Dear Chairman Obey & Ranking Member Lewis:

I am requesting \$3,500,000 for Protective Self-Decontaminating Surfaces in fiscal year 2010. The entity to receive funding for this project is Ventana Research Corp. (VRC) & Kappler, Inc. (K,Inc), located at VRC: 2702 South 4th Avenue, South Tucson, AZ 85713-4816 K,Inc: 115 Grimes Drive, Guntersville, AL 35976-9364. The funding would be used for Prototype field validation tests of VRC-Kappler Chemical Biohazard Protective systems; Lab test bacterial infections, deceases & contaminated human remains pouches (CHRP); Field & live test nerve gas & radiological agents. Taxpayer Justification: Present decontamination processes agents labor intensive and require lengthy downtimes. Field-tested prototypes demonstrate cost-effective Chemical Biohazard protection for military personnel and civilian population.

I certify that neither I nor my spouse has any direct financial interest in this project.

Also, I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey & Ranking Member Lewis:

I am requesting \$7,500,000 in funding for the Electrically Charged Mesh Defense Net Troop Protection System in fiscal year 2010. The entity to receive funding for this project is Victory Solutions, Inc., with two locations: 1795 Panorama Way West Guntersville, AL 35976 and 4900 Corporate Drive, Suite A Huntsville, AL 35805. The funding would be used for "D-NET" a Defense Net Troop Protection System designed to intercept and negate the serious insurgent and terrorist threat tactics employing Rocket Propelled Grenades (RPG), mortars, and small rocket munitions encountered by U.S. Combat Forces. Taxpayer Justification: To save lives of our U.S. Combat Forces in hostile territories such as Afghanistan and Iraq through an innovative and low-cost system of defending vehicles against enemy attacks by further testing and prototype development of a system which has passed all tests so far and gotten favorable government program manager review, and which was developed with input from troops in the field.

I certify that neither I nor my spouse has any direct financial interest in this project.

Also, I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey & Ranking Member Lewis:

I am requesting \$4,000,000 for Waterside Wide Area Tactical Coverage and Homing in fiscal year 2010. The entity to receive funding for this project is Miltec Corporation, located at 21232 Hwy 431 Guntersville, AL 35976. The funding would be used for final test and demonstration of WaterWATCH affordable underwater monitoring capabilities; place demonstration security system installations at military bases and other critical infrastructure; evaluate system performance; meet unfunded requirements. Taxpayer Justification: Most waterfront facilities are unprotected due to cost considerations. Underwater monitoring is non-existent due to cost. WaterWATCH will make a major step toward correcting this by integrating currently available components with new software and hardware developed as part of this project, in order to provide an affordable, fully operational system.

I certify that neither I nor my spouse has any direct financial interest in this project.

Also, I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey & Ranking Member Lewis:

I am requesting \$4,000,000 for Marine Corps MK1077 Flatracks in fiscal year 2010. The entity to receive funding for this project is SUMMA Technology, Inc., located at 140 Sparkman Drive Huntsville, AL 35805. The funding would be used for The MK1077 Flatrack is a revolutionary material handling system that provides the Marines with expedited logistical support while achieving significant manpower and equipment reductions. Taxpayer Justification: The USMC has a requirement for 3,500 MK1077 Flatrack units of which 1,000 units have been acquired to date. The additional funding requested would provide approximately 330 units bringing the total inventory to 1,330 or 37%.

I certify that neither I nor my spouse has any direct financial interest in this project.

Also, I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, Other Procurement, Air Force, for the Aircrew Body Armor and Load Carriage Vest System. The entity to receive funding for this project is Eagle Industries at 1000 Biltmore Drive, Fenton, MO 63026. It is my understanding that the funding would be used to procure the remaining 17,600 systems (of the total 18,000 system requirement) for optimum survivability of Air Force personnel on all Air Combat Command, Air Force Special Operations Command, and Air Mobility Command aircraft. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

The Honorable Jerry Lewis, Ranking Member  
House Appropriations Committee  
H-218 Longworth House Office Building  
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, RDT&E, Army, for the Hyper-IFP (Hyper spectral Sensor for Improved Force Protection). The entity to receive funding for this project is Clean Earth Technologies, LLC at 13378 Lakefront Drive, Earth City, Missouri 63045. It is my understanding that the funding would be used to build and field test two Hyper-IFP sensor systems in a force protection exercise. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

W. Todd Akin

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Anti-Tamper R&D program in fiscal year 2010.

The entity to receive funding for this project is Louisiana Tech located at P.O. Box 10348, Ruston, LA 71272.

The funding would be used to establish an Anti-Tamper R&D program to further the development of effective AT technology.

**I certify that neither I nor my spouse has any financial interest in this project.**

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting Member of Congress (exception must be justified here); (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Research, Development, Test and Evaluation, Army, Combat Vehicle and Automotive Advanced Technology Account for Logistical Fuel Processors Development. The entity to receive funding for this project is Auburn University, 202 Samford Hall, Auburn University, AL 36849. To the best of my knowledge, the funding would be used to develop and demonstrate logistical fuel processor-fuel cell combinations that operate at significantly higher efficiencies than currently used by the Army. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Improved Thermal Resistant Nylon for Enhanced Durability and Thermal Protection in Combat Uniforms in fiscal year 2010. The entity to receive funding for this project is Greenwood Mills, Inc., 300 Morgan Avenue, Greenwood, South Carolina. The funding would be used to increase the safety and protection of the Soldier with improved flame resistant, durable and lower cost materials for the Army combat uniforms to meet the urgent need of the threat against Improvised Explosives Devices (IED). I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on Congressionally directed spending, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

The Honorable Jerry Lewis, Ranking Member  
Committee on Appropriations  
H-218 The Capitol  
Washington, D.C. 20515

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriation bill for Automated Sample Preparation (ASP) for Biological Detection. The entity to receive funding for this project is Akonni Biosystems, Inc., 400 Sagner Avenue, Suite 300, Frederick, MD 21701. The funding would be used for RDT&E, Defense-wide. I certify that this project does not have a direct and foreseeable effect on the pecuniary interest of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer dollars.

Sincerely,

A handwritten signature in black ink, appearing to read "Roscoe G. Bartlett".

Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$6 million for the Eagle Vision III. The entity to receive funding for this project is the 147<sup>th</sup> Combat Communications Squadron, California Air National Guard located at:

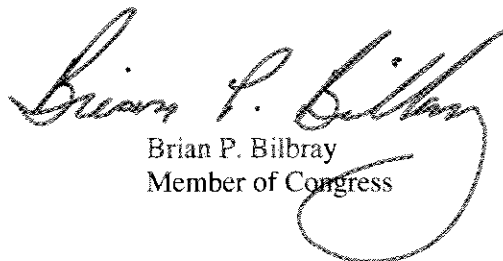

147th Combat Communications Squadron  
7288 Convoy Terrace  
San Diego, CA 92111-1120

In October of 2007, San Diego suffered through one of the worst wildfire disasters in California history. With thousands of homes lost and hundreds of thousands of lives changed, the California National Guard requested upgrades to Eagle Vision, the San Diego based system that has already proven itself as an asset for the Federal Emergency Management Agency, CAL Fires/OES, and the Army Strategic Command. The Eagle Vision III system directly and indirectly supported the 2008 Midwest Flooding, Hurricanes Fay, Gustav, and Ike and has participated in numerous military exercises. To augment the current system, this request seeks to provide resources for an increased imaging system that will provide higher resolution images, with more frequent access to images for first responders, while at the same time allowing for image data collection through clouds, haze and smoke. These capabilities are essential for the military and will be critical to the San Diego region for combating natural disasters such as wildfires, floods and hurricanes.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting Member of Congress (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$26 million for the Predator C. The entity to receive funding for this project is the General Atomics Aeronautical Systems, Inc located at:

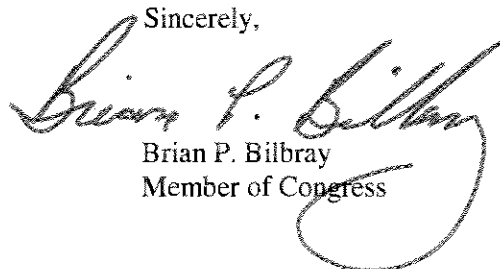

14200 Kirkham Way  
Poway, CA 92064

In July 2008, I took a trip to Iraq and Afghanistan to assess the current conditions on the ground. In a meeting with General David D. McKiernan, Commander of International Security Assistance Force (ISAF) and Commander, U.S. Forces Afghanistan (USFOR-A), he emphasized that the most important tools needed to successfully conduct operations are more "eyes in the sky," also known as unmanned aerial vehicles (UAV). Most importantly, this request will help save lives through better intelligence gathering and greater strike capabilities. Furthermore, Predator C means more jobs contributing to San Diego's local economy. Predator C will provide the USAF and other customers with an additional covert capability, enhanced by much higher operational and transit speeds for quick response and quick repositioning for improved mission flexibility and survivability.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting Member of Congress (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$3,000,000 in federal funding for the University of Florida to conduct research at UF's Florida Trauma Rehabilitation Institute at 2151 West University Avenue, Gainesville, FL 32603. I certify that neither I nor my spouse has any financial interest in this project. I also have posted information about this request on my official House website in compliance with your directive.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Thank you for considering this request.

Sincerely yours,

Gus Bilirakis

Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$4.5 million in Air Force Research and Development Funding in Fiscal 2010 for the Small Responsive Spacecraft at Low-Cost (SRSL) Program.

The entry to receive the funding is the United States Air Force, and the Space Dynamics Laboratory at Utah State University, 1695 North Research Park Way, North Logan, Utah 84341.

Project would continue previous-years' efforts in conjunction with the Air Force Research Labs to develop and demonstrate technologies for new, low-cost space systems with military utility. Current space-based reconnaissance assets are cost-prohibitive and too massive to be used in a quick-reaction tactical environment. This effort could lead to providing local field commanders a dedicated space asset for tactical actionable intelligence under the Operationally Responsive Space (ORS) construct.

I certify that neither I, nor my spouse, have any financial interest in this important project. Consistent with Republican Leadership policy on earmarks, I hereby certify that to the best of my knowledge, this request (1) is not directed to an entity or program named for, or that will be named after a sitting Member of Congress; (2) is not intended for a "front" or "pass-through" entity; and (3) meets or exceeds statutory requirements for matching funds (where applicable). I further certify that should this request be included in FY2010 Appropriations legislation that I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$1.5 million in Army Research and Development funding for the Optimizing Natural Language Processing of Open Source Intelligence (OSINT) Program in Fiscal Year 2010.

The entity to receive the funding is the U.S. Army Research Lab, and Attensity, Inc., 90 South 400 West, Suite 600, Salt Lake City, Utah 84101.

Project would fund an "all-source" fusion tool for collecting open-source data from the web, blogs, social networking sites, and RRS feeds, to provide more effective intelligence analysis and decision-making in asymmetric warfare situations.

I certify that neither I, nor my spouse, have any financial interest in this important project. Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$12 million in Navy Research and Development Funding for the Laser Phalanx program for Fiscal Year 2010.

The entity to receive the funding is the Navy, Colmek Systems Engineering, 2001 South 3480 West, Salt Lake City, Utah 84104.

Funding is needed for advanced spiral development and integration of a laser into the existing Phalanx ship defense system significantly increasing its capabilities and reducing acquisition and ownership costs over the present system.

I certify that neither I, nor my spouse, have any financial interest in this important project. Consistent with Republican Leadership policy on earmarks, I hereby certify that to the best of my knowledge, this request: (1) is not directed to an entity or program named for, or that will be named after a sitting Member of Congress; (2) is not intended for a "front" or "pass-through" entity; and (3) meets or exceeds statutory requirements for matching funds (where applicable). Dear Chairman Obey and Ranking Member Lewis:

I am requesting \$5 million in Army Aircraft Procurement funding for the Internal Auxillary Fuel Tank System (IAFTS 200s) program for Fiscal Year 2010.

The entity to receive the funding is Army, and Robertson Aviation, Inc., 14668 Heritage Way, Bluffdale, Utah 84065.

Funding is needed to purchase crashworthy, ballistically self-sealing auxillary fuel tanks for the Army National Guard for use on the UH-60 Blackhawk helicopters, to improve safety and survivability for operators in the event of a crash.

I certify that neither I, nor my spouse, have any financial interest in this important project. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Department of Defense Appropriations bill, Air Force - RDT&E account for the Long-Loiter, Load Bearing Antenna Platform for Pervasive Airborne Intelligence. The entity to receive funding for this project is the Air Force and the work will be performed in my district at Missouri State University led by QinetiQ North America located at 901 S National Avenue, Springfield, Missouri, 65804. It is my understanding that the funding would be used to fund an innovative method for structurally integrating the antennas and DF equipment for payload limited UAVs, innovative and robust command and control, and demonstrated techniques for accurate DF under difficult conditions. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincere regards,

Washington, DC 20515

Dear Chairman Murtha and Ranking Member Young,

I am requesting funding in the FY10 Defense Appropriations bill, Research, Development test & Evaluation, Army, account for the Terahertz Sensing and Imaging Technology project. The entity to receive funding for this project is University of Arkansas – Fayetteville, 119 Ozark Hall, Fayetteville, AR 72701. It is my understanding that the funding would be used to the development of high power, portable terahertz sensing and imaging technology for the hostage stand-off, detection of landmines, and concealed weapons screening.. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.* I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

John Boozman  
Member of Congress

Dear Congressman Murtha,

I am requesting funding for Maintenance Planning and Assessment Technology Insertion in fiscal year 2010. The entity to receive funding for this project is Naval Surface Warfare Center, Carderock Detachment Philadelphia and Progeny Systems, located at Naval Surface Warfare Center, Philadelphia Naval Business Center, 5001 South Broad Street, Philadelphia, PA 19112 and Progeny Systems - Philadelphia Naval Business Center, 4900 S. Broad Street, Philadelphia, Pa 19112.

The funding would be used to transition the software and functionality developed for the VIRGINIA Class submarine and create a Maintenance Planning and Assessment Technology Insertion Open Architecture (OA) solution using existing program and technical relationships between the U.S. Navy submarines, DDG 1000, and aircraft carriers. Funding will create a common set of open standard/open system applications for a Common Open Architecture Technology Insertion approach. The new technologies that are being transitioned from this effort offer substantial performance improvement and/or affordability payoffs.

Dear Chairman Obey:

I am requesting funding for Fighting Combat-related Fatigue Syndrome at the Burnham Institute for Medical Research in fiscal year 2010. The entity to receive funding for this project is The Burnham Institute for Medical Research, located at 10901 North Torrey Pines Rd, La Jolla, CA 92037. The funding would be used to evaluate high-level motor performance and endurance which is critical for soldiers in combat, and for air and space travelers. Trained armed forces personnel have outstanding skeletal muscle endurance and relative resistance to fatigability. However, during periods of immobilization, which can occur in the field, with prolonged travel, or during recuperation from injuries, muscle "de-training" ensues. De-trained muscles cause significant reduction in performance, easy fatigability, and increased risk of injury. Moreover, recovery from injury is significantly slowed in a de-trained muscle. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey:

I am requesting funding for Marine Species Mitigation in fiscal year 2010. The entity to receive funding for this project is Analysis, Design & Diagnostics, Inc., located at 317 W. Forsyth St., Jacksonville, FL 32202. The funding would be used for technology to allow the U.S. Navy to passively monitor for marine mammal vocalizations as required by Deputy Secretary of Defense and as agreed to in the out of court settlement with the Natural Resources Defense Council (NRDC). This passive technology along with visual observations and other procedures will allow the United States Navy to comply with the Marine Mammal Protection Act (MMPA) and the Endangered Species Act (ESA). I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Corrine Brown

It is my understanding that the funding would be used to continue the development of the multi-faceted National Test Facility for Aerospace Fuels Propulsion, which supports development and testing of alternative energy sources for aerospace equipment. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my official website, located at [www.stevebuyer.house.gov/appropsreqin04.htm](http://www.stevebuyer.house.gov/appropsreqin04.htm), as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Mr. Chairman:

I am requesting funding for development of technologies and procedures to more effectively treat combat casualties in fiscal year 2010. The entity to receive funding for this project is the Center for Integration of Medicine and Innovative Technology, located at 165 Cambridge Street, Suite 702, Boston, Massachusetts 02114. The funding would be used to bring together clinicians and engineers to innovate care approaches to various battlefield injuries, traumas and infections. I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Army National Guard M939A2 Repower Program in the FY10 Defense Appropriations bill. The entity to receive funding for this project is Oshkosh Corporation located at 710 Swanner Loop, Killeen, TX 76542. It is my understanding that the funding would be used to maintain M939 series 5-ton trucks by the technology insertion program that has three major components – powertrain removal and installation, cab replacement, and the repower kit. I certify that neither I nor my spouse has any direct financial interest in this project. I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that this request (1) is not directed to an entity or program named after a sitting Member of Congress; (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for HTS Trap Field Magnet Motor in the FY10 Defense Appropriations bill. The entity to receive funding for this project is Teco-Westinghouse Motor Company located at 5100 North III-35, Round Rock, TX 78681. It is my understanding that the funding would be used for the next generation motor that was developed by using bulk high temperature trapped field magnets (TFMs) rather than wire. The key advantages of the bulk material for this application are cost, the very robust nature of the bulk material, and the potential for utilizing much higher fields than are achievable by using superconductor wire. I certify that neither I nor my spouse has any direct financial interest in this project. I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Murtha:

I am requesting funding for the Synchrotron Beamline Experimental Station in fiscal year 2010. The entity to receive funding for this project is New York Structural Biology Center, located at 89 Convent Ave, New York, NY 10027-7556. The funding would be used to provide research and development for a new beamline end station for biological research at Brookhaven National Laboratory for use on its new 3<sup>rd</sup> generation synchrotron. I certify that I do not have any financial interest in this project.

Dear Mr. Chairman and Ranking Member

I am requesting funding for Advanced Simulation Tools for Aircraft Structures Made of Composite Materials in fiscal year 2010.

The entity to receive funding for this project is Engineering Software Research and Development, 111 West Port Plaza, Suite 825, Saint Louis, MO 63146

The funding would be used to develop and validate tools and guidelines for the simulation of the structural and strength responses of airframe components made of fiber-reinforced composites to reduce life cycle costs, reduce airframe development time, increase structural reliability, and reduce weight.

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Wm. Lacy Clay

Dear Mr. Chairman and Ranking Member

I am requesting funding for Out of Autoclave Composite Processing in fiscal year 2010.

The entity to receive funding for this project is GKN Aerospace - St Louis, 14 JS  
McDonnell Blvd, Saint Louis, MO 63042

The funding would be used to eliminate the requirement for capital intensive manufacturing processes by developing an out of autoclave low temperature vacuum bag composite curing process that achieves the same strength values as conventional autoclave curing methods.

I certify that neither I nor my spouse has any financial interest in this project.

The Honorable David R. Obey  
Chairman  
House Appropriations Committee  
H-218, The Capitol  
Washington, DC 20515

Dear Chair Obey:

I am requesting funding for the National Robotics Training Center in Fiscal Year 2010. The entity to receive funding for this project is Florence Darlington Technical College, located at 2715 West Lucas Street, Florence, South Carolina, 29501. The funding will be used for development of next generation manufacturing processes and workforce development training programs for the transition of critical technologies to a production environment. This project would be a good federal investment. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Navy Research and Development Applied Research materials account (PE 0602271N) for the RF Micro Devices Gallium Nitride program. The entity to receive funding for this project is RF Micro Devices. The project is located at 7628 Thorndike Road in Greensboro, N.C. It is my understanding that the funding would be used for research and development of Gallium Nitride RF power technology via the Navy Research and Development Applied Research account. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my family.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request is not directed to an entity or program that will be named after a sitting Member of Congress, is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark, and meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Navy Research and Development Applied Research materials account (PE 0204311N) for the autonomous anti-submarine vertical beam array by General Dynamics. The entity to receive funding for this project is General Dynamics Advanced Information Systems, 5440 Millstream Rd, McLeansville, NC 27301. It is my understanding that funding would be used to continue development of a vertical array with a smaller form factor for deployment from aircraft and submarine torpedo tubes, and a stealthy buoy system for radio transmission of data from the array. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my family.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Army RDTE Ballistics Technology account (PE 0602618A) for the Advanced Composite Armor for Force Protection project by PPG Industries. The entity to receive funding is PPG Industries, Inc., P.O. Box 949, Lexington, NC 27293. It is my understanding that funding would be used to provide armor solutions matched to specific threat levels and provide performance documentation required to begin implementation. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my family.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Air Force RDTE Advanced Materials for Weapons Systems account (PE 0603112F) for Hybrid Bearing. The entity to receive funding is Timken Company located at GNE-01 1835 Dueber Ave., S.W. P.O. Box 6928, Canton, OH 44706-0928. It is my understanding that the funding would be used to review various corrosion resistant steel, including CSS-42L, for use in the bearing, as well as the introduction of new ball and retainer materials in the final bearing design (such as silicon nitride balls, and a light weight carbon-carbon composite material for the retainer material). I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my family.

