

ENERGY STAR Qualified Compact Fluorescent Light Bulbs

ENERGY STAR CFL Transition List – April 20, 2009 Update

On October 17, 2008, the U.S. Department of Energy (DOE) issued a letter allowing CFL manufacturers an extended grace period during which they could sell remaining products that meet the 3.0 version of the ENERGY STAR CFL criteria, but not the 4.0 version of the criteria. The letter also states that these products would be identified and placed on a “transition list” to help alleviate market confusion during the transition. The DOE letter may be found at the link below:

https://www.energystar.gov/ia/partners/prod_development/revisions/downloads/cfls/CFL_TransitionLogoUse_17Oct08.pdf

The CFL models in the list below were identified as having met the 3.0 version of the criteria, but not meeting the 4.0 version of the criteria, based on the test data available to D&R International on April 20, 2009. They will appear as “disqualified” on the ENERGY STAR Qualified Products list, but may still carry the ENERGY STAR logo until July 1, 2009. A subset of the products on this list may be re-qualified at a later date as additional information is provided that demonstrates compliance with version 4.0 of the criteria. If you have questions concerning this list, please contact your ENERGY STAR account manager, or contact cfl@energystar.gov.

Organization Name	Brand	Model	Retail Product Number(s)	Wattage/3-Way Wattage (watts)	Light Output (lumens)	Bulb Life (hours)	Color Temperature (kelvin)	Model Type	Qualified?	Date Qualified	Date Retired	Date Disqualified
