

U.S. International Transactions, First Quarter 1997

By Christopher L. Bach

The international transactions accounts have undergone substantial revision as a result of major improvements in estimating methodologies and in the development of new source data. For a discussion of these changes, see "U.S. International Transactions, Revised Estimates for 1974-96" in this issue.

THE U.S. current-account deficit increased to \$41.0 billion in the first quarter of 1997 from \$36.9 billion (revised) in the fourth quarter of 1996 (table A, chart 1).¹ A shift to a deficit on investment income and an increase in the deficit on goods and services were partly offset by a decrease in net unilateral transfers.

In the capital account, net recorded capital inflows were \$59.1 billion in the first quarter, compared with \$40.1 billion in the fourth. Increases in U.S. assets abroad and increases in foreign assets in the United States both slowed,

1. Quarterly estimates of U.S. current- and capital-account components are seasonally adjusted when statistically significant seasonal patterns are present. The accompanying tables present both adjusted and unadjusted estimates.

but the slowdown was more pronounced for U.S. assets abroad. Although somewhat reduced, both increases remained large by historical standards.

The statistical discrepancy—errors and omissions in recorded transactions—was an outflow of \$18.1 billion in the first quarter, compared with an outflow of \$3.3 billion in the fourth.

The following are highlights for the first quarter of 1997:

- The balance on investment income shifted to a deficit from a surplus, and the deficit on goods and services increased.
- Capital outflows for U.S. assets abroad slowed; outflows for claims reported by U.S. banks slowed moderately, while outflows for net U.S. purchases of foreign securities slowed sharply.
- Capital inflows for foreign assets in the United States also slowed, particularly for liabilities reported by U.S. banks and for net foreign purchases of U.S. Treasury securities.

Table A.—Summary of U.S. International Transactions

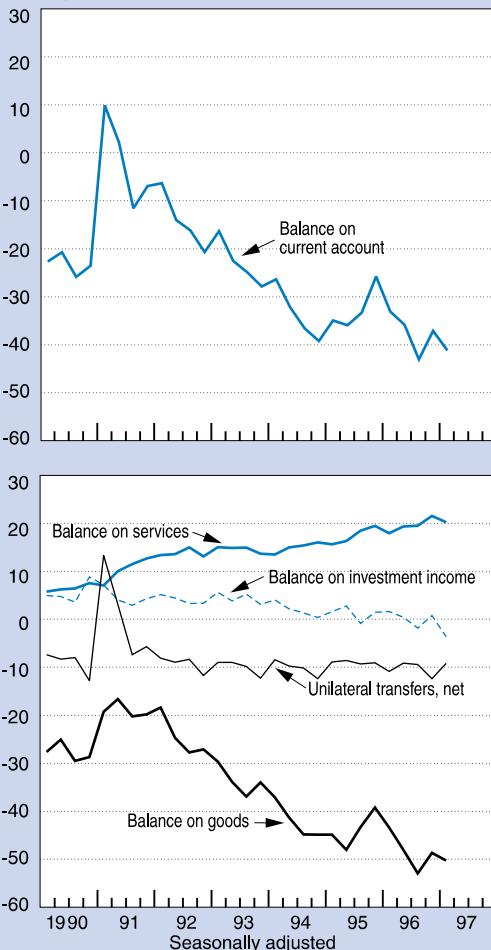

[Millions of dollars, seasonally adjusted]

Line	Lines in tables 1 and 10 in which transactions are included are indicated in ()	1995	1996	1995				1996				1997 I/P	Change: 1996 IV- 1997 I
				I	II	III	IV	I	II	III	IV		
1	Exports of goods, services, and income (1)	991,490	1,055,233	237,587	246,787	250,734	256,382	256,382	262,335	261,979	274,545	279,468	4,923

U.S. dollar in exchange markets

In the first quarter, the dollar appreciated 7 percent on a trade-weighted quarterly average basis against the currencies of 10 industrial countries (**table B, chart 2**). The dollar appreciated 8 percent against the German mark, 7 percent against the Japanese yen, and 1 percent against the Canadian dollar. The dollar was unchanged against the British pound.

The dollar's sharp advance during the quarter was encouraged by a further increase in both short- and long-term interest-rate differentials in favor of U.S. dollar assets. U.S. interest rates were pushed higher, partly by a strengthening rather than a moderation in U.S. economic activity and partly by expectations that U.S. monetary policy might be tightened. In late March, the Federal Reserve raised the target federal funds rate by 25 basis points to 5.5 percent. Abroad, Germany's economic growth gained momentum but remained below that in the United States, and market participants remained concerned about the economic health of Japanese financial institutions. Uncertainties concerning the start of the European Monetary Union may have temporarily strengthened the mark against the dollar late in the quarter.

The dollar's strong appreciation over the past 2 years has returned its level against the mark to close to that in late 1993 and early 1994, while its level against the yen is now well above that in the same time period (chart 2).

Current Account

Goods and services

The deficit on goods and services increased to \$29.1 billion in the first quarter from \$26.2 billion in the fourth. The deficit on goods increased to \$49.8 billion from \$48.2 billion, and the surplus on services decreased to \$20.7 billion from \$22.0 billion.

