FY 2009 Overview:

Emergency Operations Center (EOC) And Driver's License Security Grant Programs

December 16, 2008

Grant Programs Directorate

Emergency Operations Center (EOC) Overview

Emergency Operations Center (EOC) Grant Program

Total Funding Available in FY 2009: \$34,002,500

Purpose: The Emergency Operations Center (EOC) Grant Program is intended to improve emergency management and preparedness capabilities by supporting flexible, sustainable, secure, and interoperable Emergency Operations Centers (EOCs) with a focus on addressing identified deficiencies and needs. This program provides funding for construction or renovation of a state, local, or tribal governments' principal EOC. Fully capable emergency operations facilities at the state and local levels are an essential element of a comprehensive national emergency management system and are necessary to ensure continuity of operations and continuity of government in major disasters caused by any hazard.

Eligible Applicants: The governor of each state and territory is required to designate a State Administrative Agency (SAA) to apply for and administer the funds awarded under EOC. The SAA is the only eligible entity able to apply for the available funding on behalf of eligible state, local, and tribal EOCs.

Program Awards: The total amount of funding allocated for the FY 2009 EOC Grant Program under the *Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009* (Public Law 110-329) is \$34,002,500. Of that amount, \$21,645,000 was appropriated for designated state and local EOC projects throughout the nation. The remaining \$12,357,500 shall be allocated competitively to eligible state, local, or tribal governments' principal EOCs based on a state and national review.

Driver's License Security Grant Program Overview

Driver's License Security Grant Program

Total Funding Available in FY 2009: \$48,575,000

Purpose: The purpose of FY 2009 Driver's License Security Grant Program is to prevent terrorism, reduce fraud, and improve the reliability and accuracy of personal identification documents that states and territories issue.

Eligible Applicants: Eligible applicants under the FY 2009 Driver's License Security Grant Program are state motor vehicle/drivers license issuing authorities, also known as the State Motor Vehicle Administration (MVA), or the State Department of Motor Vehicles (DMV). DHS encourages states to submit grant applications to fund projects that will improve driver's license issuance processes and expedite state compliance with the REAL ID Act and rule. The grant applicant will need to identify an individual in the MVA or DMV with overall programmatic and fiscal oversight of FY 2009 Driver's License Security Grant Program funding awarded to the state.

Program Awards: The total amount of funding allocated for the FY 2009 Driver's License Security Grant Program under the *Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009* (Public Law 110-329) is \$48,575,000. All 56 states and territories will receive a base amount with the balance of funds distributed based on the total number of driver's licenses/IDs issued in each state. Final determinations for funding allocations will be based upon applications received as well as the results of a national review panel.
