U.S. INTERNATIONAL TRADE IN GOODS AND SERVICES

April 2008

Goods and Services

The U.S. Census Bureau and the U.S. Bureau of Economic Analysis, through the Department of Commerce, announced today that total April exports of **\$155.5 billion** and imports of **\$216.4 billion** resulted in a goods and services deficit of **\$60.9 billion**, up from \$56.5 billion in March, revised. April exports were \$5.0 billion more than March exports of \$150.6 billion. April imports were \$9.4 billion more than March imports of \$207.1 billion.

In April, the goods deficit increased \$4.5 billion from March to \$72.9 billion, and the services surplus increased \$0.1 billion to \$12.0 billion. Exports of goods increased \$4.5 billion to \$109.6 billion, and imports of goods increased \$9.1 billion to \$182.5 billion. Exports of services increased \$0.4 billion to \$46.0 billion, and imports of services increased \$0.3 billion to \$34.0 billion.

In April, the goods and services deficit increased \$0.6 billion from April 2007. Exports were up \$25.0 billion, or 19.2 percent, and imports were up \$25.7 billion, or 13.5 percent.

Goods

The March to April change in exports of goods reflected increases in *capital goods* (\$2.2 billion);

industrial supplies and materials (\$1.1 billion); *consumer goods* (\$0.8 billion); *automotive vehicles, parts, and engines* (\$0.6 billion); and *foods, feeds, and beverages* (\$0.1 billion). A decrease occurred in *other goods* (\$0.1 billion).

The March to April change in imports of goods reflected increases in *industrial supplies and materials* (\$5.6 billion); *capital goods* (\$1.2 billion); *automotive vehicles, parts, and engines* (\$1.0 billion); *consumer goods* (\$0.7 billion); *foods, feeds, and beverages* (\$0.3 billion); and *other goods* (\$0.2 billion).

NOTE: Total goods data are reported on a Balance of Payments basis; commodity and country detail data for goods are on a Census basis. For information on data sources and definitions, see the information section on page 29 of this release, or at www.census.gov/ft900 or www.bea.gov/newsreleases/international/trade/tradnewsrelease.htm. The next FT-900 release is Friday, July 11, 2008.

The April 2007 to April 2008 change in exports of goods reflected increases in *industrial supplies and materials* (\$7.3 billion); *capital goods* (\$5.1 billion); *foods, feeds, and beverages* (\$3.2 billion); *consumer goods* (\$1.5 billion); *other goods* (\$0.5 billion); and *automotive vehicles, parts, and engines* (\$0.2 billion).

The April 2007 to April 2008 change in imports of goods reflected increases in *industrial supplies and materials* (\$16.6 billion); *capital goods* (\$3.1 billion); *consumer goods* (\$1.0 billion); *other goods* (\$0.8 billion); and *foods, feeds, and beverages* (\$0.8 billion). *Automotive vehicles, parts, and engines* were virtually unchanged.

Services

Services exports increased \$0.4 billion from March to April. The increase was mostly accounted for by increases in *other transportation* (which includes freight and port services), *transfers under U.S. military sales contracts, royalties and license fees, and travel*. Changes in other categories of services exports were small.

Services imports increased \$0.3 billion from March to April. The increase was mostly accounted for by increases in *other private services* (which includes items such as business, professional, and technical services, insurance services, and financial services), *other transportation, and travel*. Changes in other categories of services imports were small.

From April 2007 to April 2008, services exports increased \$6.7 billion. The largest increases were in *other private services* (\$2.7 billion), *travel* (\$1.5 billion), and *royalties and license fees* (\$1.1 billion). Within *other private services*, increases were largest in business, professional, and technical services and in financial services.

From April 2007 to April 2008, services imports increased \$3.1 billion. The largest increases were in *other private services* (\$1.3 billion) and *travel* (\$0.7 billion). Within *other private services*, increases were largest in business, professional, and technical services and in insurance services.

Goods and Services Moving Average

For the three months ending in April, exports of goods and services averaged \$153.2 billion, while imports of goods and services averaged \$212.5 billion, resulting in an average trade deficit of \$59.3 billion. For the three months ending in March, the average trade

deficit was \$58.3 billion, reflecting average exports of \$151.4 billion and average imports of \$209.7 billion.

