

July 24, 1997

Secretary Donald Clark

Dear Sir:

I am writing to you about the changing of the label "Made in the U.S.A." as to its meaning.

To me this mean one thing:

- (1) Made
- (2) Built
- (3) constructed
- (4) the product of knowledge craftsmanship of this greatest country the world has ever known "The U.S.A."

Please don't take that from me when I buy a tool with a label: Made in the U.S.A.

Don't let it be a tool with parts made in some other country.

Let a 75 year old man still keep the badge of pride with the label Made in the U.S.A.

Thank you

Art Walker