Dear Members:

I am requesting funding for Technology Solutions for Brain Cancer Detection and Treatment in fiscal year 2010. The entity to receive funding for this project is the University of Tennessee Health Science Center located at 19 South Manassas, Room 154, Memphis, TN 38163. The funding would be used to improve cancer care through basic and translational research, including the use of a confocal microscope and therapeutic strategies in the development pipeline at the Center for Cancer Research for cancer treatment that requires study using live-cell imagery.

I certify that I do not have any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations Act for Infrared Materials Laboratories. The entity to receive funding for this project is Amethyst Research, Inc., 1405 4th Ave NW, Box 345, Ardmore, OK 73401. It is my understanding that the funding would be used to overcome the technical boundaries associated with reducing the cost of high performance focal plane arrays (IRFPAs). *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds. I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

This certification is not meant to exclude an Executive Agency from engaging in a competitive process in determining the obligation of funds should it be required applicable laws or regulations.

I am requesting funding for the Defense Critical Languages and Cultures Initiative - (Center for Security Studies) Angelo State University in the Defense Appropriations bill in fiscal year 2010. The entity to receive funding for this project is Angelo State University, 2601 W. Avenue N, San Angelo, TX 76909. The funding would be used for the University's Center for Security Studies which will produce cross culturally competent students able to understand and influence outcomes in support of American national security objectives. The Center for Security Studies will directly benefit Goodfellow Air Force Base by providing an educational degree completion for faculty as well as research opportunities on existing and emerging Air Force language, culture and intelligence requirements. Extra instructional capacity for Goodfellow Air Force Base in Mandarin and Arabic is also achieved. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse of me.

I am requesting funding for the Compact Pulsed Power Initiative in the Defense Appropriations bill in fiscal year 2010. The entity to receive funding for this project is Texas Tech University, 2500 Broadway (mail stop 3121), TX 79409. The funding would be used for the development of explosive-or battery-operated, compact, high-power radiation sources and associated antenna systems capable of destroying electronics used for radars, communications, computer, or remote detonation devices, and others that can disable car engines. The information gained from this research will be significant in furthering our nation's defense capabilities especially in the area of disabling and destroying IEDs. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Mobile Firing Range for the Texas Army National Guard in the Defense Appropriations bill in fiscal year 2010. The entity to receive funding for this project is Texas National Guard, 2200 West 35<sup>th</sup> Street, Austin, TX 78763. The mobile firing range is a self contained range that allows for the firing of pistol and rifle systems for the Texas National Guard. Currently there is no opportunity to fire weapons for training or qualification without traveling to a certified range on a military installation. The Texas National Guard currently does not have access to any indoor ranges that can be used to fire the M16/M4 which is the current armament for 90% of the soldiers within the Texas National Guard. The Mobile Firing Range will allow soldiers to train with their assigned weapons at home station. This system is a training and force multiplier due to the negation of travel and lodging, and staging needed when conducting this training on a military facility. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse of me.

I hereby certify that this request will be made publicly available on my Official Website as required by the new Appropriations Committee policy that only posted requests will be considered. I am requesting funding for the Field Deployable Hologram Production System in the Defense Appropriations bill in fiscal year 2010. The entity to receive funding for this project is Zebra Imaging, Inc, 9801 Metric Blvd, Austin, TX 78758. The funding would be used for completing development of a compact production unit that produces 3D holographic imagery for mission planning and intelligence purposes for U.S. forces in Iraq and Afghanistan. The Army requests a self-contained, field-deployable EHI production system to accelerate imagery delivery to combat forces. The goal is a more efficient, cost effective production system that provides the deployed war fighter needed planning and intelligence capabilities on a much faster basis. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse of me.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Center for Hetero-functional Materials (CHM) in the Defense Appropriations bill in fiscal year 2010. The entity to receive funding for this project is Texas State University at San Marcos, 601 University Drive, San Marcos, TX 78666. The effort is a partnership with San Angelo University. The U.S. Army Research and Laboratory Material and Devices division has deemed the Center for Hetero-Functional Materials (CHM) as critical to developing next generation devices for the military. CHM provides the infrastructure and resources required for research and development of new materials and processes that will be required for the fabrication of next generation military devices. This initiative integrates multiple disciplines to help produce a new range of materials that will lead to new devices with unprecedented capabilities. Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for "Continuous Active Sonar (CAS) for Torpedo DCL Systems" as part of the Fiscal Year 2010 appropriations process. The proposed recipient of funding for this project is:

**Alion Science and Technology, Inc.**  
**240 Oral School Road, #105**  
**Mystic, CT 06355**

The requested funding is for initial development, demonstration and evaluation of a Continuous Active Sonar (CAS) system, which would provide the military with a high-performance sonar system that operates with lower power and smaller size.

Successful development of this system would provide US Navy vessels with a previously unachievable self-defense capability against high threat torpedoes.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of this request.

I am requesting funding for "Common Command and Control System Module (CCCS)" as part of the Fiscal Year 2010 appropriations process. The proposed recipient of funding for this project is:

**General Dynamics Electric Boat**  
**75 Eastern Point Road**  
**Groton, CT 06340**

Requesting funding would begin development of a common command and control system module for use on Virginia Class (Block IV/V) submarines, SSGN, and Ohio Replacement submarines. This project would enable the Navy to maximize savings opportunities through common construction, test and maintenance processes among three classes of submarines.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of this request.

I am requesting funding for "Unmanned Hybrid Projectiles" as part of the Fiscal Year 2010 appropriations process. The proposed recipient of funding for this project is:

**University of Hartford**  
**200 Bloomfield Avenue**  
**West Hartford, CT 06117**

Requested funding would be used to develop and test a hybrid unmanned aerial systems (UAS) projectile. Work on this effort would be conducted by several Connecticut partners, including the University of Connecticut, the University of Bridgeport, GKN Composites, Kaman Fuzing and Ensign-Bickford Aerospace and Defense, and the Connecticut Center for Advanced Technologies (CCAT). Currently there is a gap in the ability of soldiers to fire projectiles providing combined functionalities such as target identification, battlefield assessment and surveillance, and provide a scalable lethality to enemy targets of opportunity. Project would meet the Army's requirement to provide low cost multi-functional projectiles that have guidance capabilities to hit targets with low collateral damage from line-of-sight and beyond line of sight.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, RDTE,N Research, Development, Test and Evaluation, Navy, 40 0603553N Surface ASW account for the Low Frequency Active Towed Sonar System (LFATS) Organic ASW Capability program. The entity to receive funding for this project is Orion Solutions, LLC at 7545 Centurion Parkway, Suite 403 Jacksonville, FL 32256. It is my understanding that the funding would be used to support the purchase of an Low Frequency Active Towed Sonar System (LFATS) system to complete demonstration of critical Anti-Submarine Warfare (ASW) advancements and improvements.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me. I also certify that this request will be made publicly available on my Official Website.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, RDTE, N Research, Development, Test and Evaluation, Navy, 70 0603795N Land Attack Technology account for the 76mm Swarbuster Capability program. The entity to receive funding for this project is OTO Melara North America, Inc. at 1625 I St NW Washington, DC 20006. It is my understanding that the funding would be used to integrate the highly accurate fire control information from the MK 15 Close-In Weapons Systems with the high rate of fire, medium caliber, 76mm gun on FFG-7 Class ships to provide FFG-7 Class ships with protection against high-speed maneuvering surface threat.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me. I also certify that this request will be made publicly available on my Official Website.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, RDTE, A Research, Development, Test and Evaluation, Army, 30 0603002A Medical Advanced Technology account for the Anti-Microbial Bone Graft Product program. The entity to receive funding for this project is Nanotherapeutics at 13859 Progress Boulevard Alachua, FL 32615. It is my understanding that the funding would be used to evaluate the ability to expedite the healing of open tibial and femoral fractures among injured U.S. soldiers thus preventing death or further injury from infections.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me. I also certify that this request will be made publicly available on my Official Website.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the Fiscal Year 2010 Defense Appropriations Bill, Research, Development, Test and Evaluation, Army account for the De-Weighting Military Vehicles through Advanced Composites Manufacturing Technology project. The entity to receive funding for this project is MAG Industrial Automation Systems at 3940 Olympic Blvd.; Erlanger, KY 41018. The purpose of the project is to develop automated processing technology that enables high volume manufacturing to produce high strength, thin walled composite structures from low cost continuous fiber composites. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website. Consistent with the Republican policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Geoff Davis  
Member of Congress

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, O&M, Army account for North Georgia College and State University. The entity to receive funding for this project is the North Georgia College & State University, the Military College of Georgia, 82 College Circle, Dahlonega, GA 30597. It is my understanding that the funding would be used for the ROTC and Reserve Component Strategic Language Hub Pilot. This three year pilot establishes a regional strategic language hub designed to provide language training and education to future officers and to Reserve Component personnel. It is structured to meet the recommendations of the HASC November 2008 O&I report on DoD language transformation, including funding of senior military college critical language initiatives, engagement of heritage community resources and K-12 critical language pipeline development emphasizing DoDEA school involvement.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me. I hereby certify that this request will be made publicly available on my Official Website as required by the Committee, that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

I am requesting funding for the Safer Nanomaterials and Nanomanufacturing Initiative in fiscal year 2010. The entity to receive funding for this project is the Oregon Nanoscience and Microtechnologies Institute located at P.O. Box 2041, Corvallis, OR 97339. The funding would be used to develop nanomaterials and nanomanufacturing methods that simultaneously meet the military's need for high performance materials, protect human health, and minimize harm to the environment. Examples of nanomaterials and manufacturing of importance for military technology include nanoelectrics and nanophotonics, thermoelectric coolers, medical diagnostics and therapeutics, and environmental monitoring and remediation systems. I am requesting funding for Miniature Tactical Energy Systems Development in fiscal year 2010. The entity to receive funding for this project is the Oregon Nanoscience and Microtechnologies Institute located at P.O. Box 2041, Corvallis, OR 97339. The funding would be used to allow ONAMI to continue working with Ft. Belvoir to conduct research and product development that will provide miniaturized tactical energy systems for a range of Army applications. Such man-portable energy systems minimize the logistics requirements of field operations. I certify that neither I nor my spouse has any financial interest in this project.

I am requesting funding for the Nanoelectronics and Nanometrology Initiative in fiscal year 2010. The entity to receive funding for this project is the Oregon Nanoscience and Microtechnologies Institute located at P.O. Box 2041, Corvallis, OR 97339. The funding would be used for research focused on developing methods and techniques for work on the nanoscale that are needed for both the fabrication of electronic and photonic devices and circuits as well as for tracking their reliability under operating conditions, especially under the harsh environments endured in military applications. Research will consist of defense-related projects that are compatible with the nanoelectronics program in the Naval Research Laboratory Nanoscience Institute. I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

PETER DeFAZIO  
Member of Congress

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Networked Reliability and Safety Early Evaluation System in fiscal year 2010. The entity to receive funding for this project is Bosch Rexroth Corporation, located at 2315 City Line Road, Bethlehem, PA 18017. The funding would be used to design, build, test, train and install the High Payload Reliability System (HPRS) which is a large simulator capable of accurately assessing vehicle system structural reliability for platforms up to 35 tons. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on Congressionally Directed Projects, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the project; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this project be included in the bill, I will place a statement in the Congressional Record justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Army Force Generation Synchronization Tool in fiscal year 2010. The entity to receive funding for this project is ProModel Corporation, located at 7540 Windsor Drive, Suite 300, Allentown, PA 18195. The funding would be used to accelerate the deployment and enhance the current capabilities of the ProModel AST. The technology will enable the Army to capture the Army Force Generation Model (ARFORGEN) process in software, providing decision makers the ability to rapidly create Courses of Action and predict the impact of their decisions on key metrics such as Dwell and Boots on Ground. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Landing Craft Composite Lift Fan in fiscal year 2010. The entity to receive funding for this project is Curtiss Wright Engineered Pump Division (EPD), located at 222 Cameron Drive, Phillipsburg, NJ 08865. The funding would be used to complete the development of composite material lift fans for Navy landing craft, enabling the replacement of metallic blades which require high maintenance and frequent replacement, resulting in higher life cycle costs and decreased operational reliability. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on Congressionally Directed Projects, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the project; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Ballistic Armor Research in fiscal year 2010. The entity to receive funding for this project is Air Products and Chemicals, Inc., located at 7201 Hamilton Boulevard, Allentown, PA 18195. The funding would be used to partner industry with a strategic university to conduct research under the leadership of the U.S. Army Research Lab (ARL) in Aberdeen, MD to develop polymers and materials that will provide the basis for the next generation of armor to protect personnel, equipment, and critical infrastructure. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on Congressionally Directed Projects, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the project; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this project be included in the bill, I will place a statement in the Congressional Record justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the High Speed Optical Interconnects for Next Generation Supercomputing in fiscal year 2010. The entity to receive funding for this project is Lightwire, Inc., located at 7540 Windsor Drive, Suite 412, Allentown, PA 18195. The funding would be used to accelerate the development of high speed optical interconnects needed to enable the next generation of DOD supercomputing needs. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Hybrid Nanoparticle-based Coolant Technology Development and Manufacturing in fiscal year 2010. The entity to receive funding for this project is Dynalene, Inc., located at 5250 West Coplay Road, Whitehall, PA 18052. The funding would be used to complete the optimization of an advanced coolant fluid required for high heat flux applications such as Directed Energy Weapons (DEW) and demonstrate its applicability in a real DEW system. Specifically, funding will be used to fabricate a reactor and separator, to develop a quality control system for the hybrid nanoparticles and the coolant, to establish scale-up criteria to go to the next level of manufacturing, and generate samples for testing in DEW systems as well as various civilian applications. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on Congressionally Directed Projects, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the project; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I write to respectfully request funding in the Fiscal Year 2010 Defense Appropriations bill, Army, RDT&E account. The entity to receive funding for this project is University of Miami Ryder Trauma Center/William Lehman Injury Research Center, located at 1800 NW 10<sup>th</sup> Avenue, Miami, FL 33136.

The funding would be used for the Army Trauma Training Center (ATTC) at the Ryder Trauma Center situated in the University of Miami/Jackson Memorial Medical Center. The ATTC has functioned as the national training center for U.S. Army Forward Surgical Teams (FSTs) since 2001. Monthly, the ATTC conducts 14-day training program for deploying FSTs in order to improve clinical skills and teamwork. The resources of the Ryder Trauma Center and the William Lehman Injury Research Center present a unique opportunity to develop and evaluate new and innovative diagnostic and treatment tools and point-of-care information systems to maximize the care of injured soldiers. The Ryder Trauma Center is developing diagnostics and devices to help the medic on the battlefield determine which casualties require immediate resuscitation and to enhance the capability of first-responders to effectively treat casualties as close to the geographic location and time of the injury as possible. Since January 2001, the Army Trauma Training Center, in conjunction with the Ryder Trauma Center, has trained over 33 forward surgical teams and more than 650 Army personnel in active duty and reserve components - 2/3rds of all forward surgical teams in the U.S. Army- supporting over 75,000 combat troops.

*I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I write to respectfully request funding in the Fiscal Year 2010 Defense Appropriations bill, Army RDT&E account (Line 28, PE 0602787A). The entity to receive funding for this project is St. Thomas University, located at 16401 NW 37<sup>th</sup> Avenue, Miami Gardens, FL 33054.

The funding would be used for the Neuroscience Research Consortium to Study Spinal Cord Injury at St. Thomas University. St. Thomas University supports the study of central nervous system regeneration following traumatic spinal cord injury (SCI) to benefit the rehabilitation of soldiers returning from Iraq and Afghanistan with these injuries. To carry out this research, St. Thomas University proposes the continued establishment of a research consortium in a partnership with researchers at the Spinal Cord Repair Laboratory at the University of Pittsburgh in Pennsylvania, who will translate the results of this research to a clinical setting. An important aspect of the consortium is that minority science students will be trained in research procedures. There is a documented lack of participation of minorities in the sciences, particularly the Neurosciences. On a national level, a National Science Foundation report by the Division of Science Resources Statistics reported in 2001 that only 5.7% of doctoral degrees in math and science were awarded to minority students.

*I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Dear Chairman Obey and Ranking Member Lewis:

I write to respectfully request funding in the Fiscal Year 2010 Defense Appropriations bill, Defense-Wide RDT&E, Defense Research Sciences account (Line 2, PE 0601101E). The entity to receive funding for this project is Barry University, located at 11300 NE 2<sup>nd</sup> Avenue, Miami Shores, FL 33161.

It is my understanding that the funding would be used to fund Phase II of the Institute for Collaborative Sciences Research which is intended to create a state-of-the-art research infrastructure through new laboratory and teaching space in health care and physical sciences programs. The focus of the Institute will be to prepare minority leaders for future work in healthcare professions while facilitating important research that has a direct benefit on minority populations in my South Florida community.

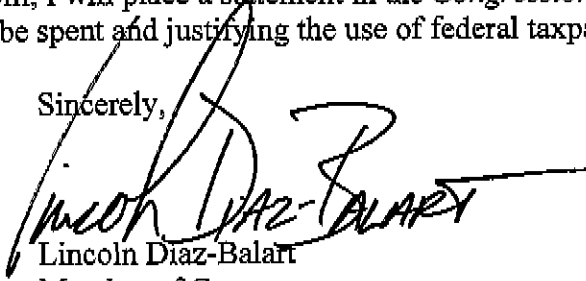

Barry University is one of the largest independent universities in Florida. The university boasts a student body that is more than 60% minority and 42% are the first in their family to attend college.

Barry has advanced a strong and clear proposal for the advancement of a physical sciences and an expanded biochemistry agenda wholly consistent with Department of Defense core missions and national needs and goals. This project builds on the Department of Defense recognition of Barry's activities in 2003 in reaching and training minority students in research arenas consistent with DOD needs, and incorporates the goal to reach and involve an ever-increasing number of women and minority students in in-depth, advanced biochemical and biotechnological techniques; to prepare them for careers in biotechnology and fields consistent with national security and defense missions; to ensure access to state-of-the-art instrumentation and laboratory/instructional facilities; to ensure that these students are immersed in advanced laboratory skills; and afforded critical research opportunities.

*I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. RECYCLED PAPER

The Honorable David R. Obey, Chairman  
The Honorable Jerry Lewis, Ranking Member  
Committee on Appropriations  
H218, The Capitol  
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations Bill, Defense Health Program, for the Madigan Army Medical Center Trauma Assistance Center. The entity to receive funding for this project is Madigan Army Medical Center, Building 1 9040 Fitzsimmons Drive Tacoma, WA 98431.

This funding would be used for supporting Level II trauma care at Madigan Army Medical Center and other facilities. These funds ensure that military physicians gain needed trauma training, and that military families have the critical trauma services they deserve.

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

A handwritten signature in blue ink that reads "Norm Dicks".

Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations Bill, Research, Development, Test and Evaluation, Navy, for the Open Source Naval and Missile Database Reporting System. The entity to receive funding for this project is AMI International, 820 Pacific Avenue Bremerton, WA 98337.

This funding would be used for providing a dedicated open-source database and analytical service for the Office of Naval Intelligence (ONI). This will allow ONI to better focus resources to support military operations and homeland defense, and it will expand ONI's access to intelligence derived from a broad network of experts on existing and future military shipbuilding and modernization plans, aviation developments and coastal defense programs anticipated over the next 20 years.

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations Bill, Research, Development, Test and Evaluation, Navy, for the Autonomous Unmanned Undersea Vehicle (UUV) Delivery & Communication (AUDAC) System Integration. The entity to receive funding for this project is SAIC, 26279 Twelve Trees Lane, Suite A, Poulsbo, WA 98370.

This funding would be used for demonstrating the capability of Unmanned Undersea Vehicles (UUVs) to successfully operate in littoral areas to gather information necessary for successful military and intelligence operations. The AUDAC initiative will enable the gathering of information vital to national security while minimizing risk to personnel.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations Bill, Operations and Maintenance, Navy for Puget Sound Naval Maintenance and Repair Process Improvements. The entity to receive funding for this project is The National Center for Manufacturing Sciences, 245 4<sup>th</sup> Street, Bremerton, WA 98337.