Selected Not Seasonally Adjusted Goods Details

The April figures showed surpluses, in billions of dollars, with Hong Kong \$1.4 (\$1.2 for March), Singapore \$1.4 (\$1.5), Australia \$0.8 (\$1.5), and Egypt \$0.3 (\$0.4). Deficits were recorded, in billions of dollars, with China \$20.2 (\$16.1), OPEC \$15.6 (\$14.1), the European Union \$8.5 (\$7.5), Japan \$7.6 (\$7.5), Canada \$7.6 (\$6.4), Mexico \$6.8 (\$6.0), Nigeria \$3.4 (\$3.3), Venezuela \$3.0 (\$2.8), Korea \$1.3 (\$0.8), and Taiwan \$0.9 (\$0.3).

Advanced technology products (ATP) exports were \$23.4 billion in April and imports were \$28.7 billion, resulting in a deficit of \$5.3 billion. April exports were \$1.2 billion less than the \$24.7 billion in March, while imports were \$0.8 billion more than the \$27.9 billion in March.

Revisions

Goods carry-over in April was \$0.4 billion (0.3 percent) for exports and \$0.8 billion (0.5 percent) for imports. For March, revised export carry-over was \$0.1 billion (0.1 percent), revised down from \$0.4 billion (0.3 percent). For March, revised import carry-over was \$0.2 billion (0.1 percent), revised down from \$0.8 billion (0.5 percent).

Goods and services exports and imports for all months shown in this release reflect the incorporation of annual revisions to the goods and services series in the U.S. international transactions accounts. See the "Notice" in this release for a description of major revisions to goods and services exports and imports.

NOTICE

In this release and the accompanying “U.S. International Trade in Goods and Services: Annual Revision for 2007,” the U.S. Census Bureau and the U.S. Bureau of Economic Analysis (BEA) are jointly publishing revised data on U.S. trade in goods for 2005-2007 and the first three months of 2008 and revised data on services for 2004-2007 and the first three months of 2008.

Goods

The 2007 not seasonally adjusted Census-basis goods data were revised to redistribute monthly data that arrived too late for inclusion in the month of transaction but that were included, initially, in the month in which the data were received. In addition, corrections were made to previously published data. Once the redistributions of data to the proper month of transaction and corrections were completed, factors for seasonal adjustment and trading day adjustments were recomputed and the seasonally adjusted current-dollar series were revised for 2005-2007 and the first three months of 2008. Similar changes were made to the chain-weighted dollar series. Also, the balance of payments adjustments to the Census-basis data have been revised to incorporate updated source data.

Services

The services estimates were revised for 2004-2007 and the first three months of 2008. The revisions resulted largely from incorporation of results from BEA’s benchmark survey of U.S. direct investment abroad for 2004 and its quarterly surveys of direct investment abroad for 2005, as well as from its quarterly surveys of foreign direct investment in the United States for 2005, from BEA’s benchmark survey of selected international services for 2006, and from BEA’s quarterly surveys of selected international services beginning in the first quarter of 2007. Revisions from these sources have an impact mostly on receipts and payments for 2006-2007. The revisions to services receipts are larger than the revisions to services payments. Most of the revisions are to royalties and license fees and to “other private services.” The revisions result from recent BEA initiatives to better capture movements of large and volatile categories of transactions, as well as to improve the coverage of transactions.

(1) Data presented on a Balance of Payments (BOP) basis. For information on data sources and methodology, see the information section on page 29 of this release, or at www.census.gov/ft900 or <http://www.bea.gov/newsreleases/international/trade/tradnewsrelease.htm>.

NOTE: The three-month moving averages shown in this exhibit are computed by summing the subject month, the two prior months, dividing by three and showing the average at the end month of the period. A moving average is useful in smoothing the volatile trade data so that trends can better be discerned.

(1) Detailed data are presented on a Census basis. The information needed to convert to a BOP basis is not available.

(2) Includes petroleum and petroleum products.

NOTE: For information on data sources, nonsampling errors and definitions, see the information section on page 29 of this release, or at www.census.gov/ft900 or <http://www.bea.gov/newsreleases/international/trade/tradnewsrelease.htm>.

Part A: Seasonally Adjusted

Exhibit 7. Exports of Goods by End-Use Category and Commodity

In millions of dollars. Details may not equal totals due to seasonal adjustment and rounding. The commodities in this exhibit are ranked on the monthly change within each major commodity grouping. (-) Represents zero or less than one half of measurement shown.