Goods.—The deficit on goods increased to \$49.8 billion in the first quarter from \$48.2 billion in the fourth, as imports increased more than exports.

Exports.—Exports increased \$4.7 billion, or 3 percent, to \$162.6 billion in the first quarter.

Quantity, measured in chained (1992) dollars, increased 4 percent (table C).

Nonagricultural exports increased \$5.8 billion, or 4 percent, to \$148.2 billion. Quantity increased 5 percent, and prices decreased 1 percent. In value, capital goods accounted for nearly one-half of the increase. Among capital goods, one-third of the increase was attributable to surges in industrial engines, pumps, and compressors and in other industrial, agricultural, and service industry machinery. Another one-third was attributable to computers, peripherals, and parts and to semiconductors; these shipments are just above the levels reached at the end of 1995 before oversupply conditions limited shipments for much of 1996. The remaining one-third was attributable to civilian aircraft, engines, and parts, which remain exceptionally strong. Nonagricultural industrial supplies and materials increased as a result of higher shipments of chemicals and nonmonetary gold. Shipments of passenger cars and parts were sharply higher, particularly shipments to Canada, which rebounded from a strike-depressed fourth quarter.

Agricultural exports decreased \$1.1 billion, or 7 percent, to \$14.3 billion. Quantity decreased 7 percent. Prices of most major agricultural commodities fell sharply in the last two quarters of 1996 but changed little in the first quarter of 1997. Previously, prices had risen strongly from the fourth quarter of 1994 through the second quarter of 1996.

Soybeans decreased \$0.5 billion, or 23 percent, mostly to China, Europe, and Brazil. In contrast to most major commodities, the price of soybeans increased 12 percent in the first quarter, following a 13-percent decline in the fourth quarter. Soybean prices are now only 3 percent below last year's high in the third quarter.

Corn decreased \$0.4 billion, or 20 percent, mainly to Korea and Mexico. The price of corn

^p Preliminary.

¹ Because chain indexes use weights of more than one period, the corresponding chained dollar estimates are usually not additive.

increased 1 percent, following decreases of 31 percent in the fourth quarter and 11 percent in the third. The price of corn is now 37 percent below its high in the second quarter of 1996.

Wheat decreased \$0.3 billion, or 25 percent, mostly to Egypt. The price of wheat decreased 2 percent and is now 27 percent below its high in the second quarter of 1996.

Imports.—Imports increased \$6.3 billion, or 3 percent, to \$212.3 billion in the first quarter. Quantity, measured in chained (1992) dollars, increased 5 percent ([table C](#)).

Nonpetroleum imports increased \$7.7 billion, or 4 percent, to \$193.1 billion. Quantity increased 6 percent, and prices decreased 1 percent. In value, \$2.5 billion of the increase was attributable to unusually large shipments of completed autos from Canada. Increases also occurred in nonpetroleum industrial supplies and materials, mainly in nonmonetary gold and chemicals. Among capital goods, computers, peripherals, and parts increased; quarterly imports now exceed the levels reached in late 1995 before oversupply conditions limited imports for much of 1996. Semiconductors, which were subject to the same oversupply conditions, have not yet returned to their late-1995 quarterly level.

Petroleum imports decreased \$1.4 billion, or 7 percent, to \$19.2 billion. The average number of barrels imported daily decreased to 9.85 million from 10.13 million. The average price per barrel decreased to \$21.31 from \$22.22. Domestic consumption, production, and inventories all decreased.

Balances by area.—As noted earlier, the deficit on goods increased to \$49.8 billion in the first quarter from \$48.2 billion in the fourth. The deficit with industrial countries increased to \$23.5 billion from \$23.0 billion; an increase in the deficit with Japan was partly offset by a decrease in the deficit with Western Europe. The deficit with non-OPEC developing countries increased to \$20.1 billion from \$18.4 billion; the rise was mostly accounted for by Asian countries. The deficit with OPEC members decreased to \$6.2 billion from \$6.7 billion.

Services.—The surplus on services decreased to \$20.7 billion in the first quarter from \$22.0 billion in the fourth, as payments increased more than receipts.

Foreign visitors to the United States spent \$18.6 billion, up from \$18.2 billion. Receipts from overseas, Mexican, and Canadian visitors all in-

creased. U.S. travelers abroad spent \$13.1 billion, up from \$12.2 billion. Expenditures overseas accounted for most of the increase; expenditures in Mexico and Canada also increased.

Passenger fare receipts were unchanged at \$5.3 billion, and passenger fare payments were \$4.3 billion, up from \$4.1 billion, as a result of an increase in overseas travelers.

“Other” transportation receipts were unchanged at \$7.1 billion. “Other” transportation payments increased to \$7.3 billion from \$7.2 billion, as a result of an increase in freight payments.

Royalties and license fee receipts were unchanged at \$7.7 billion, and payments increased to \$1.9 billion from \$1.8 billion.

“Other” private services receipts increased to \$19.7 billion from \$19.1 billion, as most services increased by small amounts. “Other” private services payments increased to \$11.3 billion from \$11.0 billion.

