### ALASKA ENFORCEMENT DIVISION

# Quarterly Report October 1, 2002 - December 31, 2002

#### Contents

Significant Actions	. 3
Number of Cases Opened by Investigation Type	. 6
Complaint Action	. 7
Agent/Officer Hours by Program	. 8
Agent Officer Hours by Activity	. 9
Cases Opened	10
Catch Seizures	14
Cases Forwarded to General Counsel for Further Action	15
Other Case Actions	16

#### SIGNIFICANT ACTIONS

#### A. Quarterly Milestone Activity

No milestone activity this quarter.

#### **B.** Major Cases

#### Unlawful approach within 3NM SSL Rookery

The owner of the F/V LINDY II was issued a NOVA for \$3,000 for approaching within 3 nautical miles of the Marmot Island Steller sea lion rookery. This violation was detected using VMS technology.

#### Offloading Halibut/Sablefish between 1800 AND 0600 w/o authorization

On December 11, 2002, James Hayden and FV CLYDE, LLC, operator and owners of the F/V CLYDE paid a \$22,000 penalty in order to settle a Notice of Violation and Assessment for illegally off-loading 527 pounds of halibut fillets and 189 pounds of sablefish fillets outside of legal landing hours on September 6, 2002, in Kodiak, Alaska. The F/V CLYDE also exceeded the IFQ vessel cap for the maximum amount of IFQ halibut that may be harvested in one season by a single vessel. Mr. Hayden started landing the IFQ fish at 9 p.m., failed to report it to NOAA Fisheries as required, and failed to debit the poundage from his IFQ allocation. The fish were apparently intended to be used for personal consumption, known as "homepacks." Keeping commercially harvested IFQ fish for personal use is permissible if the fish are reported and debited as required by IFQ regulations. By failing to debit these "homepack" fish from his IFQ allocation, Hayden surreptitiously kept more of his IFQ allocation available for later use.

#### Observer interference/harassment

Last quarter the owner/operator of the F/V REBECCA IRENE was issued a \$360,000 NOVA and a Notice of Permit Sanction (sanctions six different federal permits for 90 days) for directing the crew of the vessel to interfere with observer sampling procedures of the observer by removing halibut from the deck prior to the observer's sampling. A tentative hearing date is scheduled for March 2003.

A similar case on a different vessel is being represented to the Federal Grand Jury. The term of the original Grand Jury expired and the case is being reintroduced. This case is scheduled to be presented for indictment during the February session of the Grand Jury. The U.S. Attorney's Office previously issued a pre-charge offer to both defendants proposing that the defendants each plead guilty to one felony count of Conspiracy to violate the Lacey Act (16 U.S.C. 3372(d) and 3373(d)(3)(A)(ii)) in relation to the submission of false records to the National Marine Fisheries Service.

We have reached a tentative settlement agreement in the DoNovo sexual harassment case. If accepted the settlement involves a civil fine of \$40,00, agreement by the Coast Guard not to proceed against the skippers license, \$4,815.00 in restitution to the victim, and pay to put himself through "sensitivity" training. The agreement should be signed shortly.

A 202-count case was referred for civil prosecution. Allegations against the trawler include inadequate observer accommodations, sample biasing, failure to render assistance, observer interference, creating a hostile environment, improper release of fish, reporting and record keeping violations, and failure to notify. At quarter's end, a draft NOVA well in excess of \$100,000 was being reviewed.

#### C. COPPS

#### Fish Expo

The Alaska Enforcement Division sent two Enforcement Officers to Fish Expo in Seattle, Washington. The AED and North West Enforcement Division shared a booth during this major event. Commercial fishing was the major theme and provided an excellent opportunity for enforcement agents and officers to meet industry representatives away from the vessels and plants. Five separate reporting and record keeping seminars were conducted in the Seattle area by our officers, the U.S. Coast Guard, and Sustainable Fisheries.

#### Cook Inlet Beluga Whale Protection

The 2002 Cook Inlet Beluga Whale Protection effort concluded. We devoted more than 300 hours to crime prevention and related COPPS efforts. The year end report was completed and is available for review.

In response to learning from the Restricted Access Division that a significant number of vessels had not made the required designations on their License Limitation Permit (LLP). We initiated efforts to promote voluntary compliance within the crab and groundfish fleet to have the LLPs amended. We developed a flyer and e-mailed it to all processors in Western Alaska, with a request to post in their plants. The Alaska Dept. of Fish and Game office in Dutch Harbor assisted with this notification during crab vessel tank checks. The flyer was also sent to the Alaska Crab Coalition, who forwarded the notice to all members in their newsletter, as well as faxing the flyer to several crab industry suppliers.

We conducted courtesy inspections of the five federally permitted processors in Cordova, AK. The processors were assisted in completing record keeping and reporting requirements for the end of 2002.

#### D. VMS

This quarter, the VMS staff in Juneau spent much time field testing VMS units for various vendors who wanted their units approved for use in the Alaska fisheries. Two systems were successfully tested and the results sent to HQ's for consideration for approval. A total of 33 investigations resulting from VMS data has been initiated since the program began on June 10, 2002. Ten of these began in the fourth quarter. At quarters end 378 vessels were confirmed VMS users, an increase of 67 from the last quarter. Further increases are expected early in the next quarter.

## E. OTHER ITEMS OF INTEREST

## Infrastructure

We completed our biennial Divisional in-service in December. Appropriate documentation was completed.
