Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$375,000 in Department of Homeland Security Science funding through the Federal Emergency Management (FEMA) Pre-Disaster Mitigation Grant program, for the Brigham City Senior Center Seismic Upgrade project in Fiscal Year 2010.

The entity to receive the funding is Brigham City Corporation (a unit of local government), 20 North Main, Brigham City, Utah 84302. The City is prepared to provide its 25% match of the total project cost, or \$125,000.

Funding is needed to retrofit the Senior Center which services a significant senior population with various services, against the life-threatening risk of earthquakes associated with seismic events along the Wasatch Fault. The current senior center is located less from this fault, which FEMA and USGS have indicated has a 25% chance of a 7.5 Richter scale magnitude catastrophic event in the next 100 years.

I certify that neither I, nor my spouse, have any financial interest in this important project. Consistent with Republican Leadership policy on earmarks, I hereby certify that to the best of my knowledge, this request: (1) is not directed to an entity or program named for, or that will be named after a sitting Member of Congress; (2) is not intended for a "front" or "pass-through" entity; and (3) meets or exceeds statutory requirements for matching funds (where applicable). I further certify that should this request be included in FY2010 Appropriations legislation that I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Homeland Security Appropriations bill, FEMA, Predisaster Mitigation account for the Jackson Health System Hurricane Mitigation Structural Reinforcement Initiative. The entity to receive funding for this project is Jackson Health System located at 1611 NW 12<sup>th</sup> Avenue, Miami, FL 33136. It is my understanding that the funding would be used for the building to be structurally safe, adequately secured, and operationally functional. Florida consistently has the greatest risk for a direct hit by a hurricane of any other location in the U.S. When a hurricane warning is issued, JHS serves as an emergency evacuation shelter for medically at risk individuals. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publically available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity too secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable, I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting \$7,750,000 in funding for City of Tavares, Florida in fiscal year 2010. The entity to receive funding for this project is the City of Tavares, and is located at 201 East Main Street, Tavares, Florida 32778.

The funding would be used for a Hurricane Emergency Operations and Public Safety Facility for the City of Tavares, to house the main Fire Station, the Police Department, and the Emergency Operations Center and purchase hurricane and disaster equipment and supplies. This project will create 311 jobs. The new facility will allow the City's Public Safety divisions to be housed in an appropriate environment, to continue to provide critical protection and best services to citizens. This project is a good use of taxpayers' dollars because there is no emergency operations center in the City of Tavares, although the State of Florida has ranked them the third in counties most vulnerable, and in need of an emergency operations center.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Price and Ranking Member Rogers:

I am requesting funding in the FY10 Homeland Security Appropriations bill, under FEMA's Predistaster Mitigation account for CHRISTUS St. Elizabeth Hospital, located at 2830 Calder Street, Beaumont, TX 77702. It is my understanding that the funding would purchase a 2.5 megawatt diesel generating plant to ensure sanitary and safe conditions for both current and potential patients during disasters in an area that resides in "Hurricane Alley", which has recently been affected by Hurricanes Rita, Gustav and Ike. The generator will make certain that the Hospital remains serviceable by ensuring that power and water are functional; thus, allowing the Hospital to maintain its mission of providing essential medical care to the residents of southeast Texas. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for City of Whittier Emergency Operations Center in fiscal year 2010. The entity to receive funding for this project is: City of Whittier located at 13230 Penn Street, Whittier, CA 90602. The purpose of the project is to construct a 2,164 square foot Emergency Operations Center in Whittier that will house personnel, communications, and equipment to ensure continuity of operations in the event of a natural or manmade disaster. Whittier is an excellent candidate for such a project because it is located on a branch of a major earthquake fault that was the center of the 5.9 scale Whittier Narrows earthquake in 1987 that killed 8 people, destroyed 33 buildings in the city, caused over 1,400 gas leaks, ignited numerous gas leak fires, and caused over \$30 million in property damage in the city. In addition to being located on a major earthquake fault, the city regularly suffers and is threatened by hillside wildfires. Its current facility is inadequate. This will be a valuable use of taxpayer funds because it will help ensure continuity of emergency government operations and a robust response for any future natural or manmade disasters.

I certify that I have no financial interest in this project.