Transfers under U.S. military sales contracts dropped to \$3.3 billion from \$4.0 billion in the fourth quarter, when there were shipments of unusually large amounts of major equipment. Direct defense expenditures abroad were up slightly to \$2.8 billion.

Investment income

The balance on investment income shifted to a deficit of \$3.1 billion in the first quarter from a surplus of \$1.3 billion in the fourth.

Direct investment income.—Receipts of income on U.S. direct investment abroad were \$25.7 billion in the first quarter, down from \$26.9 billion in the fourth, but still the second-highest quarter on record. Earnings remained strong in Western Europe. Payments of income on foreign direct investment in the United States were \$9.5 billion, up from \$7.8 billion, and only slightly below the record \$9.6 billion in the third quarter. Continued expansion in the U.S. economy, fewer drastic cost-reduction efforts with their high initial costs, and an expanded base of foreign-owned businesses have all contributed to the strong increase in earnings over the past several years.

Portfolio investment income.—Receipts of income on “other” private investment were \$28.4 billion in the first quarter, up from \$27.2 billion in the fourth, mostly as a result of higher claims. Payments of income on “other” private investment were \$27.5 billion, up from \$26.1 billion, mostly as a result of higher liabilities.

Receipts of income on U.S. Government assets were \$0.8 billion, down slightly from \$0.9 billion. Payments of income on U.S. Government liabilities were \$21.1 billion, up from \$19.9 billion, as a result of substantial accumulations of U.S. Treasury securities by foreigners in recent quarters.

Unilateral transfers

Net unilateral transfers were \$8.7 billion in the first quarter, down from \$11.9 billion in the fourth; fourth-quarter transactions had been boosted by special grants to Israel to finance military and economic purchases.

Capital Account

Net recorded capital inflows—that is, net changes in U.S. assets abroad less net changes in foreign assets in the United States—were \$59.1 billion in the first quarter, compared with \$40.1 billion in the fourth. Increases in U.S. assets abroad slowed more than increases in foreign assets in the United States. Although somewhat reduced, both increases remained large by historical standards.

U.S. assets abroad

U.S. assets abroad increased \$99.8 billion in the first quarter, compared with an increase of \$154.4 billion in the fourth.

U.S. official reserve assets.—U.S. official reserve assets decreased \$4.5 billion in the first quarter, following an increase of \$0.3 billion in the fourth. The decrease in the first quarter resulted from Mexico's final repayment of \$3.5 billion on its drawings under medium-term swap arrangements with the U.S. Treasury. With this repayment, the medium-term swap arrangements were terminated.

Claims reported by banks.—U.S. claims on foreigners reported by U.S. banks increased \$56.6 billion in the first quarter, compared with an increase of \$66.7 billion in the fourth. The increase in interbank claims payable in dollars slowed sharply from an exceptionally large increase in the fourth quarter; the increase in claims on other private foreigners, largely on international bond mutual funds in the Caribbean, also slowed sharply.

Interbank claims of U.S.-owned banks shifted by a large amount to a sizable decrease. This shift was partly offset by an increase in interbank

claims of foreign-owned banks, whose claims increased by an even larger amount in the first quarter than in the fourth. The funding to support the increases in claims of foreign-owned banks over the past two quarters came both from domestic deposit growth and from foreign sources.

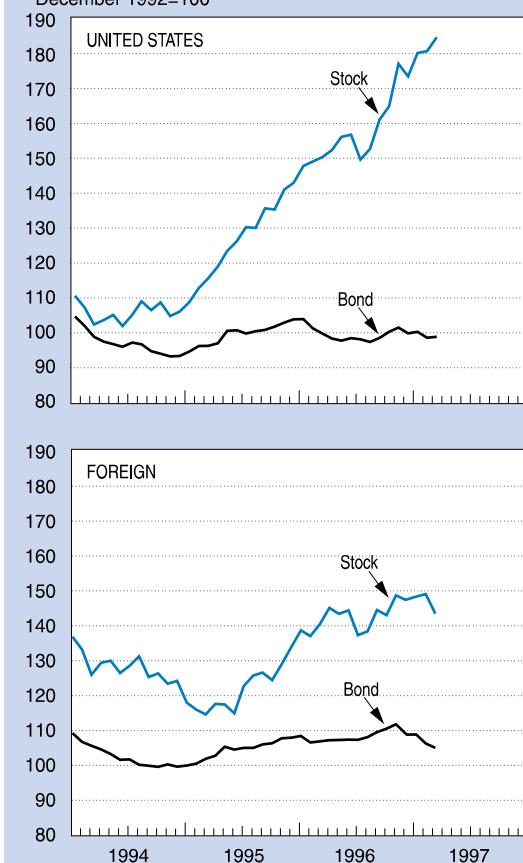

As in the fourth quarter, some interbank lending supported large net purchases of U.S. Treasury and corporate securities, the gradual strengthening of economic activity in Europe, and the large numbers of acquisitions and mergers. Most interbank lending was to banks in Europe, both in the United Kingdom and in continental Europe. Interbank demand for dollar credits in Canada and Southeast Asian countries strengthened.

