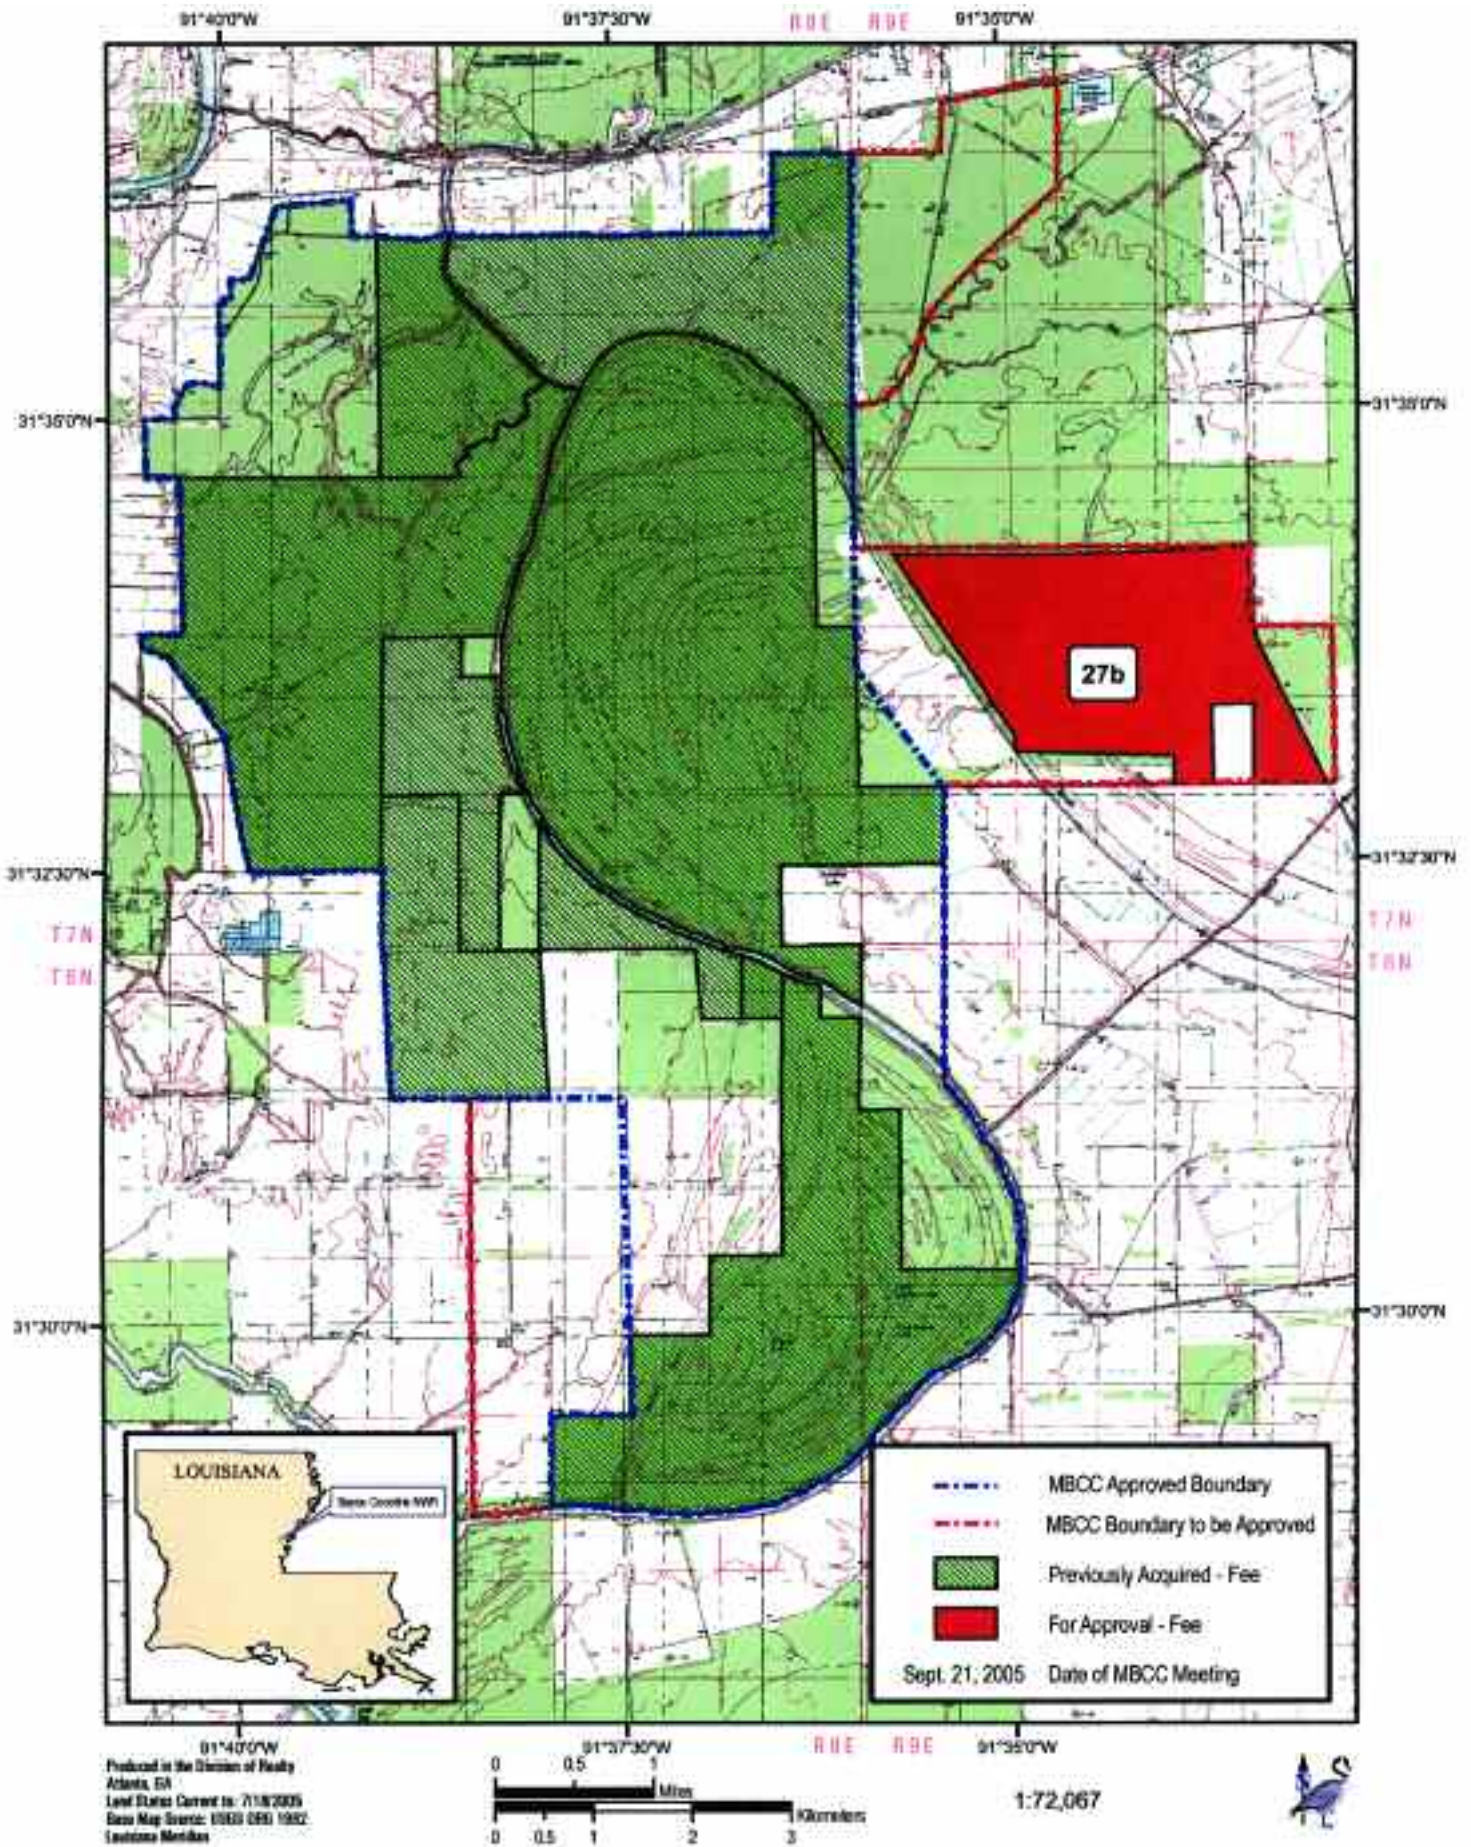

Bayou Cocodrie National Wildlife Refuge
Concordia Parish, Louisiana

The Bayou Cocodrie National Wildlife Refuge is located in Concordia Parish, Louisiana. The refuge was established on May 20, 1992, with an establishment acreage of 18,197 acres. Land and Water Conservation Act Funding was used over a three year period to acquire 9,996 acres (the largest single ownership in the refuge), from The Nature Conservancy. In 1999 the boundary was expanded and now totals 23,192 acres. Historically, the entire region was forested with bottomland hardwoods and currently includes a combination of converted wetlands. Currently of the area under protection, approximately 350 acres, consists of moist soil impoundment, that were previously cleared for agricultural use. The remainder of the acreage has been reforested. There are 22 ownerships comprising 59 percent of the refuge remaining to be acquired. Once the Hoover Slough tract is acquired 66 percent of the area within the approved acquisition boundary will be federally protected.

