

Announcement No. 8 [2002] of the Certification and
Accreditation Administration of the People's Republic Of China (CNCA)

According to Regulations for Compulsory Product Certification (Order No. 5 of AQSIQ) and Regulations for Compulsory Product Certification Mark (Announcement No.1 of CNCA), and The First Catalogue of Products Subject to Compulsory Certification (Joint Announcement No. 33 by AQSIQ and CNCA), now we announce the products which don't need the CCC certificate and can be exempt from CCC certificate. This announcement will be effective immediately.

1. The products which don't need the CCC certificate:
 - a. The personal products which are brought into China by foreigners for personal use only;
 - b. The assistance and presented products between governments;
 - c. Exhibition products;
 - d. Special purpose (like products for military affairs)

For these products which don't need the CCC certificate, no need to apply for CCC certificate and bear CCC marks.

2. The products which can be exempt from CCC certificate:
 - a. The products imported /manufactured for R&D and Testing purpose;
 - b. The products being shipped into China for integration into systems only and re-exporting out of China;
 - c. The products for export only according to the foreign trade contract;
 - d. The components imported for assess the technology of fetching in product line;
 - e. The repair parts for services to end-user or the repair parts for the EOL products;
 - f. Other special products.

The products which can be exempt from CCC certificate, a Special Exempt Approval is required. The application shall be given to CNCA with the documents to prove satisfying the above conditions, the liability assurance, and DOC (including type testing reports), etc. After getting approval to obtain Certificate of Exemption from CCC Certificate, the manufacturer can import, sale and service it.