The increase in claims on other private foreigners slowed sharply, largely as international bond

Indexes rebased by BEA.

U.S. Department of Commerce, Bureau of Economic Analysis

mutual funds in Caribbean financial centers sold U.S. Treasury securities in the first quarter after borrowing heavily to finance exceptionally large net purchases in the fourth.

Banks' domestic customers' claims increased \$13.2 billion, compared with an increase of \$11.5 billion. An increase in customers' deposits in European and Caribbean banks was especially large and more than accounted for the increase in the first quarter.

Banks' own claims payable in foreign currencies increased \$7.7 billion; the increases were widespread, including increases on banks' own offices in the United Kingdom, Japan, and Canada. These claims now exclude, for the first time, the effect of unrealized currency translation gains and losses.²

Foreign securities.—Net U.S. purchases of foreign securities were \$14.5 billion in the first quarter, down from \$30.2 billion in the fourth. The decline was more than accounted for by a drop in net U.S. purchases of foreign bonds to \$2.8 billion from \$19.6 billion. Net U.S. purchases of foreign stocks increased to \$11.8 billion from \$10.6 billion (chart 3).

Transactions in outstanding bonds shifted to net sales of \$8.6 billion, in contrast to net purchases of \$7.0 billion. Net sales occurred in all major markets, including Western Europe, Canada, Latin America, and Asia excluding Japan. Foreign new bond issues in the United States remained strong at \$15.0 billion but were down from \$17.4 billion.

Net U.S. purchases of foreign stocks were \$11.8 billion, up \$1.2 billion but still less than one-half the record set in the first quarter of 1996. The increase in the first quarter of 1997 was largely from the Caribbean and Japan; net purchases from Europe slowed.

Direct investment.—Net capital outflows for U.S. direct investment abroad were \$24.6 billion in the first quarter, down from \$30.9 billion in the fourth. However, net equity capital outflows more than doubled. The pickup was mostly in Europe, where major acquisitions in soft drinks, health products, pharmaceuticals, and financial services boosted first-quarter outflows. Merger and acquisition activity in Europe, as well as the United States, remains near an all-time high. In contrast to the merger boom of the late 1980's, when a large share of mergers were across industries, mergers in the mid-1990's have been

highly focused, featuring consolidations within industries and within major product lines. Intercompany debt transactions shifted by a very large amount to net inflows. As has been the case for the past several years, large quarter-to-quarter swings in intercompany debt have resulted from sizable swings in transactions between finance affiliates and parents in the securities industry. Reinvested earnings decreased but remained strong.

Foreign assets in the United States

Foreign assets in the United States increased \$158.9 billion in the first quarter, compared with an increase of \$194.6 billion in the fourth.

Foreign official assets.—Foreign official assets in the United States increased \$28.3 billion in the first quarter, compared with an increase of \$33.1 billion in the fourth. Assets of industrial countries increased much more strongly in the first quarter than in the fourth, while assets of developing countries increased much less strongly than in the fourth (table D).

Liabilities reported by banks.—U.S. liabilities reported by U.S. banks increased \$18.9 billion in the first quarter, compared with a \$39.0 billion increase in the fourth. Interbank borrowing of dollars by both U.S.-owned and foreign-owned banks slowed sharply from an exceptionally large increase in the fourth quarter. Although U.S.-owned banks had little need for foreign funds to support lending activity abroad in the first quarter, foreign-owned banks continued to use funds borrowed from abroad, in addition to U.S. deposit growth, to support their lending activity abroad.

Liabilities payable in foreign currencies increased \$8.5 billion, in contrast to a \$6.4 billion decrease in the fourth quarter. Borrowing in the first quarter was from all major geographic areas. These liabilities now exclude, for the first time, unrealized currency translation gains and losses.²

U.S. Treasury securities.—Net foreign purchases of U.S. Treasury securities were strong at \$42.9 billion in the first quarter, but were down from an exceptional \$67.5 billion in the fourth.

Most of the drop was attributable to international bond mutual funds in the Caribbean, reflecting large net sales in February and March that were perhaps generated by the large price declines associated with the 40-basis-point rise in U.S. interest rates over the quarter; net purchases by mutual funds had been especially strong in

2. For more information, see "U.S. International Transactions, Revised Estimates for 1974-96," page 53.

November and December. Net purchases from other areas remained strong, especially from the United Kingdom, where much foreign trading activity is centered, and from Japan and other Asian countries. Interest yields on U.S. Government bonds relative to mark and yen bonds were large at the beginning of the quarter and increased further by the end of the quarter. These differentials are now at levels last reached in 1989 (chart 4).

U.S. currency.—Net U.S. currency flows to foreigners were \$3.5 billion, down from \$7.8 billion. This is the first time these flows have been included in the accounts.³ The flows are recorded "net," that is, net of flows to and from foreigners. The data were developed by the Federal Reserve Board.

Other U.S. securities.—Net foreign purchases of U.S. securities other than U.S. Treasury securities were a record \$38.7 billion in the first quarter, up from \$32.4 billion in the fourth. Net foreign purchases of foreign stocks were sharply higher at \$10.3 billion, up from \$1.3 billion; net foreign purchases of bonds were \$28.4 billion, down from \$31.1 billion (chart 3).