There are approximately 200 species of migratory birds that use the Bayou Cocodrie NWR during the year. Because of previous forest management practices, the Hoover Slough tract will provide better wintering and breeding habitat for migratory waterfowl such as the mallard, Gadwall, greenwinged teal, bluewinged teal, and neotropical migrant bird species, that are in decline such as the American woodcock, wood thrush and possibly the swallowtailed kite. It will also provide significant nesting habitat for the wood duck, hooded merganser and the great blue heron. The most distinguishing feature that sets this tract apart from current refuge property is the fact that this area has a lower and flatter elevation and holds more surface water during the winter and therefore will provide more habitat for the wintering waterfowl than the rest of the refuge, this is an important feature for the management objectives for this refuge.

The Commission approved the 5,000 acre refuge boundary addition and also gave price approval for a 1,550 acre tract on September 21, 2005.

Bayou Cocodrie National Wildlife Refuge
Concordia Parish, Louisiana

**New National Wildlife
Refuge Boundary Approvals (Cont.)**

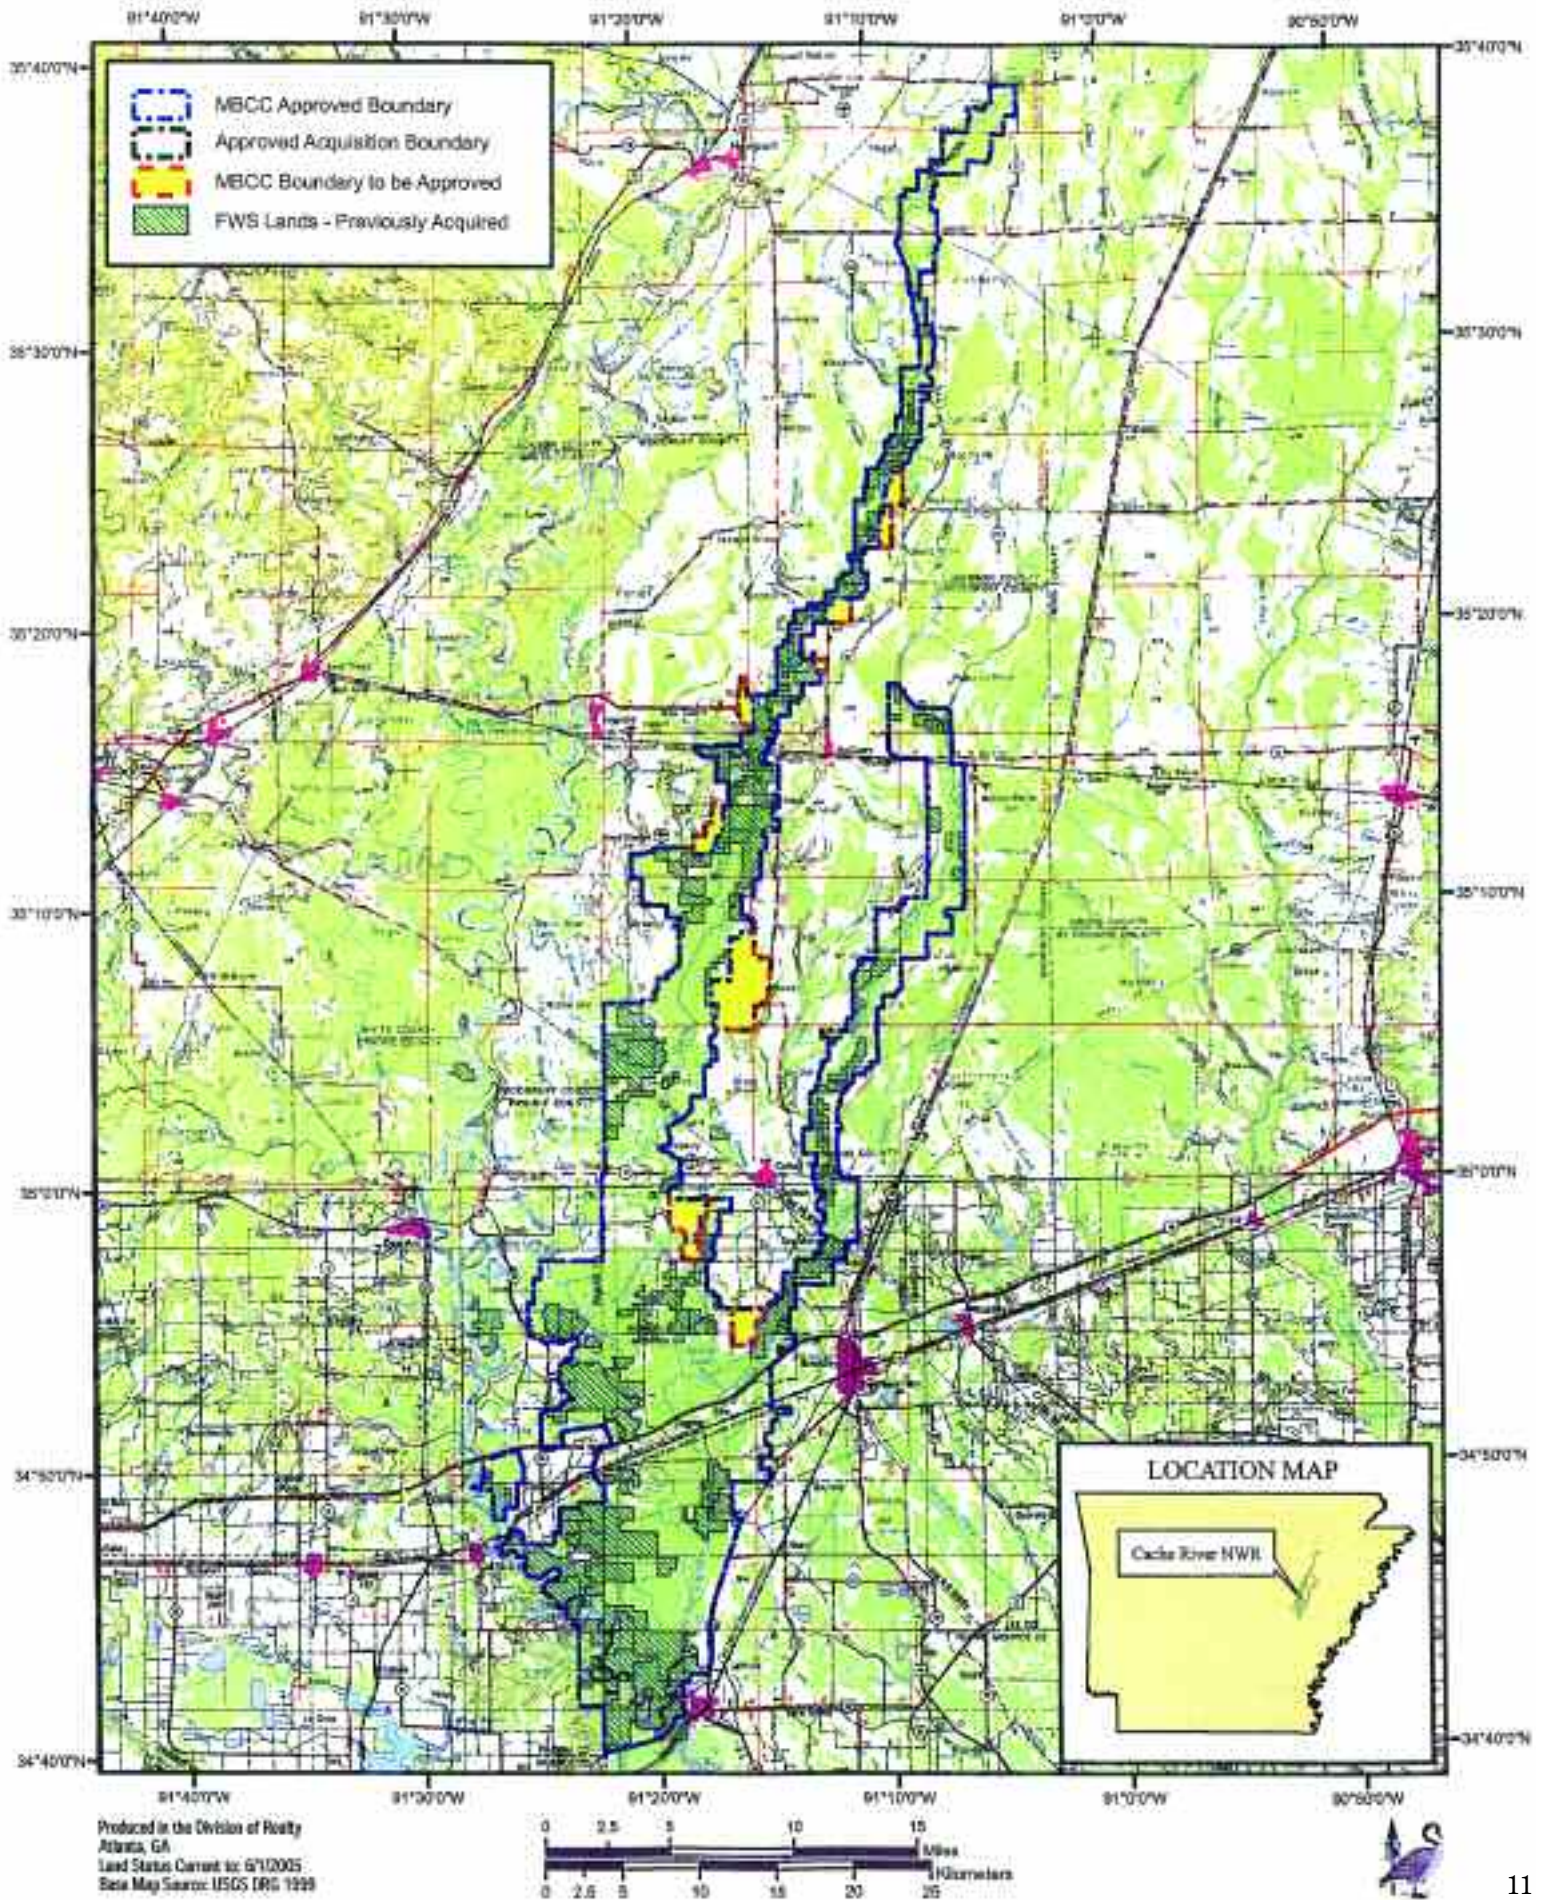

Cache River National Wildlife Refuge
*Jackson, Prairie, Woodruff, and Monroe
Counties, Arkansas*

Cache River National Wildlife Refuge was established on June 16, 1986, under the authority of the Fish and Wildlife Act of 1956, the Migratory Bird Conservation Act, and the Emergency Wetlands Resources Act of 1986. The original refuge proposal covered 35,000 acres. By 1998, two major expansions increased the acquisition boundary to 175,300 acres, which represents the 10 year floodplain of the Cache River. Two minor expansions since that time have brought the total approved acquisition boundary to 185,574 acres. Within that boundary the Arkansas Game and Fish Commission owns and manages two Wildlife Management Areas (WMA): Black Swamp WMA (5,967 acres), and Dagmar WMA (7,896 acres). The State's management of the WMAs complements the Service's management of the refuge; therefore there are no plans for federal acquisition or management of the state lands. To date, 61,456 acres have been acquired using the Land and Water Conservation Fund, Migratory Bird Conservation Fund, NAWCC grants, donation and transfer of primary jurisdiction from another Federal agency.

