The Honorable Arlen Specter
Chairman
Committee on the Judiciary
224 Dirksen Senate Office Building
Washington, DC 20510

Dear Senaor Spector,

I am very impressed with Judge John G. Roberts, President Bush's nominee to the Supreme Court and I ask you to recommend his confirmation. This is an opportunity to place on the Court a man with a stellar educational and professional record who has already argued 39 cases before the Supreme Court. He was voted to the DC Circuit Court in 2003 by a **unanimous** Senate vote, and he has received the Edmund J. Randolph award from his peers. Please confirm Mr. Roberts without delay.

Additionally, I would ask any Senator who requests Judge Roberts to disclose how he would vote on any issue to read 'The Proper Scope of Questioning for Judicial Nominees' from the Republican Policy Committee (click on the link below).