Net foreign purchases of U.S. stocks jumped sharply, mostly as a result of net purchases by Western Europe. Accelerating U.S. stock prices, strong dollar appreciation, and continued growth of the U.S. economy with stable inflation were contributing factors. Net sales by Japan accelerated.

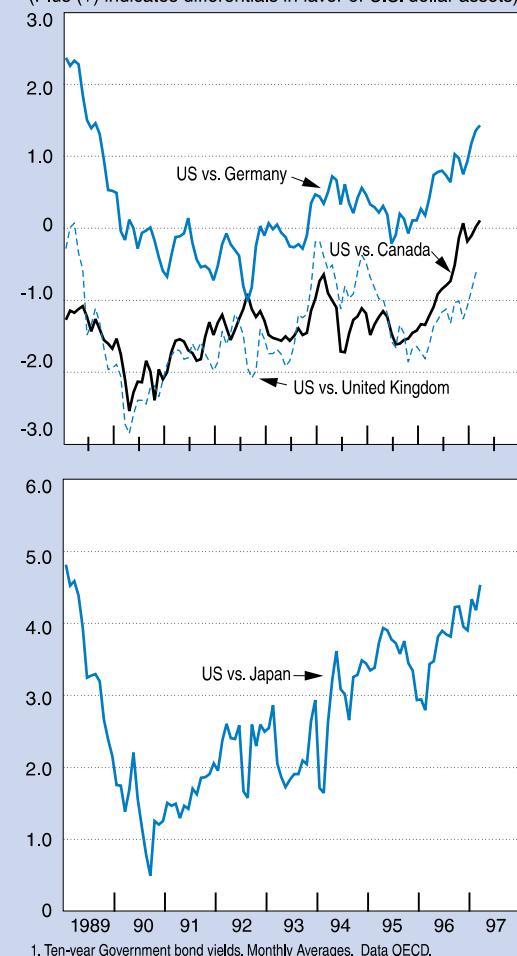

New bond issues sold abroad by U.S. corporations were a record \$20.7 billion, up sharply from \$14.6 billion in the fourth quarter; the previous

3. For more information, see "U.S. International Transactions, Revised Estimates for 1974–96," page 48.

¹ Preliminary.

² Western Europe, Canada, Japan, Australia, New Zealand, and South Africa.

³ Based on data for Ecuador, Venezuela, Indonesia, and other Asian and African oil-exporting countries. Beginning in January 1993, excludes Ecuador.

3. Consists of transactions of the Federal Reserve System and the U.S. Treasury Department's Exchange Stabilization Fund.

record was \$16.5 billion in the first quarter of 1995. The upward trend in U.S. long-term interest rates and continued strong demand for dollar-denominated debt instruments led to record placements by U.S. corporations in the Eurobond markets, mostly as fixed-rate issues. Net foreign purchases of federally-sponsored agency bonds were \$8.0 billion, down from \$12.3 billion.

Direct investment.—Net capital inflows for foreign direct investment in the United States were \$21.7 billion in the first quarter, up from \$17.7 bil-

lion in the fourth. Equity capital inflows, though down somewhat from the fourth quarter when acquisitions in the insurance and securities industries were especially large, remained strong in the first quarter, when acquisitions in the chemicals and securities industries were large. Intercompany debt inflows strengthened, also reflecting the recent surge in foreign-affiliated funding of new foreign investment in the United States. Reinvested earnings were higher, partly reflecting improved earnings of affiliates.

General notes for all tables: *P* Preliminary. *Less than \$500,000 (\pm)

D Suppressed to avoid disclosure of data of individual companies.

Table 1:

1. Credits, +: Exports of goods, services, and income; unilateral transfers to United States; capital inflows (increase in foreign assets (U.S. liabilities) or decrease in U.S. assets); decrease in U.S. official reserve assets; increase in foreign official assets in the United States.

Debits, -: Imports of goods, services, and income; unilateral transfers to foreigners; capital outflows (decrease in foreign assets (U.S. liabilities) or increase in U.S. assets); increase in U.S. official reserve assets; decrease in foreign official assets in the United States.

2. Excludes exports of goods under U.S. military agency sales contracts identified in Census export documents, excludes imports of goods under direct defense expenditures identified in Census import documents, and reflects various other adjustments (for valuation, coverage, and timing) of Census statistics to balance of payments basis; see table 2.

3. Includes some goods: Mainly military equipment in line 4; major equipment, other materials, supplies, and petroleum products purchased abroad by U.S. military agencies in line 18; and fuels purchased by airline and steamship operators in lines 7 and 21.

4. Includes transfers of goods and services under U.S. military grant programs.

5. Beginning in 1982, these lines are presented on a gross basis. The definition of exports is revised to exclude U.S. parents' payments to foreign affiliates and to include U.S. affiliates' receipts from foreign parents. The definition of imports is revised to include U.S. parents' payments to foreign affiliates and to exclude U.S. affiliates' receipts from foreign parents.