Cache River NWR encompasses some of the largest remaining contiguous blocks of bottomland hardwood forest in the Lower Mississippi Valley, and some of the largest remaining expanses of forested wetlands on any tributary within the Mississippi Alluvial Valley. With at least twenty-four species of waterfowl utilizing the Lower Mississippi Valley during winter migration, this area supports one of the largest concentrations of mallards anywhere in North America during this time period. It is considered by most to be the single most important wintering area for mallards in North America, and some of the most important for pintails, teal, Canada geese, and other migratory waterfowl. The recent rediscovery on the refuge of the Ivorybilled woodpecker, a bird long thought extinct, highlights the benefits that these crucial waterfowl habitats provide to other species as well.

The purpose of this proposal is to align the Migratory Bird Conservation Commission's approved boundary with the existing refuge boundary. The Commission approved the 9,864 acre refuge boundary addition on June 21, 2005.

Cache River National Wildlife Refuge
Jackson, Prairie, Woodruff, and Monroe Counties, Arkansas

**New National Wildlife
Refuge Boundary Approvals (Cont.)**

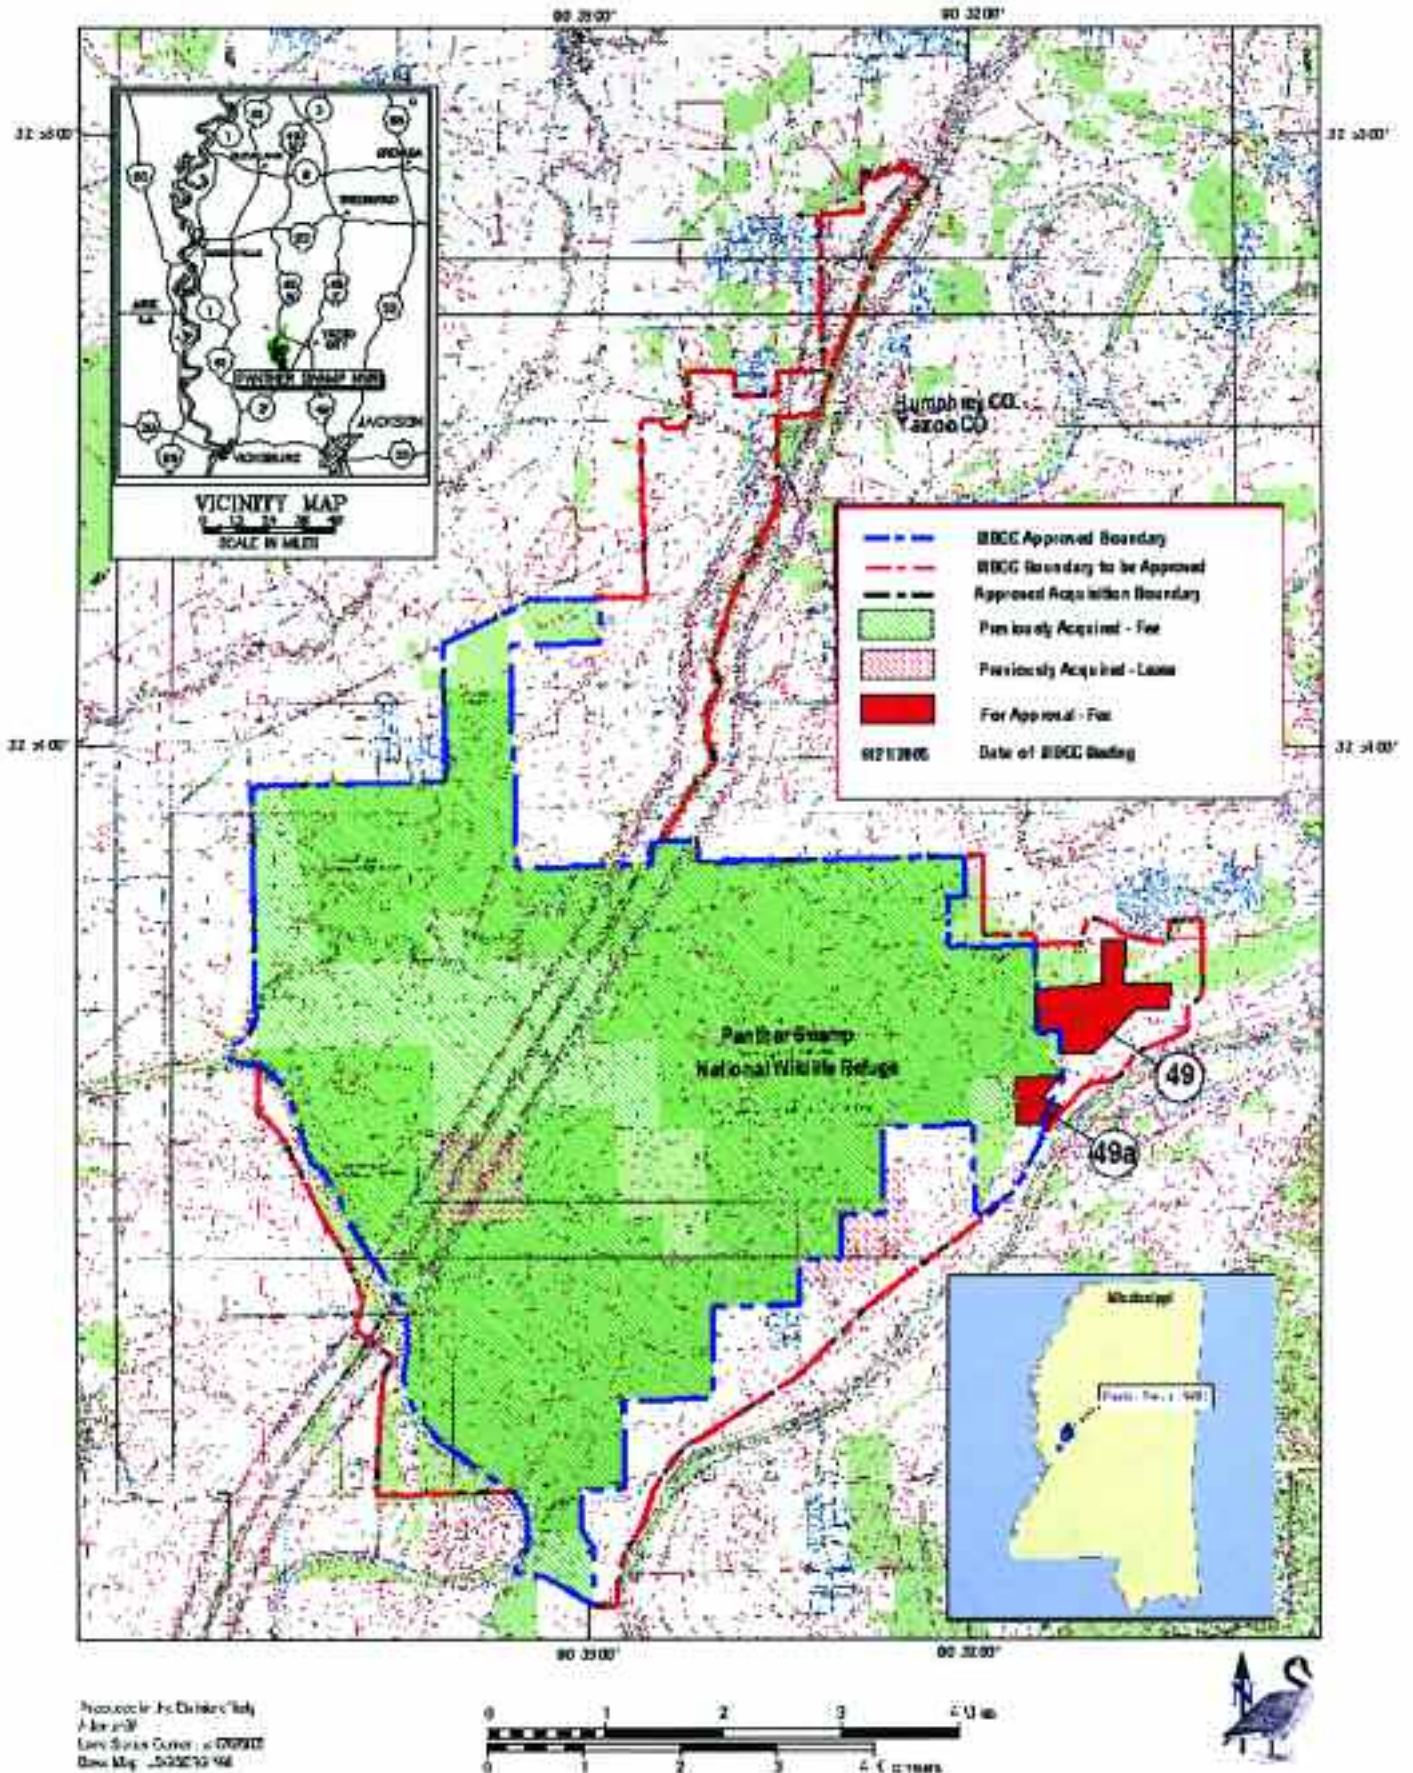

Panther Swamp National Wildlife Refuge
Yazoo County, Mississippi

Panther Swamp National Wildlife Refuge was established under the authorities of the Migratory Bird Conservation Act (16 U.S.C. § 715d), for use as an inviolate sanctuary, or for any other management purpose, for migratory birds; and, the Refuge Recreation Act (16 U.S.C. § 460k1), for (1) incidental fish and wildlife-oriented recreational development, (2) the protection of natural resources, and (3) the conservation of endangered or threatened species. The initial refuge boundary was approved by the Migratory Bird Conservation Commission on September 20, 1977. An addition of 2,970 acres was approved by the Commission on July 22, 1986. On December 3, 2004, the refuge boundary was expanded by 4,175 acres bringing the total acreage in the approved acquisition boundary to 45,927 acres. To date, 27,560 acres have been acquired in fee title, 7,070 acres are managed under a cooperative agreement with the U.S. Army Corps of Engineers and 640 acres are leased from the Yazoo County School Board.

