

**Fiscal Year 2010  
Interior Environment and  
Related Agencies**

<b>Name of Project</b>	<b>Project Funding Recipient</b>	<b>Purpose and Amount Requested</b>	<b>Location</b>	<b>Interest of the Taxpayer</b>
Breakthrough Programming for Durability and Housing	Mississippi State University	To elevate the partnership between the USDA Forest Service, Forest Products Laboratory and the Mississippi State University Forest Products Department to address critical and pressing issues of housing and component durability (\$2,000,000)	Mississippi State, MS	The housing construction and remodeling industry creates employment throughout the supply chain, from forest landowners, through timber conversion and value adding facilities, through transportation and distribution, onto the consumer.
Burns-Belfry Community Heritage Center	City of Oxford	For phase II of restoration of the Burns-Belfry Community Heritage Center (\$1,000,000)	Oxford, MS	Provides educational and cultural opportunities for the community
Center for Marine Resources and Environmental Infrastructure	University of Mississippi	Partnership with the Minerals Management Service - research on marine minerals (\$900,000)	University, MS - (Gulf of Mexico)	The monitoring station is designed to identify buried hydrates, determine what triggers their catastrophic failure, save hundreds of millions of dollars annually, by avoiding disasters and providing information leading to the safe, responsible recovery of hydrates and associated gas.
Historic Courthouse Restoration	Madison County	For restoration of a historic courthouse (\$5,000,000)	Madison County, MS	Preserves building of historical significance to community

Holt Collier Visitor's and Interpretive Center	Federal Gov't Fish and Wildlife Service	Planning and Design funding for authorized building project (\$4,000,000)	Sharkey County, MS	The primary purpose of the Center is to serve as the one place for a tourist to find information pertaining to all facets of his or her visit to the public lands and private recreational lands and waters of the Delta. The Center will highlight and educate on the life of Holt Collier and the conservation efforts of President Theodore Roosevelt, as this Center is located in the area most central to the historic location of the famous "teddy bear" hunt.
Integrated Management Systems for Invasive Aquatic and Riparian Vegetation	Mississippi State University	Development of a directed program of research and outreach to address the invasive species issue. (\$1,000,000)	Mississippi State, MS	Invasive species are a threat to natural resources, reducing the productivity of agricultural, forestry, wildlife and fisheries resources.
Lamar County Courthouse Restoration	Lamar County	For restoration of Circuit Courthouse built in 1905 (\$2,000,000)	Purvis, MS	Preserves building of historical significance to community
Mississippi Mercury Initiatives	University of Mississippi	To help identify mercury sources in the atmosphere and local environs from electricity generated by coal-fired plants (\$500,000)	University, MS	Mercury deposits threaten ecosystems and human health. Studies must be performed to determine sources of mercury in the environment.
Mississippi Mound Trail	Mississippi Lower Delta Partnership	A statewide partnership to help create the Mississippi Mound Trail; to help interpret and preserve the mounds. (\$200,000)	State of Mississippi	To educate the public about Mississippi's rich Native American history, and promote heritage tourism.

