## **PREFACE**

This notebook provides guidance on the Monitoring and Technical Assistance Review System (MTARS). The notebook is intended to be used as a guide by ADD staff who manage MTARS and by MTARS reviewers who conduct the site visit activities. The notebook is also designed to help Councils, P&As, and UCEDDs prepare for and participate in MTARS activities.

The MTARS notebook describes procedures for every stage of the MTARS process, from selecting grantee sites to review through follow-up activities after the monitoring visit. It is organized into the following seven sections:

- 1) Section 1: Overview of the DD Act and ADD
- 2) Section 2: Monitoring and Technical Assistance Review System
- 3) Section 3: MTARS Team
- 4) Section 4: Planning Activities
- 5) Section 5: Pre-Site Visit Activities
- 6) Section 6: MTARS Site Visit
- 7) Section 7: Post-Site Visit Activities

There are also a number of Tabs at the end of the notebook that provide additional information and resources related to MTARS. There is a list of acronyms in *Tab A* and the glossary in *Tab B* that will help with understanding words and concepts associated with MTARS that appear in the notebook.
