

DRAFT

Ten Years of JFSP Investments: Results, Applications, and Future Needs Savannah, GA; December 1-3, 2009

Tuesday - December 1, 2009

Session 1: Overview

1330 – Welcome, agenda, symposium purpose – Nate Benson, Governing Board Chair (Moderator)

1340 – JFSP: Current program emphasis – Nate Benson

1355 - JFSP: A look back – Sue Conard

1440 – JFSP: A look forward – John Laurence

1445 – Ten years of progress in fire science and application: a federal view – Dave Cleaves, Associate Deputy Chief, Research and Development – Forest Service; Jim Douglas, Assistant Director for Fire and Aviation - BLM

1510 - Ten years of progress in fire science and application: a university view – Penny Morgan, Professor of Forest Resources - University of Idaho

1535 – Break

Session 2: What has been learned, and what are priorities for future fire science?

What do we know now that we didn't know ten years ago, how has that knowledge and technology affected on-the-ground management, and what do we need to learn in the next ten years?

The purpose of this session is to present important findings from JFSP-funded research in context with other results. The session will be organized as six sub-sessions. Each sub-session will have two speakers, each giving a presentation summarizing key results from the last ten years, related changes in management applications, and future research needs. A three-person management application panel will follow. The panel will first ask questions of presenters, then the audience asks questions of science presenters or the panel.

Sub-session A –Moderator – Paul Langowski

1600 - Fire ecology – Jan Van Wagendonk

1625 - Fire effects – Matt Dickinson

1650 - Management panel –

1735 - Finish

JFSP Poster Session – Tuesday Evening

Wednesday - December 2, 2009

Con't., Session 2

Sub-session B — Moderator – Tim Sexton

1000 - Fuel treatments – Phil Omi

1025 - Fire and Fire Surrogates - Jim McIver, Tom Waldrop

1050 - Management panel -

1150 – Lunch

Sub session C – Moderator – Mark Kaib

1330 - Fire history – Tom Swetnam

1355 – Changing fire regimes – Dave Peterson

1420 - Management panel –

1530 – Break

Sub session D – Moderator – Zhiliang Zhu

1600 - Post-fire management: erosion and hydrology – Pete Robichaud

1625 - Post-fire management: revegetation and invasive species – Jan Beyers

1650 - Management panel –

1735 – Finish

Thursday - December 3, 2009

Con't., Session 2

Sub session E – Moderator – Jeanne Higgins

1000 - Fire social science – Sarah McCaffrey

1025 – Decision support and risk assessment – Carol Miller

1050 - Management panel –

1150 – Lunch

Sub session F – Moderator – Tom Remus

1330 – Fire behavior –Mark Finney

1355 - Smoke management –Scott Goodrick

1420 - Management panel –

1530 – Break

Session 3: Future fire research needs

1600 - Views on future research needs panel – Moderator – Mike Hilbruner

Each panel member will have 10 minutes to describe future fire research needs and priorities.

Audience can then ask questions or comment.

Panel members are unconfirmed.

Session 4 – Closing

Moderator – Bud Cribley

1700 – What are the future fire science priorities? What kinds of changes are needed to address these priorities?

Speaker unconfirmed.

1735 – Fin
