¹ Detoxification is the systematic use of medication and other methods under medical supervision to reduce or eliminate the effects of substance abuse.

² Rehabilitation is designed to alter abusive behavior in patients once they are free of acute physical and mental complications.

³ The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the

estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dashes indicate that no data were reported or that data do not meet publication criteria. For definitions of major plans, key provisions, and related terms, see the "Glossary of Employee Benefit Terms" at www.bls.gov/ncs/ebs/glossary20082009.htm.
