9 for the period of fiscal years 2010 through 2019.

10 (E) COMMITTEE ON FOREIGN AFFAIRS.—The  
11 Committee on Foreign Affairs shall report changes  
12 in laws within its jurisdiction sufficient to reduce di-  
13 rect spending outlays by \$1,839,000,000 for the pe-  
14 riod of fiscal years 2010 through 2019.

15 (F) COMMITTEE ON THE JUDICIARY.—The  
16 Committee on the Judiciary shall report changes in

6           years 2010 through 2019.

7           (I) COMMITTEE ON WAYS AND MEANS.—The  
8           Committee on Ways and Means shall report changes  
9           in laws within its jurisdiction sufficient to reduce di-

2 and aggregates.

3 **TITLE III—CONGRESSIONAL**  
4 **POLICY STATEMENTS**

5 **SEC. 301. POLICY STATEMENT ON MEDICARE.**

6 (a) **MEDICARE POLICY.**—It is the policy of this con-  
7 current resolution that Congress will enact legislation to  
8 ensure the Medicare benefit continues to provide health  
9 care coverage for seniors by establishing a new method-  
10 ology to make the program solvent and fiscally sustain-  
11 able. Legislation shall be enacted that:

12 (1) Expands protections for seniors against cat-  
13 astrophic medical costs, simplifies beneficiary con-  
14 tributions, updates Medicare payments, increases  
15 flexibility for hospitals serving unusually high num-  
16 bers of low-income patients, and reduces the pre-  
17 scription drug benefit subsidy for high-income sen-  
18 iors (household incomes over \$170,000). To ensure  
19 that the cost of frivolous litigation is not passed on  
20 to beneficiaries, the medical malpractice system is  
21 reformed.

22 (2) Preserves the current Medicare program for  
23 individuals 55 and older. For those under 55, the  
24 resolution gradually converts the current Medicare  
25 program into one in which Medicare beneficiaries re-

1       ceive a premium support payment -- equivalent to  
2       100 percent of the cost of the Medicare benefit -- to  
3       purchase health coverage from a menu of Medicare-  
4       approved plans, similar to options available to Mem-  
5       bers of Congress. The premium support payment is  
6       risk-adjusted to increase with age and health status,  
7       and income-related so low-income seniors receive  
8       extra support. Premiums continue to be based on an  
9       all-beneficiary average, so the phasing of the young-  
10      er population into the new program will not increase  
11      premiums for the population continuing in the exist-  
12      ing program.

13      (b) **FORCE AND EFFECT OF THE MEDICARE TRIG-**  
14 **GER.**—The Medicare trigger as set forth in section 803  
15 of the Medicare Prescription Drug, Improvement, and  
16 Modernization Act of 2003 shall apply during the 111th  
17 Congress.

18 **SEC. 302. POLICY STATEMENT ON MEDICAID.**

19      It is the policy of this concurrent resolution that Med-  
20 icaid—

- 21           (1) is outdated and fiscally unsustainable;
- 22           (2) has a payment error rate of at least 10 per-  
23           cent (as reported by GAO in January 2009);
- 24           (3) without major reform, its recipients' access  
25           to health care is in jeopardy;

1           (4) must be reformed to make the health care  
2           safety net stronger and more reliable for the need-  
3           iest populations;

4           (5) must be modernized by enhancing State  
5           flexibility and their sensitivity to spending growth,  
6           while allowing States to offer their Medicaid popu-  
7           lations more options; and

8           (6) recipients, like all other Americans, deserve  
9           to make their own health care decisions instead of  
10          government bureaucrats dictating them.

11 **SEC. 303. POLICY STATEMENT ON AFFORDABLE AND AC-**  
12 **CESSIBLE HEALTH CARE.**

13          It is the policy assumption of this concurrent resolu-  
14          tion that legislation should be enacted that reforms the  
15          health care marketplace by ensuring universal access to  
16          health coverage for every American regardless of pre-exist-  
17          ing health conditions. It allows individuals who like their  
18          health coverage to keep what they have, and offers those  
19          without coverage access health care options similar to  
20          what Members of Congress have. The resolution prevents  
21          the expansion of entitlements, the creation of government-  
22          controlled health plans, and the imposition of new man-  
23          dates or taxes on businesses. Individuals must have the  
24          freedom to choose the health care plan that best meets  
25          their needs and freedom from government bureaucrats

1 making their health care decisions. Medical professionals  
2 must not be prohibited – either through the use of com-  
3 parative effectiveness data or otherwise – from providing  
4 and/or prescribing care they believe to be medically nec-  
5 essary.

