The funding would be used for the purchase of a mobile dental unit for use throughout the northeastern portion of Louisiana. This mobile unit, serving the delta area of LA, would enhance the teaching capabilities of the dental hygiene program, and would provide critically needed services to underserved patients who lack financial resources and/or transportation to obtain proper dental care.

I am requesting funding for Richland Parish Hospital Access to Vital Preventive and Diagnostic Health Care Services in fiscal year 2010.

The entity to receive funding for this project is Richland Parish Hospital located at 407 Cincinnati Street, Delhi, LA 71232.

The funding would be used to increase access to vital preventive and diagnostic health care services in Northeast Louisiana through the use of one-time funding to purchase Digital Mammography and 16-Slice Computerized Tomography (CT) Scan machines and a Mobile Unit to transport the equipment throughout the region. This will particularly impact the low-income, under and un-insured residents of the most rural areas of the region, who do not have the resources to travel to the larger urban areas to obtain these services. RPH is a participant in the LA Rural Health Information Exchange Network and was the first hospital to be linked with the LSU Health Sciences Center (LSUHSC-S) in Shreveport. They will be able to transmit these tests to the specialists at LSUHSC-S with this funding.

I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting Member of Congress (exception must be justified here); (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I am requesting funding for CHRISTUS Health St. Francis Cabrini Health IT in fiscal year 2010.

The entity to receive funding for this project is CHRISTUS Health St. Francis Cabrini Hospital located at 3330 Masonic Drive, Alexandria, LA 71301.

The funding would be used to improve access and lower costs for the un and under-insured by reducing inappropriate use of the emergency department while providing a care team to help coordinate their care and provide a medical home. Reducing the cost of care requires investment of health IT infrastructure. This project began almost a year ago by deploying community health workers using all manual processes. This activity will automate the process of data collection, information sharing and increased communications with the clients to reduce inappropriate utilization, improve access and reduce cost, all while helping them to better care for themselves.

I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting Member of Congress (exception must be justified here); (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I am requesting funding for Self Enhancement Inc. in Oregon in fiscal year 2010.

The entity to receive funding for this project is:

Name: Self Enhancement, Inc.

Address: 3920 Kerby Road

City, ZIP: Portland, OR 97227

The funding would be used for:

Self Enhancement, Inc is a mentoring program that works with underserved youth to realize their full potential through comprehensive year-round academic, enrichment, and family involvement programs. Operating in inner city locations, SEI predominately serves low-income African American youth who regularly have the lowest graduation rates. While only 59% of African-American students graduate high school in Oregon, SEI has a 98% graduation rate. Recognized as one of the highest performing youth organizations in the nation, SEI is expanding and developing its model nationally. The \$1,000,000 requested will help stabilize and expand upon Self Enhancement, Inc.'s "Core Program," which enlarges SEI's traditional high school age focus to address students from ages eight to twenty-five.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Tiahrt:

I am requesting funding for **Using Advanced Imaging Technology to Treat Complex Inoperable Neoplasms and Arteriovenous Malformations** in fiscal year 2009.

The entity to receive funding for this project is:

Further, minimally invasive procedures allow patients to recover more quickly and return to work and other matters of daily living without lengthy healing periods. Finally, this project will create three new full-time medical professional positions at the hospital as well as temporary construction jobs related to the installation and renovations of the new interventional procedure room, contributing hundreds of thousands of dollars in salaries and benefits to the local economy.

Dear Chairman Obey and Ranking Member Lewis:

I write to respectfully request funding in the Fiscal Year 2010 Labor, Health and Human Services, Education and Related Agencies Appropriations bill, Department of Health and Human Services, HRSA account. The entity to receive funding for this project is Memorial Healthcare System, located at 1901 SW 172nd Avenue, Miramar, FL 33029.