This funding would be used for improving efficiency in the utilization of scarce shipyard assets in at least two focused maintenance priorities: The creation of a central database to facilitate increased control and improved coordination of planning for inside-shop work; and the implementation of computer and laser technology to conduct rapid ship-checks of vessels to produce accurate drawings required for complex maintenance while reducing the manpower and time involved in performing the ship-check. By maximizing efficiency in these and other areas, the increasing demands on finite PSNS assets can be met while delivering quality work on time and inside budget.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Army, Research, Development, Test and Evaluation account for Fire Shield. The entity to receive funding for this project is Chang Industry, Inc., located at 968 Palomares Avenue, La Verne, CA 91750. It is my understanding that the funding would be used to enable Chang Industry, Inc. to integrate the Fire Shield system, which helps protect armored vehicles from the blast effects and plasma jet of rocket propelled grenades, to armored vehicles for operational demonstration and future system growth. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Army, Research, Development, Test and Evaluation account for Lens-Less Dual-Mode Micro Seeker for Medium-Caliber Guided Projectiles. The entity to receive funding for this project is Tanner Research, Inc., located at 825 South Myrtle Avenue, Monrovia, CA 91016. It is my understanding that the funding would be used to enable Tanner Research, Inc. to continue the development of advanced sensor technology to be outfitted on a small steerable projectile utilized to protect US troops against incoming Rocket, Artillery, and Mortars (RAM). I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Air Force, Research, Development, Test and Evaluation account for the Wavelength Agile Spectral Harmonic (WASH) Oxygen Sensor and Cell-Level Battery Controller. The entity to receive funding for this project is Advanced Projects Research, Inc., located at 1925 McKinley Avenue, Suite B, La Verne, CA 91750. It is my understanding that the funding would be used to enable Advanced Projects Research, Inc. to continue testing and spiral development of the second generation Oxygen Sensor and to flight test it in a C-17 aircraft; and conduct further testing to aid in the final development of a Cell Level Battery Controller that monitors and controls charge and temperature at the cell level of battery energy storage systems. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Navy, Research, Development, Test and Evaluation account for the Advanced Molecular Medicine Initiative (AMMI). The entity to receive funding for this project is the City of Hope National Medical Center, located at 1500 E. Duarte Road, Duarte, CA 91010. It is my understanding that the funding would be used to enable the City of Hope National Medical Center to continue the AMMI program, which seeks to develop innovative molecular-targeted therapies for more effective and less toxic treatment of cancer, by expanding a drug development program to generate targeted antibodies that will direct candidate compounds to specific tissues or cells. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Precision Engagement Technologies Required for Unmanned Systems (PETRUS) in fiscal year 2010. The entity to receive funding for this project is GE Aviation systems LLC, located at 3290 Patterson Avenue, Grand Rapids, Michigan, 49512. It is my understanding that the funding would be used to develop a system for small unmanned air systems that is capable of precisely tracking and engaging mobile targets under a wide range of highly dynamic conditions. I certify that neither I nor my spouse has any financial interest in this project. However, I would like to disclose that my son works for GE Aviation in Grand Rapids, Michigan.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Conference's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or that will be named after a sitting Member of Congress, (2) is not intended for a "front" or "pass-through" entity, and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in an appropriations bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Midwest Traumatic Injury Rehabilitation Center in fiscal year 2010. The entity to receive funding for this project is Grand Valley State University and Mary Free Bed Hospital, located at 301 Michigan Street, NE, Grand Rapids, Michigan, 49503. It is my understanding that the funding would be used to expand the state-of-the-art medical and rehabilitation team care currently delivered by Mary Free Bed and the curriculum development, evaluative and educational expertise of Grand Valley State University to provide comprehensive wounded warrior care closer to home to reduce the burden on families and establish a model for the nation. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Fiscal Year 2010 Defense Appropriations bill, Research, Development, Test and Evaluation, Army, University and Industry Research Centers Account, for Advance Polymer Systems for Defense Application: Power Generation, Protection, and Sensing. The entity to receive funding for this project is the Missouri University of Science and Technology, located at 1870 Miner Circle, Rolla, MO 65409. It is my understanding that the funding would be used for research to provide materials that will lead to important advances in the generation and storage of power that can be used to power military devices. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Murtha and Ranking Member Young:

I am requesting funding for the Laboratory for Engineered Human Protection project in fiscal year 2010. The entity to receive funding for this project under the Department of Defense, RDT&E, University Research Initiatives, is Philadelphia University located at Schoolhouse Lane and Henry Avenue, Philadelphia, Pennsylvania, 19144. Funding will be used to work collaboratively with the Army Natick Soldier Center (NSC) on research into the relationship between protective clothing factors and wearer comfort and performance. Natick has identified gaps in existing data on wearer comfort and performance which LEHP is addressing through research and development of new fabric/garment systems which could be used in future universal soldier and military and civilian first responder protective garments.

I certify that neither I nor my spouse has any financial interest in this project.

Very truly yours,

Dear Chairman Murtha and Ranking Member Young:

I am requesting funding for the Cerus Corporation Blood Safety and Decontamination Technology project in fiscal year 2010. The entity to receive funding for this project under the Department of Defense, RDT&E, Army is Children's Hospital of Philadelphia (CHOP) located at 3400 Civic Center Boulevard, Philadelphia, Pennsylvania, 19104. Funding will be used to focus on advanced development of a prototype red blood cell decontamination system using the small molecule S-303 with Cerus' INTERCEPT Blood Systems™ technology. The system will be developed to be compatible with the operational requirements of combat support hospitals. Fiscal year 2010 funds will be used to develop a prototype system that can be operationally evaluated in military and civilian blood centers.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Department of the Navy's Shipboard Information Warfare Exploit Systems (AN/USQ-167 COMSEC Upgrade) in fiscal year 2010.

The entity to receive funding for this project is Cubic Corporation, located at: 9333 Balboa Avenue, San Diego, CA 92123.

Funding would be used to procure communications data link (CDL) systems that enable Navy commanders to receive intelligence, reconnaissance, and surveillance data from airborne manned and unmanned sensors. This project deserves federal funding because it will allow battle group commanders to protect Navy ships and deploy strike assets with maximum effectiveness.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY2010 Defense Appropriations bill for a Full Scale Exercise.

The entity to receive funding for this project is Virginia Office of Commonwealth Preparedness at 1111 East Broad Street, Richmond, Virginia, 232181. It is my understanding that the funding would be used to support a Full Scale Exercise within Virginia. The Tidewater FSE is designed to enhance the Commonwealth of Virginia's interdiction, response and recovery capabilities to a WMD event through the conduct of a multi-agency, maritime Full-Scale Exercise, utilizing the experience and unique capabilities of the U.S. Naval Postgraduate School's Center for Asymmetric Warfare (CAW) and Old Dominion University's Virginia Modeling, Analysis and Simulation Center (VMASC).

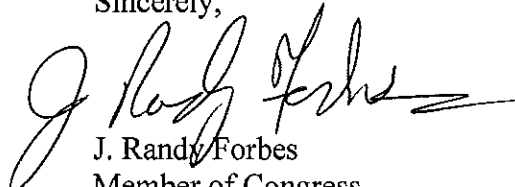

I hereby certify that to the best of my knowledge, this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY2010 Defense Appropriations bill for Modeling and Simulation Standards. The entity to receive funding for this project is Old Dominion University Research Foundation at 4111 Monarch Way, Norfolk, Virginia, 23508. It is my understanding that the funding would be used to accomplish two major tasks related to formulating modeling & simulation (M&S) standards for model research, development, and use by the government, academic and industry sectors. For over 30 years, the DoD has utilized computer modeling and simulation (M&S) techniques and methods in many areas including system engineering and acquisition, training, analysis, experimentation, planning and testing. With M & S poised to rapidly grow beyond DoD in the years ahead, it is important going forward to maximize the use, reuse and interoperability of models and simulations in as many years as possible. This will require that future models and simulations be designed, developed and configured for use beyond original targeted domains and applications.

I hereby certify that to the best of my knowledge, this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Department of Defense Wage Issue Modification for USFORAZORES Portuguese National Employees in fiscal year 2010.

The entity to receive funding for this project is:

Lajes Field, the 65th Air Base Wing, located at the Azores, Portugal, Unit 7710, APO AE 09720-7710.

The funding would be used to resolve an impasse between the base and its employees. The purpose of this payment is part of an effort to renegotiate 1995 Cooperation and Defense Agreement and limit the revision to addressing only 2 areas. First, to remove the required wage survey, and secondly, to make the agreement consistent with D.O.D. regulations that state no employee will be paid more than either the U.S. public service increase or the public service increase of the local nation (Portugal). I certify that I have no financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Multiplexed Human Fungal Infection Diagnostic in fiscal year 2010. The entity to receive funding for this project is:

PrimeraDx  
171 Forbes Blvd.  
Suite 2000  
Mansfield, MA 02048

The funding would be used for advancement of diagnostic detection of fungal infections to decrease mortality rates. The goal of Multiplexed Human Fungal Infection Diagnostic is to evaluate a diagnostic molecular test for its ability to detect and quantify pathogenic fungal load in subjects, thereby decreasing mortality rates and accelerating restoration to function. This diagnostic test will help improve the survivability and medical treatment outcomes for military personnel that present with fever of unknown origin or have enhanced susceptibility for an invasive fungal infection due to severe burns or trauma wounds. The project will be a collaboration between PrimeraDx, the Armed Forces Institute of Pathology (AFIP) and Brook Army Medical Center (BAMC). Development and verification of the diagnostic test will be performed by PrimeraDx using mock samples prepared at PrimeraDx and clinical samples provided by AFIP. Clinical validation will be performed at the BAMC. I certify that neither I nor my spouse has any financial interest in this project.

Dear Mssrs. Obey and Lewis:

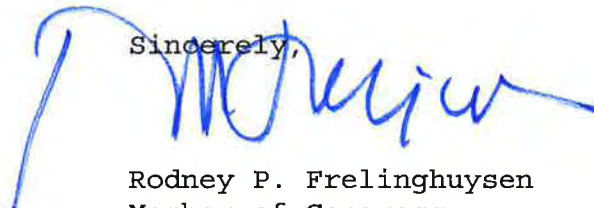

I am requesting funding for Developmental Mission Integration in the Fiscal Year 2010 Defense Appropriations bill. The entity to receive funding for this project is the United States Army, specifically the Armaments Research, Development and Engineering Center at Picatinny Arsenal, Picatinny, New Jersey 07806-5000.

The funding would be used to develop, demonstrate and transition critical armaments, munitions and logistics technologies needed by Army Brigade Combat Teams and Special Forces prior to (i.e. reset periods) and during deployment. I certify that neither I nor my spouse has any direct financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

I am requesting funding for Rapid Insertion of Developmental Technology in the Fiscal Year 2010 Defense Appropriations bill. The entity to receive funding for this project is the Stevens Institute of Technology at Castle Point on Hudson, Hoboken, NJ 07030

The funding will be used to enhance the Army's ability to accelerate the fielding of new systems and technology that are crucial to the success of ongoing military operations. Such systems increase the protection and survivability of the warfighter as well as enhancing his/her effectiveness in the field. I certify that neither I nor my spouse has any direct financial interest in this project.

Dear Mssrs. Obey and Lewis:

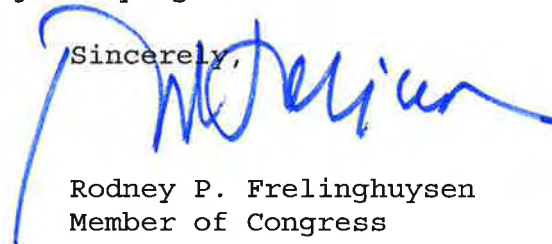

I am requesting funding for Green Armaments/Rangesafe in the Fiscal Year 2010 Defense Appropriations bill. The entity to receive funding for this project is the Steven's Institute of Technology at Castle Point on Hudson, Hoboken, NJ 07030

The funding will support the Army's Environmental Requirements and Technology Assessment (AERTA) to allow the Army to maintain its training and test and production facilities at the top operational level enabling their continued use to ensure war-fighting readiness. I certify that neither I nor my spouse has any direct financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

I am requesting funding for Nano Advanced Cluster Energetics in the Fiscal Year 2010 Defense Appropriations bill. The entity to receive funding for this project is the New Jersey Institute of Technology at University Heights, Newark, New Jersey 07102-1982.

The funding will seek to extend ACE technology to incorporate nano-scale components that will result in performance gains even greater than those already demonstrated at the micro-level. There currently is no existing technology that can process nano-particulates at production scale. I certify that neither I nor my spouse has any direct financial interest in this project.

I am requesting funding for Advanced Fuel Filtration System in the Fiscal Year 2010 Defense Appropriations bill. The entity to receive funding for this project is Filtration Solutions, Inc. at 432 Sand Shore Road, Unit 8 in Hackettstown, New Jersey 07840.

This program seeks to finalize a system that was developed under the Navy SBIR program for the replacement of the DDG shipboard centrifugal fuel oil purifier. This equipment will save \$25 million per year for the Navy from maintenance and operation cost after it is fully implemented to the DDG-51 and CG-47 class ships. I certify that neither I nor my spouse has any direct financial interest in this project.

I am requesting funding for Lightweight Packaging System for Enhancing Combat Munitions Logistics in the Fiscal Year 2010 Defense Appropriations bill. The entity to receive funding for this project is Frontier Performance Polymers, Picatinny Innovation Center, Picatinny Arsenal, Picatinny, New Jersey 07806.

The funding will allow the Army to improve its ammunition packaging and handling systems and enhance the protection of medium and large caliber ammunition used throughout the military. The concepts in this program (fire/ballistic resistance, reduced weight) can be applied to packaging for a wide range of munitions. I certify that neither I nor my spouse has any direct financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Dear Mssrs. Obey and Lewis:

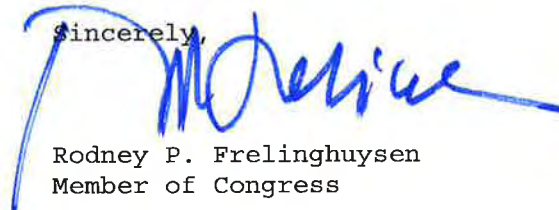

I am requesting funding for Ink-based Desktop Electronic Material Technology in the fiscal year 2010 Defense Appropriations bill. The entity to receive funding for this project is the Honeywell Corporation, headquartered at 101 Columbia Road, Morristown, New Jersey 07962.

The funding will allow the Army to develop specialized inks that are wholly capable of fabricating electronics that would be printed on desktop printers and then incorporated into electronics. Army funding for innovative ink-based technology would lower costs and provide the Army with significant weight improvements resulting in improved mobility and point-of-use printing capability. This innovation would replace expensive traditional electronics that are primarily manufactured in semi-conductor facilities overseas. I certify that neither I nor my spouse has any direct financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Dear Mssrs. Obey and Lewis:

I am requesting funding for Large Area, APVT Materials for Hi-Powered Devices in the Fiscal Year 2009 Defense Appropriations bill. The entity to receive funding for this project is II-VI Corporation, 20 Chapin Road, Suite 1005, Pine Brook, NJ 07058

This project is developing a domestic technology and manufacturing base for large area (100mm diameter), high quality silicon carbide (SiC) materials. These materials are needed for highly energy efficient, high frequency, and high power applications for the Department of Defense which has specific future mission requirements for solid state power substations, all-electric and hybrid vehicles (Air Force, Army and Navy), and next generation radar devices (Air Force and Navy). I certify that neither I nor my spouse has any direct financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the Fiscal Year 2010 Defense Appropriations bill, RDT&E Navy account for the electronic warfare laboratory at the Naval Air Warfare Center Weapons Division (NAWCWD) Point Mugu. The entity to receive funding for this project is NAWCWD Point Mugu at Naval Base Ventura County, 311 Main Road, Building 1, Point Mugu, California 93042. It is my understanding that the funding would be used to upgrade the electronic warfare laboratory in order to improve electronic weapons testing. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Dear Chairman Murtha and Ranking Member Young,

I am requesting funding in the FY2010 Defense Appropriations bill, for Portable Mobile Emergency Broadband Systems. The entity to receive funding for this project is Rajant Corporation, 400 East King St, Malvern, PA 19355. It is my understanding that the funding would be used to provide RDT& E on the Portable Mobile Emergency Broadband System (PMEBS) wireless communication BreadCrumb devices. It will be focused on the development of high bandwidth to support mobile situational awareness and operational efficiency, implementation of Suite B security, and low frequency band for range and non-line-of-sight improvement. ***I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse and that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.***

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY2010 Department of Defense Appropriations bill, Navy , RDT&E account for the Nautilus: Multi-Mission Unmanned Surface Vessel Program. The entity to receive funding for this project is the Navy and the work will be performed in my district by Elbit Systems of America located at 4700 Marine Creek Parkway, Fort Worth, Texas. 76179. It is my understanding that the funding would be used to produce a Nautilus prototype. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting \$5,250,000 in funding for the Nicholson Center for Surgical Advancement (NCSA) in fiscal year 2010. The entity to receive funding for this project is Florida Hospital Celebration Health located at 400 Celebration Place.: Celebration, Florida 34747.

The funding would be used for the Nicholson Center for Surgical Advancement (NCSA) Medical Robotics and Simulation Research Project to conduct research in Celebration Florida. Specifically, by utilizing robotic and simulation technologies NCSA's Robotics and Simulation Research Project will enhance military and civilian healthcare outcomes, increase patient safety, and reduce healthcare costs by both evaluating and inventing new robotic and simulation technologies and training surgeons to use them. Through surgical robotic research, testing, development and evaluation, the project will revolutionize military and civilian medical capabilities in robotic tele-surgery, tele-mentoring and tele-broadcasting, while innovative simulation will more effectively train surgeons to benefit both the clinical learner and patient. The Telemedicine and Advanced Technology Research Center (TATRC) highlights the role of robotic surgery in their report "The Hospital of the Future". Robotic surgery offers less invasive and more precise procedures that produce better outcomes. When combined with telemedicine, robotic surgery offers vast potential for delivering advanced care in remote or dangerous locations, while keeping trained surgeons out of harm's way.

This project is a good use of tax-payer dollars because it will bolster both knowledge and research as they relate to robotic surgery, and will aide in the recertification process for military surgeons.

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Murtha and Ranking Member Young,

I am requesting funding for a Civil Support Team in the New York metropolitan area in fiscal year 2010. The entity to receive funding for this project is New York National Guard, located at 330 Old Niskayuna Road Latham, NY 12110

The funding would be used to support and provide security to the largest metropolitan center in the country and protect the global hub of international business, commerce, finance, insurance, real estate, media and the arts. I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Murtha and Ranking Member Young:

I am requesting funding for the Rivet Joint Services Oriented Architecture (SOA) in fiscal year 2010. The entity to receive this program is L-3 Communications Integrated Systems, located 10001 Jack Finney Boulevard, Greenville, TX 75403

RIVET JOINT requires continuous, current access to other ISR nodes, databases, and special processing to accomplish current and projected missions. At the same time, the ISR Enterprise will benefit greatly from RC-135 provision of ISR services, both intra- and post-mission. This will be achieved by building on current ongoing RC-135 ground systems, extending the number and performance of ISR services available through these systems, and fully meeting USAF/DoD/ DNI SOA tenets. Full implementation of the RC-135 SOA will ensure full RIVET JOINT integration in the ISR Enterprise, thus meeting USAF/DoD/DNI requirements for making ISR data and information discoverable, accessible, and to enable information sharing. I certify that neither I nor my spouse has any financial interest in this project. With kindest regards, I am

Dear Chairman Murtha and Ranking Member Young:

I am requesting funding for the Predictive Casting Process Modeling for Rapid Production of Critical Defense Components in fiscal year 2010. The entity to receive this program is Denison Industries, located at 22 Fielder Street, Denison, TX 75020.

The predictive casting process modeling program will develop and implement new casting technologies and materials that will give the Department of Defense lightweight alternatives and the lowest cost options for producing vehicles that can survive against many of today's threats. It will help reverse the trend of U.S. foundries closing or moving overseas by leading the transition of new technologies that will solidify manufacturing in America and secure high skilled jobs and growth markets. It will establish a working research facility to further educate the next generation of engineers. For an often fragmented industry, it will coordinate resources and funding and help assure a continued source of American casting producers for both the military and commercial applications. Dear Chairman Murtha and Ranking Member Young:

I am requesting funding for the Current Force Common Active Protection System (APS) Radar in fiscal year 2010. The entity to receive this program is the Raytheon Company, located 2501 West University Drive, McKinney, TX 75071.

