# **Purpose**

This document defines the release of build **2009-01** of Grants.gov. It includes the scope, estimated schedule, identifies risks or impacts, functional release notes, as well as recommendations for mitigation and management. In addition, this document provides Acceptance Testing release notes, operational release notes, and Functional Test Cases that satisfy requirements associated with Deliverables 4.5.1 and 4.5.2.

# Background

Software changes are collected from various sources as System Change Requests (SCRs) in the PVCS Tracker System. SCRs are categorized and go through a review process established by the Internal Control Board (ICB) of Grants.gov. SCRs gain approval through this process for inclusion in a Build.

# Scope

The details of each SCR are listed in Appendix A, Operations Release Notes listed in Appendix B, test cases for each SCR are listed in Appendix C, and Requirements for SCR # 8652 are listed in Appendix D. Below is the list of SCR's approved by the ICB to be included in release 2009-01:

# Risk/Impact

SCR implementation may impact Grants.gov customers and other stakeholders. The impact may be functional or operational. It may affect security, usability or performance of the application or require privacy considerations.

# **Risks or Impacts**

Risk or Impact	Management Strategy
8652 Migrate grantor credential registration from ORC to Grants.gov	Agency users must be notified and a training document will be available to all agency users.
8462: Provide applicants with ability to upload package(s) via HTTPS	Pilot SYSTEM for PMO Review Only

# Approvals

Approval Level	Date Received	Approver
Approval for Build	Content, 2/20/2009	Dima Smirnoff
Cost / Schedule Approval	ICM- 2/29/2009	Dima Smirnoff & PMO
Deployment to AT07	3/23/2009	Marwan Abu-Fadel
Final Deployment to AT07	3/28/2009	Marwan Abu-Fadel

# **Deliverables**

# **Communications Plan**

Representative items include communication with applicants and training for contact center staff; agency communications should consider deployment impact on closings.

# **Release Notes**

Release Notes for Acceptance Testing does include enough details and test cases about how a feature or bug fix is implemented to facilitate IV&V testing. SI will also include the test cases used to approving the SCR to be promoted to AT07.

Release Notes for Operations (Appendix A: SCR Acceptance Testing Release Notes) does include required details about web/application server or database configuration changes and any component dependencies to allow the operations staff to install the build.

# Known Issues:

TMP requires updating the instruction and the agency register url as well as the Agency login url. Below are the links to start the registration process.

Agency Login url: <u>https://at07apply.grants.gov/apply/logincontrol.jsp?goto=./secured/AgencyLogin.jsp&loginpage</u> \_/jsp/GrantorGetID.jsp

Agency Register url: <u>https://at07apply.grants.gov/apply/agencyUserRegister.faces</u>

# Appendix A: SCR Acceptance Testing Release Notes

# **Appendix B: Operations Release Notes**

Operations Release notes added to this build.

This build does alter some system operations and requires the PMO to communicate with the applicant community regarding the registration process.

Also this build requires TMP's effort to update the static site to address the new registration process and RSS feeds.

# **Appendix C: Functional Test Cases**

# SCR-8462

Provide applicants with ability to upload package(s) via HTTPS:

This SCR is a concept of upload grant submissions, and should be demonstrated by SI based on a schedule set by the PMO and IV&V. After demonstration PMO & IV&V will give us their feedback and requirements to implement this functionality or remove it.

### SCR-8462

Provide applicants with ability to upload package(s) via HTTPS:

This SCR is intended to explore the concept of grant submission uploads outside the normal Grants.gov workflow as a backup method of submission should normal means fail. The proof of concept should be demonstrated by SI based on a schedule set by the PMO and IV&V. After demonstration PMO & IV&V provide feedback and requirements to implement this functionality or remove it.

### SCR-8686
