

Postdoctoral Researcher(s) in Materials Theory

Materials Science and Technology Division Oak Ridge National Laboratory Oak Ridge, Tennessee

ORNL08-43-MSTD

Project Description:

One or more postdoctoral researcher positions are available in the broad areas of materials and condensed matter theory. The research emphases include structural and transport properties of low-dimensional electronic, magnetic, or spintronic materials; and first-principles design of novel nanostructured materials for clean energy. The successful applicants will work with Dr. Zhenyu Zhang of the Materials Theory Group, with strong collaborations with experimentalists.

Qualifications: Ph.D. degree required

Required disciplines in Physics or Other Physical Science

Applicants cannot have received the most recent degree more than five years prior to the date of application and must complete all degree requirements before starting their appointment.

How to Apply:

Qualified applicants may apply online at https://www2.ornl.gov/ORNL_POST/. All applicants will need to register before they can begin the online application. For complete instructions, on how to apply, please see the instructions at <http://www.ornl.gov/orise/edu/ornl/ornl-pdpm/application.htm>. When applying for this position, please reference the position title and number (ORNL08-43-MSTD).