The refuge is a complex of bottomland hardwood forest, cypress swamps, seasonal and permanent wetlands, and cropland. The seasonally flooded bottomland hardwoods and other wetlands provide excellent habitat for wintering waterfowl. The more permanently flooded wetlands also provide brood habitat for locally produced wood ducks. The current average peak population for migratory waterfowl is 80,000 birds with an anticipated average peak of 150,000. A heron rookery, known as the Whites Lane Rookery, is located near the northern boundary of the property in this proposal. This rookery is a listed heritage site in the Mississippi Natural Heritage database developed by the Mississippi Department of Wildlife, Fisheries and Parks. This project is important to ensure protection of these habitats as well as restore additional habitat. Acquisition of this property would also provide access to this part of the refuge from a paved highway.

The Commission approved the 4,175 acre refuge boundary addition and price approval for a 702 acre tract on September 21, 2005.

**New National Wildlife
Refuge Boundary Approvals (Cont.)**

**Rappahannock River Valley
National Wildlife Refuge**

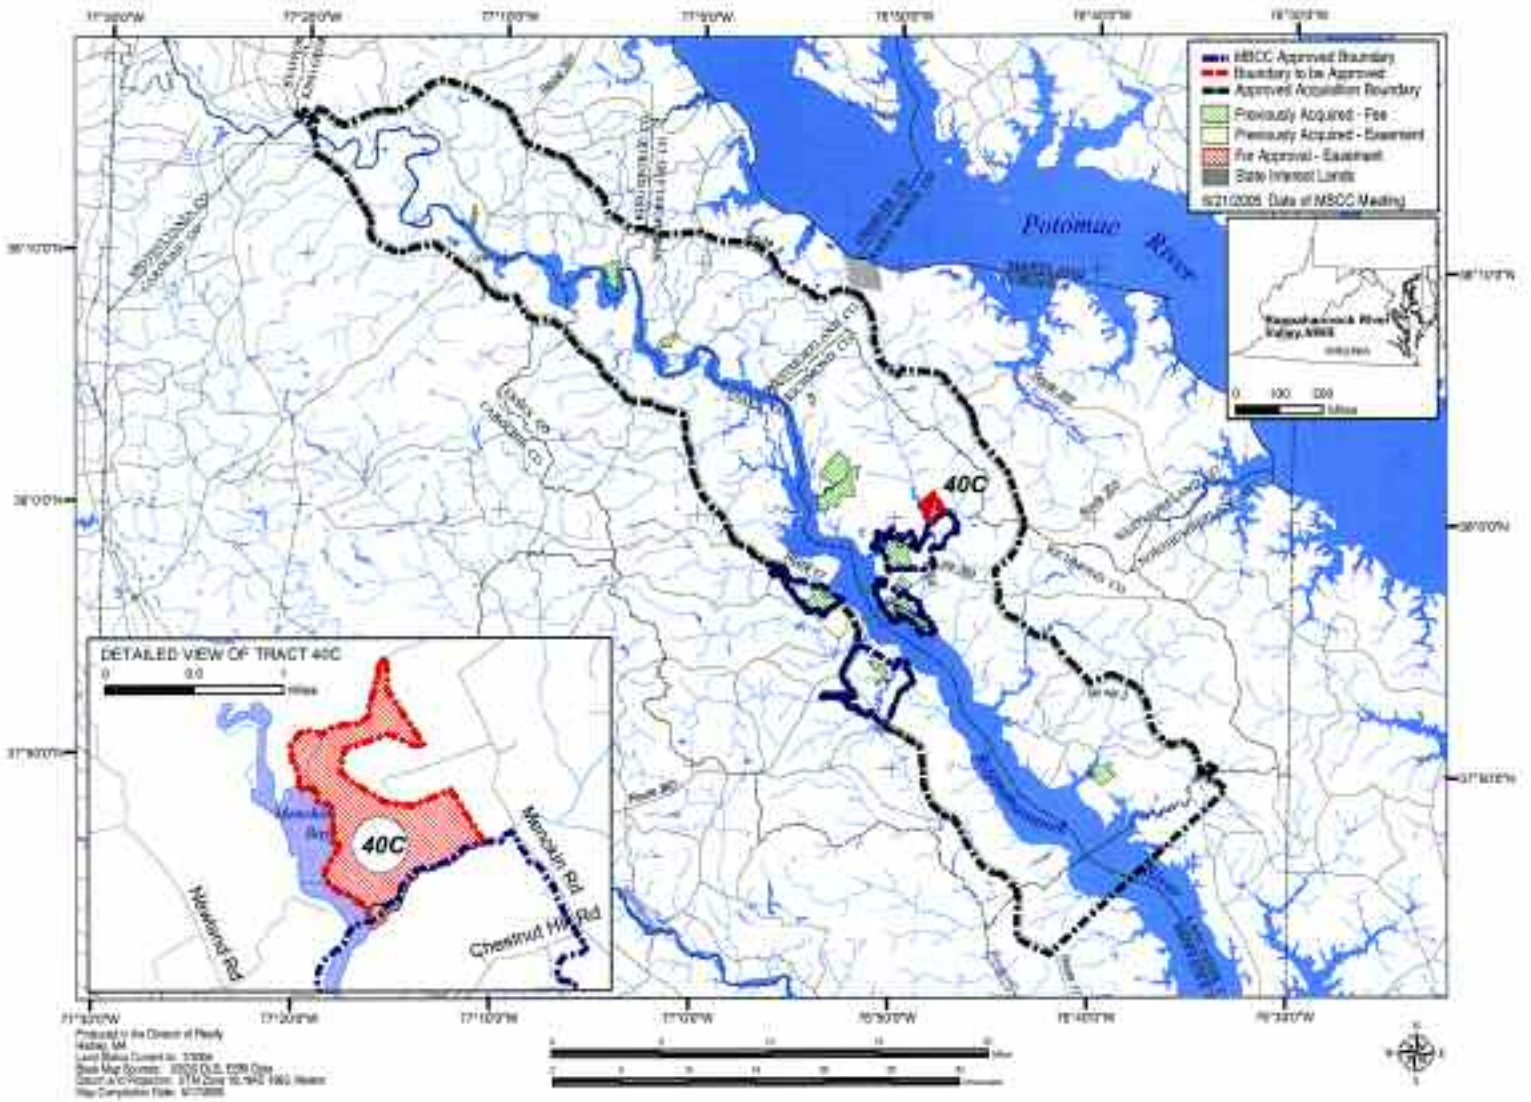

Essex and Richmond Counties, Virginia

Rappahannock River Valley National Wildlife Refuge was established in 1996 to assist in meeting waterfowl population, endangered species, and wetland goals of the North American Waterfowl Management Plan, the Service's Chesapeake Bay/Susquehanna River Watershed Program, and other national and regional resource priorities. With land purchases using both Land and Water Conservation Act Funds, Migratory Bird Conservation Act funds and donations, its current area consists of 7,382 acres.

Rappahannock River and its adjacent marshes and waters are one of the Chesapeake Bay's most important and productive estuarine assets, supporting a wide diversity of subaquatic and emergent wetland plant communities. These lands and waters, in turn, provide optimum habitat for large concentrations of waterfowl and other migratory birds. As the fourth largest river system entering the Chesapeake Bay, the Rappahannock River provides essential habitat for a great diversity of migratory birds, and for endangered and threatened wildlife and plant species. The River has long been recognized as one of the most important waterfowl migration and wintering areas in Virginia. The marshes along the River and its tributaries have been identified as important black duck habitat in the Service's Category Plan for the Preservation of black duck wintering habitat on the Atlantic Coast. Besides black ducks, the River supports populations of mallards, ruddy ducks, ringnecked ducks, canvasbacks, Canada geese and tundra swans.

The Commission approved the 355-acre refuge boundary addition and price approval on June 21, 2005.