APS is an externally mounted vehicle protection system that identifies, discriminates, and intercepts rocket propelled grenades (RPGs), mortars, antitank guided missiles and artillery projectiles after they are launched toward a combat vehicle. The system fuses the Multi-Function Radio Frequency (MFRF) radar, launchers, fire control processors, and countermeasures into one package optimized for combat vehicle crew protection. Funds are needed to adapt the Future Combat Systems (FCS) Active Protection System (APS) for integration into current force vehicles, such as the Abrams tank, Bradley Fighting Vehicles, and Stryker family of vehicles. Additional funds would be used to define requirements for APS on Abrams and Bradley; begin modification of software and hardware to adapt MFRFS for current force applications; develop cooling and packaging for current force integration; and build hardware for dedicated Stryker integration testing that would commence in late FY10. This hardware would be reusable for integration onto the Bradley and Abrams platforms during FY11. I certify that neither I nor my spouse has any financial interest in this project. Dear Chairman Murtha and Ranking Member Young:

I am requesting funding for the MTI Scout Radar in fiscal year 2010. The entity to receive funding for this project is Mustang Technology Group, located at 400 West Bethany Drive, Suite 110, Allen, TX 75013.

The Navy lacks an all-weather airborne unmanned air vehicle (UAV) surveillance capability to detect and track high value targets that move, stop for a while, and then move again (Move Stop Move: MSM). Not having this capability allows suspected fast boat attackers to become untraceable when stopped within littoral regions and terrorists that stop and plant mines and IEDs along the shoreline to evade surveillance. Existing UAV radars possess a multi target track all-weather capability but do not have the ability to detect and track targets that move, stop, than move again. However, a new affordable Active Electronic Scanned Array (AESA) based radar is being developed for the Navy. The MTI Scout AESA radar hardware has been designed to support MSM but requires additional work to develop, integrate, and test the MSM mode software. This radar capability offers the low lifecycle costs afforded by solid state reliability, has over twice the performance of similar systems, and is upgradeable with simple software updates. The light weight and low power of the MTI Scout radar make it ideal for many other airborne manned and unmanned surveillance platforms including the Predator, Fire Scout and MC-12W Adding the MSM function within the size, weight, and power of a UAV airborne platform will give field commanders a new lifesaving surveillance tool to win the global war on terror. I certify that neither I nor my spouse has any financial interest in this project. With kindest regards, I am

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Micro-Satellite Serial Manufacturing to Include Academic Outreach Educational Program in fiscal year 2010. The entity to receive funding is University of Southern California – Viterbi School of Engineering, Information Sciences Institute, located at 4676 Admiralty Way, Suite 1001, Marina del Rey, CA 90292. This funding would be used to continue a project to develop new serial manufacturing methodologies that produce micro-satellites more quickly, and provide much-needed cleared graduate and undergraduate engineers for the future national security workforce. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Biological And Chemical Warfare Online Repository of Technical Holdings 2 system in the FY10 Defense Appropriations bill. The entities to receive funding for this project are Battelle Northwest, located at 902 Battelle Blvd, Richland, WA 99352 and Heritage University, located at 3240 Fort Road, Toppenish, WA 98948. It is my understanding that the funding would be used for the development of an updated and comprehensive chemical and biological weapons database for the intelligence community and specifically the Defense Intelligence Agency. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

Pursuant to Clause 9 of Rule XXI and Clause 17 of Rule XXIII of the Rules of the House of Representatives for the 110th Congress, I am providing the following certification for a requested earmark herein.

I am requesting funding for ALON<sup>TM</sup> and Spinel Optical Ceramics in fiscal year 2010. The entity to receive funding for this project is SURMET Corp, located at 31 B Street, Burlington, MA 01803. The funding would be to create an integrated, domestic manufacturing capability to produce Aluminum Oxy-Nitride (ALON<sup>TM</sup>) and Spinel Optical Ceramic components in large quantities and sizes at affordable prices. I certify that neither I nor my spouse has any financial interest in this project.

If you have any questions or you require any additional information, please call me or have your staff contact Jonathan Weston of my office at 202-225-3306. Thank you.

Dear Chairman Obey and Ranking Member Lewis:

Pursuant to Clause 9 of Rule XXI and Clause 17 of Rule XXIII of the Rules of the House of Representatives for the 110th Congress, I am providing the following certification for a requested earmark herein.

I am requesting funding for X-49A Envelope Expansion Modifications in fiscal year 2010. The entity to receive funding for this project is Calspan Corporation, located at 4455 Genesee Street, Buffalo, NY 14225. The funding would be to research an In-Flight Simulation based training program on training critical piloting skills in the regime of upset recovery. I certify that neither I nor my spouse has any financial interest in this project.

If you have any questions or you require any additional information, please call me or have your staff contact Jonathan Weston of my office at 202-225-3306. Thank you.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY2010 House Appropriations Subcommittee on Defense Appropriations bill, Research, Development, Test And Evaluation, Navy agency; Strategic Sub & Weapons System Support account for the Advanced LINAC Facility project. The entity to receive funding for this project is:

Indiana University Cyclotron Facility  
510 Milo Sampson Lane  
Bloomington, IN 47401

It is my understanding that the funding would be used to replace an out-dated Linear Accelerator Facility (LINAC) at Crane, NSWC with a modernized LINAC, to be located at the IU Cyclotron Facility. This new LINAC will allow Crane to continue its mission of radiation hardening testing, and will meet a DOD need for testing the effectiveness of electronic systems that are deployed in space and therefore subject to high doses of radiation. FY10 funds will be utilized to complete the construction of the test area to bring the facility to its full operational capability. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse or me.

I also hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. My requests are available through <http://baronhill.house.gov>.

Dear Chairman Obey and Ranking Member Lewis:

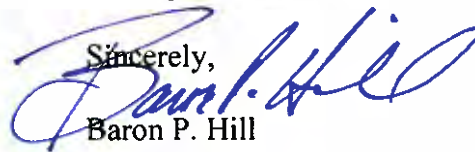

I am requesting funding in the FY2010 House Appropriations Subcommittee on Defense Appropriations bill, Research, Development, Test And Evaluation, Air Force agency; Strategic Aerospace Sensors account for the Net-Centric Sensor Grids project. The entity to receive funding for this project is:

Indiana University  
107 S. Indiana Ave.  
Bloomington, IN 47405

It is my understanding that the funding would be used to conduct research and development for expanding network centric grid technologies in support of Department of Defense critical requirement to improve the ability to effectively collaborate and provide advanced decision support capabilities within a network-centric multi-layered sensor grid environment. The project meets a stated Air Force goal of improving its ability to identify, detect and prevent disruptions from unfriendly sources, using GIS technology, in the distribution of needed resources. The project would assist the Air Force with developing a secure sensor-grid to assist with decision support needs for the military. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse or me.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Market Viable, Dual-Use, Advanced Energy Storage Solutions Development in fiscal year 2010.

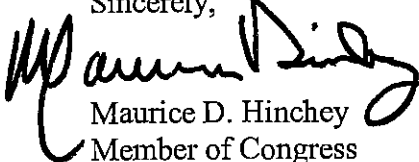

The entity to receive funding for this project is:

Primet, Inc.  
950 Danby Road, Suite 204  
Ithaca, NY 14850

The funding would be used to explore novel approaches essential for developing cost-effective domestic battery technology and corresponding manufacturing systems and factories for next generation lithium ion batteries for the Department of Defense and civilian applications (including electrical vehicle markets). It is essential that the Department of Defense not only utilize battery power sources but can do so affordably from reliable and secure U.S. sources.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of my request.

Committee on Appropriations  
H-218, The Capitol  
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Superlattice Semiconductors for Mobile SS lighting & Solar Power Applications in fiscal year 2010.

The entity to receive funding for this project is:  
C9 Corporation  
34 Hearthstone Drive  
Wilton, NY

The funding would be used to continue the development of manufacturing tooling for solar and semiconductor applications. The U.S. Army will work with the program to integrate the applications into Army hybrid vehicles and military equipment. The result will be advantages in speed, higher equipment operating temperatures, efficiencies and higher equipment voltage ratings.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of my request.

Sincerely,

  
Maurice D. Hinchey

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Advanced Composite Nickel-Manganese-Cobalt Lithium Ion Battery in fiscal year 2010.

The entity to receive funding for this project is:  
Primet, Inc.  
950 Danby Road, Suite 204  
Ithaca, NY 14850

The funding would be used for the development of advanced composite nickel-manganese-cobalt lithium ion battery for military applications, using NanoScission process technology to produce complex, uniform electrode materials for maximum electrode performance. At the conclusion of this program, the US Army will have access to batteries that are smaller, lighter, safer, and longer-lasting than any lithium batteries available on the market today, greatly extending duty cycle and survivability for applications ranging from handheld devices to unmanned aerial vehicles.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of my request.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Low Signature Defensive Weapon System for Surface  
Combatant Craft in fiscal year 2010.

The entity to receive funding for this project is:

BAE Systems  
600 Main Street  
Johnson City, NY 13790

The funding would be used to develop a remotely operated defensive weapon system to  
fulfill the Navy's requirement for future maritime combatant craft. This capability will  
minimize craft radar during all phases of each mission and greatly increase the safety and  
security of those aboard.

I certify that neither I nor my spouse has any financial interest in this project. Thank you

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Photovoltaic Ribbon Solar Cell Technology in fiscal year 2010.

The entity to receive funding for this project is:

The Solar Energy Consortium (TSEC)  
434 Old Neighborhood Road  
Kingston, NY 12401

The funding would be used to produce photovoltaic ribbon solar cell technology products for military applications. The resulting product will allow for highly efficient photovoltaic generation on flexible, durable, lightweight and portable surfaces. Such mobile power generation will give military operations the energy independence desired, especially in combat situations where fuel convoys have become targets.

I certify that neither I nor my spouse has any financial interest in this project. Thank you for your consideration of my request.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill for a Heavy Fuel Engine Family for Unmanned Systems. The entity to receive funding for this project is the L3 Communications Combat Propulsion Systems located at 76 Getty St. Muskegon, Michigan, 49442. The funding would be used to continue the development, installation, and testing of fuel efficient and higher power density heavy-fuel engine to meet the DoD requirement that Unmanned Aerial Systems' engines to operate on JP-8 fuel, and create an initial 45 jobs in West Michigan, with production lasting a minimum of 10 years.

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me. I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Technology Transfer Office, NSWC Indian Head, in the fiscal year 2010 Defense Appropriations bill. The entity to receive funding for this project is the Naval Surface Warfare Center at Indian Head, 3767 Strauss Ave., Bldg. 20, Indian Head, MD 20640-5150. The funding would be used to establish a Technology Transfer Office at NSWC Indian Head, to assist the Office of Research and Technology Applications with facilitating the transfer of commercially useful technologies from federal laboratories to the private sector. I certify that I do not have any financial interest in the project.

If you have any questions, please contact my staff at 202-225-4131. With kindest regards, I am,

Sincerely yours,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Army, Night Vision Advanced Technology account for the City of San Diego, CA. The entity to receive funding for this project is TREX Enterprises at 10455 Pacific Center Court, San Diego, CA 92121. It is my understanding that the funding would be used to further research and development of aircraft sensors that will assist pilots in brownout conditions while in flight. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Murtha and Ranking Member Young,

I am requesting funding for the Moldable Fabric Armor project in the FY2010 Appropriations bill. The entity to receive funding for this project is Miliken & Company located at 920 Milliken Road, Spartanburg, SC 29304. The funding would be used for the work that began in July 2007 under ARL Cooperative Agreement #: W911NF-07-2-0074. An annual program plan (APP) was mutually developed for three years with the Cooperative Agreement Manager (CAM) at the onset of the award. The scope of the work effort will be to leverage the past work to fabricate a full-scale molded part that is suitable for use on an existing tactical vehicle platform. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge these requests (1) are not directed to any entity or program that will be named after a sitting Member of Congress; (2) are not intended to be used by any entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meet or exceed all statutory requirements for matching funds where applicable. I further certify that should any of the requests I have submitted be included in the bill, I will place a statement in the Congressional Record describing how the funds in each of the included requests will be spent and justifying the use of federal taxpayer funds.

H-218, The Capitol  
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **MTI Scout Radar** in fiscal year 2010.

The entity to receive funding for this project is:

**Mustang Technology Group**  
400 W. Bethany Drive  
Suite 110  
Allen, TX 75013

The funding would be used for **development of a low cost moving target indication (MTI) radar for Navy VTUAV aircraft. Expanding the capabilities of Unmanned Air Vehicles to continuously follow and track high value targets can be a balance of power changing capability. This capability can significantly weaken or neutralize a major threat to our deployed forces, significantly reduce US casualties, and keep insurgents/terrorists from thwarting US efforts to establish regional security. This capability can also be used by local law enforcement and homeland defense agents by providing continuous remote surveillance in urban high traffic density situations and in border and shore surveillance.**

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Eddie Bernice Johnson  
Member of Congress

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Mobile Oxygen, Ventilation, and External Suction (MOVES) System** in fiscal year 2010.

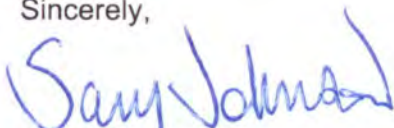

The entity to receive funding for this project is:

**SVTronics, Inc.**  
3465 Technology Drive  
Plano, Texas 75074

The funding would be used for **the further development of MOVES. MOVES will provide critical life-saving capabilities to combat casualties in the field, and significantly reduce logistical costs and hazards. The survival of battlefield casualties today is very dependent on oxygenation, ventilation, and airway suction. Unfortunately, administering these life-saving measures forward on the battlefield using current technology continues to be a difficult and dangerous task. MOVES will reduce the danger and difficulty. The MOVES anesthetic module will also eliminate the waste, work hazards, and need for additional training associated with anesthetic delivery technology currently used in field hospitals.**

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, Army Research Development Test and Evaluation account for the U. S. Army Engineer Research and Development Center, Construction Engineering Research Laboratory. The entity to receive funding for this project is the U.S. Army Engineer Research and Development Center, Construction Engineering Research Laboratory at 2902 Newmark Drive, Champaign, Illinois 61826. It is my understanding that the funding would be used for research regarding field validation of large-scale Zinc-Flow electrical energy storage with an Intelligent Micro-Grid Inverter (IMGI) to improve the energy security, fossil-fuel consumption and carbon-footprint of our military bases.

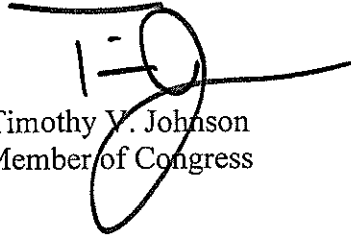

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, Navy Research Development Test and Evaluation account for the University of Illinois at Urbana/Champaign. The entity to receive funding for this project is The University of Illinois' College of Engineering at 1308 W. Main Street, Urbana, Illinois, 61801. It is my understanding that the funding would be used to establish the Center for Assured Critical Application and Infrastructure Security that will develop trust validation tools for critical computer infrastructures of particular importance to the nation, namely defense applications, financial systems, and electrical power.

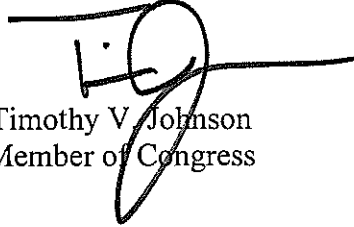

I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I further certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new committee policy that only posted requests will be considered.

The Honorable Jerry Lewis  
Ranking Member  
House Committee on Appropriations

Washington, DC 20515

Dear Mr. Chairman and Mr. Ranking Member:

I am requesting \$3,000,000 in the Fiscal Year 2010 Department of Defense appropriations measure for a friction welding cell project being undertaken at the government-owned Joint Systems Manufacturing Center (1161 Buckeye Road, Lima, Ohio 45804).

It is my understanding that the funding will be used to continue development of previously funded welding technology to refine methods of fusing metals used in large combat vehicle manufacturing. These methods are proving to be stronger than results achieved through traditional arc welding, resulting in stronger superstructures and lower per-unit procurement costs to the government.

To the best of my knowledge, this request is not directed to an entity or program that will be named for a sitting member of Congress, is not intended for use by an entity to secure funds for other entities (unless such use is consistent with the specified purpose of the request), and meets or exceeds all statutory requirements for matching funds where applicable.

I certify that neither I nor my spouse has a direct and foreseeable financial interest in this request. I further certify that this request will be made available on my official website as is required by the Chairman's policy on project disclosure.

Should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of taxpayer funds for this project.

Thank you for your consideration of this request.

Sincerely,

Jim Jordan  
Congressman, Ohio 4th District

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Bow Lifting Body (BLB) Project 60** in fiscal year 2010.

The entity to receive funding for this project is:  
**Fincantieri Marine Group**  
1600 Ely Street  
Marinette, WI 54143

The funding would be used for **demonstrating the viability of the Bow Lifting Body (BLB) ship configuration design. This design would provide a smaller and less costly ship with the seaworthiness of a much larger ship, therefore making it an important hull form to be transitioned and applied to a range of naval missions..**

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Enhanced Detection Adjunct Processor (EDAP) in fiscal year 2010. The entity to receive funding for this project is:

American Systems Corporation  
13990 Parkeast Circle  
Chantilly, VA, 20151-2272

The funding is for EDAP, which improves the capability of existing surface search radar systems to operate in moderate to high sea states by eliminating sea-return clutter which masks radar returns from small surface targets. EDAP will aid Navy ships in self defense, safety of navigation and defense against attacks by small boats.

I certify that I do not have any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Geospatial Airship Research Platform (GARP) in fiscal year 2010. The entities to receive funding for this project are:

- (1) Army Space and Missile Defense Lab, Transformation  
350 Vandenberg Street  
Peterson AFB, CO 80914
- (2) SkySentry  
10535 Raygor Road  
Colorado Springs, CO 80908
- (3) OAI  
22800 Cedar Point Road  
Brookpark, Ohio 44142

The funding will be used to develop and test prototype a new type of high-altitude platform with specialized high-bandwidth wireless communications, moderate-resolution environmental imaging, thermal, chemical and radiation sensors with advanced fuel cell technology capable of operating under the most extreme environmental conditions in a highly automated, reliable and safe manner.

I certify that I do not have any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Solid State Processing of Titanium Alloys for Defense Materiel Armaments in fiscal year 2010. The entity to receive funding for this project is:

ADMA  
1890 Georgetown Road  
Hudson, Ohio, 44236

The funding will build upon prior Federal funding to provide and install titanium pilot powder equipment and to continue to improve the solid state processing of titanium in order to consistently produce powder within the proper chemistry for military and commercial applications. It will continue to work with the 12" wide engineering scale mill and the soon to be delivered intermediate 24" wide machine to further refine the process and ultimately develop a production size/capacity mill capable of producing full scale 48" wide sheet and plate.

I certify that I do not have any financial interest in this project.

I am requesting funding for Fully Burdened Cost of Fuel (FBCF) and Alternative Energy Methodology and Conceptual Model in fiscal year 2010. The entity to receive funding for this project is:

Advanced Concepts and Technology, Inc (ACT I)  
3234 Executive Parkway  
Toledo, OH 43606

The funding will be used for development of a standard methodology and conceptual model for Department of Defense ground vehicle systems and posts, camps and stations to determine the fully burdened cost of fuel (FBCF). The goal is to support the evaluation of alternative energy applications to reduce DOD energy consumption in ground vehicle systems by 25%. DoD requires the fully burdened cost of delivered energy in trade-off analyzes conducted for all tactical systems.

Lorain County Community College  
1005 Abbe Road North  
Elyria, OH 44035

The funding will be used because in 2003 the E.U. eliminated hazardous materials, including lead, from electronics. This eliminated 75%-85% of commercial-off-the-shelf components suitable for military and aerospace use. Many companies have begun using RoHS-compliant (lead-free) materials, such as tin. Electronic components using tin have sometimes been affected by a phenomenon called "tin whiskering", which causes product failure. The project will develop and test tools to solve tin whiskering.

