<u>Charts</u> <u>Glossary of data definitions</u> <u>Choose another quarter</u>

The UI Data Summary is produced quarterly from state-reported data contained in the Unemployment Insurance Data Base (UIDB) as well as UI-related data from outside sources (e.g., Bureau of Labor Statistics data on employment and unemployment and U.S. Department of Treasury data on state UI trust fund activities). This data base is maintained by the Division of Fiscal and Actuarial Services, Office of Workforce Security (OWS), U.S. Department of Labor.

This report is intended to provide the user with a quick overview of the status of the UI system at the national and state levels. Tables are provided for each state and many data items are repeated on <u>summary tables</u> which show all states together. The <u>glossary</u> gives the definition of each data item in the report. Except for recipiency rates, UCFE and UCX data is not included. Except for covered employment and wage data, which have a reporting/processing lag, all the data refers to the same quarter. This quarter is shown on the front cover and is also the first column heading on each individual state page. The year and quarter are indicated by the notation CYyyyy.q (e.g. CY1995.4). For many data items, the report shows -- in addition to the latest quarter -- data for the latest twelve months, the highest and lowest quarters historically, and the state's rank among all states. If a state has failed to report for a particular time period, estimated data are used; however, if the time period extends too far for reasonable estimates, blanks are displayed instead.

Your comments and suggestions are welcomed. For further information please contact **Kevin Stapleton** at the Division of Fiscal and Actuarial Services, Room C-4531, 200 Constitution Ave., NW, Washington, DC 20210, phone (202) 693-3009. You can also reach the receptionist at (202) 693-3039. If you want quarterly copies mailed to you, add your name to the <u>Data summary mailing list</u>.

NOTE: Starting with 2006.3, interstate initial claims and weeks claimed are reported in the paying state rather than the state of residence.

ALSO: Blank cells appearing in any section of this report indicates that information is unavailable.

ATTENTION:

Now available on the Department of Labor, Office of Workforce Security website, and by mail, is a new report called "Significant Measures of State Unemployment Insurance Tax Systems" (http://www.ows.doleta.gov/unemploy/finance.asp). This will be a yearly report containing a compilation of new and existing tax measures for each state, which is intended to provide users with the information necessary to evaluate and compare state UI tax systems. The report is produced by the Division of Fiscal and Actuarial Services in the Office of Workforce Security and calendar years 2006 and 2005 are now available.

DATA DEFINITIONS

Back to Data Summary Home EXHAUSTION RATE

Back to State Selection Page

A rate computed by dividing the average monthly exhaustions by the average monthly first payments. To allow for the normal flow of claimants through the program, the numerator lags the denominator by 26 weeks, e.g., the exhaustion rate for CY 1995.3 is computed by dividing the average monthly exhaustions for the twelve months ending September 1995, by the average monthly first payments for the twelve months ending March 1995.

EXTENDED BENEFITS

The supplemental program that pays extended compensation during periods of specified high unemployment in a state to individuals for weeks of unemployment after exhaustion of regular UI benefits. One-half of EB is funded by the state trust fund. (ETA 5159)