Item (1)	April 2008	March 2008	Monthly Change	Year-to-Date 2008	Year-to-Date 2007	Year-to-Date Change

(1) The petroleum products aggregated in the end-use commodity classification system include virtually the same energy related petroleum products as those aggregated in the SITC. The end-use petroleum products, however, include some products such as ethane, butane, benzene, and toluene which are included in "Manufactured Goods".

NOTE: For information on data sources, nonsampling errors, definitions and details concerning what is included in the Net Adjustments, see the information section on page 29 of this release, or at www.census.gov/ft900 or <http://www.bea.gov/newsreleases/international/trade/tradnewsrelease.htm>.

Part A: Seasonally Adjusted

Exhibit 10. Real Exports and Imports of Goods by Principal End-Use Category
2000 Chain-weighted Dollars

In millions of dollars. The values in this exhibit are subject to periodic change, reflecting revisions to the source information for monthly deflators.

(-) Represents zero or less than one half of measurement shown.

(1) Detailed data are presented on a Census basis. The information needed to convert to a BOP basis is not available.

(2) Includes petroleum and petroleum products.

(3) The "residual" represents the difference between total exports or imports, and the sum of the components in the table.

NOTE: For information on data sources, nonsampling errors and definitions, see the information section on page 29 of this release, or at www.census.gov/ft900 or <http://www.bea.gov/newsreleases/international/trade/tradnewsrelease.htm>.

(1) Detailed data presented on a Census Basis. The information to convert to a BOP basis is not available.

(2) The "residual" represents the difference between total exports or imports, and the sum of the components in the table.

NOTE: For information on data sources, nonsampling errors and definitions, see the information section on page 29 of this release, or at www.census.gov/ft900 or <http://www.bea.gov/newsreleases/international/trade/tradnewsrelease.htm>.

Part B: NOT Seasonally Adjusted

(1) Detailed data are presented on a Census basis. The information needed to convert to a BOP basis is not available.

(2) The export totals reflect shipments of certain grains, oilseeds, and satellites that are not included in the country/area totals

NOTES:

* This exhibit is not additive; countries may be included in more than one area grouping. See page 28 for a list of countries.

* Country grouping data reflect the groups as they were at the time of reporting.

* For information on data sources, nonsampling errors and definitions, see the information section on page 29 of this release, or at www.census.gov/ft900 or <http://www.bea.gov/newsreleases/international/trade/tradnewsrelease.htm>

Part B: NOT Seasonally Adjusted

Exhibit 14a. Exports, Imports, and Balance of Goods By Selected Countries and Areas--2007

In millions of dollars. Details may not equal totals due to rounding. (-) Represents zero or less than one half of measurement shown.
(X) - Not applicable.

INFORMATION ON GOODS AND SERVICES

GOODS

CENSUS BASIS

The Census basis goods data are compiled from the documents collected by the U.S. Customs Border and Protection and reflect the movement of goods between foreign countries and the 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and U.S. Foreign Trade Zones. They include government and non-government shipments of goods, and exclude shipments between the United States and its territories and possessions, transactions with U.S. military, diplomatic and consular installations abroad, U.S. goods returned to the United States by its Armed Forces, personal and household effects of travelers, and in-transit shipments. The General Imports value reflects the total arrival of merchandise from foreign countries that immediately enters consumption channels, warehouses, or Foreign Trade Zones.

For imports, the value reported is the U.S. Customs Border and Protection appraised value of merchandise; generally, the price paid for merchandise for export to the United States. Import duties, freight, insurance, and other charges incurred in bringing merchandise to the United States are excluded.

Exports are valued at the f.a.s.- free alongside ship value of merchandise at the U.S. port of export, based on the transaction price including inland freight, insurance, and other charges incurred in placing the merchandise alongside the carrier at the U.S. port of exportation.

Monthly data include actual month's transactions as well as a small number of transactions for previous months. Each month we revise the aggregate seasonally adjusted (current and chain-weighted dollar) and unadjusted export, import and trade balance figures, as well as the end-use totals for the prior month. SITC and country detail data are not revised monthly. The timing adjustment shown in Exhibit 14 is the difference between monthly data as originally reported and as recompiled. Quarterly revisions are made to the chain-weighted dollar series. In the last month of each quarter, the current and previous quarter are revised to incorporate the Bureau of Labor Statistics' monthly revisions and align Census and the U.S. Bureau of Economic Analysis' quarterly data. Annual revisions for the months are made in June to reflect corrections received subsequent to the monthly revisions. These revisions are reflected in totals, end-use, SITC, and country summary data. The monthly end-use, commodity, and country area data presented in this release are on a Census basis. This refers to Exhibits 6 - 18.

