

Tampa Portfields Pilot - Grants and Funding Matrix

Last Updated - 10/24/05

	Agency	Project Area	Grant Title/Name	Cycle/Deadline	Website	Contact	Notes
	DHS (MARAD)	port security	DHS grants	Applications for the 2005 round of DHS security grants were due by June 16th and the grants will be awarded no later than July 5th. Next year's date TBA.	https://www.portsecuritygrants.dotts.net/TSAdotnet/default.aspx	PortSecurityGrants@dhs.gov	There is no requirement for a match in funds, but if an applicant can match some portion of the federal funding, the grant application may be evaluated more favorably.
	EDA	infrastructure	11.302 -Economic Development Support for Planning Organizations; 11.303 -Economic Development Technical Assistance; 11.300 - Grants for Public Works and Economic Development Facilities; 11.307- Economic Adjustment Assistance; 11.313 -- Trade Adjustment Assistance	Proposals are accepted on a continuing basis and applications are invited and processed as received. Normally, two months are required for a final decision after the receipt of a completed application invited by EDA that meets all requirements.	http://www.eda.gov/Imag-eCache/EDAPublic/documents/pdfdocs/ffo_5fgeneral051210_2epdf/v1/ffo_5fgeneral051210.pdf	401 West Peachtree Street, NW Suite 1820 Atlanta, GA 30308-3510 404-730-3002 404-730-3025 fax William J. Day, Jr., Regional Director wday1@eda.doc.gov	
	EDA	infrastructure	11.303 Economic Development--Technical Assistance	Deadline: May 31, 2005 for FY 06. Deadline for FY 07 will be in spring of 06.	http://www.eda.gov/Imag-eCache/EDAPublic/documents/pdfdocs/ffo_5frnta_5f05_5f12_5f10_2epdf/v1/ffo_5frnta_5f05_5f12_5f10.pdf	Dr. John J. McNamee, U.S. Department of Commerce, Economic Development Administration, Room 7816, 1401 Constitution Avenue, NW., Washington, DC 20230, Phone: 202-482-3566; Fax 202-501-4828.	
	EPA	petroleum assessment and petroleum cleanup		Next round of Brownfields grants should be announced in late summer/early fall 2005.			EPA grants run on a FY cycle. Usually don't know how much money is available until well into the FY. Selections must be made by late spring/early summer to allow sufficient time to process formal grant paperwork. Therefore, by June most opportunities are closed.
	EPA Region 4	environmental assessments of hazardous substances and petroleum contamination		Available at any time a site is identified.		Barbara Schuster Jan Rogers	Environmental Assessments of hazardous substances and petroleum contamination thru Region 4 conducted by FDEP, Region 4 contractors, or USACE.

Federal	HUD DOI	Economic development	SuperNOFA: Brownsfields Economic Development Initiative	Close Date: originally closed on Friday, June 17, 2005, but competition has re-opened with a new deadline of August 25, 2005 - Next year TBA	http://www.hud.gov/offices/adm/grants/nofa05/grpb/edi.cfm		
	HUD DOI	Economic development	Community Development Technical Assistance (CDTA) Programs	Close Date: Wednesday, June 1, 2005 - Next year TBA	http://www.hud.gov/offices/adm/grants/nofa05/grpc/dta.cfm for re-openings see: http://www.hud.gov/offices/adm/grants/nofa05/reopenings.cfm		Since 1998, the BEDI program has helped communities redevelop abandoned or underutilized property where redevelopment is complicated by the presence or potential presence of contamination. For this year's competition for a total of \$24 million in grants, applicants may submit applications either electronically or on paper.
	NOAA	restoration	Community-based Restoration Program Individual Project Grants	Next anticipated deadline September 14, 2005	http://www.nmfs.noaa.gov/habitat/restoration/projects_programs/crp/partners_funding/callforprojects.html	Daphne Macfarlan NOAA Restoration Center Community-based Program 263 13th Ave. South St. Petersburg, FL 33701 727-824-5384 daphne.macfarlan@noaa.gov	The CRP provides funds for individual grass-roots marine habitat restoration projects that will benefit living marine resources including anadromous fish species, commercial and recreational resources, and endangered and threatened species. Proposals undergo a competitive review, and projects are selected based on their technical merit, level of community involvement, ecological benefits to marine and anadromous fish habitat, and coast-effectiveness. During open announcements, applications are directed to the NOAA Restoration Center.
	NOAA	restoration	NOAA Community-based Habitat Restoration National and Regional Partnership Grants	Next anticipated deadline June 2006	http://www.nmfs.noaa.gov/habitat/restoration/projects_programs/crp/partners_funding/natregpart.html	Daphne Macfarlan NOAA Restoration Center Community-based Program 263 13th Ave. South St. Petersburg, FL 33701 727-824-5384 daphne.macfarlan@noaa.gov	When funding allows, the CRP develops new national and regional partnerships that lead to on-the-ground, community-based restoration of marine, coastal, and freshwater habitats to benefit living marine resources, including anadromous fish species. The opportunity is open to current and previous NOAA Habitat Restoration Partners as well as organizations applying for the first time. The next notification of available funding for multi-year, national and regional Habitat Restoration Partnerships is expected to be announced in the NOAA Omnibus Federal Register Notice in June 2006 for fiscal year 2007 funding. Should the CRP experience significant increases in funding from Congress, an announcement may be made prior to June 2006.
	NOAA/Ocean Trust/National Fisheries Institute	restoration	Ocean Trust/National Fisheries Institute - Fisheries & Habitat Funding	Proposals due July 15 and November 30, 2005	http://www.nmfs.noaa.gov/habitat/restoration/projects_programs/crp/partners/otnfi.html	Thor Lassen 11921 Freedom Drive Suite 550-PMB 5580 Reston, VA 20190 703-450-9852 703-450-9853 Fax tjlassen@oceantrust.org	The applicant must be an individual, association, or company in fish and seafood production, processing, distribution, retail, foodservice, support, or advisory services with the industry. Organizations that have project ideas should contact NOAA's Community-based Restoration Program field staff (a contact list is included with the RFP) or Ocean Trust directly

