Procurement RSS

- Procurement RSS is a search that is normally used to locate new projects in IDB.

- You can use this search by clicking on the link from the the IDB's homepage on the lower left hand side of the screen.

From there:

- 1. Click on [Project Pipeline](#) to see those projects that have not yet been approved by the Board of Executive Directors. These projects are in the preparation phase and therefore the best opportunities for potential investors.

The screenshot shows two overlapping browser windows. The top window displays the IDB Procurement Portal's main menu with navigation links for Home, About the IDB, News, Countries, Topics, Projects, Research, and Publications. The bottom window shows the 'Project Procurement Information' page, which includes a list of countries and a map of South America. A blue circle highlights the 'Project Pipeline' link in the 'PROJECT INFORMATION' section of the left-hand navigation menu. Other links in this section include 'Projects in Execution', 'Procurement Plans', and 'Projects Completed'. The 'Procurement Notices' section on the left also lists 'General - GPNs', 'Specific - SPNs', and 'Procurement Information' with RSS icons. The 'Spotlight' section lists various topics like 'Public Consultation' and 'Development Effectiveness'. The 'Resources' section includes 'Libranc'.