U.S./CANADA DATA EXCHANGE AND SUBSTITUTION

The data for U.S. exports to Canada are derived from import data compiled by Canada. The use of Canada's import data to produce U.S. export data requires several alignments in order to compare the two series.

1. *Coverage* -- Canadian imports are based on country of origin. U.S. goods shipped from a third country are included. U.S. exports exclude these foreign shipments. For April 2008, these shipments totaled \$108.0 million. U.S. export coverage also excludes certain Canadian postal shipments. For April 2008, these shipments totaled \$24.4 million.

U.S. import coverage includes shipments of railcars and locomotives from Canada. Effective with January 2004 statistics, Canada excludes these shipments from its goods exports to the United States, therefore creating coverage differences between the two countries for these goods.
2. *Valuation* -- Canadian imports are valued at the point of origin in the United States. However, U.S. exports are valued at the port of exit in the United States and include inland freight charges, making the U.S. export value slightly larger. Canada requires inland freight to be reported. Inland freight charges for April 2008 accounted for 2.2 percent of the value of U.S. exports to Canada.
3. *Reexports* -- U.S. exports include reexports of foreign goods. Again, the aggregate U.S. export figure is slightly larger. For April 2008, reexports to Canada were \$3,287.1 million.
4. *Exchange Rate* -- Average monthly exchange rates are applied to convert the published data to U.S. currency. For April 2008, the average exchange rate was 1.0137 Canadian dollars per U.S. dollar.
5. *Other* -- There are other minor differences which are statistically insignificant, such as rounding error.

Canadian Estimates

Effective with January 2001 statistics, the current month data for exports to Canada contain an estimate for late arrivals and corrections. The following month, this estimate is replaced, in the press release tables only, with the actual value of late receipts and corrections. This estimate improves the current month data for exports to Canada and treats late receipts for exports to Canada in a manner more consistent with the treatment of late receipts for exports to other countries.

Nonsampling errors

The goods data are a complete enumeration of documents collected by the U.S. Customs Border and Protection and are not subject to sampling errors; but they are subject to several types of nonsampling errors. Quality assurance procedures are performed at every stage of collection, processing and tabulation; however the data are still subject to several types of nonsampling errors. The most significant of these include reporting errors, undocumented shipments, timeliness, data capture errors, and errors in the estimation of low-valued transactions.

Reporting Errors: Reporting errors are mistakes or omissions made by importers, exporters or their agents in their import or export declarations. Most errors involve missing or invalid commodity classification codes and missing or incorrect quantities or shipping weights. They have a negligible effect on import, export and balance of trade statistics. However, they can affect the detailed commodity statistics.

Undocumented Shipments: Federal regulations require importers, exporters or their agents to report all merchandise shipments above established exemption levels. The U.S. Census Bureau has determined that not all required documents are filed, particularly for exports.

Timeliness and Data Capture Errors: The U.S. Census Bureau captures import and export information from administrative documents and through various automated collection programs. Documents may be lost, and data may be incorrectly keyed, coded or recorded. Transactions may be included in a subsequent month's statistics if received late.

Low-valued Transactions: The total values of transactions valued as much as or below \$2,500 for exports and \$2,000 (\$250 for certain quota items) for imports are estimated for each country, using factors based on the ratios of low-valued shipments to individual country totals for past periods.

The U.S. Census Bureau recommends that data users incorporate this information into their analyses, as nonsampling errors could impact the conclusion drawn from the results. For a detailed discussion of errors affecting the goods data, see "U.S. Merchandise Trade Statistics: A Quality Profile" available on the internet at www.census.gov/foreign-trade/aip/index.html#infopapers or from the Foreign Trade Division, U.S. Census Bureau.

