<sup>1</sup> Amount of deductible is for each insured individual and excludes separate deductibles for orthodontic procedures. A single deductible may not apply to all covered dental procedures. If separate deductibles applied to different procedures, the sum of the deductible amounts was tabulated.

<sup>2</sup> The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for

<sup>1</sup> Includes all covered dental procedures except orthodontia. Coverage for dental procedures may be subject to scheduled allowance, deductible, or coinsurance provisions, in addition to annual plan maximum. If separate annual maximums applied to different dental procedures, the sum of the maximum was tabulated.

<sup>2</sup> Less than 0.05.

<sup>3</sup> The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the estimates published in the "National Compensation

Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria.
