

FEDERAL FISCAL YEAR 2008 DBE GOAL

An Overall Annual Disadvantaged Business Enterprise Goal has been developed for Disadvantaged Business Enterprise (DBE) participation in ODOT's Federal Fiscal Year (FFY) 2008 federally assisted contracts. The goal was developed in compliance with federal regulations set forth in 49 CFR Part 26, Participation by Disadvantaged Business Enterprises in U.S. Department of Transportation (DOT) Programs. The goal identifies the relative availability of DBEs based on evidence of ready, willing and able DBEs in relationship to all comparable businesses which are known to be available to compete for ODOT's USDOT assisted contracts. The overall annual goal reflects staff's determination of the level of DBE participation that would be expected absent the effects of discrimination. No changes to the ODOT DBE Program Document have been submitted or approved since October 1999, but the document is currently under review.

STEP ONE – DETERMINING THE BASE FIGURE

A. Determination of Relative Availability.

To initially calculate the overall DBE Goal for FFY 2008, we determined the base figures for the relative availability of DBEs in specific areas of expertise utilizing DBE certification data (DBE Directory) provided by the Office of Minority, Women and Emerging Small Business (OMWESB), and the ODOT Bidders List. To establish this goal, ODOT utilized the first recommended procedure referenced in 49 CFR 26.45(c) (2), and as outlined in ODOT's approved DBE Program Document (Enclosure A).

ODOT arrayed this information by sorting the selected firms with the 2002 North American Industry Classification System (NAICS) codes.

ODOT determined that the following codes were disciplines most common with highway-related construction and professional services:

NAICS_CODE	NAICS_DESCRIPTION
111421	Nursery and Tree Production
236210	Industrial Building Construction
236220	Commercial and Institutional Building Construction
237110	Water and Sewer Line and Related Structures Construction
237120	Oil and Gas Pipeline and Related Structures Construction
237310	Highway, Street, and Bridge Construction
237990	Other Heavy and Civil Engineering Construction
238110	Poured Concrete Foundation and Structure Contractors
238120	Structural Steel and Precast Concrete Contractors
238190	Other Foundation, Structure, and Building Exterior Contractors
238210	Electrical Contractors
238220	Plumbing, Heating, and Air-Conditioning Contractors

238320	Painting and Wall Covering Contractors
238390	Other Building Finishing Contractors
238910	Site Preparation Contractors
238990	All Other Specialty Trade Contractors
324121	Asphalt Paving Mixture and Block Manufacturing
327320	Ready-Mix Concrete Manufacturing
327332	Concrete Pipe Manufacturing
332312	Fabricated Structural Metal Manufacturing
484220	Specialized Freight Trucking, Local
541310	Architectural Services
541320	Landscape Architectural Services
541330	Engineering Services
541340	Drafting Services
541360	Geophysical Surveying and Mapping Services
541370	Surveying and Mapping (except Geophysical) Services
541380	Testing Laboratories
541618	Other Management Consulting Services
541620	Environmental Consulting Services
541690	Other Scientific and Technical Consulting Services
541990	All Other Professional, Scientific, and Technical Services
561730	Landscaping Services
561990	All Other Support Services
562119	Other Waste Collection

Step 1A: Relative DBE Availability by ODOT Bidders List Information
(From 10/01/05 through 09/30/06)

To gain this information, ODOT analyzed bidding information collected per 49 CFR 26.45(c)(2) from federal fiscal year 2006, and determined that the bidders list accurately shows firms that are willing and able to perform with ODOT by capturing active bidding information, (Enclosure B). As this analysis was conducted in May 2007, the current FFY was not considered because of incomplete data. The bidders list consists of successful and unsuccessful bidders for ODOT federal-aid highway construction projects, and includes Prime Contractors and first-tier subcontractors for unsuccessful bidders, and Prime Contractors and all-tier subcontractors for successful bidders. The analysis shows that in FFY 2006, 570 firms (a decrease of 157 firms in all bidders from the FFY 2005 analysis) are actively submitting bids or quotes to ODOT, and of those, 66 were certified DBEs. When dividing 66 by the 570, ODOT found that 11.58% percent of the firms actively bidding were certified DBEs, overall a 0.52% *decrease* in DBE bidders from the previous FFY analysis. It should be noted that on April 19, 2006, ODOT suspended race- and gender-conscious, contract-specific goals, which may have contributed to this decrease..

Certified DBEs	66	= 11.58%
Total Firms	570	

B. Determination of Local Market

ODOT has determined that the State of Oregon is its relevant local market area. This was determined by an examination of the Department’s pre-qualified bidders list and the state’s DBE Directory, which show that a substantial majority of the contractors and subcontractors that the Department does business with reside in the state.