6 **SEC. 304. POLICY STATEMENT ON SOCIAL SECURITY.**

7 (a) FINDINGS.—

8 (1) More than 30 million Americans depend on  
9 Social Security as a key part of their retirement.  
10 Since enactment, Social Security has served as a  
11 vital leg on the “three-legged stool” of retirement se-  
12 curity, which today includes employer provided pen-  
13 sions as well as personal savings.

14 (2) Every year, the Social Security Trustees re-  
15 port warns of the dire financial straits that Social  
16 Security is in. Each year without reform, the finan-  
17 cial condition of Social Security becomes more pre-  
18 carious, and the threat to seniors becomes more pro-  
19 nounced—

20 (A) in 2041, the Trust Fund will be ex-  
21 hausted, and will be unable to pay scheduled  
22 benefits; and

23 (B) with the exhaustion of the Trust Fund  
24 in 2041, benefits will be cut 22 percent across  
25 the board – hurting all those who rely upon So-

1           cial Security as a fundamental part of their re-  
2           irement security; and by 2082, the cuts re-  
3           quired would equal 25 percent.

4           (3) The current recession is exacerbating the  
5           crisis to Social Security. The most recent March  
6           2009 CBO baseline finds that the cash surplus in  
7           2010 will only be \$3 billion – down \$22 billion from  
8           just 3 months ago. Should the recession continue, we  
9           may enter into a cash deficit in 2010 – 8 years ear-  
10          lier than expected.

11          (4) Lower-income Americans rely on Social Se-  
12          curity for a larger proportion of their retirement in-  
13          come. Therefore, reforms should take into consider-  
14          ation the need to protect lower-income Americans’  
15          retirement security.

16          (5) Americans deserve to have their elected  
17          Representatives take seriously the issue of Social Se-  
18          curity reform. We must work together – in a bipar-  
19          tisan fashion – in order to solve this crisis. In this  
20          spirit, this resolution puts forth a reform that was  
21          first proposed by the current Director of the Office  
22          of Management and Budget.

23          (b) POLICY ON SOCIAL SECURITY.—It is the policy  
24          of this resolution that Congress should begin to act on  
25          Social Security. Should the Trustees of the Social Security

1 Trust Fund determine that the Trust Fund would be un-  
2 able to pay scheduled benefits within five years (currently  
3 estimated in 2036); reforms such as the following are rec-  
4 ommended to be implemented to mitigate across-the board  
5 cuts in benefit payments:

6 (1) Provide for a phase in of low-earner benefit  
7 enhancement. This would protect lower-income  
8 Americans meeting certain requirements by ensuring  
9 they receive a benefit of at least 120% of the pov-  
10 erty line.

11 (2) Reduce the 15-percent Primary Insurance  
12 Amount bracket by 0.25 percentage points per year,  
13 from the date at which SSA finds it cannot meet  
14 scheduled benefits within 5 years (currently 2036).  
15 Phase in over 20 years.

16 (3) The spending, revenue, deficit, and debt lev-  
17 els in this concurrent resolution assume current law  
18 benefits will be fully paid and do not assume any  
19 savings in Social Security.

20 **SEC. 305. POLICY STATEMENT ON ENERGY.**

21 (a) ENERGY POLICY.—It is recognized that:

22 (1) Energy is recognized as a vital component  
23 to our national and economic security.

1           (2) Our dependence on foreign oil, natural gas,  
2           and other sources of energy is a threat to our na-  
3           tional and economic security.

4           (3) Our dependence on foreign oil, natural gas,  
5           and other fuel sources is contributing to a massive  
6           transfer of wealth outside of the United States.

7           (4) Increasing production of domestic energy  
8           will reduce our dependence on foreign oil, natural  
9           gas, and other sources of energy.

10          (5) High rates of taxes levied upon domestic  
11          production of oil and natural gas energy sources will  
12          place domestic producers at a competitive disadvan-  
13          tage relative to foreign competitors and will discour-  
14          age domestic energy production.

15          (6) A significant amount of oil and natural gas  
16          reserves are believed to be located on Federal lands  
17          including the Outer Continental Shelf, the Gulf of  
18          Mexico, the Arctic National and Wildlife Refuge, the  
19          National Petroleum Reserve, the Intermountain  
20          West Region.

21          (7) Domestic energy development on Federal  
22          lands should comply with environmental laws and  
23          regulations and should be conducted in an environ-  
24          mentally responsible manner that minimizes the dis-  
25          ruption to fish, plant, insect, and animal wildlife.

