 Partner Profiles: Description of Categories

Following is a description of a category profiled in the Partner Profiles section of this website. Each description includes a list of the organizations contained in the category and an overview of the organization's profile. To view a profile, return to the "Partner Profiles" section of the website and click on the link to the organization. The profile will contain program details such as the program objectives, target participants, eligibility requirements, features, costs, and contact information.

Financial Assistance

This category contains profiles of programs offered by government agencies and foundations that provide funding, such as grants, to organizations.

Organization Name Program Name	Overview
Community Development Financial Institutions Fund <i>Financial Assistance and Technical Assistance</i>	Funding programs for financial institutions that serve low income individuals and communities.
National Credit Union Administration <i>Community Development Revolving Loan Fund</i>	A funding program that provides financial and technical assistance to low income credit unions.
National Credit Union Foundation <i>National Credit Union Foundation Programs</i>	Programs to improve the delivery of financial services to consumers.
U.S. Department of Agriculture - <i>Rural Business Enterprise Grant Program</i> - <i>Rural Business Opportunity Grant Program</i>	Funding to assist rural business development (RBEG) and rural economic development (RBOG).
U.S. Department of Health and Human Services <i>Grants.gov</i>	A single Internet source for accessing grants offered by 26 Federal agencies.
U.S. Department of Labor <i>GovBenefits.gov</i>	A website that provides consumers with a single place to search more than 1,000 government assistance programs designed to meet varied needs.
U.S. General Services Administration <i>The Catalog of Federal Domestic Assistance</i>	A website that features a list of Federal agencies that provide assistance programs and includes links to agency web sites.
