

Alexander Popowycz
Vice President, Information Security
Fidelity Investments

Alex holds the position of Vice President for Information Security at Fidelity Investments focusing on the protection of Fidelity's delivery of services to its various client bases through its electronic channels. He currently sits on the Management Board of the Liberty Alliance, an organization developing open standards for federated network identity and is also on the Executive Committee of the Financial Services Technology Consortium (FSTC).

Also at Fidelity, Alex was responsible for information security and contingency planning for Fidelity Investments' benefits outsourcing division. Prior to joining Fidelity, Alex was responsible for technology deployment and support at Prudential Insurance.

Alex's 15 years of information technology experience extends into both the private and public sectors. As an officer in the US Air Force, Alex led many technology initiatives supporting multiple military services as well as intelligence and other agencies. He earned a BS from the US Air Force Academy and a MBA from Bentley College.

Alex has spoken at various conferences on the topics of security, privacy and identity management. He was also one of the primary authors of the BITS Voluntary Guidelines for Aggregation Services.

Alex also holds the Certified Information Systems Security Professional (CISSP) designation.