1           (8) Alternative forms of energy development in-  
2           cluding solar, wind, biomass, wave, tidal, hydro, and  
3           other forms can produce pollution-free energy with  
4           favorable environmental benefits, including the re-  
5           duction of global green house gas emissions.

6           (9) Increased nuclear energy is an important  
7           component to achieving an energy supply free of  
8           green house gas emissions.

9           (10) Lower energy prices will do more to pro-  
10          mote economic growth, raise living standards, in-  
11          crease incomes, and create jobs than will higher en-  
12          ergy prices.

13          (11) Numerous studies on cap and trade con-  
14          ducted by government agencies, universities, think  
15          tanks, and industry groups agree that cap and trade  
16          will raise energy prices for businesses and con-  
17          sumers.

18          (12) Revenues, royalties, fees, and taxes raised  
19          from developing energy projects located on Federal  
20          lands could provide billions of dollars to the Treas-  
21          ury which could be used to fund increased Federal  
22          participation and support for alternative, renewable,  
23          and nuclear energy projects without raising new  
24          taxes or increasing energy prices on businesses and  
25          consumers.

1           (b) STATEMENT ON ENERGY POLICY.—It is the pol-  
2 icy of this concurrent resolution that the energy policy of  
3 the United States is to—

4           (1) support our national and economic security  
5 by reducing our dependence on foreign oil, natural  
6 gas, and other sources of energy;

7           (2) support the increased development of energy  
8 on Federal lands in an environmentally responsible  
9 manner consistent with existing laws and regulations  
10 in a manner that minimizes the impact on fish,  
11 plant, insect, and animal wildlife;

12           (3) support the development of alternative, re-  
13 newable, and nuclear sources of energy that will re-  
14 duce reliance on foreign oil and contribute to re-  
15 duced levels of global green house gasses;

16           (4) direct revenues from royalties, bonus bids,  
17 fees, rents, and other taxes levied on new energy  
18 projects on Federal lands to fund increased Federal  
19 participation in research, development, loans, loan  
20 guarantees, insurance, tax credits and subsidies, and  
21 other assistance that will encourage new develop-  
22 ment of alternative, renewable, and nuclear sources  
23 of energy;

24           (5) ensure taxes levied on domestic oil and nat-  
25 ural gas produces do not place them at a competitive

1       disadvantage relative to foreign competitors, lead to  
2       job losses, or encourage a greater dependence on for-  
3       eign sources of oil, natural gas, or other energy  
4       sources; and

5               (6) pursue policies that keep energy prices low  
6       and contribute to economic growth and avoid policies  
7       that raise energy prices on American businesses and  
8       consumers.

9       **SEC. 306. POLICY STATEMENT ON TAXES.**

10       (a) **IN GENERAL.**—The policies of this concurrent  
11 resolution include the following assumptions:

12               (1) The Federal tax code is needlessly complex  
13       and burdensome, and it tends to discourage eco-  
14       nomic growth and United States competitiveness.

15               (2) the policies included in this resolution are  
16       aimed at addressing these problems.

17       (b) **TAXES ON INDIVIDUALS.**—This concurrent reso-  
18 lution would give individuals a choice in paying their Fed-  
19 eral income taxes. Individuals can choose to pay their Fed-  
20 eral taxes under the existing tax code, with all the familiar  
21 deductions and schedules, or they could move to a highly  
22 simplified income tax system. This simplified tax system  
23 broadens the tax base by cleaning out nearly all the exist-  
24 ing tax deductions and credits, compresses the tax sched-  
25 ule down to two low rates and retains a generous standard

1 deduction and exemption level. The tax form for this sys-  
2 tem could fit on a postcard. Within ten years of enactment  
3 of this legislation, individuals would choose one of the two  
4 tax systems: the current tax code or the simplified system.  
5 Individuals are allowed one additional changeover between  
6 the two tax systems over the course of their lifetimes. Indi-  
7 viduals are also allowed to change tax systems when a  
8 major life event (death, divorce, or marriage) alters their  
9 filing status. In contrast to the six rates in the current  
10 tax code, the simplified tax has just two rates: 10 percent  
11 on adjusted gross income (AGI) up to \$100,000 for joint  
12 filers and \$50,000 for single filers; and 25 percent on tax-  
13 able income above these amounts. These tax brackets are  
14 adjusted by a cost-of-living adjustment as measured by the  
15 consumer price index. The simplified code eliminates near-  
16 ly all existing tax deductions, exclusions, and other special  
17 provisions, but it retains a generous base exemption  
18 amount for all taxpayers. The standard deduction for joint  
19 filers is \$25,000 for joint filers and \$12,500 for single  
20 filers. The personal exemption amount is \$3500. This pro-  
21 posal patches the alternative minimum tax (AMT) at the  
22 2009 level for the foreseeable future in order to prevent  
23 millions of middle class Americans from being ensnared  
24 by an unfair tax hike. This tax system also maintains the

1 current lower rates on capital gains and dividends for all  
2 taxpayers.