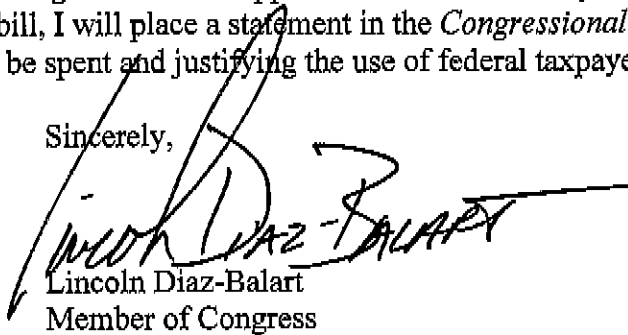

It is my understanding that the funding will be used to construct six additional operating rooms for Memorial Hospital Miramar. Memorial Healthcare System (also known as South Broward Hospital District) is a public, not-for-profit organization, and serves as the largest provider of care in South Broward. Memorial Hospital Miramar is experiencing double digit growth in admissions, outpatient visits, emergency services, deliveries and surgical procedures. Admissions have increased 23% year-to-date. Annual surgical cases continue to rapidly increase up from 5200 cases last year, to a projected 5700 cases or 9% increase this year. Surgical cases are expected to exceed 5,900 in the next five years.

MHM's ability to meet demand for surgical services has been challenged by an insufficient number of operating rooms (ORs) to meet our patients' and their physicians' needs. MHM currently has five operating rooms or surgical suites available. Operating room utilization has increased at such high rates that wait times for patient surgeries are dramatically increasing.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. It is my understanding that the funding will be used to support the Center for Community Services Initiatives (CCSI) to enhance opportunities for external individuals and groups to participate in on-campus programs. The Center will serve as an educational resource to community organizations, including health providers. Barry service-learning opportunities support local community clinics, helping to improve the quality and accessibility of health care, including behavioral health care.

Dear Chairman Obey and Ranking Member Lewis:

I write to respectfully request funding in the Fiscal Year 2010 Labor, Health and Human Services, Education and Related Agencies Appropriations bill, Department of Education, FIPSE account. The entity to receive funding for this project is St. Thomas University, located at 16401 NW 37th Avenue, Miami Gardens, FL 33054.

It is my understanding that the funding will be used to extend its outreach to the community by offering a professional development program to advance the teaching of science and technology in elementary schools in Miami-Dade County. To carry out this program, STU proposes to evaluate existing instructional technology in science and computer education and formulate a special and systematic development for elementary teachers, in conjunction with the Miami-Dade County Public Schools.

Dear Chairman Obey and Ranking Member Lewis:

I write to respectfully request funding in the Fiscal Year 2010 Labor, Health and Human Services, Education and Related Agencies Appropriations bill, Department of Health and Human Services, SAMHSA Mental Health account. The entity to receive funding for this project is Spectrum Programs, Inc., located at 11031 NE 6th Avenue, Miami, FL 33161.

It is my understanding that the funding will be used to demonstrate the effectuality of a mental health and substance abuse treatment continuum that integrates research, best practices and emergent treatment methodologies across the spectrum of mental health, substance abuse, and co-occurring disorders in a continuous improvement model, making the processes and procedures of behavioral health treatment more effective, the timelines to improved behavioral health shorter, and the gains more sustainable, substantially reducing the catastrophic personal, family, and societal consequences of historically disaggregated treatment approaches. The funding will establish the Florida Center for Excellence in Emerging Behavioral Health Strategies.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I write to respectfully request funding in the Fiscal Year 2010 Labor, Health and Human Services, Education and Related Agencies Appropriations bill, Department of Health and Human Services, HRSA account. The entity to receive funding for this project is the Miami Jewish Home and Hospital Hialeah PACE Center, located at 5200 NE 2nd Avenue, Miami, FL 33138.

