THE FIRST EVER SCIENTIFIC MEETING ON TREE ISLANDS OF THE GREATER EVERGLADES

**Tuesday, July 14 & 15, 1998
Florida Atlantic University
Boca Raton, Florida**

**Objective of symposium:
Review and synthesize what is
known about tree islands
in the Everglades, including their
geology, vegetation, wildlife
and human impacts.**

Who should attend:

Scientists working on all aspects of the natural history of tree islands as well as individuals concerned with the preservation, restoration and management of the Greater Everglades.

**Registration MUST be received
by July 7, 1998**
