

## To Prevent Nuisance Alarms:

- ... clean the alarm following the manufacturer's instructions
- ... move the alarm away from the kitchen or bathroom
- ... get a different type of smoke alarm, like a photoelectric that's less sensitive to common causes of false alarms OR
- ... choose a smoke alarm that has a silencing feature, so nuisance alarms can be stopped quickly and easily

## Know How to Escape:

- ... always help those who need help
- ... plan your escape route and practice leaving your home
- ... decide one place outside where family members should meet

- ... **Buy it!**
- ... **Take Care of It!**
- ... **Your Life May Depend on It!**

To report a product hazard or a product-related injury, write to the U.S. Consumer Product Safety Commission, Washington, D.C. 20207, call the toll-free hotline: 800-638-2772. A teletypewriter for the deaf is available on the following numbers: National 800-638-8270, Maryland only 800-492-8104.

# Smoke Alarms (Detectors) Can Save Your Life

A publication of the U.S. Consumer  
Product Safety Commission

## Smoke Alarms

... warn you in time to escape from a fire

## The Best Place for Your Smoke Alarms:

- ... outside the bedroom areas
- ... each level in the home
- ... in each sleeping room

**SINGLE LEVEL**

**MULTI-STORY**

## Take Care of Them:

- ... test monthly
- ... replace batteries once a year **or** when they make a “chirping” sound