Dear Chairman Obey:

I, Congresswoman Carolyn Cheeks Kilpatrick, am requesting funding for Michigan State University for FY 2010. The entity to receive funding for this project is Michigan State University, College of Engineering, 2555 Engineering Street, East Lansing, Michigan 48824. This broadly based on-going program of basic research on composite materials and structures will support the U.S. military in the design, production, inspection and repair of safe, durable, light-weight tactical and strategic land, marine, and air vehicles functioning in severe environments. I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY2010 Defense Appropriations Bill, Navy Account, Research, Development, Test and Evaluation for Enhanced Small Arms Protective Insert (E-SAPI). The entity to receive funding for this project is American Defense Systems, Inc., located at 230 Duffy Avenue, Hicksville, NY 11801. It is my understanding that the funding would be used to seek to develop a new E-SAPI that will have the same performance of the current E-SAPI but at a lower weight and with greater durability and multi-hit capability. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations Bill, Research, Development, Test and Evaluation account Defense Wide for the Savannah CRTC Training Enabled Maneuver Instrumentation (STEM). The entity to receive funding is the Georgia Air National Guard - Savannah Combat Readiness Training Center at PO Box 7299, Garden City, GA 31418-7299. It is my understanding that the funding would be used to provide enhanced network and tactical data links for training units prior to activating for combat operations. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Jack Kingston  
Member of Congress

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations Bill, Research, Development, Test and Evaluation account Defense Wide for Historically Black Colleges and Universities with Science for the John Hopps Defense Scholar Program. The entity to receive funding is Morehouse College at 830 Westview Dr. SW, Atlanta, Georgia 30314. It is my understanding that the funding would be used to research scholars program to advance core federal missions and Defense Department goals to increase the participation of minority students in emerging scientific and technology fields. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Jack Kingston  
Member of Congress

I am requesting funding for the Lighter-Than-Air Stratospheric UAV for Persistent Communications Relay and Surveillance. The entity to receive funding for this project will be Naval Air Systems Command (NAVAIR), 47123 Buse Rd., B2272 Unit IPT, Patuxent River, MD 20670. This project will develop a lighter-than-air, unmanned aerial vehicle (UAV) that will fly at 85,000 feet for three to four months, providing low cost, persistent surveillance, high bandwidth and over the horizon communications needed to effectively fight terrorism, achieve maritime domain awareness, protect critical infrastructures and secure national borders. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for an Independent Advisory Group to review Ballistic Missile Defense (BMD) Education and Training Needs. The entity to receive funding for this project is the Missile Defense Integration and Operations Center, 730 Irwin Ave, Schriever AFB, CO 80912. The funding will support an Independent Advisory Group of BMD experts from the Armed Services, Defense Science Board, and universities. These experts will gather information and recommend a BMD education and training solution to include a recommendation of roles and responsibilities, organizational structure, and/or resources and facilities for integrated missile defense training. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Doug Lamborn

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Unmanned Sense, Track, and Avoid Radar (USTAR) in fiscal year 2010. The entity to receive funding for this project is the Air Force Research Lab, Air Vehicles Control Systems Development & Applications Branch, Wright Patterson AFB, OH 45433. The funding would be used for low rate initial production of an advanced radar system for the Global Hawk unmanned aerial vehicle platform to detect and track large and small targets. USTAR will allow the UAV to identify potential collision risks and increase maneuvering capability in controlled airspace and improve operability in adverse weather conditions. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Strattice Dermal Matrix Research (Army - RDT&E)** in fiscal year 2010.

The entity to receive funding for this project is:  
LifeCell Corporation  
One Millennium Way  
Branchburg, NJ 08876

The purpose of this program is to continue development of an off-the-shelf transplantable graft from porcine tissue for combat casualties with full-thickness burns and other skin and dermal deficits prior to their evacuation from the theater of operation.

I certify that neither I nor my spouse has any financial interest in this project.

I certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Additionally, I also hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting member of Congress; (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

Finally, I request that should this project be accepted by the Appropriations Committee, it be included within the text of the bill. Additionally, I will place a statement in *The Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Best personal wishes.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Standard Ground Station - Enhancement Program (Army - RDT&E)** in fiscal year 2010.

The entity to receive funding for this project is:  
Sarnoff Corporation  
201 Washington Road  
Princeton, NJ 08540-6449

The purpose of this program is to allow the Standard Ground Station (SGS) to be used in other locations outside of Iraq by developing methodologies that can be applied to, and deployed in, multiple terrains and topographies – coastal, mountainous, forested - to extend the SGS's geographic primacy and protect Joint Warfighters as they prosecute the global war on terror.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, End Item Preparedness Activities for Solid State Processing for Titanium Alloys. The entity to receive funding for this project is Advanced Material Products, Inc., located at 1890 Georgetown Rd., Hudson, OH 44236. The funding would be used for development of a future generation of solid state titanium alloy products which will have a broad range of military applications. The capability to produce these products will lead to the completion of a large scale titanium powder production plant in the United States. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my official website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

The Honorable David Obey  
Committee on Appropriations  
H-218  
The U.S. Capitol  
Washington, D.C. 20515

Dear Chairman Obey:

I am requesting funding in the FY10 Defense Appropriations bill, PA, A account for the Magneto Inductive, Inc, USA. The entity to receive funding for this project is Magneto Inductive, Inc, USA at 115 North Del Rosa Drive, Suite A, San Bernardino, CA 92408. It is my understanding that the funding would be used to ensure timely deployment of this cutting edge MI-RAMS technology to US warfighters, enabling them to gain significant tactical advantage in difficult urban, cave and tunnel environments where they are required to undertake demolition missions.. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the amount of \$7,000,000 for Distributed Mission Interoperability Toolkit (DMIT) in fiscal year 2010. The entity to receive funding for this project is Accenture, located at Suite 400, 200 Federal Street, Camden, NJ 08103. It is my understanding that funding would be used for successful execution of today's complex military missions relies heavily on the ability to share real-time information in a joint operational environment. This services-based architecture is critical to supporting joint and coalition missions/exercises that require rapid event staging, complex security levels, and involvement of diverse participants. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the amount of \$4,000,000 for Senior Scout COMINT (Communications Intelligence) Capability Upgrade in fiscal year 2010. The entity to receive funding for this project is L-3 Communication, located at 1 Federal Street, Camden, NJ 08103. It is my understanding that funding would be used for improved COMINT capability to detect and characterize new, modern, low-power radio signals at extended standoff ranges in the presence of interference. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill for the Feature Size Yield Enhancement DMEA's Advanced Reconfigurable Manufacturing for Semiconductors (ARMS) Foundry. The entity to receive funding for this project is Defense Microelectronics Activity at 4234 54<sup>th</sup> Street, McClellan, CA 95662-2100. It is my understanding that the funding would be used to allow DMEA to proceed with its plan to acquire the more complex processes required to support newer weapon system microelectronics, install these processes in its ARMS Foundry and increase the first pass yield of these new processes. It will also work to reduce the time required to switch from one process to another and to maximize the yield of the reinstalled process.

*I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I

further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

I hereby certify that this request will be made publicly available on my official website, as required by Chairman Obey's new committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill for the Minuteman III Advanced Third Stage Domestic Fiber Motor Case Development. The entity to receive funding for this project is Air Force ICBM Propellant Applications Program at Hill Air Force Base, UT. It is my understanding that the funding would be used to develop a domestic supply of the composite fibers used to construct the motor case. Japanese fibers traditionally used to construct the motor case are no longer available as the Japanese Ministry of Economics, Trade, & Industry requires pre-approval for all military applications, including a certifying statement that the project will not be used in conjunction with WMDs.

*I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill for the Heterogeneous Gallium Nitride/Silicon Microcircuit Technology. The entity to receive funding for this project is Defense Microelectronics Activity at 4234 54<sup>th</sup> Street, McClellan, CA 95662-2100. It is my understanding that the funding would be used to develop a replacement for gallium arsenide technology currently used in input amplification and frequency conversion circuits of military radar and communications systems. DMEA will use Gallium Nitride/Silicon to replace old gallium arsenide components.

*I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill for the Military Burn Trauma Research Program. The entity to receive funding for this project is the American Burn Association at 625 N. Michigan Ave., Suite 2550, Chicago, IL 60611. It is my understanding that the funding would be used to foster collaboration between military and civilian burn surgeons and researchers and to identify best practices to ensure better treatment and outcomes for military burn patients, specifically improved clinical outcomes for combat burn casualties.

*I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY 10 Defense Appropriations bill for the Thermal and Energy Management for Aerospace (THEMA) II program.

The entity to receive funding for the THEMA II program is the United States Air Force for a "plus-up" on an already existing contract competitively won by Hamilton-Sundstrand, a division of United Technologies Company, located at 4747 Harrison Avenue in Rockford, Illinois, 61125. Mr. John Nairus, Deputy for Technology at the Air Force Research Laboratory (AFRL) Power Division at Wright-Paterson Air Force Base in Dayton, Ohio, and Mr. Bill Durtschi, who is the Chief Research Engineer at Hamilton-Sundstrand, have advised me that the funds would be used to help the Air Force develop, mature, and integrate the thermal and energy management technologies needed to maintain competitive advantage and superiority for the next air vehicle programs. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.* I hereby certify that this request will also be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

April 2, 2009

The Honorable David Obey  
Chairman  
House Appropriations Committee  
Room H-218, the Capitol  
Washington, D.C. 20515

The Honorable Jerry Lewis  
Ranking Member  
House Appropriations Committee  
Room 1016 Longworth HOB  
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY 10 Defense Appropriations bill under the Combat Vehicle & Automotive Advanced Technology program at the U.S. Army.

The entity to receive funding for the Fuel System Component Manufacturing Technology Improvement program is Northern Illinois University located at 1120 East Diehl Road in Naperville, Illinois, 60563. Dr. Alan Swiglo, who is the Associate Director of Manufacturing Processes Research, has advised me that the funds would be used, by working in partnership with small manufacturers located in Rockford, Illinois, to help develop improved manufacturing processes for fuel handling and similar components to enable more affordable, longer lasting lighter weight components for new and retrofit applications for the Army. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.* I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely yours,

Donald A. Manzullo

Honorable Bill Young, Ranking Member  
House Appropriations Subcommittee on Defense,  
H-149 The Capitol  
Washington, DC 20515

Dear Chairman Murtha and Ranking Member Young:

Thank you for your leadership on the House Appropriations Subcommittee on Defense. I am requesting funding for DoD Center for Geosciences/Atmospheric Research (CG/AR) at CSU. The entity to receive funding for this project is Colorado State University, located at 203 Administration Building, Fort Collins, CO 80523-2001. This is a good use of taxpayer funding provides multi-disciplinary research using the internationally-recognized CSU capabilities to focus on priority environmental problems and questions of concern to the U.S. Army, Navy and Air Force. The non-classified research features interactions among CSU faculty, students and staff with DoD research laboratory scientists. A rigorous, annual scientific peer review system ensures that CG/AR research is productive, high-quality, and providing results of immediate use to our forces in the field. The Center's research contributes greatly in the support of our warfighters in the areas of ongoing conflict through its military engineering technology and warfighter technology activities. I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Next Generation Electronic Warfare Simulator (NGEWS) in fiscal year 2010. The entities to receive funding for this project are the F/A-18 Advanced Weapons Lab and AAI Corporation, located at the Naval Integrated Weapons RDAT&E Center at China Lake, 1 Administration Circle, China Lake, CA, 93555 and 124 Industry Lane, Hunt Valley, MD, 21030, respectively. The funding would be used for the Next Generation Electronic Warfare Simulator for finalizing development and configuration of the NGEWS unit in order to optimize test and evaluation for the F/A-18 and EA-18G equipped with the ALQ-218 electronic surveillance system. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Acid Alkaline Direct Methanol Fuel Cell Technology in fiscal year 2010. The entity to receive funding for this project is Dupont, Fayetteville Works Plant, 22828 North Carolina Hwy, 87 West, Fayetteville, NC 28306. The funding for this project will be used to accomplish a three-phase project to rapidly achieve the DOD's goal of a lightweight power source. This initiative will seek to move fuel cell technology to the next generation by perfecting a novel acid and alkaline membrane technology. The result will be an energy source that will fundamentally offer soldiers the most lightweight and compact power source possible. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for a Partnership for Defense Innovation Wi-Fi Laboratory Testing and Assessment Center in fiscal year 2010. The entity to receive funding for this project is Partnership for Defense Innovation, Fayetteville, NC. The funding for this project will be used for completion, testing and validation of a Tactical PSYOP Situational Awareness System (TPSS) that will provide PSYOP forces necessary capability to maintain situational awareness to properly and fully support operations to influence designated target audience behavior in permissive and non-permissive operational environments. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey,

I am requesting funding for the B-2 Advanced Tactical Data Link in Fiscal Year 2010. The entity to receive funding for this project is Northrop Grumman Corporation located at 1840 Century Park East Los Angeles, CA 90067-2199.

The funding would be used primarily for the integration of an Advanced Tactical Data Link (ATDL) on the B-2 allowing the bomber to communicate with other advanced aircraft in a high threat environment improving lethality, survivability, and reducing operating and support costs. *I certify that neither I nor my spouse has any direct financial interest in this project. I also certify that I have posted this request on my official website in compliance with Committee rules.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting Member of Congress; (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey,

I am requesting funding for the Tactical High Speed Anti-radiation Missile Propulsion Demonstration (HSAD-T) Program in Fiscal Year 2010. The entity to receive funding for this project is the HSAD Program Office located at the Naval Air Warfare Center, 1 Administration Circle, China Lake, CA 93555-6100.

The funding would be used primarily to transition HSAD designs into a tactical configuration allowing progression of demonstration work on advanced rocket propulsion systems that can provide either twice the distance or half the time to target over solid propellant rocket motors. *I certify that neither I nor my spouse has any direct financial interest in this project. I also certify that I have posted this request on my official website in compliance with Committee rules.*

Dear Chairman Obey,

I am requesting funding for the Advanced Vehicle Propulsion Center (AVPC) at the Air Force Research Lab (AFRL) Propulsion Directorate at Edwards Air Force Base in Fiscal Year 2010. The entity to receive funding for this project is Advatech Pacific, Incorporated located at 1849 N. Wabash Ave., Redlands, CA 92374.

The funding would be used primarily to allow the Center's engineers to incorporate recent technological advances into future Air Force space and missile systems, virtually demonstrating whether proposed designs are sound from operational, infrastructure, schedule, cost, reliability, and risk perspectives. *I certify that neither I nor my spouse has any direct financial interest in this project. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Epigenetic Disease Research project in the FY10 Defense Appropriations bill. The amount requested for this project is \$5,000,000. The entity to receive funding for this project is Washington State University located at PO Box 641048, Pullman, WA 99164.

Washington State University is working with the U.S. Army to develop epigenetic biomarkers for disease in military personnel. The focus of the effort is the warfighter's exposure to environmental compounds utilized by the military and/or toxic materials found in war zones. The Medical Technology program element within the Department of Defense budget funds applied research required to sustain a force of healthy, medically protected warfighters to enhance their performance in training and operational environments.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I also attest that this project does not have a direct or foreseeable effect on the financial interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge the request: (1) is not directed to any entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Institute for Simulation and Interprofessional Studies project in the FY10 Defense Appropriations bill. The amount requested for this project is \$5,500,000. The entity to receive funding for this project is University of Washington, 301 Gerberding Hall, Seattle, WA 98195.

The Institute for Simulation and Interprofessional Studies (ISIS) enables the use of simulation technologies to improve the quality of health care education and improve patient safety. This project has a regional WWAMI (Washington, Wyoming, Alaska, Montana, and Idaho) and Department of Defense mission. This program includes more than 6,000 active clinical faculty physicians. It will work with the Madigan Army Medical Center and the VA to demonstrate how healthcare skills training can be distributed throughout an entire region. This project will develop programs for training the global health professional workforce and leveraging these tools for the assessment and treatment of Traumatic Brain Injury and Post-Traumatic Stress Disorder found in returning service personnel.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I also attest that this project does not have a direct or foreseeable effect on the financial interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge the request: (1) is not directed to any entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Best Wishes,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for the Positron Capture and Storage project in the FY10 Defense Appropriations bill. The amount requested for this project is \$3,000,000. The entity to receive funding for this project is Washington State University, located at Post Office Box 641048, Pullman, WA 99164.

Anti-matter positrons can be utilized in applications such as medical diagnostics (Positron Emission Tomography), defect characterization in materials, and fundamental physics research. When positrons en masse are squeezed into a single trap, the repulsive forces quickly become impossible to control. To overcome this, they will stretch a first-generation trap into a tube of theoretically infinite length. The metal-coated tube walls will shield the low-density positron plasmas in each tube, thereby lowering the repulsive forces by 10,000-fold. An overall high density will be achieved by miniaturization to micrometer scale. We expect to design and construct a trap that will store 500 billion positrons for up to 10 days during the proof-of-concept project. The research will benefit the U.S. Army by permitting advanced applications research into using positron energy for low earth orbit space platforms and other high altitude vehicles.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I also attest that this project does not have a direct or foreseeable effect on the financial interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge the request: (1) is not directed to any entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey:

I am requesting funding in the Defense Appropriations bill, Rde, A Research, Development, Test And Evaluation, Army, 25 0602784A Military Engineering Technology, for the Cellulose Nanocomposites Panels for Ballistic Protection. The entity to receive funding for this project is University of Maine, University of Maine 5703 Alumni Road, Orono, ME 04469. It is my understanding that the funding would be used to hire the staff, faculty and student workers needed to cost-effectively reduce the weight and enhance blast/ballistic properties of lightweight, rapidly erectable, field structures. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey:

I am requesting funding in the Defense Appropriations bill, Rde,A Research, Development, Test And Evaluation, Army, 28 0602787A Medical Technology, for the Regenerative Medicine Research. The entity to receive funding for this project is Mount Desert Island Biological Laboratory, PO Box 35 Old Bar Harbor Road, Salisbury Cove, ME 04672. It is my understanding that the funding would be used to establish a Center for Regenerative Medicine to study marine vertebrates known to regenerate organs and limbs to learn how humans can regain this capacity. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey:

I am requesting funding in the Defense Appropriations bill, Rdtc, A Research, Development, Test And Evaluation, Army, 30 0603002A Medical Advanced Technology, for the Translational Research, Muscular Dystrophy. The entity to receive funding for this project is The Jackson Laboratory, 600 Main Street, Bar Harbor, ME 04609. It is my understanding that the funding would be used to enable importation of all current mouse research models of muscular dystrophy into a single repository at The Jackson Laboratory. They will also support the JAX mdx mouse model of DMD necessary for preclinical drug trial efforts. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Dear Chairman Obey:

I am requesting funding in the Defense Appropriations bill, Rde, A Research, Development, Test And Evaluation, Army, 19 0602709A Night Vision Technology, for the Personal Miniature Thermal Viewer (PMTV). The entity to receive funding for this project is Downeast Manufacturing and Assembly, 38 US route 1, Gouldsboro, ME 04607. It is my understanding that the funding would be used to Develop a 640 x 480 FPA based lightweight PMTV that is higher resolution then the current design with improved performance, which will provide the warfighter increased situational awareness in total darkness and smoke-obscured environments. I certify that this project does not have a direct and foreseeable effect on the financial interests of my spouse or me.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, from the Navy Research, Development, Test and Evaluation, Medical Development account for the U.S. Navy Cancer Vaccine Program. The entity to receive funding for this project is the Naval Health Research Center, at 140 Sylvester Rd, San Diego, CA. It is my understanding that the funding would be used to advance toward a cure for cancer. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Micromachined Switches for Next Generation Modular Satellites in fiscal year 2010.

The entity to receive funding for this project is MicroAssembly Technologies Inc., located at 934 Marina Way South, Richmond CA 94804.

The funding would be used to develop an array of micromachined switches with control circuitry and support components. These switches will help create adaptive wiring manifolds and reconfigurable satellites. The technology allows the Air Force Research Laboratory's Space Vehicles Directorate to develop a system for rapidly building spacecraft based on the best available mission specific components.

I certify that neither my spouse nor I have any financial interest in this project.

Sincerely,

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Micromachined Switches in Support of Transformational Communications Architecture in fiscal year 2010.

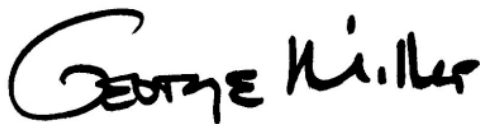

The entity to receive funding for this project is MicroAssembly Technologies Inc., located at 934 Marina Way South, Richmond CA 94804.

The funding would be used to develop an ultra-efficient micromachined radio frequency switch to improve connectivity between commanders and soldiers, interoperability and communications capacity, using the Army's global wireless network grid.

To provide the critical performance improvements and power savings for the military, these micromachined switches must be integrated into communication systems and antennae. Additional funds are needed to integrate and demonstrate micromachined switches, amplifiers and support components in military radio circuits.

I certify that neither my spouse nor I have any financial interest in this project.

