

USGS Remote Photography and Video Usage Form

The USGS Northern Divide Bear Project remote photographs and video are intended for scientific and educational use. We request that information about the project and what the bear behaviors represent accompany the footage when used.

We request that all photographs and video

- 1) be accompanied by proper credit to the USGS Northern Divide Bear Project. This has been embedded in the photographs and video for your convenience.
- 2) include the statement "*Cameras were triggered by motion sensors. Wildlife should never be approached.*"

Please fill in your information below.
