Integrated Acquisition Environment E-Gov Initiative

IAE Monthly Update—December 15, 2003

Vision:

A secure business environment that facilitates and supports cost-effective acquisition of goods and services in support of mission performance.

Goals:

- Create a simpler, common integrated business process for buyers and sellers that promotes competition, transparency and integrity.

- Increase data sharing to enable better business decisions in procurement, logistics, payment and performance assessment.

- Take a unified approach to obtaining modern tools to leverage investment costs for business related processes.

IAE Initial Modules and Objectives:

- Business Partner Network (BPN)— Deploy a single point of registration and validation of supplier data accessed by all agencies.

- Federal Procurement Data System— Next Generation—(FPDS-NG)- Implement a central point for consolidated collection and access of statistical and management information related to government acquisitions.

- eMarketplace—Create an online directory of GWAC and multi-agency contracts to simplify selection and facilitate leverage of government buying. (Phase 1)

- Intra-government Transactions (IGT)— Transform intra-governmental ordering and billing, reduce payment and collection problems, and enable swift and accurate revenue and expense elimination processes for preparing consolidated financial statements.

- Standard eTransactions— Develop a standard glossary and vocabulary to facilitate exchange of data between and within agencies.