It is my understanding that the funding will be used to develop a PACE Center in Hialeah, Florida. The Program of All-Inclusive Care for the Elderly (PACE) is an innovative long-term care model that allows frail elders to remain at home. The goal of PACE is to deliver high quality, cost-effective care while managing participants' complex medical, functional, and social needs. PACE integrates financing and delivery of acute and long-term care services. PACE enables older individuals who are eligible for nursing home care to continue living in the community with a full spectrum of medical, social and rehabilitative services. The Program of all Inclusive Care for the Elderly (PACE) meets three important objectives in providing long-term care services: a) it allows long term care in operate in a managed care environment, b) it integrates Medicare and Medicaid into a seamless and transparent funding source, and c) it allows nursing eligible older adults to remain at home.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Labor HHS Appropriations bill, Department of Health and Human Services, HRSA account for Collier County Health Care Access Network. The entity to receive funding for this project is Collier County, FL located at 3301 E. Tamiami Trail Naples, FL 34112. It is my understanding that the funding would be used to expand a full access program with a full continuum of services for approximately 35,000 residents needing health care. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publically available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity too secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable, I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Labor HHS Appropriations bill, Department of Health and Human Services, HRSA account for the Miami Children's Hospital Congenital Heart Institute (CHI): Hybrid Pediatric Cardiac Suites. The entity to receive funding for this project is Miami Children's Hospital located at 3100 S.W. 62nd Ave Miami, FL 33155. It is my understanding that the funding would be used for patients from throughout South Florida and nationally that will benefit from the new hybrid cardiac suites. The current cardiac surgical suites have outlived their useful life, and replacements are essential in order to meet patient needs. Once constructed, the two hybrid cardiac suites will make Miami Children's Hospital unique in the entire country, and better able to work toward the goal of 100% survivability for children with congenital heart defects. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publically available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity too secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable, I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY2010 Labor, Education, and Health and Human Services Appropriations bill for Chesapeake Health Center. The entity to receive funding for this project is Children's Hospital of The King's Daughters Health System at 500 Discovery Dr, Chesapeake, Virginia, 23320. It is my understanding that the funding would be used to assist in the building of a centralized multi-specialty children's health center in the Norfolk, Virginia area. Children's Hospital of The King's Daughters Health System (CHKD) is the only freestanding children's hospital in the Commonwealth and the region's sole source of exclusively pediatric inpatient and outpatient care. As such, it furthers HRSA's mission of promoting access to vital health services. The current, scattered CHKD locations create access concerns due to the fragmentation of the services. CHKD will build a permanent home in Chesapeake to house outpatient services, and the Center will serve the growing pediatric population and expansive geography that are the hallmarks of the region.

I hereby certify that to the best of my knowledge, this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I also hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY2010 Labor, Education, and Health and Human Services Appropriations bill for Chesapeake Workforce Development Initiative. The entity to receive funding for this project is City of Chesapeake at 306 Cedar Rd, Chesapeake, Virginia, 23322. It is my understanding that the funding would be used to create a community service model for increasing citizen accessibility to workforce training and education resources. This initiative would form a partnership with Chesapeake Library, Economic Development, and Social Services, Tidewater Community College, Opportunity, Inc., and Chesapeake Adult Continuing Education to provide training and educational resources to citizens in an effort to help them secure employment.

I hereby certify that to the best of my knowledge, this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY2010 Labor, Education, and Health and Human Services Appropriations bill for Chesterfield County Community Corrections – Dual Treatment Track. The entity to receive funding for this project is Chesterfield County, VA at 9901 Lori Road, Chesterfield, Virginia, 23832. It is my understanding that the funding would be used to support the Dual Treatment Track (DTT), which is a pretrial diversion program for non-violent defendants that suffer from both a mental illness and substance abuse addiction (federally defined as a vulnerable population). The program uses “best practice” models to divert individuals from the local jail who are of minimal threat to the community, yet in serious need of both substance abuse and mental health services. The DTT program provides benefits for everyone involved in the criminal justice and mental health systems. It reduces the burden of specialized care that the jail is forced to provide. It gives the court a new tool in dealing with a population that is traditionally difficult to effectively sentence.

