## Adding an ArcIMS Web Service to ArcMap in ArcGIS 9.1

- 1. Open ArcMap
- 2. Click the 'Add Data' button.

3. When the popup window appears, navigate to GIS Servers and double click Add ArcIMS Server; or single click Add ArcIMS Server and then click Add.

4. The *Add ArcIMS Server* window will appear. Under *URL of server*, type in the website address of the GDW ArcIMS Server:

http://gdw.apfo.usda.gov.

RL of server: htt	tp://geographyn	etwork.com	
Which services do	you want to co	nnect to on t	his server?

Account  Show secure	Dams Fedlands Parkways_Scer	nic_Rivers	<b>×</b>
Account Show secure User name:	Dams Fedlands Parkways_Scer	nic_Rivers	) <u>&gt;</u>

7. A secure service can be created by entering a valid *User name* and *Password* after checking the *Show secure services* box.

8. After the ArcIMS Web Service has been successfully added, add data to ArcMap from the Web Service by clicking the *Add Data* button, navigating to the *GIS Servers* icon, clicking on it, and selecting data from the GDW.