NOAA		American Sportfishing Association's FishAmerica Restoration Grants	Closing February 25, 2005	http://www.nmfs.noaa.gov/habitat/restoration/projects_programs/crp/partners/fishamerica.html	Johanna Laderman Managing Director FishAmerica Foundation 225 Reinekers Lane Suite 420 Alexandria, VA 22314 phone: 703.519.9691 x245 fax: 703.519.1872 info@asafishing.org	NOAA partners with FishAmerica to fund marine and anadromous fish habitat restoration projects which benefit recreationally fished species <i>around the coastal U.S.</i> During open announcements, applications should be directed to the FishAmerica Foundation. FishAmerica requests that applicants strive for a 1:1 non-federal match (cash or in-kind) on project proposals.
NOAA		NFWF Pinellas County Environmental Fund	Pre-proposals due January 7, 2005 Full proposal due February 18, 2005 - Next year TBA	http://www.nmfs.noaa.gov/habitat/restoration/projects_programs/crp/partners/nfwf.html#pinellas	PCEF, c/o National Fish and Wildlife Foundation, 1120 Connecticut Avenue NW, Suite 900, Washington, DC 20036. Phone: 202-857-0166; fax: 202-857-0162; email: pcef@nfwf.org	NOAA partners with National Fish and Wildlife Foundation (NFWF) to fund conservation projects related to management of exotic plants and wildlife and conservation and restoration of coastal habitats <i>within the Tampa Bay Watershed</i> . During open announcements, applications should be directed to NFWF.
NOAA		Gulf of Mexico Foundation Partnership GEMS Grants	Deadline extended August 15, 2004	http://www.nmfs.noaa.gov/habitat/restoration/projects_programs/crp/partners/gulfofmexico.html	Quenton Dokken Email: info@gulfmex.org	NOAA partners with the Gulf of Mexico Foundation to fund habitat restoration projects in the five states bordering the Gulf of Mexico (Texas, Louisiana, Mississippi, Alabama, and Florida) in areas known as Gulf Ecological Management Sites (GEMS). During open announcements, applications should be directed to the Gulf of Mexico Foundation.
NOAA/CICEET		Cooperative Institute for Coastal and Estuarine Environmental Technology	Availability announced on CICEET website - TBA	http://ciceet.unh.edu/		The Cooperative Institute for Coastal and Estuarine Environmental Technology supports the scientific development of innovative technologies for understanding and reversing the impacts of coastal and estuarine contamination and degradation.
NOAA/The National Fish and Wildlife Foundation		Five - Star Restoration Challenge Grant Program	Applications due March 1, 2005 - Next year TBA	http://www.nmfs.noaa.gov/habitat/restoration/projects_programs/crp/partners/nfwf.html#5star	For coastal projects: Lindsay Rape lindsay.rape@noaa.gov NOAA Restoration Center (301) 713-0174 (301) 713-0184 (fax) For more information on the Five Star Restoration Program, please visit EPA's website (www.epa.gov/owow/wetlands/restore/5star)	The Five-Star Restoration Program is a national program that seeks to fund wetland, riparian and coastal habitat restoration projects on a competitive basis around the coastal U.S. Each proposals should have diverse local partners and a strong community stewardship and educational component. The individual grant awards range from \$5,000 - \$20,000. Successful projects funded by Five-Star include mangrove restoration and exotic species removal, clam and scallop restoration, riparian planting, oyster reef restoration and fish passage improvement projects.