STEP TWO – ADJUSTING THE BASE FIGURE

A. Past Participation

The regulations require that after the base figure is calculated, ODOT must consider available evidence to determine if the figure should be adjusted. As a part of our consideration, we researched the dollar value of federal-aid construction contracts executed in the Federal fiscal years 2004, 2005 and 2006 (Enclosure C). As this analysis was conducted in May 2007, the current FFY was again not considered because of incomplete data for the current fiscal year.

Race-neutral and race-conscious achievement for the past three federal fiscal years for which information is complete is:

Year	R & G Neutral Dollars	R & G Neutral Percent	R & G Conscious Dollars	R & G Conscious Percent
2004	\$5,433,311	1.66	\$34,268,731	10.39
2005	\$11,916,985	3.40	\$19,988,508	5.70
2006	\$29,436,483	6.08	\$23,490,693	4.85

During FFY 2004, ODOT awarded 113 federal-aid construction contracts totaling \$329,820,346. DBE contracting volume for this FFY totaled \$39,735,041, for a participation rate of 12.05%.

2004 DBE Contracting Volume	\$39,735,041.	= 12.05%
2004 Total Awards	\$329,820,346.	
2004 DBE Goal Specific Volume:		\$34,268,731 (10.39%)
2004 Race/Gender Neutral Volume:		\$ 5,466,311 (1.66%)

During FFY 2005, ODOT awarded 91 federal-aid construction contracts totaling \$350,675,580. DBE contracting volume for this FFY totaled \$31,905,493 for a participation rate of 9.10%.

2005 DBE Contracting Volume	\$31,905,493	
		=9.10 %
2005 Total Awards	\$350,675,580	
2005 DBE Goal Specific Volume:	\$19,988,508	(5.70%)
2005 Race/Gender Neutral Volume:	\$ 11,916,985	(3.40%)

During FFY 2006, ODOT awarded 83 federal-aid construction contracts totaling \$483,907,000. DBE contracting volume for this FFY totaled \$52,927,176 for a participation rate of 10.94%.

2006 DBE Contracting Volume	\$52,927,176	
		=10.94 %
2006 Total Awards	\$483,907,000	
2006 DBE Goal Specific Volume:	\$23,490,693	(4.85%)
2006 Race/Gender Neutral Volume:	\$ 29,436,483	(6.08%)

The median percentage for the 3-year period is 10.94%. This figure will be used for the Step 2 adjustment to the base figure.

B. Public Participation

The ODOT Office of Civil Rights attended various meetings, marketplace events, trade shows and conferences throughout the past year and encouraged public comments on the DBE annual goal and the goal setting methodology. The three major events for small businesses were the Governor’s Marketplace (2/21/07), the OAME Trade Show (5/10/07), and the MED Week Trade Show and Luncheon (10/4/06). Other small business events were monthly Contractor and A & E meetings at OAME, the ACEC/ODOT Conference (4/17/07), the CH2M Hill Small Business Fair (Spring 2007), and the Latino Business & Workforce Development Conference (9/23/06). ODOT/OCR also received phone calls from certified DBEs, Prime Contractors and business organizations. In addition, several groups met on an ongoing basis to identify issues and discuss solutions to improve the business climate in Oregon for all businesses, including DBEs. The Small Business Initiatives workgroup is composed of representatives from ODOT, Prime Contractors, AGC, and several DBE firms. A series of meetings were held by the MWESB Focus Group, made up of agency directors and key personnel from various state agencies, to clarify and coordinate support services to small minority- and women-owned businesses. No written comments regarding the DBE goal setting methodology were received.

The ODOT Office of Civil Rights published legal notice (Enclosure D) of this proposed annual goal for FFY 2008 and this report on it’s website prior to June 15, 2007, and it was also published on the main ODOT website. Legal notices soliciting comments were e-mailed to various organizations (Enclosure E) including: the Associated General Contractors of Oregon; the Oregon Association of Minority Entrepreneurs; the Hispanic Metro Chamber of Commerce; the African American Chamber of Commerce; the National Association of Minority Contractors of Oregon; the

Philippine Chamber of Commerce; the Governor's Advocate for Minority, Women and Emerging Small Business; and, the Governor's Affirmative Action Officer. The report was available for review in the ODOT Office of Civil Rights, and through a link on the website. This report was accessible to minorities, women, general contractor groups, community organizations and other U.S. DOT recipients. No comments were received by ODOT during the 45-day review period.

