CEMENT IN MARCH 2009

This report provides monthly data on the shipments of cement to final customers, and the production of clinker, in the United States from January 2008 through the current month.¹ Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for March 2009 were about 5.3 million metric tons (Mt). This was about 28% lower than shipments in March 2008 (tables 2A and 2B). Year-to-date shipments were about 14.3 Mt, down by about 28%. The leading producing States (Texas, California, Florida, Alabama, and Pennsylvania, in descending order) shipped nearly 43% of the March total (table 1A). The leading consuming States (Texas, California, Florida, Louisiana, and Georgia, in descending order) received about 40% of March's total shipments (tables 2A and 2B).

Clinker production totaled 4.6 Mt, about 32% lower than the production in March 2008 (table 4). Year-to-date production was 13.6 Mt, down by about 26%. The leading clinker-producing States (Texas, California, Alabama, Florida, and

Missouri, in descending order) produced almost 47% of the March total.

Masonry cement shipments in March of about 190,000 metric tons (t) were 28% lower than shipments for March 2008 (table 2C). Year-to-date shipments were about 489,000 t, down by almost 33%. The leading consuming States in March, in descending order, were Florida, Texas, California, Georgia, and North Carolina, and these States received nearly 46% of March's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts are likely incomplete owing to some shipments arriving overland from Canada on an informal entry basis. March 2009 imports of cement and clinker were barely 362,000 t, down by about 54% from imports in March 2008. Year-to-date imports were about 1.2 Mt, down by almost 55%.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

^rRevised.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes cement manufactured from imported clinker.

³Data may not add to totals shown because of independent rounding.

⁴Beginning January 2009, Maryland is included in Georgia, Virginia, West Virginia.

⁵Beginning January 2009, California, northern, is included in California, southern.

⁶As reported by domestic and Canadian cement manufacturers and other importers.

Grand total ³	144,628	154,515	190,115	489,258

W Withheld to avoid disclosing company proprietary data; included in totals. -- Zero.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes cement manufactured from imported clinker.

³Data may not add to totals shown because of independent rounding.

⁴Beginning January 2009, masonry shipments for California, southern includes California, northern.

⁵As reported by domestic and Canadian cement manufacturers and other importers.

Total shipments ⁴	4,284,686 [†]	4,468,103	5,176,768	13,929,556

¹Revised.

²Data are unrounded but are believed to be accurate to no more than three significant digits.

³Includes imported cement and cement manufactured from imported clinker.

⁴As reported by domestic and Canadian cement manufacturers and other importers.

⁵Data may not add to totals shown because of independent rounding.