	NOAA/The National Fish and Wildlife Foundation	conservation	General Matching Grants Program	Project pre-proposals are accepted throughout the year and slated for review and action within cycles. There are two decision cycles per year.	http://www.nfwf.org/programs/guidelines.htm	Peter Stangel, PhD, Director 404-679-7099 or Chris Rigby, Assistant Director 404-679-7142 Southern Regional Office 1875 Century Boulevard, Suite 200 Atlanta, GA 30345 Fax: 404-679-7140	The National Fish and Wildlife Foundation operates a conservation grants program that awards matching grants, on a competitive basis, to eligible grant recipients, including federal, tribal, state, and local governments, educational institutions, and non-profit conservation organizations. Project proposals are received on a year-round, revolving basis with two decision cycles per year. Grants typically range from \$10,000-\$150,000, based upon need.
	NOAA/USACE	habitat restoration	Estuary Habitat Restoration Program Projects	Proposals are due by July 25, 2005 - Next year TBA	http://era.noaa.gov/htmls/era/era_projfund.html	Ms. Ellen Cummings Headquarters, U.S. Army Corps of Engineers, Washington, DC 20314-1000, (202) 761-4750, e-mail: Ellen.M.Cummings@usace.army.mil; or	The Estuary Habitat Restoration Program currently seeks projects that achieve cost-effective restoration of ecosystems while promoting increased partnerships among agencies and between public and private sectors.
	Florida Department of Environmental Protection (DEP)	stormwater	319 Grants for Non-point Source Management Program Grant Proposals	FY 2006 cycle - project proposals are due by July 8, 2005 - anticipate awarding funds by September 2006.	http://www.dep.state.fl.us/water/nonpoint/319h.htm	Nonpoint Source Management Program 2600 Blair Stone Road Mail Station 3570 Tallahassee, FL, 32399-2400 Phone (850) 245-7508	
	Florida Department of Environmental Protection (DEP)	coastal management	Coastal Partnership Initiative	The funding year will begin July 1 and end June 30. Projects must be of one year duration with implementable work products at the end of project year. Projects may have statewide, regional, or local application.	http://www.dep.state.fl.us/cmp/grants/index.htm	Dornecia Allen Florida Coastal Management Program 3900 Commonwealth Boulevard, MS 47 Tallahassee, Florida 32399-3000 Phone: (850) 245-2161 Fax: (850) 245-2191 E-mail: Dornecia.Allen@dep.state.fl.us	This initiative is designed to support innovative local-level coastal management projects in four program areas: public access, remarkable coastal places, working waterfronts, and community stewardship. Municipalities in coastal counties, NERRs and NEPs can apply; educational and non-profit entities may apply if partnering with an eligible applicant. Projects can be extremely diverse, ranging from dune revegetation projects to citizen water quality monitoring efforts to community-wide waterfront revitalization projects.

State	Florida Department of Environmental Protection (DEP)	coastal management	Indicator Development		http://www.dep.state.fl.us/cmp/programs/indicators.htm	Jasmin Raffington, FCMP 3900 Commonwealth Blvd., MS 47, Tallahassee FL (850) 245-2161	The effectiveness with which management agencies perform activities, such as regulation, public outreach and funding, is increasingly under scrutiny. Governments at all levels are moving to develop systems to generate feedback with regards to management decisions. Indicators can be a simple and cost-effective way to evaluate the validity of agencies' actions. Historically, the Florida Coastal Management Program's (FCMP) work with indicators has been limited to a catalog of existing ecological and human use data listed in the Florida Assessment of Coastal Trends (FACT). FCMP staff intends for FACT 2000 to not only present indicator data, but also provide valuable discussion of trends and interrelationships. We intend to use the document as part of the FCMP's strategic planning process; however, we anticipate that it will also be of use to coastal managers and policy makers throughout Florida.
	Florida Department of Environmental Protection (DEP)	boating	Clean Marina Grant Program	Annual; anticipated deadline November	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/boating.htm	Brenda Leonard (850) 245-2847	Designed as a voluntary program where grant funds are used to implement "Marina Action Measures" as described in the Clean Marina Action Plan.
	Florida Department of Environmental Protection (DEP)	boating	Clean Vessel Act	Annual; deadline typically fall	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/boating.htm	Brenda Leonard (850) 245-2848	Designed to provide funding to install or renovate pump out or waste dump reception facilities at recreational boating facilities.
	Florida Fish and Wildlife Conservation Commission	boating	Derelict Vessel Removal Program	Annual; deadline typically summer	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/boating.htm	Wendy Huszagh, (850)488-5600 x173	Designed to assist local governments with the cost of removing derelict vessels from coastal waters.
	Florida Fish and Wildlife Conservation Commission	boating	Florida Boating Improvement Grant program	Annual; deadline typically summer	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/boating.htm	Wendy Huszagh, (850)488-5600 x174	Designed to serve the needs of recreational motorized boating on marine or estuarine waters.
	Florida Department of Environmental Protection (DEP)	restoration	Florida Beach Erosion Control Program	No formal application process	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/natural_resources.htm	Paden E. Woodruff, (850)487-1262	Designed to aid local, state, and federal governmental entities in the protection, preservation, and restoration of coastal sandy beach resources.