3 (c) TAXES ON CORPORATIONS.—The U.S. corporate  
4 income tax rate is the second highest in the industrialized  
5 world. The tax leads to lowers wages for workers, higher  
6 prices for consumers, and it also discourages foreign in-  
7 vestment in the U.S. This concurrent resolution assumes  
8 policies that address these problems by lowering the U.S.  
9 corporate tax rate from 35 percent to 25 percent, pushing  
10 it into the more competitive range among industrialized  
11 countries. In conjunction with this move, the resolution  
12 repeals the tax deduction for U.S. production activities  
13 (Section 199), as companies receiving this benefit will now  
14 be taxed at the lower 25-percent rate. It also temporarily  
15 suspends the tax on capital gains for the rest of 2009 and  
16 2010. These policies are designed to keep overall Federal  
17 tax revenues at approximately 18.3 percent of GDP for  
18 the foreseeable future, roughly equivalent to the long-term  
19 historical average.

## 20 **TITLE IV—SHORT-TERM BUDGET** 21 **ENFORCEMENT**

### 22 **SEC. 401. RESTRICTIONS ON ADVANCE APPROPRIATIONS.**

23 (a) IN GENERAL.—(1) In the House, except as pro-  
24 vided in subsection (b), an advance appropriation may not  
25 be reported in a bill or joint resolution making a general

1 appropriation or continuing appropriation, and may not  
2 be in order as an amendment thereto.

3 (2) Managers on the part of the House may not agree  
4 to a Senate amendment that would violate paragraph (1)  
5 unless specific authority to agree to the amendment first  
6 is given by the House by a separate vote with respect  
7 thereto.

8 (b) ADVANCE APPROPRIATION.—In the House, an  
9 advance appropriation may be provided for the fiscal years  
10 2011 and 2012 for programs, projects, activities, or ac-  
11 counts identified in the joint explanatory statement of  
12 managers accompanying this resolution under the heading  
13 “Accounts Identified for Advance Appropriations” in an  
14 aggregate amount not to exceed \$23,565,000,000 in new  
15 budget authority in each year.

16 (c) DEFINITION.—In this section, the term “advance  
17 appropriation” means any new budget authority provided  
18 in a bill or joint resolution making general appropriations  
19 or any new budget authority provided in a bill or joint  
20 resolution making continuing appropriations for fiscal  
21 year 2010 that first becomes available for any fiscal year  
22 after 2010.

1 **SEC. 402. ROLL CALL VOTE REQUIRED ON INCREASING THE**  
2 **DEBT LIMIT.**

3 With respect to the adoption by the Congress of a  
4 concurrent resolution on the budget for fiscal year 2010,  
5 the clerk of the House shall not prepare an engrossment  
6 of a joint resolution increasing or decreasing, as the case  
7 may be, the statutory limit on the public debt.

8 **SEC. 403. BUDGET COMPLIANCE STATEMENTS.**

9 Each report of a committee on a public bill or public  
10 joint resolution shall contain a budget compliance state-  
11 ment prepared by the chairman of the Committee on the  
12 Budget, if timely submitted prior to the filing of the re-  
13 port, which shall include assessment by such chairman as  
14 to whether the bill or joint resolution complies with the  
15 requirements of sections 302, 303, 306, 311, and 401 of  
16 the Congressional Budget Act of 1974.

17 **SEC. 404. COST ESTIMATES FOR CONFERENCE REPORTS**  
18 **AND UNREPORTED MEASURES.**

19 It shall not be in order to consider a conference re-  
20 port or an unreported bill or joint resolution unless an  
21 estimate of costs as described in clause 3(d)(2) of rule  
22 XIII has been printed in the Congressional Record at least  
23 one day before its consideration.

24 **SEC. 405. ROLL CALL VOTES FOR NEW SPENDING.**

25 The yeas and nays shall be considered as ordered  
26 when the Speaker puts the question on passage of a bill

1 or joint resolution, or on adoption of a conference report,  
2 for which the chairman of the Budget Committee has ad-  
3 vised the Speaker that such bill, joint resolution or con-  
4 ference report authorizes or provides new budget authority  
5 of not less than \$50,000,000. The Speaker may not enter-