Essex and Richmond Counties, Virginia

**New National Wildlife
Refuge Boundary Approvals (Cont.)**

**Red River National
Wildlife Refuge**

*Caddo, Bossier, Desota, Red River, and
Natchitoches Parishes, Louisiana*

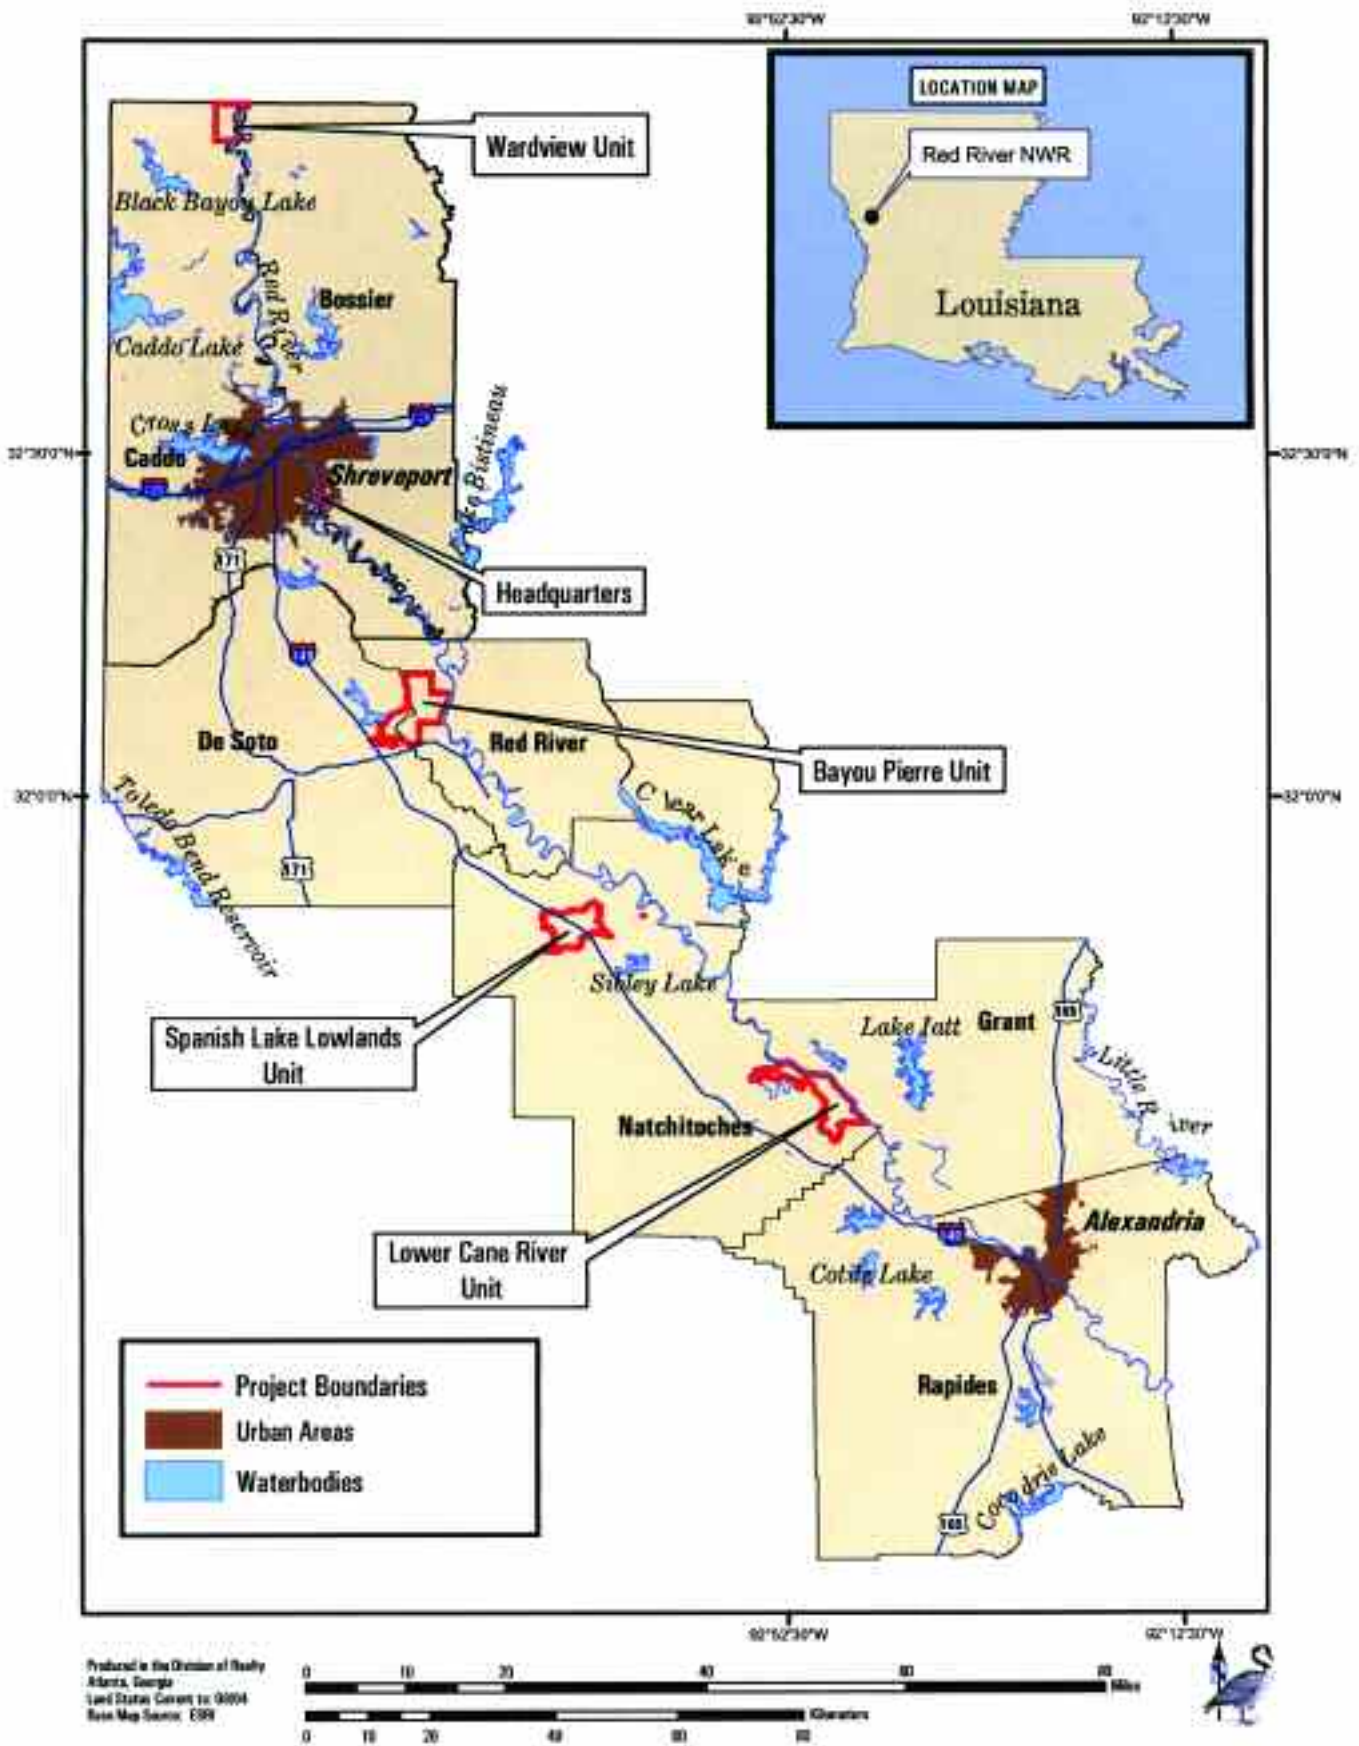

Red River National Wildlife Refuge was established on October 13, 2000, under authority of the Red River National Wildlife Refuge Act (Public Law 106300) to preserve, protect and restore 50,000 acres in five refuge units along a 280-mile stretch of the Red River in northwest Louisiana. To date, 7,720 acres have been acquired at this refuge with an additional 1,103 acres being leased.

The purposes of Red River NWR are to restore native plants and animal communities in the Red River basin; to provide habitat for migratory waterfowl and other wildlife. The Red River Valley is part of a major continental migration corridor for migratory birds funneling through the mid continent from as far north as the Arctic Circle and as far south as South America. This refuge provides wintering habitat for mallards, pintails, gadwall, wigeon, greenwinged teal, and wood ducks, and contributes to the goals of the North American Waterfowl Management Plan.

