

Small Business Profile

Advocacy: the voice of small business in government

California

California's 3.4 million small businesses provide economic opportunities to diverse groups of people and bring innovative products and services to the marketplace.* This profile from the Office of Advocacy compiles the latest facts and figures on the status and role of small business in the state. (Note that a small business is defined here as one with fewer than 500 employees.)

- California had 718,220 small employers in 2006, representing 99.2% of the state's employers and 52.1% of its private-sector employment.
- The accommodation and food services industry was the state's largest small business employer in 2006; retail trade was the largest overall employer (Table 1).
- Small businesses created 87.6% of the state's net new jobs from 2004 to 2005 (Table 2).
- California's real gross state product increased by 1.5% in 2007. By comparison, growth in the Far West region was 1.9% and the United States, 2.0%. (Source: U.S. Dept. of Commerce: Bureau of Economic Analysis)
