

WORKSHEET AND STATEMENT OF COMPLIANCE WITH “LOWEST VENDOR GUARANTEED FULL SCALE SPAN RANGE” CEMS REQUIREMENTS

ANALYZER TO BE EVALUATED:				
NOx	<input type="checkbox"/>	SOx	<input type="checkbox"/>	CO <input type="checkbox"/>
			Other	<input type="checkbox"/> _____
Make	_____	Model	_____	S/N _____ Range _____
FACILITY MONITORED: _____			FAC ID: _____	
LOCATION: _____				
EQUIPMENT MONITORED: _____				
(AQMD Equipment Designation: _____ Application. <input type="checkbox"/> Permit. <input type="checkbox"/> RECLAIM Device ID No. <input type="checkbox"/>)				

Vendor, please answer the following questions with regard to the above analyzer operated at the above facility (check appropriate box):

1. Is the analyzer a fixed single range analyzer? Yes No

If you answered “No”, go to Question 2.

If you answered “Yes”, go to Question 4.

2. Is the analyzer capable of automatic range switching? Yes No

If you answered “No”, go to Question 4

If you answered “Yes”, go to Question 3

3. Is one of the lower ranges (for which this analyzer can be modified to include, in addition to the range specified above) guaranteed to meet RECLAIM performance specifications for the above specified pollutant concentration measurement (when values fall within 10-95% of full scale span of this lower range) for the application at the above facility and the environment in the exhaust gas stack? Yes No*

* If you answered “No”, the analyzer meets the requirement for the Lowest Vendor Guaranteed Full Scale Span Range. *Please sign and date this worksheet, and mail to address provided.*

If you answered “Yes”, go to Question 6.

4. Is the analyzer capable of being modified to automatic range switching? Yes No*

* If you answered “No”, the analyzer meets the requirement for the Lowest Vendor Guaranteed Full Scale Span Range. *Please sign and date this worksheet, and mail to address provided.*

If you answered “Yes” go to Question 5.

South Coast Air Quality Management District

5. Is one of the lower ranges (for which this analyzer can be modified to include, in addition to the range specified above) guaranteed to meet RECLAIM performance specifications for the above specified pollutant concentration measurement (when values fall within 10-95% of full scale span of this lower range) for the application at the above facility and the environment in the exhaust gas stack? Yes No*

* If you answered "No", the analyzer meets the requirement for the Lowest Vendor Guaranteed Full Scale Span Range. *Please sign and date this worksheet, and mail to address provided.*

If you answered "Yes", enter the cost of modification of the analyzer only here \$ _____ and the cost of original analyzer here \$ _____ and go to *Question 6*.

6. Is the DAS currently programmed to recognize automatic range switching and accept data from two ranges? Yes No

If you answered "No", enter the cost of modification of the DAS, exclusive of analyzer modification costs (if any) above, here \$ _____ and the cost of the original analyzer here \$ _____ and go to *Question 8*.

- If you answered "Yes", have you entered any modification costs in *Question 5* above? Yes No

If you answered "No", then go to *Question 7*.

If you answered "Yes", then go to *Question 8*.

7. The analyzer does not meet the requirement for the Lowest Vendor Guaranteed Full Scale Span Range and must be modified to include two ranges, the higher at the above range, and the lower at:

_____ ppm.
(Vendor fill-in additional range)

8. The AQMD will determine if the costs cited are significant enough to declare the above range as the Lowest Vendor Guaranteed Full Scale Range for CPC.

Please submit to:

South Coast Air Quality Management District
21865 East Copley Drive
Diamond Bar CA 91765-4182