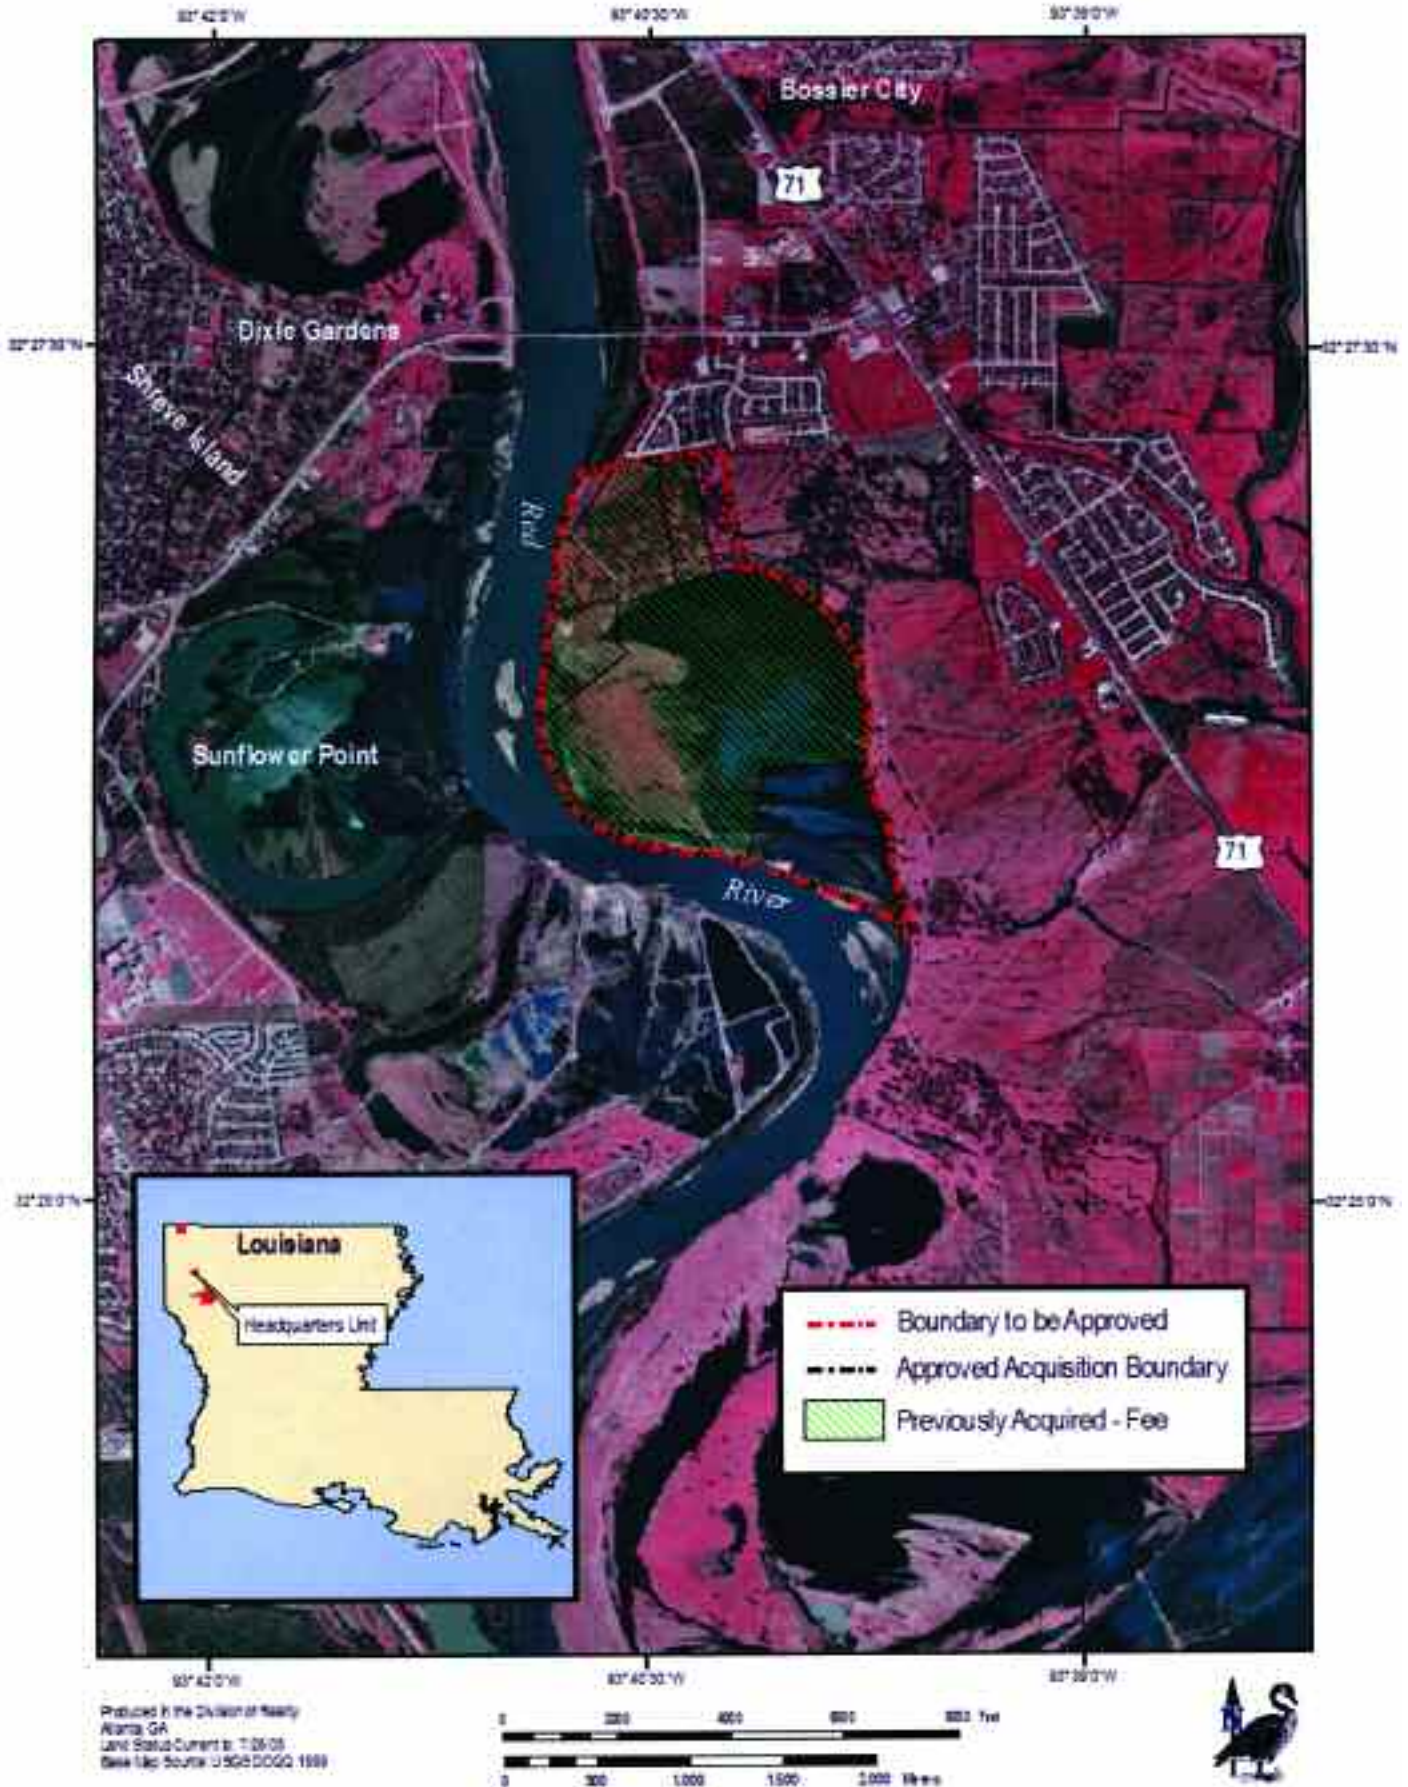

Restoration of native habitats will benefit resident and migratory waterfowl as well as a wide array of other species. In addition, the refuge offers recreational, research, and educational opportunities.

The Commission approved the 23,686 acre refuge boundary addition and price approval for a 1,732 acre tract on September 21, 2005.

San Bernard National Wildlife Refuge
Brazoria County, Texas

The San Bernard National Wildlife Refuge was approved by the Migratory Bird Conservation Commission on February 27, 1968. To date, 38,513 acres have been acquired. In 1997, the Austin's Woods Conservation Plan authorizing the acquisition of up to 28,000 acres of satellite units to San Bernard was approved. To date, 10,402 acres have been acquired through transfer from the Federal Deposit Insurance Corporation or through donations from various entities, or with funds approved by North American Wetlands Council Act, with funds obtained from mitigation, and by Migratory Bird Conservation Commission approval for the Austin's Woods Unit.

The proposed area is part of a productive and valuable wetland complex providing wintering, migration, and resident habitat for waterfowl, wading birds, neotropical migratory birds, and other wetland-dependent wildlife species. Thousands of waterfowl winter in the area. Mottled ducks, a species of concern, use the area, as well as green-winged teal, gadwalls, and black-bellied whistling ducks. This proposed acquisition is within the Mid-Coast Initiative of the Gulf Coast Joint Venture of the North American Waterfowl Management Plan.

The Commission approved the 197 acre refuge boundary addition and price approval on June 21, 2005. The Commission also approved a 1,031 acre refuge boundary addition and price approval on September 21, 2005.

New National Wildlife Refuge Boundary Approvals (Cont.)