I hereby certify that to the best of my knowledge, this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I also hereby certify that this request will be made publicly available on my official website as required by Chairman Obey’s new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership’s policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I am requesting funding for the Veterans Re-Entry Program project in fiscal year 2010.
The entity to receive funding for this project is:

Bristol Community College
777 Elsbree Street
Fall River, MA 02720

The funding would be used for help veterans transition into higher education. Navigating the maze of information and benefits available to veterans is daunting, and the need to help veterans get into college and the workforce is tremendous. According to the United States Department of Veterans Affairs, more than 500,000 personnel utilized their GI Bill benefits (fiscal year 2007). The Post-9/11 Veterans Educational Assistance Act of 2008 or "New GI Bill" is now law, but many veterans are unclear of how to take advantage of these benefits. Bristol Community College is interested in starting a new program to help returning veterans transition into college and new careers. The proposed program has three elements: Streamlining Re-Entry, Re-Entry Programs, Post-Placement Assistance

I certify that I have no financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting \$500,000 in funding for the Orange County Library District in fiscal year 2010. The entity to receive funding for this project is the Orange County Library District located at 101 East Central Blvd., Orlando, Florida, 32801.

The funding would be used for the Orange County Library System to purchase certain media and books, specifically Spanish language materials at the South Creek and South East Branches. Specifically, these funds would be used to purchase Spanish language materials - print, digital and recorded books on CD's and databases tailored for the Hispanic population at South Creek and South East branches. Funds would cover the costs for the libraries' ELLIS Program, which is a self-directed, self-paced English language learning software in an open lab setting, featuring native language instruction, microphone feedback and digital voice print images for better pronunciation. Current usage: 2575 people used ELLIS for over 792 hours within branch facilities. Provide the Mango languages program which is an English Study as a Second Language (ESOL) option online learning available within the library or with remote access. Since October 1, 2008, 790 sessions have been held for the native Spanish speakers ESOL unit, and the English Chatter Program, which is an opportunity to participate and improve English speaking skills. Participants engage in friendly conversations with fluent English speakers, who attend and help lead conversations in English. This project is a good use of taxpayers dollars because it invests in our public libraries, and programs for our Spanish-speaking community.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting \$300,000 in funding to Prevent Blindness Florida in fiscal year 2010. The entity to receive funding for this project is Prevent Blindness Florida, located at 1112 East Kennedy Boulevard.: Tampa, Florida 33602.

The funding would be used for the "See the Difference" Vision Screening Program, which provides free vision screening, assistance at local county health department clinics for eye-related education and treatment services, and funding to upgrade existing vision screening equipment to more technologically advanced and portable equipment. Additionally, Prevent Blindness Florida will expand its free monthly vision screening and consultative events. Many children and adults suffer from low-vision, resulting in a financial burden. This funding will allow Prevent Blindness Florida to continue vision screening programs with the Orange-County Health Department (branches in downtown Orlando, South Orange Blossom Trail), and create partnerships with Marion and Lake Counties Health Departments to provide exams and glasses. On average, the program serves upwards of 100 individuals a month, and will expand to 300-500 a month based on expansion in Orange County and outreach to municipalities in Marion and Lake. This project is a good use of tax-payers dollars because it provides an immediate eye services (screenings and glasses) to individuals who would not otherwise be able to afford.

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

A handwritten signature in blue ink that reads "Alan Grayson".

Jobs for Arizona's Graduates (JAG) has been improving educational and youth employment outcomes for Arizona youth since 1980. While successes have been achieved in terms of increased graduation, GPAs and youth employment rates, the need for JAG services continues to expand. Funding will be used to expand and operate 14 new JAG programs, serving approximately 560 of Arizona's most at-risk middle and high school students, who without support will not successfully transition.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Teach for America in Fiscal Year 2010. The entity to receive funding for this project is Teach for America, located at 315 West 36th Street, New York, NY 10018.

The purpose of the funding is to go towards the recruitment, selection, placement and professional development of an estimated 8200 first- and second-year teachers in 39 low-income regions across the nation. These teachers will reach an estimated 525,000 underserved students. The \$25 million in federal funds will leverage roughly \$160 million in corporate, foundation and individual dollars and will make up an estimated 13 percent of Teach For America's anticipated 2010 operating revenue of \$190 million.