6. Beginning in 1982, the "other transfers" component includes taxes paid by U.S. private residents to foreign governments and taxes paid by private nonresidents to the U.S. Government.

7. For all areas, amounts outstanding March 31, 1997, were as follows in millions of dollars: Line 34, 67,222; line 35, 11,050; line 36, 9,879; line 37, 13,846; line 38, 32,447. Data are preliminary.

8. Includes sales of foreign obligations to foreigners.

9. Consists of bills, certificates, marketable bonds and notes, and nonmarketable convertible and nonconvertible bonds and notes.

10. Consists of U.S. Treasury and Export-Import Bank obligations, not included elsewhere, and of debt securities of U.S. Government corporations and agencies.

11. Includes, primarily, U.S. Government liabilities associated with military agency sales contracts and other transactions arranged with or through foreign official agencies; see table 4.

12. Consists of investments in U.S. corporate stocks and in debt securities of private corporations and State and local governments.

13. Conceptually, the sum of lines 70 and 62 is equal to "net foreign investment" in the national income and product accounts (NIPA's). However, the foreign transactions account in the NIPA's (a) includes adjustments to the international transactions accounts for the treatment of gold, (b) includes adjustments for the different geographical treatment of transactions with U.S. territories and Puerto Rico, and (c) includes services furnished without payment by financial pension plans except life insurance carriers and private noninsured pension plans. A reconciliation of the balance on goods and services from the international accounts and the NIPA net exports appears in the "Reconciliation and Other Special Tables" section in this issue of the SURVEY OF CURRENT BUSINESS. A reconciliation of the other foreign transactions in the two sets of accounts appears in table 4.5 of the full set of NIPA tables (published annually in the July issue of the SURVEY).

Additional footnotes for historical data in June issues of the SURVEY:

14. For 1974, includes extraordinary U.S. Government transactions with India. See "Special U.S. Government Transactions," June 1974 SURVEY, p. 27.

15. For 1978-83, includes foreign currency-denominated notes sold to private residents abroad.

16. Break in series. See Technical Notes in the June 1989, June 1990, June 1992, June 1993, June 1995, July 1996, and July 1997 issues of the SURVEY.

Table 2:

1. Exports, Census basis, represent transactions values, f.a.s. U.S. port of exportation, for all years; imports, Census basis, represent Customs values (see Technical Notes in the June 1982 SURVEY), except for 1974-81, when they represent transactions values, f.a.s. foreign port of exportation (see June issues of the SURVEY for historical data).

From 1983 forward, both unadjusted and seasonally adjusted data have been prepared by BEA from "actual" and "revised statistical" month data supplied by the Census Bureau (see Technical Notes in the December 1985 SURVEY).

Seasonally adjusted data reflect the application of seasonal factors developed jointly by Census and BEA. The seasonally adjusted data are the sum of seasonally adjusted five-digit end-use categories (see Technical Notes in the June 1980 SURVEY, in the June 1988 SURVEY, and in the June 1991 SURVEY). Prior to 1983, annual data are as published by the Census Bureau, except that for 1975-80 published Census data are adjusted to include trade between the U.S. Virgin Islands and foreign countries.

2. Beginning in 1990, the Census Bureau replaced its compiled export statistics with counterpart Canadian import statistics. Similarly, Statistics Canada replaced its compiled export statistics with counterpart U.S. import statistics. This exchange of data has eliminated the need for the inland freight adjustments on U.S. exports, but not on U.S. imports.

3. Adjustments in lines A5 and A13, B12, B47, and B82 reflect the Census Bureau's reconciliation of discrepancies between the goods statistics published by the United States and the counterpart statistics published by Canada. These adjustments are distributed to the affected end-use categories in section C. Beginning in 1986, estimates for undocumented exports to Canada, the largest item in the U.S.-Canadian reconciliation, are included in Census basis data shown in line A1.

4. Exports of military equipment under U.S. military agency sales contracts with foreign governments (line A6), and direct imports by the Department of Defense and the Coast Guard (line A14), to the extent such trade is identifiable from Customs declarations. The exports are included in tables 1 and 10, line 4 (transfers under U.S. military agency sales contracts); the imports are included in tables 1 and 10, line 18 (direct defense expenditures).

5. Addition of electrical energy; deduction of exposed motion picture film for rental rather than sale; net change in stock of U.S.-owned grains in storage in Canada; coverage adjustments for special situations in which shipments were omitted from Census data; deduction of the value of repairs and alterations to foreign-owned equipment shipped to the United States for repair; and the inclusion of fish exported outside of U.S. customs area. Also includes deduction of exports to the Panama Canal Zone before October 1, 1979, and for 1975-82, net timing adjustments for goods recorded in Census data in one period but found to have been shipped in another (see June issues of the SURVEY for historical data).

6. Deduction of foreign charges for repair of U.S. vessels abroad, which are included in tables 1 and 10, line 21 (other transportation); coverage adjustments for special situations in which shipments were omitted from Census data; and the deduction of the value of repairs and alterations to U.S.-owned equipment shipped abroad for repair. Also includes addition of understatement of inland freight in f.a.s. values of U.S. imports of goods from Canada in 1974-81; deduction of imports from the Panama Canal Zone before October 1, 1979; and for 1975-82, net timing adjustments for goods recorded in Census data in one period but found to have been shipped in another (see June issues of the SURVEY for historical data).