AREA GROUPINGS (See Exhibits 14 and 14A)

North America - Canada, Mexico

Europe - Albania, Andorra, Armenia, Austria, Azerbaijan, Belarus, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Faroe Islands, Finland, France, Germany, Georgia, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Liechtenstein, Kazakhstan, Kosovo, Kyrgyzstan, Latvia, Lithuania, Luxembourg, Malta and Gozo, Macedonia, Moldova, Monaco, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russia, San Marino, Serbia, Slovakia, Slovenia, Spain, Svalbard, Jan Mayen Island, Sweden, Switzerland, Turkey, Tajikistan, Turkmenistan, Ukraine, United Kingdom, Uzbekistan, Vatican City.

European Union - Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

Euro Area - Austria, Belgium, Cyprus, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, Netherlands, Portugal, Slovenia, Spain.

Pacific Rim - Australia, Brunei, China, Hong Kong, Indonesia, Japan, Korea, Macao, Malaysia, New Zealand, Papua New Guinea, Philippines, Singapore, Taiwan.

South/Central America - Anguilla, Antigua and Barbuda, Argentina, Aruba, Bahamas, Barbados, Belize, Bermuda, Bolivia, Brazil, British Virgin Islands, Cayman Islands, Chile, Colombia, Costa Rica, Cuba, Dominica, Dominican Republic, Ecuador, El Salvador, Falkland Islands, French Guiana, Grenada, Guadeloupe, Guatemala, Guyana, Haiti, Honduras, Jamaica, Martinique, Montserrat, Netherlands Antilles, Nicaragua, Panama, Paraguay, Peru, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Suriname, Trinidad and Tobago, Turks and Caicos Islands, Uruguay, Venezuela.

OPEC - Algeria, Angola, Ecuador, Indonesia, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, United Arab Emirates, Venezuela.

Africa - Algeria, Angola, Benin, Botswana, British Indian Ocean Territories, Burkina, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Congo (Brazzaville), Congo (Kinshasa), Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, French Southern and Antarctic Lands, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Ivory Coast, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Mayotte, Morocco, Mozambique, Namibia, Niger, Nigeria, Reunion, Rwanda, St. Helena, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, Sudan, Swaziland, Tanzania, Togo, Tunisia, Uganda, Western Sahara, Zambia, Zimbabwe.

Adjustments for Seasonal and Working-Day Variations

Goods are initially classified under the Harmonized System (HS) which describes and measures the characteristics of goods traded. Combining trade into approximately 140 export and 140 import end-use categories makes it possible to examine goods according to their principal uses (See Exhibits 7 and 8). These categories are used as the basis for computing the seasonal and working-day adjusted data. These adjusted data are then summed to the six end-use aggregates for publication (Exhibit 6). These data are provided to the U.S. Bureau of Economic Analysis, from the U.S. Census Bureau, for use in the Balance of Payments and the National Income and Product Accounts.

The seasonal adjustment procedure is based on a model that estimates the monthly movements as percentages above or below the general level of each end-use commodity series (unlike other methods that redistribute the actual series values over the calendar year). Because of the extremely variable movements of the data series for aircraft, users studying data trends may wish to analyze aircraft separately from other trade.

Adjustments for Price Change

Data adjusted for seasonal variation on a chained-dollar basis (2000 base year) are presented in Exhibits 10 and 11. This adjustment for price change is done using the Fisher chain-weighted methodology. The deflators are primarily based upon the monthly price indexes published by the Bureau of Labor Statistics using techniques developed for the National Income and Product Accounts by the U.S. Bureau of Economic Analysis.

SITC Data

Goods data appearing in Exhibit 15 are classified in terms of the Standard International Trade Classification (SITC) Revision 3. Agricultural goods consist of non-marine food products and other products of agriculture which have not passed through complex processes of manufacture, such as raw hides and skins, fats and oils, and wine. A few goods such as essential oils, starches, casein, and albumin, considered to be agricultural by the U.S. Department of Agriculture, have been excluded from agricultural goods and are included in manufactured goods where they are classified in the SITC.

Manufactured goods conform to the SITC sections that include chemicals and related products; manufactured goods classified chiefly by material; machinery and transport equipment; miscellaneous manufactured articles; and goods and transactions not classified elsewhere.

Reexports are foreign merchandise entering the country as imports, and at the time of exportation are in substantially the same condition as when imported. Reexports, included in overall export totals, appear as separate line items in Exhibit 15.

Advanced Technology Products (ATP)

About 500 of some 22,000 commodity classification codes used in reporting U.S. merchandise trade are identified as "advanced technology" codes and they meet the following criteria:

1. The code contains products whose technology is from a recognized high technology field (e.g., biotechnology).
2. These products represent leading edge technology in that field.
3. Such products constitute a significant part of all items covered in the selected classification code.

