

Guide to State Statistical Abstracts

This bibliography includes the most recent statistical abstracts for States published since 1986 plus those that will be issued in late 1997 or early 1998. For some States, a near equivalent has been listed in substitution for, or in addition to, a statistical abstract. All sources contain statistical tables on a variety of subjects for the State as a whole, its component parts, or both. The page counts given for publications are approximate. Internet sites also contain statistical data and were accessed in early September 1997.