This is a valuable investment of federal funds as this national corps of outstanding college graduates and young professionals of all academic majors, career interests and backgrounds commit at least two years to teach in urban and rural public schools in our nation's lowest-income communities and become lifelong leaders for expanding educational opportunity. Teach For America is a non-profit with a mission of enlisting our nation's most promising future leaders in the movement to eliminate educational inequality. This is accomplished by building a diverse, highly selective national teacher corps, ensuring that corps members are highly effective classroom teachers in the highest-need classrooms across the country, and supporting the corps members beyond their two-year commitment to ensure their lifelong engagement.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY2010 Labor, Health and Human Services, Education Appropriations Bill, Health Resources and Services Administration Account, for the National Kidney Registry. The entity to receive funding for this project is the National Kidney Registry, located at 42 Fire Island Avenue, Babylon, NY 11702. It is my understanding that the funding would be used to support an upgrade to enhanced HLA testing enabling more accurate cross-mating of altruistic living donors to potential recipients, upgrade the architecture of the matching system, improve the usability and scalability of the web site to enable efficient processing of future non-directed altruistic donor traffic volume, and develop a user-interface to provide participating transplant centers the ability to upload donor and recipient medical values into the data base. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Chairman Obey and Ranking Member Tiahrt:

Thank you for your leadership on the House Appropriations Subcommittee on Labor, Health and Human Services, Education, and Related Agencies. I am requesting funding for a Biocontainment Training Facility for BSL-3 Agents in fiscal year 2010. The entity to receive funding for this project is Colorado State University, located at 203 Administration Building, Fort Collins, CO 80523-2001.

The funding for this project is a good use of taxpayer funds because it will help establish national standards and practices in this vital area of biocontainment principles and practices. A nationwide expansion in biocontainment facilities and research projects is now underway but a critical gap has emerged in the training and skill levels of personnel that work in these facilities. Colorado State University (CSU) proposes to address this national need for biocontainment training by constructing and operating a showcase training facility as part of the expansion of the Infections Disease Research Center (IDRC). This program will create three new full-time jobs. Use of the training facility would have a wide-spread ripple effect in the infectious disease community, both at CSU and beyond to biotechnology firms and government workers interested in infectious disease containment. Individuals trained in this facility would have an enormous retention/advancement advantage in their workplace. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Regional Disease Surveillance and Early Event Detection (ReDSEED) project in the FY10 Labor, HHS, Education Appropriations bill. The amount requested for this project is \$810,000.00. The entity to receive funding for this project is Inland Northwest Health Services (INHS), located at 601 W. First Avenue, Spokane, WA 99201.

This project will utilize anonymous health data to capture all inpatient and emergency room data, all laboratory and imaging data and a significant percentage of ambulatory data for an entire region. Special pattern recognition software will be applied to the data allowing rapid detection of patterns that may indicate a need for public health and emergency response action. Because public health authorities are seeking methods for detecting disease as early as possible, this project has the potential to transform disease surveillance in this country. This can be accomplished by analyzing data from a wide variety of sources and enable the user to see patterns and relationships that otherwise would be missed.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I also attest that this project does not have a direct or foreseeable effect on the financial interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge the request: (1) is not directed to any entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the WSU College of Nursing project in the FY10 Labor, HHS, Education Appropriations bill. The amount requested for this project is \$1,800,000.00. The entity to receive funding for this project is Washington State University, located at French Administration Building, Rm. 324, Pullman, WA 98101.

In order to address the identified nursing shortage and the need to help facilitate workforce development, this project would advance teaching at WSU College of Nursing to fund distance learning technologies, simulation technology and novel e-network which will increase their capacity to educate and graduate nurses. The funding will increase their ability to utilize existing resources to attract high-quality faculty who will in turn result in the production of more high-quality nurses.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Image Guided Radiation Therapy Cancer Treatment Equipment project in the FY10 Labor, HHS, Education Appropriations bill. The amount requested for this project is \$1,000,000.00. The entity to receive funding for this project is Providence St. Mary Medical Center, located at 401 West Poplar Street, Walla Walla, WA 99362.