Silvio O. Conte National Fish and Wildlife Refuge *Coos County, New Hampshire*

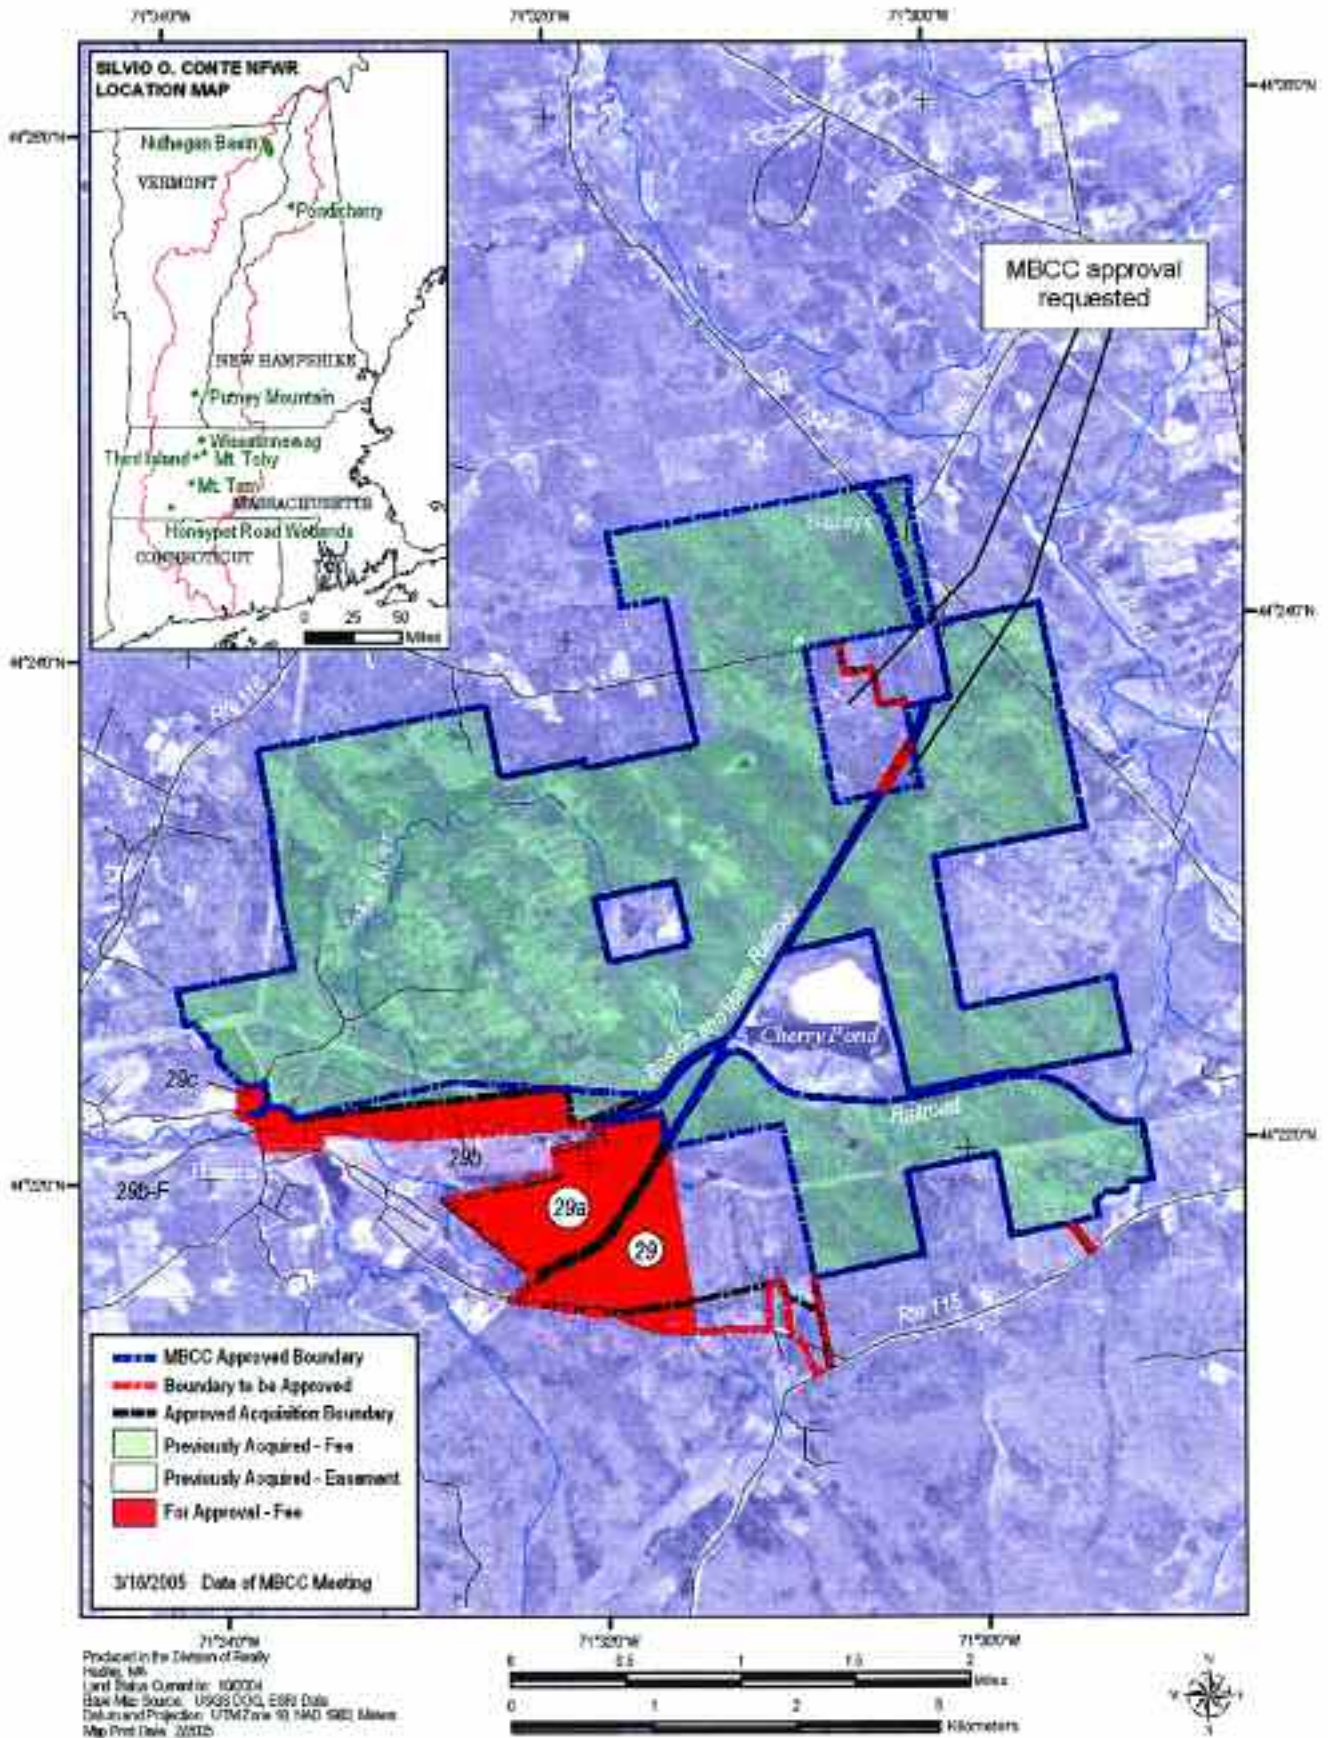

The Silvio O. Conte National Fish and Wildlife Refuge (Refuge) was launched with the introduction of legislation by the late Congressman Silvio O. Conte which authorized a national fish and wildlife refuge within the Connecticut River watershed. Congressman Conte was a member of Congress for over 30 years and served on the Migratory Bird Conservation Commission for about 27 years. After his death, in his honor, Congress renamed the legislation as the Silvio O. Conte National Fish and Wildlife Refuge Act.

The Final Environmental Impact Statement (FEIS) for the Silvio O. Conte Refuge was completed and a Record of Decision authorizing the Refuge was signed by the Regional Director on December 13, 1995. Within the 7.2 million acre Connecticut River watershed, 65 Special Focus Areas important for resource protection were identified in Connecticut, Massachusetts, New Hampshire, and Vermont. The Refuge was officially established on October 3, 1997 with the acquisition of the 3.8 acre Third Island, located in the Connecticut River in Deerfield, Massachusetts. Approximately 31,045 acres of a proposed 91,500 acres have been acquired to date. The Pondicherry Division was established with the purchase of three tracts (670 acres) from one land owner on December 22, 2000.

The area known as Pondicherry is a basin that includes four ponds, the Johnís River; forested and emergent wetlands, bogs, spruce-fir forests, and northern mixed hardwoods. The importance of Pondicherry to a wide variety of migratory birds and other wildlife has been recognized since the late 1800s. In 1972 the area was designated a National Natural Landmark and in 2003, the first Important Bird Area in New Hampshire. The FEIS identified the Pondicherry as one of 65 Special Focus Areas in the Connecticut River watershed for its importance to migratory birds. There have been 233 species of birds documented using the Pondicherry area and 128 species use it for nesting. This northern forest wetland complex specifically provides habitat for 28 species of waterfowl of which eight species nest. Black ducks, wood ducks, mallard, hooded merganser, blue-winged teal, and ring-necked ducks are all commonly seen using Refuge wetlands.

The Commission approved the 825 acre refuge boundary addition and price approval for a 516 acre tract on March 16, 2005.

