Footnotes

- 1/ The U.S. PS&D estimates conform to those released in the World Agricultural Supply and Demand Estimates (WASDE) 'miscellaneous' category allocated to domestic consumption. The U.S. PS&D includes Puerto Rico.
- 2/ The European Union (EU) includes French Overseas Departments of Reunion, Guadeloupe, and Martinique. EU trade data does not include intra-EU trade. Beginning 2004/05 the PS&D reflects the EU enlargement by accession of the following ten countries. Latvia, Lithuania, Estonia, Poland, Hungary, Czech Republic, Slovakia, Slovenia, Malta, and Cyprus. As a result of this enlargement, from 15 countries to 25 countries, the ending stock figure for 2003/04 will not carry over to the beginning stock figure for 2004/05. Data prior to 2004/05 reflects the countries comprising the EU at that time. The PSD for the EU-25 ends with marketing year 2005/06. The series picks up with the EU-27 beginning marketing year 2006/07. The EU-27 contains two new countries Bulgaria and Romania.
- 3/ Includes traditional Eastern European countries, Hungary, Czech Republic, Slovakia, Balkans, Baltic's, Armenia, and Georgia. Beginning 2004/05 the following countries are removed from this list upon their accession to the EU: Latvia, Lithuania, Estonia, Poland, Hungary, Slovakia, and Slovenia. Note that data for Poland is zeroed out for 2004/05 because it is included in the European Union.
- 4/ Includes all of continental Africa except Egypt.
- 5/ Includes Bahrain, Kuwait, Oman, Qatar, and the United Arab Emirates.
- 6/ Indian data includes production of khandsari sugar, a native type, semi-white centrifugal sugar. Estimated output of Khandsari sugar in thousand of metric tons (raw value equivalent) is as follows: 2000/01- 683; 2001/02 - 714; 2002/03 - 590; 2003/04 - 620; 2004/05 - 683; 2005/06 - 683; 2006/07 - 500; 2007/08 - 425; 2008/09 - 435.
- 7/ Includes Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan.
- 8/ The 'Unrecorded' category is a balancing mechanism to equalize world exports and imports. It is assumed there is a certain quantity of trade that will not be recorded, with the result that imports and exports will differ by a certain amount.
