

Strategic Plan

TABLE OF CONTENTS

Letter to the Reader	page iii
Foreword	iv
List of Figures	xi
List of Tables	xiii
List of Boxes	xiv
List of Acronyms and Abbreviations	xiv
1 Introduction	1
1.1 U.S. Leadership and Presidential Commitment	3
1.2 U.S. Climate Change Science Program	5
1.3 U.S. Climate Change Technology Program	6
The Potential Role of Technology	7
1.4 Continuing Process	7
1.5 References	8
2 Vision, Mission, Goals and Approaches	9
2.1 Vision and Mission	10
2.2 Strategic Goals	10
2.3 Core Approaches	16
2.4 Prioritization Process	20
Portfolio Planning Principles	20
Portfolio Planning and Investment Criteria	21
Application of Criteria.....	22
2.5 Management	23
Executive Direction	23
Interagency Planning and Integration	23
Agency Implementation	24
External Interactions	24
Program Support	24
2.6 Strategic Plan Outline	24
3 Synthesis Assessment of Long-Term Climate Change Technology Scenarios	25
3.1 The Greenhouse Gases	26
3.2 Factors Affecting Future GHG Emissions	27
CO ₂ Emissions from Energy Consumption	28
CO ₂ Emissions and Sequestration from Changes in Land Use	32
Other Greenhouse Gases	33

3.3 Analytical Context for CCTP Planning	page 33
3.4 Exploring the Role for Advanced Technology	37
Reference Case, Baseline, and Advanced Technology Scenarios	38
Economic Benefits of Advanced Technologies	40
Timing of Advanced Technology Market Penetration	43
3.5 CCTP Goals for Advanced Technology	44
Energy End-Use Efficiency and Infrastructure	44
Low- and Zero-CO ₂ Energy Supply Technologies	45
Carbon Capture/Storage and Sequestration	47
Capture and Storage of Carbon Dioxide	47
Terrestrial Sequestration	48
Non-CO ₂ GHG Emissions	49
Summary: Relative Contributions of the Four CCTP Goals	50
3.6 Summary of Insights	51
3.7 References	53
4 Reducing Emissions from Energy End-Use and Infrastructure	57
4.1 Transportation	58
Potential Role of Technology	59
Technology Strategy	59
Current Portfolio	60
Future Research Directions	62
4.2 Buildings	62
Potential Role of Technology	63
Technology Strategy	63
Current Portfolio	64
Future Research Directions	66
4.3 Industry	67
Potential Role of Technology	67
Technology Strategy	69
Current Portfolio	69
Future Research Directions	71
4.4 Electric Grid and Infrastructure	72
Potential Role of Technology	73
Technology Strategy	74
Current Portfolio	75
Future Research Directions	77
4.5 Summary	78
4.6 References	80
5 Reducing Emissions from Energy Supply	81
5.1 Low-Emission, Fossil-Based Fuels and Power	83
Potential Role of Technology	83
Technology Strategy	84
Current Portfolio	84
Future Research Directions	85

5.2 Hydrogen	page 86
Potential Role of Technology	86
Technology Strategy	88
Current Portfolio.....	88
Future Research Directions	91
5.3 Renewable Energy and Fuels	92
Potential Role of Technology	95
Technology Strategy	96
Current Portfolio.....	98
Future Research Directions	101
5.4 Nuclear Fission	103
Potential Role of Technology	103
Technology Strategy	104
Current Portfolio.....	104
Future Research Directions	106
5.5 Fusion Energy	107
Potential Role of Technology	107
Technology Strategy	108
Current Portfolio.....	109
Future Research Directions	110
5.6 Summary	110
5.7 References	112
6 Capturing and Sequestering Carbon Dioxide	113
6.1 Carbon Capture	114
Potential Role of Technology	115
Technology Strategy	115
Current Portfolio.....	115
Future Research Directions	116
6.2 Geologic Storage	117
Potential Role of Technology	118
Technology Strategy	118
Current Portfolio.....	119
Future Research Directions	120
6.3 Terrestrial Sequestration	122
Potential Role of Technology	122
Technology Strategy	123
Current Portfolio.....	123
Future Research Directions	126
6.4 Ocean Sequestration	127
Potential Role of Technology	128
Technology Strategy	128
Current Portfolio.....	128
Future Research Directions	128
6.5 Summary	130
6.6 References	132