The entity to receive funding for this project is:

**ArgonST**  
12701 Fairlakes Circle  
Fairfax, VA 22033

The funding would be used for the **PARAGON** frequency extension, which is the United States Navy's tactical intelligence capability that is designed to integrate with a ship's ability to detect, collect, and process a variety of signal information. This frequency extension will allow for a greater frequency range, and therefore detection, of both electronic intelligence and communications intelligence from hostile, high threat and adversary platforms at sea. This funding will benefit the taxpayer by significantly improving the Navy's intelligence picture and its protection and attack capabilities.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Effects Based Operations Decision Support Services** in fiscal year 2010.

The entity to receive funding for this project is:

**EM Solutions, Inc.**  
1421 Jefferson Davis Highway  
Arlington, VA 22202

The funding would be used for **supporting small units deployed in difficult terrain environments such as Afghanistan that have a need to conduct continuous surveillance missions. The planning tools required for soldiers to take full advantage of all unmanned air system (UAS) capabilities are not currently available. These tools are vital to determine the optimal combination of sensors, videos and reconnaissance capabilities for a UAS considering environmental conditions, terrain and weather. This funding brings UAS and payload modeling and planning together in one system with analysis tools.**

The funding would be used for **supporting the mission of covert military operations that can be threatened by the obvious visual signature of high value vehicle assets. Currently, most vehicles have large mounted sensors that draw attention, yet there is a need for gunshot localization sensors. These systems, although effective, are not appropriate for covert operations. The funding for a low-profile gunshot localization system will produce a completely covert detection system which will enhance the situational awareness and survivability of our military.**

The funding would be used for **supporting the Joint Explosive Ordnance Disposal (JEOD) Diver Situational Awareness System, a portable software application for Navy dive teams. Specifically, the software catalogues information on underwater searches and missions and provides dive teams with greater awareness on identifying and neutralizing underwater threats such as limpet mines and underwater improvised explosive devices. Without this technology, dive teams would have to ~~take~~ process information and develop strategy ashore, minimizing their effectiveness in the water. This funding would accelerate and complete development and delivery of this system to diving teams and improve their ability to access technical and intelligence information during a mission.**

The entity to receive funding for this project is:  
**Ultra Electronics Precision Air Systems, Inc.**  
5751 General Washington Drive  
Alexandria, VA 22312

The funding would be used for **the development of new portable oxygen delivery systems that are critical to save casualty lives on the battle field. Currently, high pressure oxygen cylinders are used to stabilize and transport casualties from the front lines. These cylinders, however, cause serious operational, logistics and safety problems. Casualty survivability and logistics can be significantly improved with the development of a small, electric low-pressure highly portable oxygen concentrating system (POCS). The funding would complete development effort of this technology in less than a year followed by extensive field testing and concurrent FDA acceptance. If successful, POCS could save taxpayer funds because it eliminates the difficult logistics of transporting re-charged oxygen cylinders to the front lines. More importantly, POCS can result in a higher percentage of casualties being saved.**

The funding would be used for **the ground moving target indicator (GMTI) radars which will provide superior all weather detection and persistent tracking of moving time targets. Currently these radars are only deployed in combat theater on large aircraft. This funding will develop GMTI capabilities for deployment on smaller unmanned aerial vehicle (UAV) platforms by miniaturizing the GMTI system without losing any capabilities. The funding would be used for **countering the threat of improvised explosive devices (IEDs), ambushes and sniper fire, by providing the United States Marines and Army a capability that will prevent or mitigate the effectiveness of these attacks. Funding from the Naval Research Laboratory has developed a prototype capability that detects scopes from sniper rifles, video cameras and other refracted sources. This technology can help Marines and soldiers detect an attack before it happens. Funding this year will produce operational units for automatic detection of these refracted sources on military vehicles and installations, which enhances the counter surveillance capabilities and protection of high value targets.**

The Honorable Jerry Lewis, Ranking Member  
Committee on Appropriations  
H-218, The Capitol  
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Plug-in Architecture for DoD Medical Imaging** in fiscal year 2010.

The entity to receive funding for this project is:

**American College of Radiology**  
1891 Preston White Drive  
Reston, VA 20191

The funding would be used for **addressing the current lack of interoperability between different medical imaging hardware and software that has been procured by the Department of Defense. This situation presents a major barrier to collaboration among doctors and the different branches of the armed services, significantly delaying the development and use of images and imaging technologies. This funding will continue the development of a plug-in architecture that will make medical imaging hardware and software compatible through clinical testing of new traumatic brain injury (TBI) imaging methods developed by the National Naval Medical Center.**

**I certify that neither I nor my spouse has any financial interest in this project.**

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Moran', with a long, sweeping underline.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Evaluation of Integrative Approaches to Resilience (TATRC)** in fiscal year 2010.

The entity to receive funding for this project is:

**Samueli Institute**  
1737 King Street  
Alexandria, VA 22314

The funding would be used for **the support of warrior resilience as a high priority issue because the stresses of prolonged and often multiple combat deployments are taking a heavy toll on American troops and their families. Alternative medicines and treatments, promoting psychological health and decreasing stress-related illnesses, can significantly improve resilience and are becoming more often utilized by the military. Funding will assess the large-scale feasibility of integrating resilience training programs into the training and deployment cycles of combat troops and their families. Another will be the long-term follow-up of trainees to determine the continuing benefits of such training on retention of troops, as well as on maintaining families and long-term health. The ultimate goal of this program is to provide the pragmatic scientific evidence to inform policy related to integrative health care and self-empowerment approaches to psychological health and resilience.**

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

James P. Moran

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Ground Combat System Knowledge Center and Technical Inspection Data Capture** in fiscal year 2010.

The entity to receive funding for this project is:

**Portal Dynamics**  
5845 Richmond Highway  
Alexandria, VA 22303

The funding would be used for **PEO Ground Combat Systems (PEO GCS)** which has a requirement to further enable collaboration and data sharing among its weapons systems. Technical data about weapons systems can help PEO GCS better manage their systems, and efforts to expand access to that information and data are key. This funding will provide for a commercial-off-the-shelf technology to expand the collaborative data environment for accessing, sharing, integrating and controlling weapons data information. These capabilities will improve mission readiness, support timely and accurate procurement of long-lead components, and save millions because of improved collaboration, employee productivity and maintenance depot.

I certify that neither I nor my spouse has any financial interest in this project.

I am requesting funding for **Optimization of U.S. Army Topographic Data Management Enterprise** in fiscal year 2010.

The entity to receive funding for this project is:

**ESRI**  
8615 Westwood Center Drive  
Vienna, VA 22182-2218

The funding would be used for **making geospatial data accessible to commanders and soldiers at all echelons, and enable two-way sharing and management of geospatial datasets between Army tactical systems and national systems maintained by the National Geospatial Intelligence Agency (NGA). The development of a US Army Topographic Data Management Enterprise will provide commanders and soldiers with a deeper and richer understanding of the battlespace by enabling consideration of geospatial factors. Troops would be better able to more completely execute evolving combat and counter-insurgency operations, leading to improved safety of both US forces as well as minimizing the impacts of these operations on the local populations.**

The entity to receive funding for this project is:

**ODIN Technologies**  
21631 Red Rum Drive  
Ashburn, VA 20147

The funding would be used for **more support for recent passive radio frequency identification (RFID) technology that can enable better management and maintenance of the United States Navy's missile stockpiles. A more accurate maintenance history, inventory tracking and environmental exposure monitoring can prevent premature failures of new Navy missile procurement, generating millions in annual savings on missile procurement. The RFID tracking system can be used across agencies and provide an even greater cost savings and management benefit to the Department of Defense.**

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY2010 Department of Defense Appropriations bill, Navy, RDT&E, Shipboard System Component Development account for Eaton Corporation. The entity to receive funding for this project is Eaton Corporation at 170 Industry Drive, Pittsburgh, Pennsylvania, 15275. It is my understanding that the funding would be used to develop a new 100 amp breaker that will complete a family of current limiting AQB circuit breakers used in electrical distribution systems onboard Navy combatant vessels. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for GAPS/AWS Horizontal Integration in fiscal year 2010. The entity to receive funding for this project is Ultra Electronics, located at 4020 Vision Way, Lemon Furnace, PA 15456. The funding would be used to provide the Joint Forces Component Command for Global Strike with a user-defined program that allows commanders to see 3D visualizations overlaid with military ground, sea and air assets. I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Remote Bio-Medical Detector in fiscal year 2010. The entity to receive funding for this project is UFR/QTL Chem Bio Defense Systems, located at 1040 Eberly Way, Lemont Furnace, PA 15456. The funding would be used to continue development of a remote bio-medical detector that can quickly detect different chemical/protein agents in a cardiac arrest situation. This will allow combat medics to deliver appropriate care, which significantly reduces misdiagnosis and further damage to the heart. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Spinal Muscular Atrophy (SMA) Research Program** in fiscal year 2010.

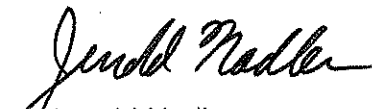

The entity to receive funding for this project is:

**Columbia University Medical Center and the Spinal Muscular Atrophy Foundation**  
701 West 168th Street  
New York, NY 10032

The funding would be used for **accelerating the development of a treatment or cure for Spinal Muscular Atrophy (SMA)**. Department of Defense ongoing investment in this initiative would increase the chances of finding treatments for veterans and current service members who otherwise remain paralyzed or die from combat-related conditions in Iraq and Afghanistan, by accelerating discovery of better ways to keep nerve cells alive and help them regenerate, and by gaining a better understanding of the control of limb function. This is a valuable use of taxpayer funds because it would help men and women of the Armed Forces recover from debilitating injuries.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for **Parsons Institute for Information Mapping (PIIM)** for a **Defense Health Program** in fiscal year 2010.

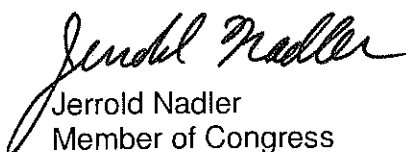

The entity to receive funding for this project is:

**The New School: Parsons Institute for Information Mapping (PIIM)**  
68 5th Ave, Room 200  
New York, NY 10011

The funding would be used for **continuing PIIM's work with the Veterans Health Administration (VA) and Department of Defense (DoD) to develop an Electronic Medical Record (EMR) system that will create a single, unified view of VA and DoD beneficiary patient records. The goal is to redesign and improve the graphic front-end user interface (GUI) of the system. By developing a model that can be duplicated across the country the project will improve the quality and continuity of care to millions of Americans. This is a valuable use of taxpayer dollars because this project will develop and enhance electronic medical records for veterans in order to improve the quality and provision of their healthcare.**

I am requesting funding for **Research to Advance National Security Goals** in fiscal year 2010.

The entity to receive funding for this project is:

**American Museum of Natural History**  
Central Park West at 79th Street  
New York, NY 10024

The funding would be used for **advancing the study of the evolution and global spread of infectious disease by investigating very complex systems, moving from viruses to the study of bacteria and including ecological data. At the same time, it will extend the existing DOD research partnership into new areas of investigation, including the physics of light, optical physics, and adaptive optics, which have important implications for surveillance and fundamental physics. This is a valuable use of taxpayer funds because it will advance research into combating bioterrorism and understanding critical scientific principles.**

**Address:** 401 F St., NW, Washington, DC 20001

**Project:** Military Pediatric Training and Support

**Entity to receive funding:** Children's National Medical Center

**Purpose:** Two key technologies are necessary to produce diagnostically and clinically superior studies: **Critical Need: Magnetic Resonance Imaging 3 Tesla**

An MRI 3 Tesla is the state-of-the-art technology in neuro imaging, particularly for visualization of brain tumors, identification of epileptic foci and autism research.

Children's National annually performs more than 5,500 MRI procedures.

**Critical Need: PET/CT Unit** A PET/CT Unit will produce superior studies for all cancers, identify neurological abnormalities and congenital diseases. Children's National annually performs more than 3,000 CT procedures.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Department of Defense, Research, Development, Test and Evaluation, Army, University Research Initiatives account for the National Biodefense Training Center. The entity to receive funding for this project is the University of Texas Medical Branch at Galveston at 301 University Boulevard, Galveston, TX 77555. It is my understanding that the funding would be used to train staff working within containment facilities across the nation. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Very respectfully,

*To Whom It May Concern:*

I am requesting funding for the Vanadium Safety Readiness project: in fiscal year 2010. The entity to receive funding for this project is: Department of Defense, 504 Scott Street; Fort Detrick, MDs 21702. The funding would be used to test vanadium, which is used in military applications, for safety. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that each request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge each request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY09 Department of Defense, Army Other Procurement account for a communications aerial platform for the Minnesota National Guard. The entity to receive funding for this project is the Minnesota National Guard, located at 20 West 12<sup>th</sup> Street, St. Paul, MN 55155. It is my understanding that the funding would be used for an aerial platform for increased communications. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds. I have also posted my request information online in compliance with Chairman Obey's new rules.

Sincerely,

Dear Chairman Obey:

I am requesting funding for *Missile Activity and Characteristics - Releasable* in fiscal year 2010. The entity to receive funding for this project is *SPARTA, Inc.*, located at *300 Franklin Street, Martinsville, VA 24112*. The funding would be used to create approximately 35 positions in the Martinsville and Henry County area, offering the opportunity for local college graduates to find challenging employment—fulfilling a national need—without relocating. This project enhances the ability of the Defense Intelligence Agency to accomplish its mission and will strengthen the partnership between DIA (an agency preparing to bring a large segment of its analytic workforce to the 5th District) and the Commonwealth of Virginia. I certify that I do not have any financial interest in this project.

Sincerely,

I am requesting funding for *UNDEX Modeling & Simulation for Ohio Class Replacement Composite Non-Pressure Hull Fairing* in fiscal year 2010. The entity to receive funding for this project is *HI-TEST Laboratories, Inc.*, located at *104 Arvon Road, Arvon, VA 23004*. The funding would be used for creating high paying, technically demanding jobs in Virginia's 5<sup>th</sup> District and provide a platform for additional employees in the future at HI-TEST Laboratories, the third largest private employer in Buckingham County. The funds will support design, research and development of its submarine program, which is a critical aspect of the company's business base. I certify that I do not have any financial interest in this project.

I am requesting funding for **Automotive Tribology Center** in fiscal year 2010.

The entity to receive funding for this project is:  
**Oakland University, Department of Mechanical Engineering**  
2200 N Squirrel Rd.  
Troy, MI 48309

The funding would be used for **research on engine and transmission tribology (lubrication, friction and wear)**. The benefits of this research will be lower friction and wear, reduced weight, improved fuel economy, lower emissions and higher power output for military vehicles. Projects will be conducted to study tribological effects of various high-tech coatings/surface treatments, including coatings containing nano-particles. New oil additives will also be studied with the capability of lowering friction and wear and which are environmentally friendly. A vigorous analytical modeling effort will be conducted to allow for rapid evaluations of new designs to meet the needs of programs such as the Future Combat System..

Troy, MI 48083

The funding would be used for the **Tank-Automotive Research, Development and Engineering Center (TARDEC)** to accelerate availability of hybrid automotive technologies for defense applications integrating the next iteration of electric drive technology into a new platform and putting it through rigorous test and demonstration. One of the greatest benefits from broad adoption of hybrid technologies in the DOD would be a significant increase in fuel efficiency, and a dramatic lessening of the logistical requirements associated with the provisioning of fuel. Requested funding would support the incorporation of the latest electric drive design into an updated HyDRA platform, which would then serve as a test bed for accelerated reliability testing of electric drive vehicles by TARDEC..

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress [*OR: was named after Representative John Doe in 1983*]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Member of Congress

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY 2010 Defense bill, NGB/WAARNG, Domestic Operations National Guard Equipment, Army Guard - P-1/Line # 094 Account for Camp Murray to fund the Domestic Response Package – Tactical Operations Center. The entity to receive funding for this project is the WA MIL DEPT, located at Building One, Camp Murray, WA 98430-5000. The funding would be used to build a Tactical Operations Center for emergency response. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Conference's policy on project requests, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY 2010 Defense bill, Special Operations Forces, US Navy, RDT&E R-1/PE#1160479BB; P-1/Line #243; Special Operations Forces Visual Augmentation Account for B.E. Meyers & Co to fund Thermal Pointer / Illuminator for Force Protection. The entity to receive funding for this project is the B.E. Meyers & Co., located at 14540 NE 91st St., Redmond, WA 98052 . It is my understanding that the funding would be used to develop a prototype for testing a Long-Range, Day and Night, Covert Thermal Target Designator for ground-based and airborne applications, compatible with thermal imagers presently in use by U.S. Armed Forces. This rapid research and development program would result in the delivery of 50 field ready, hand-held, targeting devices to the Navy Special Warfare community. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Conference's policy on project requests, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY 2010 Defense bill, US Marine Corps: Joint Non-Lethal Weapons Directorate (JNLWD), RDT&E R-1/PE #0603651M; P-1/Line #21 Account for Stellar Photonics, LLC to fund the Dynamic Eye-Safe Imaging Laser (DESIL). The entity to receive funding for this project is the Stellar Photonics, LLC, located at 14797 NE 95th Street, Redmond, WA 98052. It is my understanding that the funding would be used to improve the capabilities of the non-lethal Plasma Acoustic Shield System (PASS) in terms of making it safer on the eyes and increasing the range, higher repetitions, and coverage area. The PASS system can be used at check points for riot control and to visually intimidate opponents from entering a restricted area. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Murtha and Ranking Member Young:

I am requesting funding for the Integrated Defense Technical Information initiative in fiscal year 2010. The entity to receive funding for this project is Tier 3 Data and Web Services, located at 1708 Forest Lane, Suite 105, Corbin, KY 40701. The funding would be used to provide the Defense Logistics Agency (DLA) an interface to the Army's Product Lifecycle Management (PLM) system. I certify that neither I nor my spouse has any financial interest in this project.

I also certify that to the best of my knowledge this request adheres to the Republican Leadership's earmark standards. In addition, I certify that I have posted my request information online in compliance with Chairman Obey's new policy.