The aggregation of the goods results in a measure of advanced technology trade which appears in Exhibits 16 and 16A. This product and commodity-based measure of advanced technology differs from broader NAICS industry-based measures which include all goods produced by a particular industry group, regardless of the level of technology embodied in the goods.

BALANCE OF PAYMENTS (BOP) BASIS

Goods on a Census basis are adjusted by the U.S. Bureau of Economic Analysis to goods on a BOP basis to bring the data in line with the concepts and definitions used to prepare the international and national accounts. Broadly, the adjustments include changes in ownership that occur without goods passing into or out of the customs territory of the United States. These adjustments are necessary to supplement coverage of the Census basis data, to eliminate duplication of transactions recorded elsewhere in the international accounts, and to value transactions according to a standard definition.

The export adjustments include:

U.S. military sales contracts - This *deduction* of U.S. military sales contracts is made because the U.S. Census Bureau has included these contracts in the goods data, but BEA includes them in the service category "Transfers Under U.S. Military Sales Contracts." BEA's source material for these contracts is more comprehensive, but has no distinction between goods and services.

Private gift parcels - This *addition* is made for parcels mailed to foreigners by individuals through the U.S. Postal Service. (Only commercial shipments are covered in Census goods exports.)

Gold exports, nonmonetary - This *addition* is made for gold that is purchased by foreign official agencies from private dealers in the United States and held at the Federal Reserve Bank of New York. The Census data only include gold that leaves the customs territory.

Some smaller adjustments are also made to exports:

Deductions for repairs of goods, developed motion picture film, and military grant-aid. *Additions* for sales of fish in U.S. territorial waters, exports of electricity to Mexico, and vessels and oil rigs that change ownership for which no export document is filed.

The import adjustments include:

Inland freight in Canada - An *addition* is made for inland freight in Canada. Imports of goods from all countries are valued at the foreign port of export, including inland freight charges ("customs value"). In the case of Canada, this should be the cost of the goods at the U.S. border. However, the customs value for imports for certain Canadian goods is the point of origin in Canada. The BEA makes an *addition* for the inland freight charges of transporting these Canadian goods to the U.S. border to make the value comparable to the customs value as reported by all other countries. Insurance and freight charges for transporting goods to the United States from all other countries to the U.S. border are included in services by the BEA. (The same procedure is used for Mexico as an Other Adjustment, but is much smaller.)

Gold imports, nonmonetary - This *addition* is made for gold sold by foreign official agencies to private purchasers out of stock held at the Federal Reserve Bank of New York. The Census data only include gold that enters the customs territory.

Imports by U.S. military agencies - This *deduction* of U.S. military sales contracts is made because the U.S. Census Bureau has included these contracts in the goods data, but BEA includes them in the service category "Direct Defense Expenditures." BEA's source material is more comprehensive, but has no distinction between goods and services.

Some smaller adjustments are also made to imports:

Deductions for repairs of goods and developed motion picture film. *Additions* for imported electricity from Mexico, conversion of vessels for commercial use, repairs to U.S. vessels abroad, and valuation of prepackaged software imports at market value.

SERVICES

The statistics are estimates of services transactions between foreign countries and the 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and other U.S. territories and possessions. Transactions with U.S. military, diplomatic, and consular installations abroad are excluded because they are considered to be part of the U.S. economy.

Services are shown in seven broad categories. Types of services for imports and exports are the same for six of the seven categories. For the seventh, exports is "Transfers Under U.S. Military Sales Contracts" while for imports the category

is "Direct Defense Expenditures." The following is a brief description of the types of services included in each category:

Travel - Purchases of services and goods by U.S. travelers abroad and by foreign visitors to the United States. A traveler is defined as a person who stays for a period of less than 1 year in a country of which the person is not a resident. Includes expenditures for food, lodging, recreation, gifts, and other items incidental to a foreign visit.

Passenger Fares - Fares paid by residents of one country to residents of other countries. Receipts consist of fares received by U.S. carriers from foreign residents for travel between the United States and foreign countries and between two foreign points. Payments consist of fares paid by U.S. residents to foreign carriers for travel between the United States and foreign countries.