7. For 1988-89, correction for the understatement of crude petroleum imports from Canada.

8. Annual and unadjusted quarterly data shown in this table correspond to country and area data in table 10, lines 2 and 16. Trade with international organizations includes purchases of nonmonetary gold from the International Monetary Fund, transfers of tin to the International Tin Council (ITC), and sales of satellites to Intelsat. The memoranda are defined as follows: *Industrial countries*: Western Europe, Canada, Japan, Australia, New Zealand, and South Africa; *Members of OPEC*: Venezuela, Ecuador, Iraq, Iran, Kuwait, Saudi Arabia, Qatar, United Arab Emirates, Indonesia, Algeria, Libya, Nigeria, and Gabon (beginning in January 1993, excludes Ecuador); *Other countries*: Eastern Europe, Latin America and Other Western Hemisphere, and other countries in Asia and Africa, less OPEC. Before 1984, complete geographic area detail was not available for some balance of payments adjustments. Therefore, the detail shown does not always sum to the values shown for the area aggregates. For all years, "Asia" and "Africa" exclude certain Pacific Islands and unidentified countries included in "Other countries in Asia and Africa."

9. Includes the former German Democratic Republic (East Germany) beginning in fourth quarter of 1990. In earlier periods, the German Democratic Republic was included in Eastern Europe.

10. Beginning in 1986, New Zealand and South Africa are included in "Other countries in Asia and Africa," with New Zealand included as part of "Asia" and South Africa as part of "Africa."

11. Includes nuclear fuel materials and fuels.

Table 3:

1. Patented techniques, processes, and formulas and other intangible property rights that are used in goods production.

2. Copyrights, trademarks, franchises, rights to broadcast live events, and other intangible property rights.

3. Other unaffiliated service receipts (exports) include mainly expenditures of foreign governments and international organizations in the United States. Payments (imports) include mainly wages of foreign residents temporarily employed in the United States and Canadian and Mexican commuters in U.S. border areas.

Table 4:

1. Expenditures to release foreign governments from their contractual liabilities to pay for military goods and services purchased through military sales contracts—first authorized (for Israel) under Public Law 93-199, section 4, and subsequently authorized (for many recipients) under similar legislation—are included in line A3. Deliveries against these military

sales contracts are included in line C10; see footnote 2. Of the line A3 items, part of these military expenditures is applied in lines A40 and A43 to reduce short-term assets previously recorded in lines A38 and C8; this application of funds is excluded from lines C3 and C4. A second part of line A3 expenditures finances future deliveries under military sales contracts for the recipient countries and is applied directly to lines A39 and C9. A third part of line A3, disbursed directly to finance purchases by recipient countries from commercial suppliers in the United States, is included in line A34. A fourth part of line A3, representing dollars paid to the recipient countries to finance purchases from countries other than the United States, is included in line A45.

2. Transactions under military sales contracts are those in which the Department of Defense sells and transfers military goods and services to a foreign purchaser, on a cash or credit basis. Purchases by foreigners directly from commercial suppliers are not included as transactions under military sales contracts. The entries for the several categories of transactions related to military sales contracts in this and other tables are partly estimated from incomplete data.

3. The identification of transactions involving direct dollar outflows from the United States is made in reports by each operating agency.

4. Line A35 includes foreign currency collected as interest and line A40 includes foreign currency collected as principal, as recorded in lines A13 and A14, respectively.

5. Includes (a) advance payments to the Department of Defense (on military sales contracts) financed by loans extended to foreigners by U.S. Government agencies and (b) the contraentry for the part of line C10 that was delivered without prepayment by the foreign purchaser. Also includes expenditures of appropriations available to release foreign purchasers from liability to make repayment.

6. Includes purchases of loans from U.S. banks and exporters and payments by the U.S. Government under commercial export credit and investment guarantee programs.

7. Excludes liabilities associated with military sales contracts financed by U.S. Government grants and credits and included in line C2.

Table 5:

1. Beginning with 1991, payments and receipts of interest related to interest rate and foreign currency swaps between affiliates and parents are netted and are shown as either net payments or net receipts. Receipts and payments of other types of interest are shown on a gross basis.

2. Petroleum includes, and manufacturing and "other" industries exclude, the exploration, development, and production of crude oil and gas, and the transportation, refining, and marketing of petroleum products, exclusive of petrochemicals. "Other" industries includes wholesale trade; banking; finance (except banking), insurance, and real estate; services; and other industries—agriculture, forestry, and fishing; mining; construction; transportation; communication, and public utilities; and retail trade.

3. Acquisition of equity holdings in existing and newly established companies, capital contributions, capitalization of intercompany debt, and other equity contributions.

4. Sales (total and partial), liquidations, returns of capital contributions, and other dispositions of equity holdings.

Table 6:

1. Primarily provincial, regional, and municipal.

2. Largely transactions by International Bank for Reconstruction and Development (IBRD), International Development Association (IDA), International Finance Corporation (IFC), Asian Development Bank (ADB), and Inter-American Development Bank (IDB).