The project would bring significant improvements to cancer treatment at St. Mary's. The new image guided radiation therapy treatment system acquires 3D images of every patient, every day, allowing the clinicians to check the tumor's size, shape and adjust the treatment beam accordingly to provide more precise treatments. The project would have widespread positive impact on the area's economic status by providing ongoing treatment for patients in their local environment. Patients will have access to daily treatment close to their homes and work, allowing them to continue working throughout their radiation treatment series.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I also attest that this project does not have a direct or foreseeable effect on the financial interests of me or my spouse.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Gonzaga University School of Nursing project in the FY10 Labor, HHS, Education Appropriations bill. The amount requested for this project is \$382,901.00. The entity to receive funding for this project is Gonzaga University, located at 502 East Boone Avenue, Spokane, WA 99258.

The project would expand and upgrade the School of Nursing's resource and simulation center. An upgrade and additional equipment are needed to support university nursing students and hospital staff nurses as they utilize simulation opportunities for education and training. It is in the interest of Congress to support these efforts so that additional students can receive nursing degrees. Funding is critical in the nationwide effort to solve the nursing shortage.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Solano County Parolee Re-Entry Program in fiscal year 2010.

The entity to receive funding for this project is Fighting Back Partnership, located at 505 Santa Clara St. 3rd Floor Vallejo, Ca 94590.

The funding would be used to support evidence-based strategies to reduce recidivism among state paroles returning from prison to communities in Solano County. Fighting Back Partnership, a 501(c)(3) community-based organization working in conjunction with a countywide collaborative of practitioners, advocates, and policymakers called the Solano Re-Entry Council Planning Group, proposes to continue a successful system-level model and human services delivery infrastructure for state paroles returning to communities in Solano County, California.

The key has been addressing the parolees' barriers to success and re-integration in the local communities, especially in the highly volatile time of first 30 to 60 days post-release. The program model demands that parolee's needs be identified through a needs/strengths assessment process and by developing and monitoring the delivery of support services using an individual treatment plan.

Other important facets of the post-release services include addressing people's criminal thinking, criminal associations, low literacy levels, and lack of vocational and career skills. The specific project activities to be undertaken are client assessment, case management, resource coordination, peer mentorship, and vocational education. As of December 31, 2008, we estimate that cost savings to the people of California because of the effectiveness of this program is approximately \$17,990,000. This figure was derived by examining the return to custody rates ratio difference between California and Solano

County, multiplied by an average \$35,000 cost to feed, clothe, and house an inmate per year.

I certify that neither my spouse nor I have any financial interest in this project.

Sincerely,

A handwritten signature in black ink that reads "George Miller". The signature is written in a cursive style with a large, looping initial "G".

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Reach Out and Read** in fiscal year 2010.

The entity to receive funding for this project is:

Reach Out and Read National Center
56 Roland Street
Boston, MA 02129

The funding would be used for **promoting literacy and language development in infants and young children, targeting disadvantage and poor children and families. Through fifteen years of peer-reviewed and published research, an extensive body of documentation now clearly demonstrates the importance of promoting early language and literacy skills so that children have the essential reading skills to begin school successfully. Yet today, a large number of children do not receive the necessary support and assistance to develop these skills and begin kindergarten read to learn. To close this gap, the federal government provides funding for a variety of literacy programs and strategies that reach children and parents, and the professionals who interact with them. ROR has proven to among the most effective strategies to promote early language and literacy development and school readiness: pediatricians and other healthcare providers guide and encourage parents to read aloud to their children from their earliest years of their life, and send them home from each doctor visit with books and a prescription to read together. Currently, nearly 50,000 doctors and nurses have been trained in ROR's proven strategies, and more than 3,500 clinics and hospitals nationwide are implementing the program, reaching more than 25% of America's at-risk-children. Funding provided by Congress through the U.S. Department of Education has been matched by tens of millions of dollars from the private sector and state governments.**

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the following project in fiscal year 2010:

Project: Workforce Development Program

Entity to receive funding: Living Classrooms of the National Capital Region

Address: PO Box 70437
Washington, DC 20024

Purpose: Living Classrooms of the National Capital Region (LC-NCR) is a non profit organization that serves disadvantaged young adults (especially youth living in at risk environments) through hands-on education and job skills training, while also participating in projects to revitalize local neighborhoods and grow the economy. Living Classrooms' Workforce Development Program benefits unemployed young adults ages 17-24, the community at large and the economy by supplying local industries with capable and trained potential employees. According to the Annie E. Casey Foundation, 3.8 million youth ages 18-24 unemployed or not in school in the United States, Living Classrooms of the National Capital Region is filling a critical void by offering participants career instruction, employment training and on-the-job experience with a new project in partnership with the Restaurant Association Metropolitan Washington Education Foundation.