Sincerely,

  
HAROLD ROGERS

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Novel Zinc Air Power Sources for Military in the fiscal year (FY) 2010 Defense Appropriations bill. The entity to receive funding for this project is Electric Fuel Battery Corporation (Arotech Subsidiary), located at 354 Industry Drive, Auburn, AL 36832. Funding for this program will be used to develop Zinc-Air battery technology that will provide the soldier with a high energy density power source that significantly reduces battery carry weight. Previous advances in the technology have helped to cut Warfighter battery carry weight in half. Continued development of body-worn energy distribution systems, coupled with further development of Zinc-Air battery technology, promises to cut Warfighter battery carry weight further, while reducing battery quantities carried on long missions. Reducing battery type and count lowers operational risk by reducing the need for re-supply. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Paladin Integrated Management, M109A6 in the fiscal year (FY) 2010 Defense Appropriations bill. The entity to receive funding for this project is BAE Systems, located at 1101 Wilson Blvd., Suite 2000, Arlington, VA 22209, though the work for this project will happen on Anniston Army Depot, 7 Frankford Avenue, Anniston, AL 36201. Funding for this program will be used to insure that this program be reinstated to its original schedule. Procurement funds to initiate low rate initial production are in the FY 10 procurement budget. The Army intends to fund this program through completion. These funds will be used to assist in making the M109A6 Paladin and its companion vehicle the Field Artillery Ammunition Support Vehicle (FAASV) sustainable through the year 2050. The changes to this vehicle will incorporate the Bradley's drive train and suspension components that will reduce the logistics footprint thereby reducing operational and support costs. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Logistical Fuel Processors Development to Meet Army/FARDEC/TACOM Needs in the fiscal year (FY) 2010 Defense Appropriations bill. The entity to receive funding for this project is Auburn University, located at 202 Samford Hall, Auburn University, Auburn, AL 36849. Funding for this program will be used for the development and demonstration of logistical fuel processor-fuel cell combinations that operate at significantly higher efficiencies than current IC engines used by the Army. More efficient forms of energy conversion and power production are of key importance to the Army and can be leveraged many times as a gallon of fuel or a pound of food is transported from its point of origin to a forward deployed base of operations. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Fort Benning National Incident Management System (NIMS)- Compliant Installation Operations Center in the fiscal year (FY) 2010 Defense Appropriations bill. The entity to receive funding for this project is Intergraph Corporation located at 170 Graphics Drive, Madison, Alabama 35758. Funding for this project will establish a NIMS-compliant installation operations center at Ft. Benning. As Ft. Benning integrates significant new activities under Base Realignment and Closure (BRAC), it is imperative that the installation maintains a high state of readiness to support tenants and civilians and to make the most efficient use of their soldiers. It is vital that the installation develop additional incident management capabilities and programs as the demands placed on Ft. Benning increase. By implementing a NIMS-compliant center, Ft. Benning will ultimately save lives. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Highly Integrated Production for Expediting Reset (HIIPER) in the fiscal year (FY) 2010 Defense Appropriations bill. The entity to receive funding for this project is SCRA, Institute for Solutions Generation, located at 5300 International Boulevard, N. Charleston, SC 29418, though the funding for this project will be directed at Anniston Army Depot in my district. Funding for this program will utilize laser scanning technology at Anniston Army Depot to quickly determine battle damaged and/or defective parts that need replacing, avoiding the need to replace good parts), and determine if a part is non-conforming before it is inserted into a weapon (and subsequently has to be replaced). HIIPER will utilize laser scanning at Picatinny Arsenal to create 3D models of the ARDEC-designed parts required for the product improvements to be applied at Anniston. The Calhoun County Chamber of Commerce is the entity that requested this project and I have received a letter of support from ANAD. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, Army, RTD&E, 13 0602601A Combat Vehicle and Automotive Technology. Advanced Composite Materials Research for Land, Marine, and Air Vehicles. The entity to receive funding for this project is Michigan State University; 120 Angell Bldg, East Lansing, Michigan 48824. It is my understanding that the funding would be used to continue basic research on composite materials and structures that will support the U.S. Department of Defense. I certify that this project does not have a direct and foreseeable effect on my pecuniary interests.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Mike Rogers (MI)

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations bill, Army Research, Development, Test and Evaluation/Medical Advanced Technology Account. The entity to receive funding for this project is Cal State University Fullerton located at 800 N. State College Blvd., Fullerton CA 92831. It is my understanding that the funding would be used to continue its Prader-Willi Syndrome research. This project serves as a resource to the DoD for the many military families with children affected by this disorder and for the treatment and study of obesity in general. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Agile Port and High Speed Ship Technology in fiscal year 2010. The entity to receive funding for this project is: California State University, Long Beach Foundation, located at 6300 State University Drive, Suite 332, Long Beach, CA 90815. The purpose of the project is to research ship designs that can meet Strategic Rapid Deployment requirements and be used commercially to support the movement of cargo containers in coastal and inland waterways. The dual capability ships are to be built in American shipyards with significant long term economic benefits, replace the costly Rapid Reserve Fleet, and support the emerging Seabasing Concept. Additionally, funds would help CCDoTT provide scientific and engineering support to local and national efforts to reduce air pollution and highway congestion caused by port activity. CCDoTT also provides local economic and educational benefits by funding research projects carried out by CSULB faculty and students. Continued funding of CCDoTT would be a valuable use of taxpayer funds because it will advance both defense and civilian transportation projects.

I certify that I have no financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am forwarding a request for funding for the SeaCatcher UAS Launch & Recovery System in the FY 2010 Defense Appropriations bill. These funds will be used to develop a safe and reliable method for landing and launching large, highly capable fixed wing unmanned aerial systems (UASs) from ships other than aircraft carriers, revolutionizing unmanned aircraft capabilities for the Navy and Marine Corps. The entity requesting additional funding for this account is the Advanced Technology and Research Corporation, located at 6650 Eli Whitney Drive, suite 400, Columbia, MD 21046. I certify that neither I nor my spouse has any financial interest in the project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Ultra Light Weight Transmissions in fiscal year 2010.

The entity to receive funding for this project is:  
Hybra-Drive Systems, LLC  
420 Carey Street  
P.O. Box 355  
Deerfield, MI 49238

The funding would be used for completion of development and Department of Defense field testing of the Ultra Light Weight Transmission (ULWT) for military vehicles. ULWT hydraulic hybrid technology was developed based on input from the U.S. Army Tank Automotive Research Development and Engineering Center (TARDEC) and the U.S. Army Tank-Automotive and Armaments Command (TACOM). The ULWT is a weight neutral system that provides a significant increase in vehicle fuel economy, and a significant increase in torque, greatly improving acceleration and towing capabilities. In testing to date, the ULWT has demonstrated a 60% improvement in vehicle fuel economy for the HMMWV military vehicle. This project will help protect our soldiers serving overseas by ensuring that their vehicles have the engine power and fuel economy they need now that military vehicles are heavier than ever due to the need for greater armor.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Total Perimeter Surveillance in fiscal year 2010.

The entity to receive funding for this project is:

Dexter Research Center, Inc.  
7300 Huron River Drive  
Dexter, MI 48130

The funding would be used for completion of development of a Total Perimeter Surveillance (TPS) system for Department of Defense buildings, which uses a new infrared technology to identify and respond to threats from chemical or biological attacks. There are over 200 key Department of Defense facilities in the U.S. alone which currently lack perimeter monitoring capabilities for the presence of chemical and biological weapons. Passive infrared spectroscopy has been the standard technique for identifying chemical threats at a distance. However, FTIR-based systems are bulky, complex and maintenance intensive, and don't perform well at sensing threats released close to the horizon. Instead, the TPS system would provide a networked array of unattended passive/near-passive infrared sensors to provide 360 degree detection and identification of threats with sufficient advanced warning to Department of Defense facilities to respond effectively. This project will help protect our military personnel from the threat of chemical or biological weapons.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Shipboard Wireless Maintenance Assistant (SWMA) On Demand Information System in fiscal year 2010.

The entity to receive funding for this project is:

Cybernet Systems Corporation  
727 Airport Blvd  
Ann Arbor, MI 48108

The funding would be used for SBIR Phase III follow-on development to provide full preproduction development and production testing of the next generation Shipboard Wireless Maintenance Assistant (SWMA) on all wireless network-enabled surface vessels. The SWMA is a rugged handheld wireless device for providing critical on-demand logistics and maintenance information to shipboard and supporting Navy personnel. It allows information integration from multiple legacy software platforms to provide quick, responsive support tools to the hands-on logistics or maintenance provider while providing that individual the ability to "reach back" to senior technical support staff located on ship or in remote environments. This technology is essential to enable the Navy to meet its objectives of improving readiness, ensuring operational effectiveness, improving Sailor productivity and reducing naval manning requirements. The SWMA also serves as a critical need platform for Expanded Maritime Interception Operations (EMIO) for anti-piracy actions, by providing data collection hardware and software in one portable platform.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey:

I am requesting funding for Morehouse College for the John Hopps Defense Research Scholars Program, in fiscal year 2010. The entity to receive funding for this project is Morehouse College, located in Atlanta, Georgia 30314. This research scholars program is designed to advance core federal missions and Defense Department goals to increase the participation of students in emerging scientific and technology fields. I certify that neither I, nor my spouse has any financial interest in this project.

Sincerely,

David Scott

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for proton beam therapy for cancer treatment. The entity to receive funding for this project is Hampton University, located at 3 Shore Rd., Hampton, VA 23668. The funding will be used for Hampton University's Cancer Treatment Initiative, which will offer active and retired military personnel and their dependents cancer detection and treatment facilities unique to the Hampton Roads area. HUPTI's programmatic and infrastructure components will include improved cancer prevention, detection and diagnostic services, and treatments and cures, for cancers that disproportionately affect minority communities, particularly breast cancer and prostate cancer. Proton therapy is a precise and advanced form of tumor treatment, especially useful for those previously unreachable or not treatable without inducing significant damage to healthy surrounding tissues. Funding will be used for research, equipment, and development of the capability to treat various cancers with proton beam therapy. I certify that I have no financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for smart wound dressing for MRSA infected battle wounds. The entity to receive funding for this project is Eastern Virginia Medical School (EVMS) Pediatric Division located at 601 Children's Lane, Norfolk, VA 23507. The funding will be used for clinical and research costs, equipment purchases, facility overhead and personnel salaries. The study will identify the most effective MRSA resistant antibiotics, the proper dosages of these antibiotics and the most efficient sizes and packages of dressings appropriate for the types of wounds experienced in battlefield situations. I certify that I have no financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Aerospace Laser Micro Engineering Station. The entity to receive funding for this project is Thomas Jefferson National Accelerator Facility (Jefferson Lab) located at 12000 Jefferson Avenue Newport News, VA 23601. The funding will be used for the LMES to make mass-producible satellites possible using <10 hours with the JLab UV FEL as compared to 270 hours using a conventional UV laser making it possible to address new and unique missions not accessible using conventional satellite technology. New products and production capabilities should net jobs as new applications are explored. I certify that I have no financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Distribution Mission Interoperability Toolkit (DMIT) in fiscal year 2010. The entity to receive funding for this project is Accenture National Security Services located at 680 American Ave, Suite 302, King of Prussia, PA 19406. DMIT is a suite of tools that enables an enterprise architecture for on-demand, trusted, interoperability among and between mission-oriented C4I systems based on lessons learned from Operation Iraqi Freedom. Additional spending will allow DMIT to be extended to Joint and coalition requirements, as well as address current strategic weaknesses in Air Force AOC management years ahead of current schedules. DMIT has already begun joint integration of time-critical-targeting with the Air Force, Army, and Navy. DMIT's use of commercial services-based architectures and telephony standards allows interactive information sharing between mission critical applications by breaking down the traditional application stovepipes. This services-based architecture is critical to supporting Joint and coalition missions and exercises because of the requirement for rapid event staging, complex security levels, and involves diverse participants. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Chemical and Biological Resistant Clothing in fiscal year 2010. The entity to receive funding for this project is Arkema, Inc. (Defense) located at 900 First Avenue, Building 4, Suite 242, King of Prussia, PA 19406. Funds for this project would be used to combine University of Cincinnati chemical engineering and materials expertise with Arkema's nanotechnology breakthroughs to create a material capable of simultaneously being lightweight, robust, breathable, and resistant to chemical and biological agents. The Air Force Research Lab at Tyndall AFB would provide government perspective and bio-active materials expertise. The project funds would also leverage Lion Apparel's industry-leading experience to address manufacturing challenges associated with producing this specialized material. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the 3D Bias Woven Preform Development in fiscal year 2010. The entity to receive funding for this project is Bally Ribbon Mills (with V Systems) located at 23 N. 7th Street, Bally, PA 19503. The primary limiting factor in applying composites in airframe structure is the poor damage tolerance and ballistic survivability of conventional 2D joints. For this reason an Air Force Wright Lab Structures Laboratory SBIR was awarded to Bally Ribbon Mills (BRM) to develop a bias woven preform manufacturing capability that offered the potential to increase the joint ultimate load carrying capability and provide increased load carrying capability over the conventional 0/90° woven Pi-preform with overwraps. The technology developed in this project is expected to enhance the performance, while lowering the cost and weight, of the structures under consideration for the Joint Strike Fighter, sustainment of the F-16, the unmanned combat air vehicle (UCAV) operational system (UOS), space operations vehicles (SOVs), the ACCA program, the Vulture program and other advanced weapon systems. Further evidence of the need for this critical technology is the continued high level of interest from aerospace industry partners who will apply the technology to their future weapon systems. I certify that neither I nor my spouse has any financial interest in this project.

I am requesting funding for the Beneficial Infrastructure for Rotorcraft Risk Reduction (BIRRRD) in fiscal year 2010. The entity to receive funding for this project is Dragonfly Pictures, Inc. located at 600 West End of 2nd St., Essington, PA 19029. The BIRRRD Program will deliver aircraft and test infrastructure to the Army Research Lab (ARL). ARL and DPI will use the test infrastructure to help develop the aircraft to emerging Army and FAA certification standards. The UAS will demonstrate technologies that can be transitioned to meet the requirements of existing military requirements, including the \$240 million Navy Small Tactical Unmanned Aircraft System (STUAS), USMC Tier II, USCG National Security Cutter, Navy Maritime Domain Awareness, Defense Threat Reduction Agency (DTRA), and the Telemedicine and Advanced Technology Research Center (TATRC). DPI has successfully competed for and received 12 awards from these, as well as other, organizations. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Quiet Drive Advanced Rotary Actuator in fiscal year 2010. The entity to receive funding for this project is Moog Inc. located at Jamison Road, East Aurora, NY 14052. The immediate naval application will be used on submarines (such as bow planes and other structures employing actuator technology). Actuators convert energy from hydraulic, air, or electric power to achieve mechanical movement and control of heavy or remote devices. Current Navy ships have between 100 to 3,000 actuators each. At present, these actuators typically use old style hydraulic technology. Successful completion of the technology will reduce shipboard personnel and reduce repair and maintenance costs. The Department of the Navy has repeatedly stated its desire for an all-electric ship. Environmental hazards associated with hydraulic systems will also be eliminated by moving to an electric actuator. Under prior funding, there has been constructed an electric motor which is currently being evaluated. The present design does not meet the strict acoustic requirements of the US Navy. The company, using internal funding, will analyze the prototype, correcting these and other technical issues. Computer models are now being constructed to aid in the analysis and physical models will be built to verify the analytical conclusions. Alternate design concepts will be developed and analyzed with the best proposed as the system solution. I certify that neither I nor my spouse has any financial interest in this project.

I am requesting funding for the Mismatch Repair Derived Antibody Medicines to Treat Staphylococcus-derived Bioweapons in fiscal year 2010. The entity to receive funding for this project is Morphotek, Inc. (Defense) located at 210 Welsh Pool Road, Exton, PA 19341. Staphylococcal-based bioweapons are considered one of the highest risk to our national security and protection of our military personnel due to ease of development by terrorist groups and rogue nations. New potent medicines will reduce this threat and make their use as agents of terror or weapons minimal. Medicines appear effective in animal studies and require additional development for final validation before use in the field. I am requesting funding for the Portable Mobile Emergency Broadband System in fiscal year 2010. The entity to receive funding for this project is Rajant Corporation (defense) located at 400 East King Street, Malvern, PA 19355. Currently available portable wireless communication systems have bandwidth limitations and force compromises that are unacceptable for high quality video and other information sources necessary for military situational awareness. Direct benefits of this work are improved operational efficiencies and lowered costs for military units due to the network's ability to carry comprehensive maintenance and health monitoring applications that will dramatically reduce the maintenance cycle for vehicles, and the equivalent of placing more vehicles in production roles. RE: Cadmium Emissions Reduction – Letterkenny Army Depot

Dear Chairman Obey and Ranking Member Lewis:

I am contacting you in compliance with the rules of the House of Representatives for the 111<sup>th</sup> Congress. In the Fiscal Year (FY) 2010 Defense Appropriations bill, RDT&E, Army, Line 66, PE# 0603779A, Environmental Quality Technology, I am requesting funding for Cadmium Emissions Reduction – Letterkenny Army Depot. The entity to receive funding for this project is the United States Army. The contractor is Mountain Research, LLC, 825 25<sup>th</sup> Street, Altoona, PA 16601. The project will take place at the Letterkenny Army Depot, Chambersburg, PA.

It is my understanding that funding for this project would be used to leverage commercially and government developed technology to address mission critical remediation, compliance, pollution prevention, and sustainability issues. The project focuses on implementation of technologies to reduce cadmium emissions at Letterkenny Army Depot. To the best of my knowledge, I certify that neither I nor my spouse has any direct or foreseeable financial interest in this project, which I define as “direct personal or pecuniary interest” under Clause 1 of House Rule III.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

RE: Nurse Education – Center of Excellence for Remote & Medically Under-Served Areas (CERMUSA)

Dear Chairman Obey and Ranking Member Lewis:

I am contacting you in compliance with the rules of the House of Representatives for the 111<sup>th</sup> Congress. In the Fiscal Year (FY) 2010 Defense Appropriations bill, RDT&E, Army, Line 30, PE# 0603002A, Medical Advanced Technology, I am requesting funding for Nurse Education – Center of Excellence for Remote & Medically Under-Served Areas (CERMUSA). The entity to receive funding for this project is the United States Army. The contractor is Saint Francis University, 117 Evergreen Drive, Loretto, PA 15940.

It is my understanding that funding for this project would be used to allow CERMUSA to collaborate with clinical partners and other key Army stakeholders to develop and implement a multi-pronged strategy to address the core issues impacting the military's ability to maintain the supply of active duty registered nurses. To the best of my knowledge, I certify that neither I nor my spouse has any direct or foreseeable financial interest in this project, which I define as "direct personal or pecuniary interest" under Clause 1 of House Rule III.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

RE: AFATDS Voice Recognition and Cross Platform Speech Interface System

Dear Chairman Obey and Ranking Member Lewis:

I am contacting you in compliance with the rules of the House of Representatives for the 111<sup>th</sup> Congress. In the Fiscal Year (FY) 2010 Defense Appropriations bill, RDT&E, Army, Line 154, PE# 0203726A, Adv Field Artillery Tactical Data System, I am requesting funding for AFATDS Voice Recognition and Cross Platform Speech Interface System. The entity to receive funding for this project is the United States Army. The contractor is Szanca Solution, Inc, 100 East Pitt Street, Bedford, PA 15522.

It is my understanding that funding for this project would be used to provide voice activation to legacy command and control systems to improve the ease of use, accuracy, and timeliness of the systems. To the best of my knowledge, I certify that neither I nor my spouse has any direct or foreseeable financial interest in this project, which I define as "direct personal or pecuniary interest" under Clause 1 of House Rule III.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

RE: ALC Logistics Integration Environment

Dear Chairman Obey and Ranking Member Lewis:

I am contacting you in compliance with the rules of the House of Representatives for the 111<sup>th</sup> Congress. In the Fiscal Year (FY) 2010 Defense Appropriations bill, RDT&E, Air Force, Line 221, PE# 0708611F, Support Systems Development, I am requesting funding for ALC Logistics Integration Environment. The entity to receive funding for this project is the United States Air Force. The contractor is IS2 Technologies, Inc., 3018 Pleasant Valley Blvd., Altoona, PA 16602.

It is my understanding that funding for this project would be used to develop a Logistics Integration Environment using COTS software that facilitates pulling together teams of people to optimize battlefield readiness and improve the availability of aircraft and associated subsystems. To the best of my knowledge, I certify that neither I nor my spouse has any direct or foreseeable financial interest in this project, which I define as "direct personal or pecuniary interest" under Clause 1 of House Rule III.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

RE: Defense Support for Civil Authorities (DSCA) for Key Resource Protection – South Central, PA

Dear Chairman Obey and Ranking Member Lewis:

I am contacting you in compliance with the rules of the House of Representatives for the 111<sup>th</sup> Congress. In the Fiscal Year (FY) 2010 Defense Appropriations bill, RDT&E, Army, Line 17, PE# 0602624A, Weapons and Munitions Technology, I am requesting funding for Defense Support for Civil Authorities (DSCA) for Key Resource Protection – South Central, PA. The entity to receive funding for this project is the United States Army. The contractor is L. Robert Kimball & Associates, 615 West Highland Avenue, Ebensburg, PA 15931. The project will take place primarily in Franklin County, PA.

This project will establish EGIS in South Central, PA to advance NIPP objectives. Response-specific intelligence will provide emergency responders and homeland defense personnel with essential situational awareness information required to protect critical infrastructure. To the best of my knowledge, I certify that neither I nor my spouse has any direct or foreseeable financial interest in this project, which I define as “direct personal or pecuniary interest” under Clause 1 of House Rule III.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. RE: Rural Health – Center of Excellence for Remote & Medically Under-Served Areas (CERMUSA)

Dear Chairman Obey and Ranking Member Lewis:

I am contacting you in compliance with the rules of the House of Representatives for the 111<sup>th</sup> Congress. In the Fiscal Year (FY) 2010 Defense Appropriations bill, RDT&E, Army, Line 30, PE# 0603002A, Medical Advanced Technology, I am requesting funding for Rural Health – Center of Excellence for Remote & Medically Under-Served Areas (CERMUSA). The entity to receive funding for this project is the United States Army. The contractor is Saint Francis University, 117 Evergreen Drive, Loretto, PA 15940.