7	Reducing Emissions of Non-CO₂ Greenhouse Gases	page 135
	7.1 Methane Emissions From Energy and Waste	139
	Landfills	139
	Potential Role of Technology	140
	Technology Strategy	140
	Current Portfolio	140
	Future Research Directions	141
	Coal Mines	141
	Potential Role of Technology	142
	Technology Strategy	143
	Current Portfolio	143
	Future Research Directions	144
	Natural Gas and Petroleum Systems	144
	Potential Role of Technology	144
	Technology Strategy	144
	Current Portfolio	145
	Future Research Directions	145
	7.2 Methane and Nitrous Oxide Emissions from Agriculture	146
	Advanced Agricultural Systems for Nitrous Oxide Emissions Reductions	146
	Potential Role of Technology	146
	Technology Strategy	147
	Current Portfolio	147
	Future Research Directions	148
	Methane and Nitrous Oxide Emissions from Livestock and Poultry Manure Management	148
	Potential Role of Technology	148
	Technology Strategy	149
	Current Portfolio	149
	Future Research Directions	149
	Methane Emissions from Livestock Enteric Fermentation	150
	Potential Role of Technology	150
	Technology Strategy	150
	Current Portfolio	150
	Future Research Directions	150
	Methane Emissions from Rice Fields.....	151
	7.3 Emissions of High Global-Warming Potential Gases	152
	Substitutes for Ozone Depleting Substances.....	152
	Potential Role of Technology	152
	Technology Strategy	152
	Current Portfolio	152
	Future Research Directions	153
	Industrial Use of High GWP Gases	154
	Potential Role of Technology	154
	Technology Strategy	154
	Current Portfolio	154
	Future Research Directions	155

7.4 Nitrous Oxide Emissions from Combustion and Industrial Sources	page 156
Combustion	157
Potential Role of Technology	157
Technology Strategy	157
Current Portfolio	157
Future Research Directions	157
Industrial Sources	158
Potential Role of Technology	158
Technology Strategy	158
Current Portfolio	158
Future Research Directions	158
7.5 Emissions of Tropospheric Ozone Precursors and Black Carbon	159
Potential Role of Technology	159
Technology Strategy	159
Current Portfolio.....	160
Future Research Directions	160
7.6 Summary	162
7.7 References	164

8 Enhancing Capabilities to Measure and Monitor Greenhouse Gases ..165

8.1 Potential Role of Technology	166
8.2 Energy Production and Efficiency Technologies	168
Technology Strategy	168
Current Portfolio.....	169
Future Research Directions	169
8.3 CO₂ Capture and Sequestration	169
Geologic Sequestration	170
Technology Strategy	170
Current Portfolio	170
Future Research Directions	171
Terrestrial Sequestration	171
Technology Strategy	171
Current Portfolio	172
Future Research Directions	173
Oceanic Sequestration.....	174
Technology Strategy	174
Current Portfolio	174
Future Research Directions	174
8.4 Other Greenhouse Gases	176
Technology Strategy	176
Current Portfolio.....	176
Future Research Directions	177

8.5 Integrated Measurement and Monitoring System Architecturepage 179
 Technology Strategy179
 Current Portfolio.....180
 Future Research Directions181
8.6 Conclusions182
8.7 References.....184

9 Bolster Basic Science Contributions to Technology Development.....185

9.1 Strategic Research186
 Research Supporting Emissions Reductions from Energy End-Use
 and Infrastructure187
 Research Supporting Emissions Reductions from Energy Supply190
 Research Supporting Capture and Sequestration of Carbon Dioxide193
 Research Supporting Emissions Reductions of Non-CO₂ Greenhouse Gases.....195
 Basic Research Supporting Enhanced Capabilities to Measure and Monitor
 Greenhouse Gases195
 Cross-cutting Strategic Research Areas196
9.2 Fundamental Science196
 Physical Sciences196
 Biological Sciences.....198
 Environmental Sciences199
 Advanced Scientific Computation200
 Fusion Sciences200
9.3 Exploratory Research201
 Novel Concepts201
 Advanced Concepts202
 Integrative Concepts202
 Enabling Concepts202
 Integrated Planning and Decision-Support Tools.....203
9.4 Toward Enhanced Integration in R&D Planning Processes204
9.5 References.....206

10 Summary and Next Steps.....207

10.1 Summary207
10.2 Next Steps.....213
10.3 Closing.....216

**Appendix A – Federal Research, Development, Demonstration, and Deployment
Investment Portfolio for Fiscal Years 2005 and 2006, with Budget Request
Information for Fiscal Year 2007, U.S. Climate Change Technology Program**217
A.1 Climate Change Technology Program Classification Criteria217
A.2 Climate Change Technology Program Example Activities218
A.3 CCTP Participating Agencies, Budgets, and Requests.....218

**Appendix B – National Climate Change Technology Initiative Priorities –
FY 2007 Request**221