Natural Resources Economic Enterprises Program	Mississippi State University	Promotion of sustainable profitable conservation ethic among landowners, managers, and communities that include recreational enterprises with fish, wildlife, and forest/agricultural land. (\$1,000,000)	Mississippi State, MS	Appropriate stewardship and marketing of these renewable resources can increase tourism and family incomes for landowners and improve rural community economic stability.
Ohr-O'Keefe Museum of Art	Ohr-O'Keefe Museum of Art	For completion of construction (\$2,000,000)	Biloxi, MS	Provides educational and cultural opportunities for the community
Southern Hardwoods Research Station	Federal Government/US Forest Service	To provide private forest landowners and forest consultants with spanned management and restoration recommendations for bottomland hardwood management. (\$800,000)	Stoneville, MS	Rehabilitation of agricultural land historically converted from bottomland hardwood forest cover types.
State and Tribal Assistance Grant	Bolivar County	STAG-Wastewater-\$1,900,000	Bolivar County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Amory	STAG-Wastewater-\$1,900,000	Amory, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	City of Batesville	STAG-Wastewater - \$275,000	Batesville, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Biloxi	STAG-Drinking Water-\$600,000	Biloxi, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Brookhaven	STAG-Wastewater-\$2,500,000	Brookhaven, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Brookhaven (Brignal Fire Loop)	STAG-Water Infrastructure- \$850,000	Brookhaven, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Carthage	STAG-Wastewater-\$275,000	Carthage, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	City of Ellisville	STAG-Wastewater-\$4,400,000	Ellisville, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Flowood	STAG-wastewater-\$1,000,000	Flowood, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Forest	STAG-Wastewater-\$500,000	Forest, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Forest (Fountain Road Water Tank)	STAG-Drinking Water-\$660,000	Forest, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Forest (Water Well)	STAG-Drinking Water-\$825,000	Forest, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	City of Greenville	STAG-Wastewater, Storm Water- \$1,500,000	Greenville, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Grenada	STAG-Water Infrastructure- \$850,000	Grenada, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Gulfport	STAG-Drinking Water-\$500,000	Gulfport, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Hattiesburg	STAG-Wastewater, Storm Water- \$3,000,000	Hattiesburg, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Jackson	STAG-Drinking Water, Wastewater-\$6,000,000	Jackson, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	City of Louisville	STAG-Wastewater-\$5,394,000	Louisville, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Natchez	STAG-Drinking Water, Wastewater-\$1,210,000	Natchez, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Natchez	STAG-Drinking Water-\$1,250,000	Natchez, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Olive Branch (Maywood/Shahkoka Dam Restoration)	STAG-Water Infrastructure-\$2,000,000	Olive Branch, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Olive Branch (Sewer Rehab)	STAG-Wastewater-\$1,500,000	Olive Branch, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	City of Pascagoula	STAG-Wastewater-\$480,000	Pascagoula, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Pearl	STAG-Wastewater-\$500,000	Pearl, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Richland	STAG-Wastewater-\$1,000,000	Richland, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Ridgeland (LaRue/Hanging Moss Sewer Interceptor)	STAG-Wastewater-\$405,000	Ridgeland, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Ridgeland (Midway Well, groundwater)	STAG-Water Quality Protection- \$990,000	Ridgeland, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	City of Ridgeland (Midway Well, Sewer Interceptor)	STAG-Wastewater-\$550,000	Ridgeland, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Ridgeland (Western Water Infrastructure- Livingston Road)	STAG-Drinking Water- \$2,000,000	Ridgeland, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of Waynesboro	STAG-Drinking Water-\$750,000	Waynesboro, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	City of West Point	STAG-Wastewater-\$825,000	West Point, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Coahoma County	STAG-Wastewater-\$2,337,500	Coahoma County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	DeSoto County	STAG-Wastewater, Water Quality Protection-\$500,000	DeSoto County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Hinds County	STAG-Wastewater - \$500,000	Hinds County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Hinds County	STAG-Storm Water-\$500,000	Hinds County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Hinds County Penal Farm	STAG-Drinking Water-\$19,113	Hinds County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Leake County	STAG-Water Infrastructure-\$250,000	Leake County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	Leflore County (Browning Pump Station)	STAG-Stormwater-\$2,500,000	Leflore County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Leflore County (College Heights Subdivision-Gin Bayou)	STAG-Stormwater-\$143,000	Leflore County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Leflore County (Itta Bena Pump Station)	STAG-Stormwater-\$2,300,000	Leflore County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Leflore County (Rising Sun Subdivision)	STAG-Stormwater-\$2,400,000	Leflore County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Lowndes County	STAG-Wastewater-\$4,400,000	Columbus/Lowndes County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	Madison County	STAG-Wastewater-\$1,000,000	Madison County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Mississippi Band of Choctaw Indians	STAG -Wastewater - \$380,000	Choctaw/Neshoba County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Monroe County	STAG-Drinking Water-\$2,300,000	Monroe County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Olive Branch (Drainage)	STAG-Storm Water-\$1,000,000	Olive Branch, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Panola County	STAG-Wastewater-\$2,750,000	Panola County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Pearl River County	STAG-Wastewater-\$600,000	Pearl River County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.

State and Tribal Assistance Grant	Town of Monticello	STAG-Wastewater-\$968,000	Monticello, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Tunica County	STAG-Wastewater-\$700,000	Tunica County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	Warren County	STAG-Wastewater-\$400,000	Warren County, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
State and Tribal Assistance Grant	West Rankin County	STAG-Wastewater-\$2,000,000	Flowood/Pearl/Brandon/ Richland, MS	This account funds grants to support the State revolving fund; State, tribal, and local environmental programs; and special projects to address critical water and waste water treatment needs, especially in low-income communities.
Transformation of Municipal and Industrial Wastewater Treatment facilities into a Biorefinery	Mississippi State University	To capitalize on existing US's wastewater treatment and petroleum refining infrastructure for renewable fuel research and production. Biocrude could be refined into fuels via petroleum refining techniques. (\$5,000,000)	Mississippi State, MS	Biocrude could be refined into fuels via petroleum refining techniques used to produce diesel and gasoline. Previous MSU work indicates the potential to produce an estimated 7 billion gallons of biocrude using wastewater treatment facilities.

Unique Satellite Remote Sensing Data Partnerships for the United States

Mississippi State University

To develop new and unique satellite remote sensing data streams and data products that are currently not available in the United States (\$4,00,000)

Mississippi State, MS

These data sets are extremely valuable in applications ranging from disaster response and agricultural productivity to climate, ocean, and coastal zone research.

Watershed Center of Excellence: Water Development and Management for Rural Economic Development

Mississippi State University

The proposed Center will: formalize an existing ad hoc network of water resource and economic development experts to develop and implement a standard methodology and program to provide organizational, planning and technical assistance to Mississippi's counties and local governments; use water and economic development activities as a foundation for long-term locally led watershed management activities; and actively engage nongovernmental stakeholders in the process. (\$3,000,000)

Mississippi State, MS

Integrated approach to agricultural and rural water development and management will address environmental quality, economic development, and natural resource conservation.

**Originally requested under Transportation, Housing and Urban Development and Related Agencies Appropriations Bill**

Renovation and Restoration of Historic Medgar Evers Farish Street NAACP Office

City of Jackson

For the renovation and restoration of Medgar Evers' Farish Street NAACP office. (\$400,000)

Jackson, MS

Preservation of a historically significant Civil Rights Movement site.