DCA/DEP/NOAA	coastal management	Waterfronts Florida Partnership Community	Biennially - Application Deadline: Friday, May 27, 2005, 5:00 PM	http://www.dca.state.fl.us/fdcp/dcp/waterfronts/index.cfm	Jennifer Z. Carver (850) 922-1772 or jennifer.carver@dca.state.fl.us	The Waterfront Florida Partnership, launched by the Florida Coastal Management Program in 1997, has been helping to chart a new course for its participating communities. The program was created to provide support, training, innovative technical assistance, and limited financial assistance to communities striving to revitalize and renew interest in their waterfront district, areas which have a tradition of water-dependent vitality.
Keep Florida Beautiful, Inc.	conservation	Keep Florida Beautiful, Inc. Approved Community Based Program Grant	Ongoing	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/community_dev.htm	Frank Walper, (850)385-1528 or 1-800-688-1959	Designed to help community based programs that conduct litter reduction activities
Florida Department of Health (DOH)						
Florida Division of Forestry of the Department of Agriculture and Consumer Goods (DACCS)						
Florida Fish and Wildlife Conservation Commission	education	Environmental Education Grants Program	Annual; see contact	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/natural_resources.htm	Jerrie Lindsey, (850)487-0123	Designed for funding projects that develop and/or implement environmental education programs and materials.
Florida Department of Community Affairs (DCA)	energy efficiency	Energy Efficiency Projects	Varies by project	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/natural_resources.htm	Alexander Mack, (850)488-2475	Designed to provide technical assistance, policy development, planning, grants, and loans.
EPC HC		Hillsborough County Pollution Recovery Fund (PRF)	PRF fund applications are only accepted from May thru August 1, 2005.	http://epchc.org/prf_&_gstf.htm		
FLCZM	coastal management	FCMP Grant Projects	Annual - TBA	http://www.dep.state.fl.us/cmp/grants/fcmpabs.htm		The Florida Coastal Management Program receives federal funds every year to carry out various grant projects. Some of the money is specifically earmarked for certain types of projects; non-point source pollution issues, enhancement grants to develop program changes, and competitive local partnership grants. Project abstracts, total funding, and contact information for all projects since 1995 are available on the web.

	Florida Department of Community Affairs (DCA)	emergency preparedness	Emergency Management Preparedness and Assistance Competitive Grant Program	Annual; deadline not yet established	http://www.dep.state.fl.us/cmp/publications/community_assistance_guide/hazard_emergency.htm	Sonya Odom, (850)413-9936	Designed to implement projects that will enhance emergency management objectives.
Other	Tampa Bay Estuary Program	conservation	Mini-Grants	The deadline for submitting a grant proposal is Monday, October 3, 2005 at 3 p.m. Proposals will be evaluated by members of TBEP's Community Advisory Committee. Grants will be awarded in mid-November and must be completed within one year.	http://www.tbep.org/bayminigrants.html	Misty Cladas at (727) 893-2765 or e-mail misty@tbep.org	New for 2005; TBEP will fund three projects which target specific topics up to \$10,000 each. This year's topics include Marine Invasive Species, Air Pollution in Tampa Bay, and Pet Waste Education. Additional proposal criteria for these new larger grants are available by calling the office.
	Tampa Bay Estuary Program	education	Mini-Grants	The deadline for submitting a grant proposal is Monday, October 3, 2005 at 3 p.m. Proposals will be evaluated by members of TBEP's Community Advisory Committee. Grants will be awarded in mid-November and must be completed within one year.	http://www.tbep.org/bayminigrants.html	Misty Cladas at (727) 893-2765 or e-mail misty@tbep.org	These are grants of up to \$7,500 (requests for as little as \$500 will be considered), are available for community-based restoration and education projects focusing on the Tampa Bay Estuary. This program applies only to projects in the Tampa Bay watershed- the counties of Pinellas, Hillsborough, and Manatee and requires community involvement.