Other Transportation - Charges for the transportation of goods by ocean, air, waterway, pipeline, and rail carriers to and from the United States. Includes freight charges, operating expenses that transportation companies incur in foreign ports, and payments for vessel charter and aircraft rentals with crew.

Royalties and License Fees - Transactions with affiliated and unaffiliated foreign residents. (The term "affiliated" refers to a direct investment relationship, which exists when a U.S. person has ownership or control, directly or indirectly, of 10 percent or more of a foreign business enterprise's voting securities or the equivalent, or when a foreign person has a similar interest in a U.S. enterprise.) Transactions involve intangible assets and proprietary rights such as the use of patents, techniques, processes, formulas, designs, know-how, trademarks, copyrights, franchises, and manufacturing rights. The term "royalties" generally refers to payments for the utilization of copyrights or trademarks, and the term "license fees" generally refers to payments for the use of patents or industrial processes.

Other Private Services - Transactions with affiliated and unaffiliated foreign residents. (The term "affiliated" refers to a direct investment relationship, which exists when a U.S. person has ownership or control, directly or indirectly, of 10 percent or more of a foreign business enterprise's voting securities or the equivalent, or when a foreign person has a similar interest in a U.S. enterprise.) Transactions consist of education services; financial services (includes commissions and other transactions fees associated with the purchase and sale of securities and noninterest income of banks, and excludes investment income); insurance services; telecommunications services (includes transmission services and value-added services); and business, professional, and technical services. Included in the last group are advertising services; computer and data processing services; database and other information services; research, development, and testing services;

management, consulting, and public relations services; legal services; construction, engineering, architectural, and mining services; industrial engineering services; installation, maintenance, and repair of equipment; and other services, including medical services and film and tape rentals.

Transfers Under U.S. Military Sales Contracts (*Exports only*) - Exports of goods and services in which U.S. Government military agencies participate. Includes both goods, such as equipment, and services, such as repair services and training, that cannot be separately identified.

Direct Defense Expenditures (*Imports only*) - Expenditures incurred by U.S. military agencies abroad, including expenditures by U.S. personnel, payments of wages to foreign residents, construction expenditures, payments for foreign contractual services, and procurement of foreign goods. Includes both goods and services that cannot be separately identified.

U.S. Government Miscellaneous Services - Transactions of U.S. Government nonmilitary agencies with foreign residents. Most of these transactions involve the provision of services to, or purchases of services from, foreigners; transfers of some goods are also included.

Services estimates are based on quarterly, annual, and benchmark surveys and partial information generated from monthly reports. Service transactions are estimated at market prices. Estimates are seasonally adjusted when statistically significant seasonal patterns are present. No country or area detail is available due to the lack of adequate source data upon which to base estimates.

The revision policy is as follows: Each month, a preliminary estimate for the current month and a revised estimate for the immediately preceding month are released. After a revised month is released, no further changes are made to that month until more complete source data become available in March, June, September, and December. The releases in March, June, September, and December contain revised data for the previous six months. The release in March also contains revisions for all months of the previous year in order to align the seasonally adjusted monthly data with annual totals. The release in June contains annual revisions, which reflect updated source data and changes in estimating methodologies.

Quarterly and annual estimates of services are included as part of the U.S. international transactions accounts, published in the January, April, July, and October issues of the Survey of Current Business. The next release of the U.S. international transactions accounts is scheduled for June 17, 2008. The Survey is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, or online at www.bea.gov/scb/index.htm.

Exhibit 2. Origin of Movement of U. S. Exports of Goods by State by NAICS-Based Product Code Groupings, Not Seasonally Adjusted: April 2008 and Cumulative to Date 2008

In millions of dollars. Foreign Trade Zone (FTZ) shipments are included in the U. S. total and distributed among individual states and territories. Separate FTZ total line is for reference only. Details may not equal totals due to rounding. (X) Not applicable.
(-) Represents zero or less than 0.05 percent.

(1) Includes agricultural, forestry, fishery products, mineral commodities, scrap, waste and used or second-hand merchandise. The state of origin of movement value totals for non-manufactured commodities usually reflect the state where the U. S. port of export is located.

(2) Includes prior month's revision to exports to Canada.

Exhibit 3. General Imports of Crude Oil by Country, Not Seasonally Adjusted

Details may not equal totals due to rounding. (-) Represents zero or less than one-half unit of measurement shown.