FFY 2008 Goal Determination

Taking the above information into consideration, ODOT has established an 11.26% DBE Goal for FFY 2008. This goal is based on an average of the availability of ready, willing, and able firms based on the current bidders list (Step 1) and the average DBE participation for the previous three fiscal years (Step 2).

$$\frac{11.58\% \text{ (DBE Bidding Population)} + 10.94\% \text{ (Median DBE Participation)}}{2} = 11.26\% \text{ FFY 2008 DBE Goal}$$

Breakout of Estimated Race/Gender-Neutral and Race/Gender-Conscious Participation

The USDOT regulations require that the maximum feasible portion of the DBE Overall Annual Goal of 11.26% be met by using race neutral methods. Included in the race/gender-neutral analysis is a consideration of: 1) The amount of dollars awarded to DBE firms as prime contracts; 2) Dollars awarded to DBE firms as non-committed DBEs on projects where goals were assigned, and; 3) Dollars awarded to DBE firms on projects where goals were not assigned.

Due to recent guidance issued by the USDOT, its Federal Highway Administration and Federal Transit Administration as a result of the decision of the 9th US Circuit Court in the Western States Paving Co., Inc. v. Washington State Department of Transportation, the State of Oregon will set race- and gender-conscious DBE goals for specific projects at zero (0) percent. All DBE participation will be achieved through race- and gender-neutral means until ODOT has conducted a Disparity Study which provides sufficient data to support narrowly-tailored, contract-specific, race- and gender-conscious goals.

The only previous Disparity Study of record conducted in Oregon was completed in May 1996, and was limited in scope. The 1996 study has not been considered in the annual DBE goal setting because it: a) only applied to the Portland Metro area, b) is over 10 years old, c) was conducted with minority-owned and women-owned firms who did not necessarily meet the criteria for certification as DBE, d) was primarily focused on contracting not associated with road and highway construction, and e) contained very little anecdotal information. ODOT issued a Request

for Proposals for a new Study on September 22, 2006, executed a contract on January 9, 2007, and expects to have a completed Disparity Study by October 31, 2007. If the Study results indicate that contract-specific, race- and gender-conscious goals are appropriate, ODOT will resume setting goals based on project size, scope, location and DBE availability. Race- and gender-conscious, contract-specific goals will be used to supplement race- and gender-neutral means to achieve the annual goal.

To encourage race- and gender-neutral utilization, the ODOT will continue current efforts, and work to develop new strategies. DBE utilization will continue to be tracked as race-neutral participation. ODOT will provide supportive services to DBEs, which may include technical support, training, qualified expense reimbursements, resource information, and other identified support, as funding allows. ODOT currently does not receive any federal funds for supportive services. The ODOT participates in outreach and networking events to communicate contracting information to firms, and is working on several projects to help all businesses to identify contracting opportunities. A new mentor/protégé program is in the research and development stage. The ODOT continues to enforce its prompt payment provisions and processes. The ODOT will consider other race-neutral methods of increasing DBE utilization as they are identified.

3.0 DBE Goal Development

3.1 Overall Annual DBE Goal

As a recipient of U.S. DOT financial assistance, ODOT is required to set an overall goal for DBE participation in U.S. DOT assisted contracts. The overall goal will not be subdivided into group specific goals, or be established as a quota system.

The Director of the Oregon Department of Transportation shall establish an overall goal on a fiscal basis for the participation of DBEs in all budgeted contracts utilizing Federal-aid funds. The overall annual goals will be expressed as a percentage of the total amount of Federal-aid funds the Department anticipates expending in the fiscal year.

ODOT's overall goal is based on demonstrable evidence of the availability of ready, willing and able DBEs available to participate on U.S. DOT assisted contracts.

The Department intends to meet those goals to the maximum extent feasible through the race neutral measures described in section 4.4 of this document. Where Race-neutral measures are inadequate to meet the overall goals, ODOT will establish specific contract goals for particular projects with subcontracting opportunities.

3.1.1 Establishing Base Figure - Determining Relative DBE Availability

A. Contractor Data:

(1) Using *contractor* data available through OCRs DBE database, determine the number of ready, willing and able businesses available in the highway contracting area that perform work with the same SIC codes.

(2) Compare the above with *contractor* data provided by Census Bureau's County Business Pattern (CBP) database. Utilize the average of the two figures. (Information about the CBP data base may be obtained from the Census Bureau at their web site, www.census.gov/epcd/cbp/view/cbpview.html.)

(3) Divide the number DBEs by the number of all businesses to arrive at base figure A for the relative availability of DBEs in this market area.

B. Contracting Data:

(1) Using *contracting* data available through OCRs DBE database (CRCT), determine the number of DBEs that have bid or quoted on U.S. DOT assisted prime or subcontracts in the previous year. Determine the number of all businesses that have bid or quoted on prime or subcontracts in the same time period. Divide the number of DBE bidders and quotes by the number of all businesses to arrive at base figure B for the relative availability of DBEs in this market area.

(2) Determine the average percentage of availability by adding base figures A and B then divide by 2.

3.1.2 Adjustment To Base Figure

ODOT will adjust the base figure based on demonstrable evidence indicating that the availability of DBEs for U.S. DOT assisted contracts for the fiscal year may be higher or lower than the base figure indicates. At a minimum, the OCR will analyze the results of ODOT's efforts to contract with DBEs for the current and past two years, any available and relevant disparity studies (to the extent that they are not accounted for in the base figure), and any available and relevant results of other and similar DOT's efforts to contract with DBEs.

