LIST OF TABLES *i*LIST OF FIGURES *ii*

Introduction *1*

| | |
|---|-----------|
| PURPOSE AND NEED | <i>1</i> |
| PHYSICAL ENVIRONMENT | <i>1</i> |
| <i>Topography and Substrates</i> | <i>1</i> |
| <i>Tides and Tidal Currents</i> | <i>7</i> |
| <i>Freshwater Inflows</i> | <i>8</i> |
| <i>Coastal Oceanographic Conditions</i> | <i>8</i> |
| <i>Salinity, Stratification and Gravitational Circulation</i> | <i>8</i> |
| <i>Temperature</i> | <i>13</i> |
| <i>Sediment Dynamics</i> | <i>13</i> |
| <i>Oxygen</i> | <i>15</i> |
| <i>Contaminant Inflows and Legacy Pollutants</i> | <i>15</i> |
| DELINEATION OF HABITATS | <i>16</i> |
| BIOTIC ASSEMBLAGES | <i>16</i> |

Habitat Types and Associated Biological Taxa *36*

| | |
|----------------------------|-----------|
| SOFT BOTTOM | <i>36</i> |
| <i>General Description</i> | <i>36</i> |
| <i>Taxonomic Groups</i> | <i>38</i> |
| <i>Plants</i> | <i>38</i> |
| <i>Invertebrates</i> | <i>38</i> |
| <i>Fishes</i> | <i>43</i> |
| <i>Birds</i> | <i>44</i> |
| <i>Marine Mammals</i> | <i>45</i> |

| | |
|--|----|
| HARD BOTTOM | 45 |
| General Description | 45 |
| Taxonomic Groups | 46 |
| <i>Plants</i> | 46 |
| <i>Invertebrates</i> | 46 |
| <i>Fishes</i> | 47 |
| <i>Birds</i> | 48 |
| <i>Marine Mammals</i> | 48 |
| | |
| SHELLFISH BEDS | 49 |
| General Description | 49 |
| California Mussel (<i>Mytilus californianus</i>) Beds | 50 |
| Bay Mussel (<i>Mytilus trossulus/galloprovincialis</i>) Beds | 50 |
| Ribbed Horsemussel (<i>Geukensia demissa</i>) Beds | 51 |
| Green Bagmussel (<i>Musculista senhousia</i>) Beds | 51 |
| Olympia Oyster (<i>Ostrea conchaphila</i>) Beds | 51 |
| | |
| PLANT BEDS | 56 |
| General Description | 56 |
| Macroalgae Beds | 56 |
| <i>Ulva Beds</i> | 56 |
| <i>Gracilaria Beds</i> | 56 |
| <i>Fucus Beds</i> | 57 |
| <i>Sargassum Beds</i> | 57 |
| Submerged Aquatic Vegetation | 58 |
| <i>Sago Pondweed (Potamogeton pectinatus) Beds</i> | 58 |
| <i>Widgeon Grass (Ruppia maritima) Beds</i> | 58 |
| <i>Eelgrass (Zostera marina) Beds</i> | 60 |
| <i>Surfgrass (Phyllospadix scouleri and torreyi) Beds</i> | 63 |
| | |
| WATER COLUMN | 64 |
| General Description | 64 |
| Taxonomic Groups | 64 |
| <i>Plants (phytoplankton)</i> | 64 |
| <i>Invertebrates (zooplankton)</i> | 67 |
| <i>Fishes</i> | 71 |
| <i>Birds</i> | 72 |
| <i>Marine Mammals</i> | 73 |

- Table 1** Area, depth and volume of San Francisco Bay after (a) Conomos (1979), (b) Jassby (1992), (c) Monroe and Kelly (1992), and (d) Goals Project (1999).
- Table 2** Common subtidal and intertidal plants of San Francisco Bay.
- Table 3** Common sessile and small, motile invertebrates of San Francisco Bay for (a) soft bottom substrate (sand/silt/clay), (b) soft bottom substrate (shell mix), (c) hard bottom substrate (natural and artificial) and (d) eelgrass beds.
- Table 4** Common fish and large, motile invertebrates of San Francisco Bay after K. Hieb (CDFG, pers. comm.), Merkel & Associates (2005), and Entrix (1998).
- Table 5** Common birds that use subtidal habitats in San Francisco Bay.
- Table 6** Common marine mammals of San Francisco Bay.
- Table 7** Sessile invertebrates sampled at native oyster restoration sites at Marin Rod and Gun Club and Redwood City in San Francisco Bay after MACTEC (2006).
- Table 8** Common phytoplankton taxa in San Francisco Bay after Cloern and Dufford (2005).
- Table 9** Common zooplankton taxa in San Francisco Bay after Kimmerer et al. (1999).

- Figure 1** Area map of the San Francisco Bay showing landforms, major roads and bridges, and bay regions.
- Figure 2** Sea level rise from 15,000 years ago to present time from Cohen (2000).
- Figure 3** Bathymetry (shown in meters) of San Pablo, Central, and South Bays within San Francisco Bay.
- Figure 4** Map of generalized sediment types in San Francisco Bay from Monroe and Kelly (1992).
- Figure 5** Schematic of tidal cycles near San Francisco Bay from Cohen (2000).
- Figure 6** Average salinity during winter and summer months in San Francisco Bay.
- Figure 7** Average salinity for flood years 1996 and 1997 and drought years 1987 to 2002 by Venice Salinity categories for San Francisco Bay.
- Figure 8** Schematic of estuarine circulation as occurs in San Francisco Bay from Cohen (2000).
- Figure 9** Average winter and summer water temperature profiles for San Francisco Bay.
- Figure 10** Soft bottom and hard bottom substrates in San Francisco Bay interpreted from multibeam bathymetric images and side-scan sonar mosaics after Greene and Bizarro (2003).
- Figure 11** Historic native oyster distribution, sites of known oyster occurrence at present date, and native oyster restoration sites in San Francisco Bay.
- Figure 12** Distribution of eelgrass (*Zostera marina*), the marine alga, *Gracilaria*, and widgeon grass (*Ruppia maritima*) in San Francisco Bay after Merkel & Associates (2003) and N. Cosentino-Manning (NMFS, pers. comm.).
- Figure 13** Eelgrass (*Zostera marina*) density in San Francisco Bay in 2003 after Merkel & Associates (2004) and Wyllie Echeverria and Rutten (1989).