The Living Classrooms of the National Capital Region's Workforce Development Program addresses the need for more reliable workers and an opportunity for underserved young adults to put people into the community who are ready to work to contribute to the revitalization of urban areas in Washington, D.C., Northern Virginia and Maryland. Living Classrooms provides the disadvantaged youth with skills, education and leaderships qualities that will provide the income and jobs that break destructive cycles of poverty and crime.

This positively impacts the community, family members, dependent children and neighbors while contributing to the health of the economy. This program will assist in breaking the following statistics of high unemployment rates.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your attention in this matter.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the following project in fiscal year 2010:

Project: NCNW Job Training for Disadvantaged Women Project

Entity to receive funding: National Council of Negro Women (NCNW)

Address: 633 Pennsylvania Ave., NW
Washington, DC 20004

Purpose: NCNW will provide an eight-week intensive jobs readiness and life-skills training program for a minimum of one-hundred and twenty-five women who may be disadvantaged economically or lacking in jobs skills. Upon completion, the participants will display the basic knowledge and skills for job attainment and retention. Each of the five training periods will have a projected enrollment of twenty-five participants. The project will include both basic job readiness and life skills training as well as skills-based training available in four specific specialty areas. Their "basic training" will include the following: communication skills, resume writing, interview techniques, business etiquette, financial management, decision-making skills, self-esteem building, family violence prevention, and healthy families training. The proposed specialty skills modules include: Computer Training; Food Service and Hospitality; Painting Contractor Training; and HVAC Training and Certification. Each specialty training module will be hands-on with a job shadowing component. The overall program model is outlined in the following diagram. All program participants will complete the Job Readiness and Life Skills Basic Training as well as a Specialty Training Program in their area of choice.

Recruitment efforts will target distressed neighborhoods in Washington, DC, Maryland, and Virginia. NCNW will provide each participant with SmartTrip

Cards preloaded with an initial value of \$50.00 as well as meals, so that participants can defray transportation costs and then once here, remain in-house throughout the full training day. This practice will provide an intensive, on-task working environment, while also allowing participants opportunities for relationship-building, thereby laying the groundwork for future networking capabilities.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your attention in this matter.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Labor/HHS Appropriations bill, Department of Labor, Employment and Training Administration-Training and Employment Services. The entity to receive funding for this project is San Jacinto College at 4624 Fairmont Parkway, Pasadena, TX 77504. Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Labor, Health and Human Services, and Education Appropriations bill, in the Health Resources and Services Administration Account for Florida Southern College. The entity to receive funding for this project is Florida Southern College located at 111 Lake Hollingsworth Drive, Lakeland, FL 33801. It is my understanding that the funding would be used for construction costs and to purchase instructional technology and equipment for the nursing skills lab to allow Florida Southern College (FSC) to continue increasing student enrollment in its nursing programs in an effort to address the well-documented, critical shortage of nurses in the State of Florida and the nation. Specifically, accommodating rapidly growing enrollment in Florida FSC's RN-to-BSN, BSN, and MSN programs and to prepare for further growth from their three-year cooperative BSN program with Polk Community College, FSC is constructing a 3,000-square-foot expansion of the Joe K. and Alberta Blanton Nursing Building, which will house a classroom and a high-tech nursing skills labs. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.*