Coos County, New Hampshire

**New National Wildlife
Refuge Boundary Approvals (Cont.)**

Trinity River National Wildlife Refuge

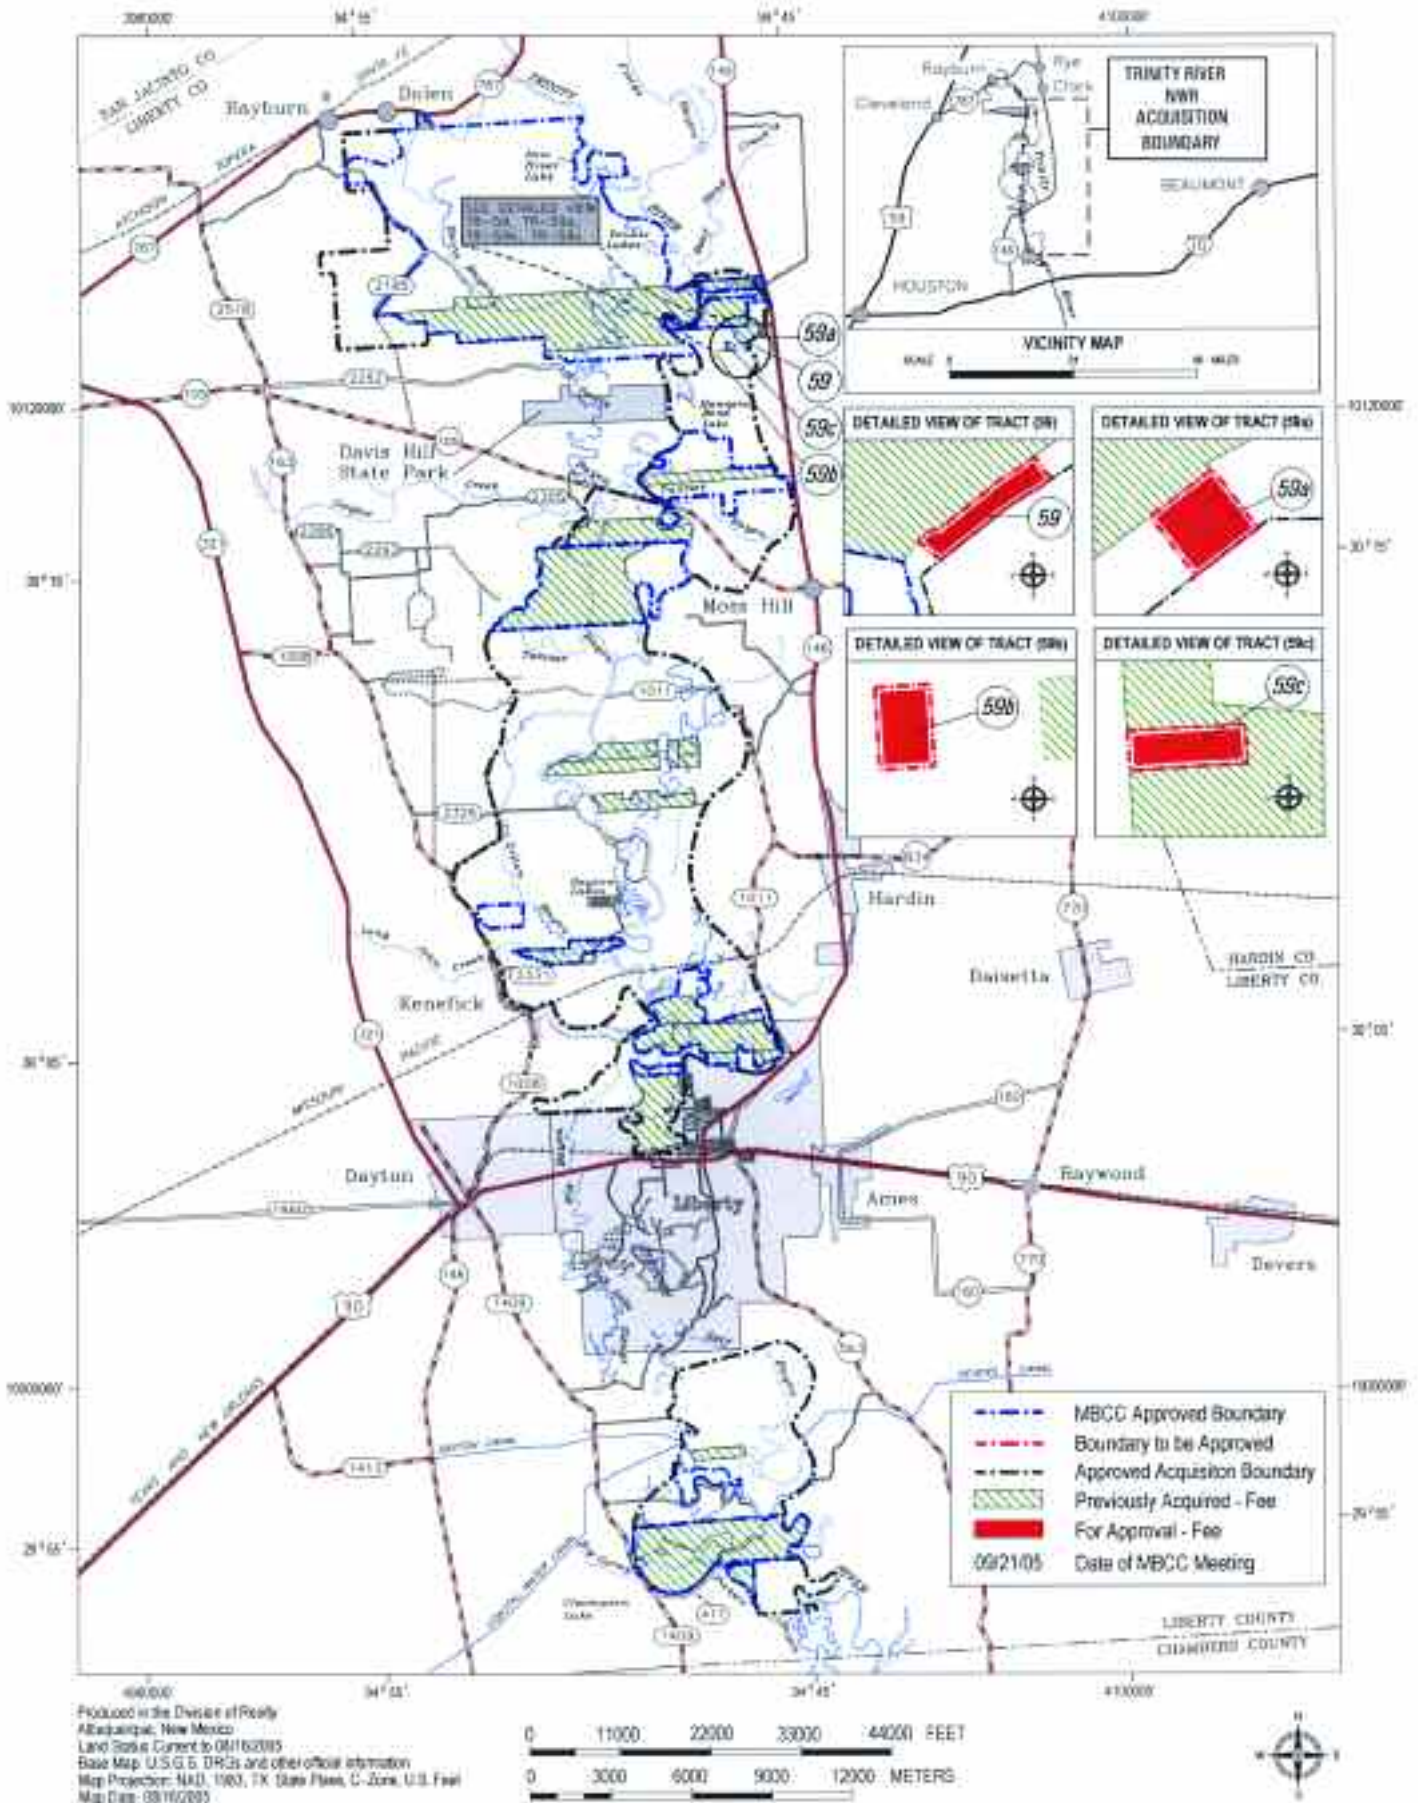

Liberty County, Texas

The Trinity River National Wildlife Refuge (Refuge) was established on January 3, 1994, with the purchase of 4,400 acres of bottomland hardwood and associated habitats in Liberty County, Texas. These lands were purchased with Land and Water Conservation Fund dollars totaling \$3,270,000. Since 1994, an additional 4,195 acres have been purchased with LWCF dollars totaling \$1,941,500. On June 14, 1994, the Migratory Bird Conservation Commission approved the initial MBCC boundary for the Refuge, encompassing 19,220 acres. Since 1994, the MBCC boundary has been expanded by the Service to include another 10,498 acres.

The Trinity River NWR protects remnant bottomland hardwood and associated wetland habitats for migrating, wintering and breeding waterfowl. Additionally, it represents one of the few remaining high quality areas for waterfowl in East Texas. It provides essential foraging and/or roosting habitat for the wood duck, mallard, gadwall, widgeon, green and blue-winged teal, lesser scaup and mottled duck. Mature cavity trees dispersed throughout the area provide important nesting habitat for wood ducks and black-bellied whistling ducks.

The Commission approved the 98 acre refuge boundary addition and price approval on March 16, 2005. The Commission also approved a 330 acre refuge boundary addition and price approval on June 21, 2005. In addition, the Commission approved a 3 acre refuge boundary addition and price approval on September 21, 2005.

Notes on Tables One and Two

The information contained in this report includes those acquisitions and dispositions of land and interests therein that are purchased with Migratory Bird Conservation Fund monies or acquired under the authority of the Migratory Bird Conservation Act. It also includes other migratory bird areas such as those that are transferred to the Fish and Wildlife Service under the authority of Public Law 80-537 to carry out a migratory bird management program (these will appear on Table 1).

In an ongoing effort to improve data quality, the figures in Tables One and Two may show minor changes from previous annual reports. Lands in which the Service previously acquired a less-than-fee interest (leases and easements) may be purchased in fee during the year, and

the number of easement or lease acres will show a decrease and the number of purchased acres an increase. The acreage appearing in the Approvals and Summary of Land Acquisitions sections of this report will not appear in Tables One or Two until after the tracts are acquired and the funds are actually expended. Also, a newly approved refuge will not appear on Table One until the tracts are acquired.

For information on all lands and interests under U.S. Fish and Wildlife Service control, refer to the *Annual Report of Lands Under Control of the U.S. Fish and Wildlife Service*. This report can be obtained from the U.S. Fish and Wildlife Service Division of Realty at <http://realty.fws.gov> or by calling (703) 358-1713.

North American Wetlands Conservation Fund (Summary) Fiscal Year 2005

The Migratory Bird Conservation Commission approved 84 standard wetland conservation project proposals for funding in Fiscal Year 2005 under the North American Wetlands Conservation Act. A total of \$60,526,249 from the North

American Wetlands Conservation Fund (Fund), together with \$271,317,853 in partner funds, are supporting 42 projects in the United States, 27 in Canada, and 15 in Mexico. The following tables provide summary and detailed allocation information.

Fiscal Year 2005

Projects Approved by the Migratory Bird Conservation Commission and Active Under the North American Wetlands Conservation Act

Country	Number of Projects	Act Funds	Partner Funds	Acres Affected
U.S.	42	\$37,163,758	\$237,120,536	1,256,295
Canada	27	\$20,977,334	\$30,566,171	427,934
Mexico	15	\$2,385,157	\$3,631,146	251,206
Total	84	\$60,526,249	\$271,317,853	1,935,435

Additionally, 38 small grants were approved, totaling \$1,620,088 from the Fund, supported by \$7,927,543 in partner funds and affecting 14,464 acres.

United States Wetlands Conservation Standard Grant Proposals Approved by the Migratory Bird Conservation Commission For Fiscal Year 2005