3. Estimate for scheduled redemptions and identifiable early retirements. Includes estimates based on Canadian statistics for redemptions of Canadian issues held in the United States. Unidentified and nonscheduled redemptions appear in line A30.

Table 7:

1. Estimates of transactions other than those with U.S. banks' Caribbean branches are not available.

2. Deposits (line A5) include other financial claims (line A6) for some countries due to the commingling of these categories in foreign source data.

3. Primarily mortgages, loans, and bills and notes drawn on foreigners.

4. Western Europe, Canada, Japan, Australia, New Zealand, and South Africa.

5. Bahamas, British West Indies (Cayman Islands), Netherlands Antilles, and Panama.

6. Based on data for Ecuador, Venezuela, Indonesia, and other Asian and African oil-exporting countries. Beginning in January 1993, excludes Ecuador.

Table 8:

1. Includes central governments and their agencies and corporations; state, provincial, and local governments and their agencies and corporations; and international and regional organizations.

2. U.S.-owned banks are mainly U.S.-chartered banks and Edge Act subsidiaries. U.S. brokers' and dealers' accounts may be commingled in some categories. Foreign-owned banks include U.S. branches and agencies of foreign banks and majority-owned bank subsidiaries in the United States.

3. Commercial paper issued in the U.S. market by foreign incorporated entities; excludes commercial paper issued through foreign direct investment affiliates in the United States.

4. Negotiable and readily transferable instruments other than commercial paper, payable in dollars; consists largely of negotiable certificates of deposit.

5. Western Europe, Canada, Japan, Australia, New Zealand, and South Africa.

6. Bahamas, British West Indies (Cayman Islands), Netherlands Antilles, and Panama.

7. Based on data for Ecuador, Venezuela, Indonesia, and other Asian and African oil-exporting countries. Beginning in January 1993, excludes Ecuador.

8. Includes Eastern Europe and international and regional organizations.

Table 9:

1. Negotiable certificates of deposit issued in the United States are included in banks' custody liabilities and are separately identified in memorandum line 8. Nonnegotiable certificates of deposit are included in time deposits.

2. Includes borrowing under Federal funds or repurchase arrangements, deferred credits, and liabilities other than deposits.

3. Mainly negotiable and readily transferable instruments, excluding U.S. Treasury securities.

4. Mainly International Bank for Reconstruction and Development (IBRD), International Development Association (IDA), International Finance Corporation (IFC), Asian Development Bank (ADB), Inter-American Development Bank (IDB), and the Trust Fund of the International Monetary Fund.

5. U.S.-owned banks are mainly U.S.-chartered banks and Edge Act subsidiaries. U.S. brokers' and dealers' liabilities may be commingled in some categories. Foreign-owned banks are U.S. branches and agencies of foreign banks and majority-owned bank subsidiaries in the United States.

6. U.S. currency flows are not included, because no geographic data are available.

7. Western Europe, Canada, Japan, Australia, New Zealand, and South Africa.

8. Bahamas, British West Indies (Cayman Islands), Netherlands Antilles, and Panama.

9. Based on data for Ecuador, Venezuela, Indonesia, and other Asian and African oil-exporting countries. Beginning in January 1993, excludes Ecuador.

10. Includes Eastern Europe and international and regional organizations.

Table 10: For footnotes 1-13, see table 1.

14. The "European Union" includes the "European Union (6)," United Kingdom, Denmark, Ireland, Greece, Spain, and Portugal. Beginning with the first quarter of 1995, the "European Union" also includes Austria, Finland, and Sweden.

15. The "European Union (6)" includes Belgium, France, Germany (includes the former German Democratic Republic (East Germany) beginning in the fourth quarter of 1990), Italy, Luxembourg, Netherlands, European Atomic Energy Community, European Coal and Steel Community, and European Investment Bank.

16. Includes, as part of international and unallocated, the estimated direct investment in foreign affiliates engaged in international shipping, in operating oil and gas drilling equipment internationally, and in petroleum trading. Also includes taxes withheld; current-cost adjustments associated with U.S. and foreign direct investment; small transactions in business services that are not reported by country; and net U.S. currency flows, for which geographic source data are not available.

17. Details not shown separately; see totals in lines 49 and 56.

18. Details not shown separately are included in line 61.

Table 10a: For footnotes 1-13, see table 1.

14. Details not shown separately are included in line 61.

NOTE.—Country data are based on information available from U.S. reporting sources. In some instances the statistics may not necessarily reflect the ultimate foreign transactor. For instance: U.S. export statistics reflect country of reported destination; in many cases the exports may be transshipped to third countries (especially true for the Netherlands and Germany). The geographic breakdown of foreign statistics reflects country with which transaction occurred but may not necessarily reflect the ultimate sources of foreign funds or ultimate destination of U.S. funds. Data for individual countries within the European Union (6) may not add to the published totals for the European Union (6), because in several instances estimates for the group are not available for each country. In addition, country data may not add to the European Union (6) totals because of rounding.