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Labor, Health and Human Services, and Education Appropriations bill, in the Fund for the Improvement of Postsecondary Education Account for Polk Community College. The entity to receive funding for this project is Polk Community College located at 999 Avenue H, N.E., Winter Haven, FL 33881. It is my understanding that funding would be used to address a skills gap currently hampering the ability of hospitals and clinics in Polk County, Florida to fill critical positions, expand, and adapt to meet the needs of an aging population. Polk Community College (PCC) seeks funding to enhance its Nursing, Cardiovascular Technology (CVT), Diagnostic Medical Sonography (DMS), Radiography, and Emergency Medical Technology programs in order to address the critical need for qualified Allied Health professionals in the region. Funding would be used to develop an Echocardiography track in addition to the Cardiovascular Technology Invasive track Associate of Science (AS) degree program, hire additional faculty and staff, and purchase updated training technology. Funding is also requested to equip two classrooms with computer technology necessary for PCC's Educator Preparation Institute's (EPI) teacher-training courses in Technology. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.*

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Labor, Health and Human Services, and Education Appropriations bill, in the Fund for the Improvement of Education Account for Polk County Public Schools. The entity to receive funding for this project is Polk County Public Schools located at 1915 South Floral Avenue, Bartow, FL 33830. It is my understanding that the funding would be used to help fund the Polk County Safety Surveillance System Pilot Project, specifically the purchase and installment of alarm systems and surveillance equipment at 27 campuses throughout the school district. Implementation of these security systems would enable school officials and local law enforcement to monitor for and assess invasive acts of violence, theft and vandalism, coordinate effective responses to bring situations under control and protect approximately 20,000 students, teachers and other staff on these campuses. Educators and school administrators alike know that students who do not feel safe in school have difficulty concentrating in class and retaining what is taught and that positive student engagement in the classroom is a key factor in promoting student achievement. The participating pilot schools were selected based on the frequency and volume of theft, vandalism and violent incidents and requests for additional security guards to protect the people attending afterschool events at these locations. Selections were determined by the Director of the Department of Safe Schools whose department records and processes these incidents. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.*

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Labor/HHS Appropriations bill in the Department of Education's Higher Ed FIPSE Account. The entity to receive funding for this project is California State University, Fullerton, located at 800 N State College Blvd, Fullerton CA 92834. It is my understanding that the funding would be used to continue the establishment of the Center for the Advancement of Teaching and Learning in Mathematics and Science (CATLMS). Yet, in an increasingly interconnected world, the U.S. has not been keeping pace with its economic competitors. Dear Chairman Obey and Ranking Member Tiaht:

I am requesting funding for the Helping Transition-Aged Youth Initiative in the fiscal year 2010 Labor, Health and Human Services, Education and Related Agencies bill. The entity to receive funding for this project is Prince George's County, located at 14741 Governor Oden Bowie Drive, Upper Marlboro, MD 20772. There are more than 3,000 young adults aged 18-21 years in Prince George's County whom have either dropped out of high school or are at high risk of dropping out due to a lack of mental health supports for youth in this age group. Studies have shown that transition-aged youth who lack the social supports to help them succeed in society are more than twice as likely to be unemployed, at risk of incarceration and prone to substance abuse. This funding will enable a community-based provider to help transition-aged youth integrate successfully into the community. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

This is to request \$2,000,000 in the Fiscal Year 2010 Labor, Health and Human Services and Education Appropriations bill; Health Resources Services Administration, Health Facilities and Services account, for the hardening of BayCare Health System's medical facilities. The entity that will receive funding under this request is BayCare Health System, 16331 Bay Vista Drive, Clearwater, FL 33760. It is my understanding that the funding will be used to harden the acute care/in-patient care facilities by focusing on roofs, windows and e-power generation for climate control. Such infrastructure investments are critical in order to protect patients, staff and the hospital itself during and immediately after hurricanes. I certify that this project does not have a direct or foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds. (4) I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

This is to request \$500,000 in the Fiscal Year 2010 Labor, Health and Human Services and Education Appropriations bill; Health Resources Services Administration, Health Facilities and Services account, for the support of the Florida Cancer Clinical Trials network. The entity that will receive funding under this request is the University of South Florida, College of Education, 4202 East Fowler Avenue, Tampa, FL 33620.