It is my understanding that funding for this project would be used to perform applied military research in telehealth, distance learning, and telerehabilitation to benefit individuals, healthcare facilities, and educational entities in rural and remote regions. To the best of my knowledge, I certify that neither I nor my spouse has any direct or foreseeable financial interest in this project, which I define as “direct personal or pecuniary interest” under Clause I of House Rule III.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Accelerator-Driven Non-Destructive Testing in Fiscal Year 2010. The entity to receive funding for this project is Idaho State University, located at 921 South 8<sup>th</sup> Avenue, Stop 8007, Pocatello, Idaho 83209. The funding would be used to continue development of penetrating and non-destructive testing (NDT) techniques utilizing new techniques in positron annihilation spectroscopy with accelerator-based gamma-beams, and the use of mono-chromatic x-ray beams that are produced by colliding high-power laser beams with high-energy electron beams. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I would like to notify you of a change in one of my appropriations requests. M2E Power was recently purchased by another Idaho based company, Motionetics, Inc. Thus, I would like to respectfully request that you change the entity to receive funding in Fiscal Year 2010 for the Hybrid Power Generating System from M2E Power to Motionetics, Inc.. Motionetics Inc. is located at 875 West McGregor Court, Suite 150, Boise, Idaho 83705. The funding would be used to develop technology using compressed magnetic fields which can generate power and reduce the military's dependence on disposable batteries. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds. In addition, I have posted information regarding this request on my official House website in compliance with Chairman Obey's new rules.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Ship Repair Facility at the Military Ocean Terminal in Bayonne, New Jersey in fiscal year 2010. The entity to receive funding for this project is the Local Redevelopment Authority of Bayonne, New Jersey, The Peninsula at Bayonne Harbor, 51 Port Terminal Boulevard, Suite 21, Bayonne, New Jersey 07002-5035. The funding would be used to construct/stabilize 1,380 linear feet of decaying bulkhead and eroding shoreline of the N-2 berth area of the former Military Ocean Terminal at Bayonne (MOTBY) in the first phase of Berth N-2 reconstruction. The reconstructed Berth N-2 at the former MOTBY, combined with the recently-completed extension of Berth N-1 platform, will provide over 2,600 linear feet of functional berthing capacity on the Bayonne side of the Port Jersey Channel for large military ships and other federal vessels in the event of national defense emergency. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Security for Critical Communication Networks (SCCN) in fiscal year 2010. The entity to receive funding for this project is the Stevens Institute of Technology, Castle Point on the Hudson, Hoboken, New Jersey 07030. Current and future military, intelligence systems and critical civilian infrastructure consist of networks with different architectures and complexity. The funding for SCCN would be used to help fill these high priority needs through one comprehensive and coherent initiative that establishes the highest levels of cross disciplinary research, technology development, and education. The new initiative builds on well developed research and education which was established through earlier components of the SCCN in systems, enterprises, cyber security, cryptography, financial engineering, software engineering, quantum physics, human factors and wireless network security. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Conversion of Municipal Solid Waste to Renewable Diesel in Fairfield, New Jersey in fiscal year 2010. The entity to receive funding for this project is Covanta Energy, 40 Lane Road, Fairfield, New Jersey 07004. The funding would be used to provide an assessment of commercially-available technologies and examine existing best practices for using MSW, and potentially other feedstocks, to create renewable diesel. It will also research and test catalytic and non-catalytic systems to convert organic materials into renewable diesel that meets stringent EPA requirements for low sulfur content, resulting in a cleaner burning fuel and added environmental benefits. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Chairman Murtha:

I am requesting funding for work in the area of fly-by-wire flight control systems in fiscal year 2010.

The entity to receive funding for this project is the Calspan Flight Research Group, located at 2041 Niagara Falls Blvd, Niagara Falls, NY 14301. The funding would be used for the modification of the X-49A Vectored Thrust Ducted Propeller Compound Helicopter Technology Demonstrator to enable full flight envelope expansion.

Pursuant to clause 17(a)(5) of Rule XXIII of the Rules of the House of Representatives for the 111<sup>th</sup> Congress, I hereby certify that neither I nor my spouse has any financial interest in such congressional earmark.

Dear Chairman Obey and Chairman Murtha:

I am requesting funding for a quiet drive advanced rotary actuator in fiscal year 2010.

The entity to receive funding for this project is Moog, Inc. located at 300 Jamison Road, East Aurora, NY. The funding would be used to develop actuators that will provide the Navy with a performance improvement and lifecycle cost advantage compared to today's hydraulic rotary actuator in the Navy's efforts to develop all-electric ships and submarines.

Pursuant to clause 17(a)(5) of Rule XXIII of the Rules of the House of Representatives for the 111<sup>th</sup> Congress, I hereby certify that neither I nor my spouse has any financial interest in such congressional earmark.

I am requesting funding for a project titled Portable Device for Latent Fingerprint Identification in fiscal year 2010.

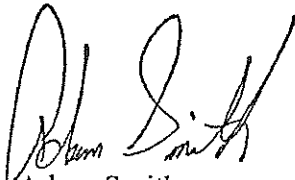

The entity to receive funding for this project is:

Sagem Morpho  
1145 Broadway Plaza, Suite 200  
Tacoma, WA 98402

This funding will be used to develop a portable device that will be used by operators in the field to search, capture, and identify latent fingerprints. This is a good use of tax payer funds because developing such a device will allow for more rapid identification and response to terrorists and criminals by military forces, intelligence professionals, and law enforcement agents.

I certify that neither I nor my spouse has any financial interest in this project.

This funding will be used for clinical trials on a second generation malaria vaccine. This is a good use of taxpayer funds because military personnel continue to deploy to areas that are threatened by malaria, and a vaccine is needed to protect our troops from the disease.

I certify that neither I nor my spouse has any financial interest in this project.

This funding will be used to research and develop a unique, next generation system that will be used by military personnel on the ground to detect and jam enemy communications, IEDs, and other electronic warfare (EW) threats. This is a good investment of taxpayer funds because the technology not only could save lives but also provide cost savings by combining the capabilities of multiple programs into one system.

Franciscan Health System  
1717 South J Street  
Tacoma, WA 98405

MultiCare Health System  
315 Martin Luther King Jr Way  
Tacoma, WA 98405

This project provides critical trauma training for military medical personnel at local civilian hospitals. This is a good use of tax payer funds because it provides military physicians with the necessary training to meet the current challenges faced abroad while at the same time providing essential Level II trauma treatment for South King, Pierce, Kitsap, and Thurston Counties and southwest Washington.

I certify that neither I nor my spouse has any financial interest in this project.

The entity to receive funding for this project is:

University of Washington  
Surgery Pavilion, room SP-1120  
1959 NE Pacific St  
Seattle, WA 98195

This project will allow for the expanded use of health care simulation technologies by the Department of Defense. This is a good use of tax payer funds because simulation technologies can improve the quality of healthcare education and patient safety as well as reduce training and medical expenses.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations Act, Research, Development, Test and Evaluation, Army Account for ISR Simulation Integration Laboratory at Lakehurst. Funding for this project will go to the Communications-Electronic Research, Development and Engineering Center at NAES Lakehurst. It is my understanding that the funding would be used to establish a facility to test, evaluate and maintain UAS systems and sensors and provide training for operators for the platform and sensor payloads in order to meet joint service operations. I certify that neither I nor my spouse has any financial interest in this project.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations Act, Research, Development, Test and Evaluation, Navy Account for Marine Mammal Detection System. Funding for this project will go to Integrated Systems Solutions, Inc, located at Naval Air Engineering Station, Lakehurst. It is my understanding that the funding would be used to demonstrate the feasibility of using an advanced sensor-carrying, low-speed, long-endurance air vehicle, such as an airship, to provide affordable, persistent marine mammal detection and tracking in coastal training ranges used by the US Navy fleet. I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Process Integrated Mechanism for Human-Computer Collaboration and Coordination in fiscal year 2010. The entity to receive funding for this project is Florida Institute for Human and Machine Cognition, 15 Southeast Osceola Avenue, Ocala, FL, 34471. It is my understanding that the funding would be used for the coordination of effectively tying together computers and humans into a single system that will allow military organizations to form human/machine-coordinated teams. Efficient coordination mechanisms can greatly improve safety, robustness, quality and efficiency of overall human-machine operations. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Remote Environmental Monitoring and Diagnostics in the Perishable Supply Chain in fiscal year 2010. The entity to receive funding for this project is the University of Florida, Tigert Hall, Post Office Box 113157, Gainesville, FL, 32611. It is my understanding that the funding would be used for a multidisciplinary program to identify and demonstrate wireless technologies such as radio frequency identification (RFID) in a simulated perishables supply chain. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the FY10 Defense Appropriations Bill, Research, Development, Test and Evaluation, Navy, Advanced Surface Machinery Systems Account for High Density Power Conversion and Distribution Equipment. The entity to receive funding for this project is Westwood Corporation, L-3 Communications at 12402 East 60<sup>th</sup> Street Tulsa, OK 74146. It is my understanding that the funding would go to provide engineering models of advanced power distribution using inline switching devices. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting member of Congress; (2) is not intended to be used by an entity to secure funds or other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

The Honorable John Murtha  
Chairman  
Subcommittee on Defense  
Appropriations Committee  
H-149, The Capitol  
Washington, DC 20515

Dear Chairman Murtha,

I am requesting funding for the Counter-proliferation Analysis and Planning System (CAPS) in fiscal year 2010. The entity to receive funding for this project is Lawrence Livermore National Laboratory (LLNL), located at 7000 East Avenue, Livermore, CA 94550-9234. The funding would be used for Lawrence Livermore National Laboratory to continue providing subject matter expertise for the Counter-proliferation Analysis and Planning System, which supports military planners and intelligence analysts in identifying facilities and buildings that are the critical nodes in the WMD manufacturing process, and performs analyses of the consequences – both positive and negative – of interdiction.

I certify that I do not have any financial interest in this project.

Sincerely,

Ellen O. Tauscher

Dear Chairman Murtha,

I am requesting funding for the Semiconductor Photomask Technology Infrastructure Initiative in fiscal year 2010. The entity to receive funding for this project is KLA – Tencor, Inc., located at 160 Rio Robles, San Jose, CA 95134. The funding would be used to support domestic infrastructure research and development that will assure a continued supply of trusted semiconductor components. This includes sources of key domestic manufacturing tools to manufacture trusted components for critical defense systems in compliance with DoD National Security Policy.

I certify that I do not have any financial interest in this project.

Dear Chairman Obey:

During meetings and conversations with mayors, town administrators, representatives of public and private organizations and other interested stakeholders, several items of importance to entities or residents in the cities and towns which I represent have been brought to my attention.

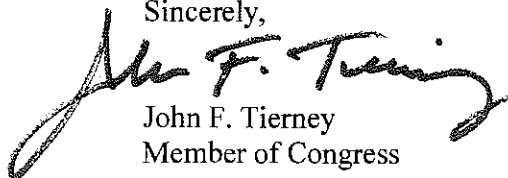

**Battle-Proven PackBot**

Potential Recipient: IRobot Corporation  
8 Crosby Drive  
Bedford, MA 01730

According to the company, more than 2,400 iRobot Packbots have been deployed in Iraq and Afghanistan to date. Federal funding is being requested to assist IRobot with their efforts to make significant upgrades to its Packbot with the aim of providing soldiers a safer, more effective method to detect and disarm dangerous devices such as improvised explosive devices (IEDs).

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chairman Obey:

During meetings and conversations with mayors, town administrators, representatives of public and private organizations and other interested stakeholders, several items of importance to entities or residents in the cities and towns which I represent have been brought to my attention.

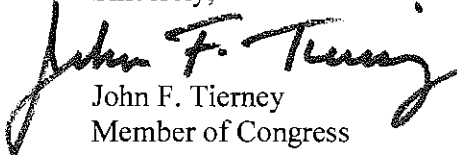

**Integrated Advanced Ship Control (iASC)**

Potential Recipient: Henschel  
9 Malcolm Hoyt Drive  
Newburyport, MA 01950

Henschel believes iASC will offer an improvement in ship-wide controls by standardizing control systems across classes of Navy ships while significantly reducing life-cycle costs associated with training personnel on outmoded equipment.

I certify that neither I nor my spouse has any financial interest in this project.

**ALON Optical Ceramics**

Potential Recipient: Surmet Corporation  
31B Street  
Burlington, MA 01803

ALON, a transparent material, is reportedly recognized as the premier transparent armor material with 50 percent weight and thickness reduction compared to current hard-glass armor. However, while government ballistic and improvised explosive device (IED) testing have shown positive results, according to Surmet, the material is not currently produced in sufficiently large quantities for transparent armor applications.

I am requesting funding for the Atair Aerospace Onyx System Precision Guided Airdropped Equipment Program in fiscal year 2010. The entity to receive funding for this project is Atair Aerospace, located at 499 Van Brunt , 3B, Brooklyn, NY 11231. The funding would be used to create project ONYX. ONYX will provide a safer and more effective way to drop cargo. Conventional cargo airdrops must be performed at altitudes well below 35,000 feet and at a much slower speed. ONYX will be able to drop cargo at altitudes up to 35,000 feet, speeds up to 150 KIAS, and with a precision of 75 meters. Air crews are much safer at these speeds and altitudes because the many threats of flying at lower altitudes are reduced. Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for an Integrated Electrical Starter/Generator in fiscal year 2010. The entity to receive funding for this project is GE Aviation Systems, Electrical Power, 740 E. National Rd, Vandalia, OH 45377. The funding would be used to help develop a pre-prototype, sensor-less IES/G to demonstrate the feasibility of supplying both main engine start function and the electrical power necessary to operate all aircraft systems. I certify that neither I nor my spouse has any financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Brain Safety Net in fiscal year 2010. The entity to receive funding for this project is the University of Oregon, located at 103 Johnson Hall, Eugene, OR 97403. It is my understanding that funds for this project would help develop and optimize evidence-based treatments of soldiers and civilians suffering from amputations, traumatic brain injuries (TBI) and neurological disorders such as epilepsy. I certify that neither I nor my spouse has any financial interest in this project.

This request will be made publically available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; and (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark. Should funding be provided to this entity, I will ask them to certify their intent to comply with all statutory obligations. Should this request be included in the bill, I will place a statement in the Congressional Record describing the entity's plan for how the money will be spent and their justification for the use of federal taxpayer funds.

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for ONAMI Safer Nanomaterials and Nanomanufacturing in fiscal year 2010. The entities to receive funding for this project are the University of Oregon/Oregon State University/Portland State University/Oregon Nanosciences and Microtechnologies Institute, located at the University of Oregon, Eugene, OR 97403. It is my understanding that funds for this project would use proactive strategies to develop nanomaterials and nanomanufacturing methods which are inherently safer and not detrimental to the environment or health; this directly impacts the Department of Defense's need for high-performance materials. I certify that neither I nor my spouse has any financial interest in this project.

This request will be made publically available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

**Memorial Healthcare System**  
3501 Johnson Street  
Hollywood, FL 33021

The funding would be used for **the Brain Interventional-Surgical Hybrid Initiative, which incorporates clinical research to develop therapeutic approaches to enable the human nervous system to recover from major trauma involving blunt or penetrating brain injury or brain attack brought on by mass lesion, disease or pre-existing vascular abnormality triggered by head trauma. This integrated research program addresses traumatic brain injury, one of the most significant types of casualty being experienced by our military personnel in Iraq and Afghanistan as well as by civilian populations affected by these conflicts.**

**I certify that neither I nor my spouse has any financial interest in this project.**

Sincerely,

Debbie Wasserman Schultz

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for the Vermont National Guard in the fiscal year 2010 Defense Appropriations bill. The entity to receive funding for this project is the Vermont National Guard located at 789 Vermont National Guard Road, Colchester, VT, 05446-6358. The funding would be used for the purchase of needed security equipment. I certify that neither my wife Margaret Cheney nor I have financial interest in this project.

If you have any questions, please contact Mary Sprayregen of my staff at 202-226-8244.

Sincerely,

Peter Welch

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Underwater Imaging and Communications Using Lasers, Florida Atlantic University in the amount of \$2000000 in fiscal year 2010.

The entity to receive funding for this project is Florida Atlantic University, located at 777 Glades Road, Boca Raton, FL 33431.

The funding would be used to configure, test and evaluate the optimal system alternatives defined by the FY 2009 outcomes, including the further refinement and packaging of these novel miniaturized technologies which offer quantum leap performance improvement over the currently used systems, for identifying and communicating the threat in turbid littoral waters.

I certify that neither I nor my spouse has any financial interest in this project.

Dear Chair Obey and Ranking Member Lewis:

I am requesting funding for Characterization and Exploitation of Magnetic and Electric Fields in the Coastal Ocean Environment, Florida Atlantic University in the amount of \$2500000 in fiscal year 2010.

The entity to receive funding for this project is Florida Atlantic University, located at 777 Glades Road, Boca Raton, FL 33431.

The funding would be used to study the characteristics of the magnetic and electric fields in the coastal ocean environment and the development of predictive techniques in support of cancellation of magnetic signatures of ships and submarines so that they can be protected from magnetically-triggered buried mines in coastal waters as well as in support of developing advanced technologies for new ships equipped with magnetic railguns that are likely to have considerable magnetic signatures. The program will involve at-sea experiments at the Naval Surface Warfare Center Carderock Division's South Florida Ocean Measurement Facility co-located with the Florida Atlantic University SeaTech campus on Florida's south east coast about two miles north of Fort Lauderdale.

I certify that neither I nor my spouse has any financial interest in this project.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding for Enabling Optimization of Reactive Armor (RA) in fiscal year 2010. The entity to receive funding for this project is Ensign-Bickford Aerospace and Dynamics, located at P.O. Box 219, State Route 175, Graham, KY 42344. The funding will be used to develop a replacement for the current FAT AX-1 explosive using a new method of optimizing RA. This replacement explosive will take advantage of all the benefits of LF-2 yielding an explosive composition that meets the demanding performance requirements of AX-1 while gaining the IM compliance, ease of manufacturing and long term storage ability of LF-2. The Enabling Optimization of Reactive Armor (RA) program will strengthen the US industrial base with establishment of technical competency for continued development in the RA/NERA field in support of US Military vehicle survivability advancement. Funding will enable optimization of current Reactive Armor (RA) technology for emerging threat/multi-threat capability, increased safety and investigate and develop novel processes and materials for RA mounting and manufacturing for the Abrams FAT and Abrams Reactive Armor Tile (ARAT) systems and future NERA exploitation. This will lead to increased survivability of US tanks and armored vehicles and enhance the security of the United States. I certify that neither I nor my spouse has any financial interest in this project.

I also certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. Additionally, consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Columbia, SC 29201

It is my understanding that the funding would be used for small arms and crew served weapons. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request: (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds.

Sincerely,

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding for Eagle Vision in Fiscal Year 2010.

The entity to receive funding for this project is:  
South Carolina Air National Guard, McEntire JNGB  
1325 South Carolina Road  
Eastover, SC 29044

It is my understanding that the funding would be used for continuing the infrared capabilities of Eagle Vision which can look through all types of weather (hurricane, tornadoes, cloud cover, etc.) during the event for an immediate damage assessment. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, from the Navy Research, Development, Test And Evaluation Agency, 42 0603561N Advanced Submarine System Development Account for the Advanced Submarine Systems Development SSBN(X). The entity to receive funding for this program is the Northrop Grumman Corporation, 1000 Wilson Blvd, Suite 2300, Arlington, VA 22209 and the General Dynamics Corporation, 2941 Fairview Park Drive Suite 100, Falls Church, Virginia 22042-4513. It is my understanding that the funding would be used to conduct the SBSB concept study plan originally planned for FY08 and FY09 which has not been fully funded, and to support R&D technology development.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY10 Defense Appropriations bill, from the Air Force Research, Development, Test And Evaluation Agency, 8 0602102F Materials Account for the Aerospace Laser Micro Engineering Station. The entity to receive funding for this program is the Jefferson Science Associates on behalf of Jefferson Lab, 12000 Jefferson Avenue, Newport News, VA 23606. It is my understanding that the funding would be used to make mass-producible satellites possible using <10 hours with the JLab UV FEL as compared to 270 hours using a conventional UV laser making it possible to address new and unique missions not accessible using conventional satellite technology.

I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered. I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of my spouse or me.

The Honorable David R. Obey, Chairman  
The Honorable Jerry Lewis, Ranking Member  
Committee on Appropriations  
H-218 The Capitol  
Washington, D.C. 20515

Dear Chairman Obey and Ranking Member Lewis:

This is to request \$1,000,000 in funding in the Fiscal Year 2010 Defense Appropriations Bill, Department of Defense Agency, Operations Navy Other Procurement, Navy, 107 Aegis Support Equipment account. The entity that will receive funding under this request is Mikros Systems located at 7887 Bryan Dairy Road, Suite 220, Largo, Florida 33777. It is my understanding that the funding will be used for Adaptive Diagnostic Electronic Portable Test Set (ADEPT). I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the Congressional Record describing how the funds will be spent and justifying the use of federal taxpayer funds. (4) I hereby certify that this request will be made publicly available on my Official Website as required by Chairman Obey's new Committee policy that only posted requests will be considered.

With best wishes and personal regards, I am

Very truly yours,