3.1.3 Race Neutral Analysis

Once the overall annual goal is proposed, the OCR will analyze and project the maximum feasible portion of that goal that can be achieved by using race-neutral methods. Where the projected portion of the goal using race-neutral methods is less than the overall annual goal, the remaining portion will be achieved by establishing contract goals for particular projects that have subcontracting opportunities.

This analysis is a review of past contracting history with information including, but not limited to:

- A. DBE participation as prime contractors on U.S. DOT assisted contracts;
- B. DBE participation on projects where no DBE goals have been established;
- C. DBE Participation on prime contracts exceeding contract goals;
- D. DBE participation on projects as non-committed DBE subcontractors.

The OCR shall monitor and adjust the use of contract-specific goals in accordance with 49 CFR Part 26.51 (f). When projecting the percentage of the overall annual goal to be achieved through establishing contract-specific goals, the OCR shall analyze the actual achievement of the overall annual goal through race-neutral methods in the current and previous two years. When establishing contract-specific goals during the current fiscal year, the OCR shall analyze the progress towards achieving the overall annual goal and increase or reduce the use of contract-specific goals accordingly.

3.1.4 Public Participation and Outreach Efforts

ODOT's activities managing public participation and outreach efforts are directed at assisting ODOT to solicit public input to set overall annual DBE participation goals and meet overall annual DBE goals.

In establishing overall annual DBE goals, ODOT will provide for public participation. This will include:

Prior to finalizing the Overall Annual Goals Analysis Report, ODOT will consult with U.S. DOT agencies, and other U.S. DOT grantees, minority, women; and general contractors groups, community organizations, or other officials or organizations which could be expected to have information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and ODOT's efforts to establish a level playing field for the participation of DBEs.

ODOT will publish an annual notice announcing its proposed overall annual goals, informing the public that ODOT's Overall Annual Goals Analysis Report is available for inspection during normal business hours at the Office of Contracts and Materials Management for a period of thirty (30) days, and that ODOT and the U.S. DOT will accept comments on the proposed goals for forty-five (45) days from the date of the notice. The notice will be distributed in general circulation media, local minority-focused media, and trade association publications.

In conjunction with ODOT's activities to meet its overall annual DBE goals, ODOT conducts various public participation and outreach activities designed to broaden awareness of ODOT's Office of Civil Rights Program for Contracts. The measures described in 49 CFR 26.51, focusing on race-neutral means will be actively pursued, and ODOT will also encourage its contractors to make similar outreach efforts to include DBE participation in subcontracting opportunities. In conjunction with the RCRC, ODOT will continue to organize and offer training programs for meeting DBE eligibility requirements, familiarize potential contractors with Authority procurement procedures and requirements, and to otherwise develop effective programs to further the inclusion of DBEs in ODOT's contracting activities.

3.1.5 Goal Submission

- A. The overall goal will be submitted to FHWA for review on August 1 of each year.
- B. A description of the methodology used to establish the goal, including the base figure (3.1.1 A through E above), and the evidence with which it was calculated, with any adjustment will be included.
- C. A projection of the portions of the overall goal which will be met by race-neutral means and basis for that projection.

ENCLOSURE B: Bidders List

Bidders for Federal Fiscal Years 2004, 2005 and 2006

OBE = Other Business Enterprise
 DBE = Disadvantaged Business Enterprise

**Public Notice
Oregon Department of Transportation's Annual DBE Goal
For
Federal Fiscal Year 2008**

This announcement will serve as notice of the Oregon Department of Transportation's proposal of an annual Disadvantaged Business Enterprises (DBE) goal of 11.14% for Federal Highway Administration Contracts or Grants, and 3.46% for Federal Transit Administration Contracts and Grants. This calculation is being made in accordance with U.S. DOT's 49 CFR, part 26. The overall goal is being established in an effort to achieve a "level playing field" for DBEs seeking to participate in ODOT's federally funded transportation contracting.

The analysis used in arriving at the proposed goals is available during regular business hours at the ODOT Office of Civil Rights, and through the ODOT internet web site. Written comment will be accepted up to 45 days from the date of this notice.

For further information and comment, please contact:

Oregon Department of Transportation
Office of Civil Rights
800 Airport Road SE
Salem, Oregon 97301-4798
(503) 986-4350
Fax: (503) 986-6382

June 15, 2007

ENCLOSURE E: Public Notice Publishing and Recipient List

The Public Notice (Enclosure D) was published on the ODOT website and the Office of Civil Rights website on June 15, 2007. In addition, copies of the notice were e-mailed to the following organizations or individuals to share with their members/constituents.
