

# List of Exhibits

Exhibit 2.1	Economic Indicators Used by the CALFED Model .....	2-10
Exhibit 2.2	Average Mileage in California for Interstate Truck Movements .....	2-12
Exhibit 3.1	Survey Form for Evaluating Demand for a Rail/Truck Intermodal Facility.....	3-12
Exhibit 3.2	Market Demand Characteristics .....	3-27
Exhibit 3.3	Airport Traffic Characteristics .....	3-30
Exhibit 3.4	Baseline North Carolina Airport Traffic (tons).....	3-32
Exhibit 3.5	Airport Aircraft Activity Characteristics.....	3-33
Exhibit 3.6	Summary Forecast of Aircraft Operation at the North Carolina Commercial Airports .....	3-35
Exhibit 3.7	Cargo Routing Pattern Characteristics .....	3-36
Exhibit 3.8	Air Cargo Matrix Forecast 2010 .....	3-37
Exhibit 3.9	North Carolina Air Cargo Forecasting and Allocation Model.....	3-39
Exhibit 3.10	Base Case Calibration - Future Service/Leakage Shifts...	3-40
Exhibit 3.11	New Industrial Activity Characteristics.....	3-43
Exhibit 3.12	Summary of Air Cargo Produced by the GACIC and the Economic Impacts of GACIC Activities.....	3-45
Exhibit 4.1	Scope of Freight Databases.....	4-6
Exhibit 4.2	Mode, Type, and Structure of Freight Databases.....	4-8
Exhibit 4.3	Commodity Information in Freight Databases.....	4-10
Exhibit 4.4	Origin/Destination Information in Freight Databases ....	4-12
Exhibit 4.5	Shipment Information in Freight Databases .....	4-13

## List of Exhibits (continued)

Exhibit 4.6	Information on Modal Coverage and Equipment Freight Databases.....	4-15
Exhibit 4.7	Information on System Utilization in Freight Databases.	4-16
Exhibit 4.8	Information on Routing, Carrier, and Cost in Freight Databases .....	4-17
Exhibit 5.1	Summary of Guidelines for Strategic Management.....	5-6
Exhibit 5.2	Summary of Differences in strategic Planning between the Public and Private Sectors.....	5-8
Exhibit 5.3	Mathematical Model for Strategic Motor Freight Planning for the Chicago Area.....	5-11
Exhibit 5.4	California ITMS Study Design Report - ITMS General Flowchart .....	5-13
Exhibit 5.5	Relationship of Performance Measures and Data Needs Matrix .....	5-14
Exhibit 5.6	San Francisco Bay Area Freight Forecasts by Commodity Type .....	5-24
Exhibit A.1	The Relationship Between Freight Demand, GDP and Goods Production .....	A-3
Exhibit A.2	Fuel and Energy Requirements for Selected Intercity Modes and Submodes - 1977-1980 .....	A-21
Exhibit C.1	Abbreviations Used in Appendix C.....	C-3
Exhibit E.1	Consequences of Violating the BASIC OLS Assumptions.....	E-7
Exhibit F.1	Estimates of 1995 Costs for Truckload Operations (1988 dollars) .....	F-3
Exhibit F.2	Estimating Effects of Inflation.....	F-4
Exhibit F.3	Average Rail Rates per Ton-Mile for Selected Commodity Groups .....	F-9

## **List of Exhibits (continued)**

Exhibit F.4	Deep-Draft Vessel Costs (1995 dollars).....	F-18
Exhibit F.5	Inland Barge Costs.....	F-19
Exhibit G.1	Implicit Cross Elasticities by Commodity Group Derived from ICM Results.....	G-3
Exhibit G.2	Implicit Overall Cross Elasticities from the ICM .....	G-4
Exhibit G.3	Implicit Cross Elasticities from CN and CP Analyses.....	G-8
